Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditors' Report

To the Participants and Administrator of the
Ingersoll-Rand Pension Plan Number One
Davidson, North Carolina

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ingersoll-Rand Pension Plan Number One (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter- Supplemental Schedule

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2016 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Effective November 30, 2007 all participants employed or formerly employed by Ingersoll Rand's Bobcat, Utility Equipment and Attachments business units were spun-off in connection with the sale of those business units to Doosan Infracore.

Effective January 1, 2010 all current and future salaried and nonbargained hourly employees of Trane become participants of the plan. These participants receive accruals under the plan for credited service earned after 2009.

Effective January 1, 2010 all salaried and nonbargained hourly employees of Hussmann Corporation hired after December 31, 2009 became participants of the Plan. Participation for these employees ended when Hussmann Corporation was sold on September 30, 2011.

Effective June 7, 2012, all eligible non-bargained employees hired prior to July 1, 2012 were given a choice of remaining in the Plan until it freezes on December 31, 2022 or freezing their accrued benefits in the Plan as of December 31, 2012 and receiving an additional non-matching company contribution into the Ingersoll-Rand Company Employee Savings Plan.

Effective July 1, 2012 participation in this plan was closed to non-bargained employees hired or rehired after June 30, 2012.

Effective December 14, 2012 additional benefits were provided to former employees of Hussmann Corporation who became participants of the Plan on October 1, 2011 as a result of the sale of Hussmann Corporation.

Effective January 1, 2013, Plan One was amended to provide for immediate vesting of the accrued benefits upon death or disability for all salaried employees.

Effective December 1, 2013, certain participants employed or formerly employed by Ingersoll Rand's Security businesses were spun-off in connection with the sale of those business units to Allegion.

Effective January 1, 2015, Plan One was amended to change the normal form of payment for non-bargaining employees who were employed after January 1, 2003 and commence payment after January 1, 2015 to 10 years certain and continuous.

Benefits Paid Upon the Following Events

Normal retirement

The monthly benefit payable as a single life annuity with 10 years certain at Normal Retirement Date is equal to the greater of (i) + (ii) + (iii) and (iv) below:

- (i) monthly accrued benefit at December 31, 2002 (or December 31, 2005 for Thermo King Puerto Rico participants) under the plan provisions in effect on December 31, 2002 (December 31, 2005 for Thermo King Puerto Rico participants)
- (ii) 0.5% of Final Average Pay times years of credited service earned after December 31, 2002 (or December 31, 2005 for Thermo Kind Puerto Rico participants)
- (iii) Plan One Transition Benefit: 0.5% of Final Average Pay in excess of \$30,000 times years of credited service earned after December 31, 2002. This transition benefit applies only to employees who were participants in this plan on December 31, 2002, are at least age 50 and whose age plus service exceeds 60 on January 1, 2003 and does not apply to Thermo King employees.

Thermo King Transition Benefit: The increase in (i) above resulting from an increase of 3% for each year of credited service after January 1, 2003 (or January 1, 2006 for Thermo King Puerto Rico participants). This transition benefit applies only to Thermo King employees who were contributing participants in this plan on December 31, 2002, (or December 31, 2005 for Thermo King Puerto Rico employees) who are at least age 45 and whose age plus service exceeds 55 on January 1, 2003 (or January 1, 2006 for Thermo King Puerto Rico participants).

- (iv) 0.5% of Final Average Pay times all years of credited service. Participants who elected to waive participation in the plan under Retirement Savings Choice have a frozen accrued benefit as of December 31, 2012. All other participants will continue to accrue a benefit until the earlier of date of termination or December 31, 2012.

Postponed retirement

Effective January 1, 1989, employees may work past the age of 65 and continue to earn credited service. The benefit formula and forms are the same as with a normal retirement and commence on the last day of the month succeeding the participant's late retirement.

Early retirement

The early retirement benefit is equal to the normal retirement benefit reduced by 0.3% for each whole calendar month that the benefit commencement date precedes the normal retirement date, provided that the reduction not exceed 85%.

Disability Benefits

Pre-2004 - Same as normal retirement based on service while receiving LTD benefits and compensation in last full year prior to disability. Waiting Period: Following cessation of LTD benefit payments at normal or late retirement date.

Post-2004 – Normal or early retirement benefit.

Preretirement death

The pre-retirement death benefit payable to the designated beneficiary of an employee who is not married on his date of death is equal to one half of the benefit which would be payable to the participant had the participant separated from service on the date of death and elected to commence a single life annuity, payable as a lump sum.

The pre-retirement death benefit payable to the surviving spouse of a participant who is married on his date of death is equal to one half the benefit that would be payable to the participant had the participant separated from service on the date of death, survived to the benefit commencement date elected by the spouse and elected to commence a single life annuity.

Other Plan Provisions

Forms of payment

Normal form

For an unmarried participant the normal form of payment is a monthly pension for the life of the employee. This single life annuity for an unmarried participant includes a ten year payment guarantee. For a married participant the normal form of payment is a reduced monthly pension which provides for a continuation of payments equal to one-half of the reduced pension to the surviving spouse after the employee's death.

Optional forms

Any employee may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. Optional forms of payment include a lump sum payment; a contingent annuity and a life with term certain annuity. Some optional forms are not available to participants who commence benefits before age 55.

Vested termination

The benefit is based on amount of service as follows:

- (i) If a participant terminates employee with fewer than 5 years of vesting service, the employee will receive a refund of employee contributions plus interest, or if over \$5,000, an actuarially equivalent annuity beginning any time up to normal retirement date.
- (ii) If a participant terminates employment with 5 years or more of vesting service, the benefit is the greater of the benefit determined as for normal retirement and an annuity that is the actuarial equivalent of the participant's contributions with interest.
- (iii) A participant who attains (i) age 58 with at least 30 years of eligibility service or (ii) age 60 with at least 10 years of eligibility service can elect to receive benefits prior to normal retirement date, reduced by $\frac{1}{2}$ of 1% for each month that benefit commencement precedes normal retirement date.

Early retirement

Based on hire date as noted below:

- (i) For employees hired after December 31, 1994, the early retirement benefit is equal to the normal retirement benefit reduced by 0.5% per month that early retirement date precedes participant's normal retirement date.
- (ii) For employees hired before January 1, 1995, the early retirement benefit is equal to the normal retirement benefit reduced by $\frac{1}{3}$ of 1% per month that early retirement date precedes participant's normal retirement date. If the participant has 30 or more years of service, the benefit will be reduced by $\frac{1}{4}$ of 1% per month that early retirement date precedes participant's 60th birthday.

Early Retirement Supplement: For employees hired prior to January 1, 1995 who retire early and elect an annuity form of payment, a temporary monthly supplement is payable until age 62 equal to \$10 per year of Credited Service.

Forms of payment

Normal form

For a single employee, the normal form of payment is a monthly pension ceasing at the retired employee's death. For a married employee, the normal form of payment is a reduced monthly pension which allows for a continuation of payments equal to 55% of the reduced pension to the surviving spouse after the employee's death.

Optional forms

Any employee may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. These include single life annuity, joint and 100% survivor annuity, joint and 55% survivor annuity, lump sum (based upon the benefit accrued as of 12/31/94 (any additional benefit accruals are payable in any of the other optional benefit forms)) and a minimum guarantee of the greater of (i) 60 times the monthly annuity benefit, and (ii) the accumulated contributions plus interest, is applied to annuity benefit options payable under the Plan, without regard to any early retirement supplements.

For participants hired before January 1, 1995 who elect a lump sum, the payment is the sum of (i) and (ii) as follows:

- (i) A payment equal to the lump sum equivalent of the normal retirement benefit determined as of December 31, 1994. The lump sum equivalent will be calculated assuming benefits begin at Early Retirement Date. Benefits are reduced for early commencement $\frac{1}{3}$ of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the participant has 30 or more years of Eligibility Service, by $\frac{1}{4}$ of 1% for each month that Early Retirement Date precedes the first of the month following the participant's 60th birthday.
- (ii) An annuity equal to the difference between (a) the normal retirement benefit (based on total Credited Service) determined as of the participant's Early Retirement Date and reduced by $\frac{1}{2}$ of 1% for each month that Early Retirement Date precedes Normal Retirement Date, and (b) the normal retirement benefit determined as of December 31, 1994, reduced for early commencement as described in (i) above.

Form of payment

- (a) All Salaried and Non-Bargaining Employees who were active participants on or after 1/1/2003 (excluding Torrington)

For participants who retire directly from active service after age 55:

50% are assumed to elect an immediate lump sum and 50% are assumed to elect an immediate annuity in the normal form.

For participants who terminate employment before age 55:

34% are assumed to elect an immediate lump sum, 33% are assumed to elect a lump sum at normal retirement date and 33% are assumed to elect an annuity in the normal form for a single participant at normal retirement date.

For vested participants who have terminated and not previously received a distribution from the plan:

50% are assumed to elect a lump sum at normal retirement date and 50% are assumed to elect an annuity in the normal form at normal retirement date.

The lump sum payable is assumed to be the greater of:

(a) the immediate life annuity multiplied by 10; and

(b) the actuarially equivalent lump sum of the deferred life annuity with ten year guarantee, determined using the interest rates based on the yield curve used for determination of the Funding Target and the applicable Mortality under Revenue Ruling 2007-67.

- (b) Zimmerman and Thermo King Bargaining Employees

All participants are assumed to elect the normal form of payment.

- (c) Other Terminated Vested Participants

All other terminated vested participants are assumed to elect an annuity in the normal form for a single participant at the later of normal retirement date or the valuation date.

Percent married and spouse age

Actual data is used for retired participants. For all other participants 70% of males and 55% females are assumed to be married at death. Females are assumed to be 2 years younger than their husbands.

Administrative expenses

\$4,374,423 of administrative expenses are assumed to be paid out of the trust in 2016 and are added to the target normal cost. The amount is based on the noninvestment-related expenses that were paid out of the plan in the prior fiscal year and the expected change in PBGC variable rate premium from the prior year to the current year.

Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.
Employee contributions	Bargained employees of Thermo King Minneapolis who are covered under the provisions described in Appendix C are assumed to have contributed to the plan in all prior years unless specific data is provided to show otherwise.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.

**Actuarial value of assets
for determining minimum
required contributions**

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 5.25%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 5.25%, and the applicable limitation for the plan year, equal to 6.81%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 5.50%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 5.50%, and the applicable limitation for the plan year, equal to 6.99%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.3. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Data Sources

Employee data was supplied by Ingersoll Rand as of the census date. We have not independently verified the accuracy or completeness of the data or information provided, but we have performed limited checks for reasonableness. The following assumptions were made for missing data elements:

- In cases where an accrued benefit was not provided for a terminated vested participant we have estimated the benefit where data is available to reasonably do so. If data is not available to estimate the benefits, we have used an amount equal to the average accrued benefit for the bargained employees or non-bargained employees, whichever is applicable to the specific employee.
- For terminated vested participants for whom a date of termination is not provided, we have assumed the termination occurred prior to 2003.
- Terminated vested participants over age 65 who have not commenced benefits under the plan are assumed to receive benefits actuarially increased from age 65 to January 1, 2015 under the actuarial equivalence basis detailed in the plan document. Any terminated vested participant over age 90 who is not in receipt of a benefit is assumed to be deceased.
- No adjustment is made to estimate the Qualified Preretirement Survivor Annuity (QPSA) charge which is applicable to certain terminated vested participants who terminated employment prior to 2003.
- The December 31, 2002 accrued benefit ("A-piece") and December 31, 2002 credited service for certain active salaried and non-bargained employees, as used in the valuation, are estimates to the extent they have not yet been certified by the employer.
- The December 31, 2012 frozen accrued benefits for employees who chose to freeze benefits under the plan under Retirement Savings Choice are estimates to the extent they have not yet been certified by the employer.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate, adjusted as required to account for the fact that the plan's lump sum conversion rate is either IRC 417(e) assumptions or a factor of 10, whichever produced the larger lump sum.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Rates of increase in:

Compensation	Assumed compensation increases represent an estimate of future experience.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Economic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect workforce conditions like reductions in force or other changes in conditions that are expected to produce different results in the future.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	<p>Retirement rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect changes in conditions that are expected to produce different results in the future.</p> <p>Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.</p>
Form of payment	The assumed form and timing of payments were selected based on recent experience and best estimate of future behavior.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The required mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvement.
- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2014 to September 2015.
- The assumed plan-related expenses added to the target normal cost were changed from \$3,474,000 for 2015 to \$4,374,423 for 2016.

Change in methods since prior valuation

- None.

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2016

Employees are assumed to retire in accordance with the following probabilities:

(a) Salaried and bargaining employees (other than Thermo King Grandfathered):

Age	Probability
55-59	8%
60-61	10%
62-64	20%
65-69	30%
70+	100%

(b) Thermo King Grandfathered: For certain "grandfathered" Thermo King participants (hired prior to 1995 and at least 45 with 55 points on 1/1/2003), who are eligible for enhanced early retirement factors after age 58 and 30 years of service.

Age	Probability
55-57	0%
58	8%
59	10%
60-61	15%
62-63	25%
64-69	50%
70+	100%

The average expected retirement age for active participants, to the nearest integer, is age 62. This average age was determined by summing the following product for assumed retirement ages 55 through 70: (i) the number of expected employees at the applicable age times (ii) the assumed rate of retirement at the applicable age times (iii) the applicable age, where one salaried employee, one bargaining employee, and one Thermo King Former Plan 73 employee are assumed to exist at age 55 and are then assumed to retire in accordance with the probabilities shown above. This result is then weighted by the relative number of employees in each group.

Plan Name	Ingersoll-Rand Pension Plan Number One
Valuation Date	January 1, 2016
Enrolled Actuary	Seamus A. Doyle
Enrollment Number	17-05809

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of January 1, 2016

Employees are assumed to retire in accordance with the following probabilities:

(a) Salaried and bargaining employees (other than Thermo King Grandfathered):

Age	Probability
55-59	8%
60-61	10%
62-64	20%
65-69	30%
70+	100%

(b) Thermo King Grandfathered: For certain "grandfathered" Thermo King participants (hired prior to 1995 and at least 45 with 55 points on 1/1/2003), who are eligible for enhanced early retirement factors after age 58 and 30 years of service.

Age	Probability
55-57	0%
58	8%
59	10%
60-61	15%
62-63	25%
64-69	50%
70+	100%

The average expected retirement age for active participants, to the nearest integer, is age 62. This average age was determined by summing the following product for assumed retirement ages 55 through 70: (i) the number of expected employees at the applicable age times (ii) the assumed rate of retirement at the applicable age times (iii) the applicable age, where one salaried employee, one bargaining employee, and one Thermo King Former Plan 73 employee are assumed to exist at age 55 and are then assumed to retire in accordance with the probabilities shown above. This result is then weighted by the relative number of employees in each group.

Form of payment

- (a) All Salaried and Non-Bargaining Employees who were active participants on or after 1/1/2003 (excluding Torrington)

For participants who retire directly from active service after age 55:

50% are assumed to elect an immediate lump sum and 50% are assumed to elect an immediate annuity in the normal form.

For participants who terminate employment before age 55:

34% are assumed to elect an immediate lump sum, 33% are assumed to elect a lump sum at normal retirement date and 33% are assumed to elect an annuity in the normal form for a single participant at normal retirement date.

For vested participants who have terminated and not previously received a distribution from the plan:

50% are assumed to elect a lump sum at normal retirement date and 50% are assumed to elect an annuity in the normal form at normal retirement date.

The lump sum payable is assumed to be the greater of:

(a) the immediate life annuity multiplied by 10; and

(b) the actuarially equivalent lump sum of the deferred life annuity with ten year guarantee, determined using the interest rates based on the yield curve used for determination of the Funding Target and the applicable Mortality under Revenue Ruling 2007-67.

- (b) Zimmerman and Thermo King Bargaining Employees

All participants are assumed to elect the normal form of payment.

- (c) Other Terminated Vested Participants

All other terminated vested participants are assumed to elect an annuity in the normal form for a single participant at the later of normal retirement date or the valuation date.

Percent married and spouse age

Actual data is used for retired participants. For all other participants 70% of males and 55% females are assumed to be married at death. Females are assumed to be 2 years younger than their husbands.

Administrative expenses

\$4,374,423 of administrative expenses are assumed to be paid out of the trust in 2016 and are added to the target normal cost. The amount is based on the noninvestment-related expenses that were paid out of the plan in the prior fiscal year and the expected change in PBGC variable rate premium from the prior year to the current year.

**Actuarial value of assets
for determining minimum
required contributions**

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 5.25%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 5.25%, and the applicable limitation for the plan year, equal to 6.81%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 5.50%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 5.50%, and the applicable limitation for the plan year, equal to 6.99%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.3. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Data Sources

Employee data was supplied by Ingersoll Rand as of the census date. We have not independently verified the accuracy or completeness of the data or information provided, but we have performed limited checks for reasonableness. The following assumptions were made for missing data elements:

- In cases where an accrued benefit was not provided for a terminated vested participant we have estimated the benefit where data is available to reasonably do so. If data is not available to estimate the benefits, we have used an amount equal to the average accrued benefit for the bargained employees or non-bargained employees, whichever is applicable to the specific employee.
- For terminated vested participants for whom a date of termination is not provided, we have assumed the termination occurred prior to 2003.
- Terminated vested participants over age 65 who have not commenced benefits under the plan are assumed to receive benefits actuarially increased from age 65 to January 1, 2015 under the actuarial equivalence basis detailed in the plan document. Any terminated vested participant over age 90 who is not in receipt of a benefit is assumed to be deceased.
- No adjustment is made to estimate the Qualified Preretirement Survivor Annuity (QPSA) charge which is applicable to certain terminated vested participants who terminated employment prior to 2003.
- The December 31, 2002 accrued benefit ("A-piece") and December 31, 2002 credited service for certain active salaried and non-bargained employees, as used in the valuation, are estimates to the extent they have not yet been certified by the employer.
- The December 31, 2012 frozen accrued benefits for employees who chose to freeze benefits under the plan under Retirement Savings Choice are estimates to the extent they have not yet been certified by the employer.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate, adjusted as required to account for the fact that the plan's lump sum conversion rate is either IRC 417(e) assumptions or a factor of 10, whichever produced the larger lump sum.
Plan-related expenses	As required by regulations, plan-related expenses are calculated by estimating the expenses to be paid from the trust during the coming year (including, for example, expected PBGC premiums and actuarial, accounting, legal, administration and trustee fees to be paid from the trust).

Rates of increase in:

Compensation	Assumed compensation increases represent an estimate of future experience.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Economic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect workforce conditions like reductions in force or other changes in conditions that are expected to produce different results in the future.
Disability	Disability rates were based on a published table for pension participants believed to have reasonably similar characteristics participating in pension plans with similar disability provisions.
Retirement	<p>Retirement rates were based on an experience study conducted in 2014, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future. There have not been any subsequent modifications to reflect changes in conditions that are expected to produce different results in the future.</p> <p>Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.</p>
Form of payment	The assumed form and timing of payments were selected based on recent experience and best estimate of future behavior.

Source of Prescribed Methods

Funding methods

The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are “prescribed methods set by law”, as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation

- The required mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvement.
- The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2014 to September 2015.
- The assumed plan-related expenses added to the target normal cost were changed from \$3,474,000 for 2015 to \$4,374,423 for 2016.

Change in methods since prior valuation

- None.

Benefits Paid Upon the Following Events

Normal retirement

The monthly benefit payable as a single life annuity with 10 years certain at Normal Retirement Date is equal to the greater of (i) + (ii) + (iii) and (iv) below:

- (i) monthly accrued benefit at December 31, 2002 (or December 31, 2005 for Thermo King Puerto Rico participants) under the plan provisions in effect on December 31, 2002 (December 31, 2005 for Thermo King Puerto Rico participants)
- (ii) 0.5% of Final Average Pay times years of credited service earned after December 31, 2002 (or December 31, 2005 for Thermo Kind Puerto Rico participants)
- (iii) Plan One Transition Benefit: 0.5% of Final Average Pay in excess of \$30,000 times years of credited service earned after December 31, 2002. This transition benefit applies only to employees who were participants in this plan on December 31, 2002, are at least age 50 and whose age plus service exceeds 60 on January 1, 2003 and does not apply to Thermo King employees.

Thermo King Transition Benefit: The increase in (i) above resulting from an increase of 3% for each year of credited service after January 1, 2003 (or January 1, 2006 for Thermo King Puerto Rico participants). This transition benefit applies only to Thermo King employees who were contributing participants in this plan on December 31, 2002, (or December 31, 2005 for Thermo King Puerto Rico employees) who are at least age 45 and whose age plus service exceeds 55 on January 1, 2003 (or January 1, 2006 for Thermo King Puerto Rico participants).

- (iv) 0.5% of Final Average Pay times all years of credited service. Participants who elected to waive participation in the plan under Retirement Savings Choice have a frozen accrued benefit as of December 31, 2012. All other participants will continue to accrue a benefit until the earlier of date of termination or December 31, 2012.

Postponed retirement

Effective January 1, 1989, employees may work past the age of 65 and continue to earn credited service. The benefit formula and forms are the same as with a normal retirement and commence on the last day of the month succeeding the participant's late retirement.

Early retirement

The early retirement benefit is equal to the normal retirement benefit reduced by 0.3% for each whole calendar month that the benefit commencement date precedes the normal retirement date, provided that the reduction not exceed 85%.

Disability Benefits

Pre-2004 - Same as normal retirement based on service while receiving LTD benefits and compensation in last full year prior to disability. Waiting Period: Following cessation of LTD benefit payments at normal or late retirement date.

Post-2004 – Normal or early retirement benefit.

Preretirement death

The pre-retirement death benefit payable to the designated beneficiary of an employee who is not married on his date of death is equal to one half of the benefit which would be payable to the participant had the participant separated from service on the date of death and elected to commence a single life annuity, payable as a lump sum.

The pre-retirement death benefit payable to the surviving spouse of a participant who is married on his date of death is equal to one half the benefit that would be payable to the participant had the participant separated from service on the date of death, survived to the benefit commencement date elected by the spouse and elected to commence a single life annuity.

Other Plan Provisions

Forms of payment

Normal form

For an unmarried participant the normal form of payment is a monthly pension for the life of the employee. This single life annuity for an unmarried participant includes a ten year payment guarantee. For a married participant the normal form of payment is a reduced monthly pension which provides for a continuation of payments equal to one-half of the reduced pension to the surviving spouse after the employee's death.

Optional forms

Any employee may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. Optional forms of payment include a lump sum payment; a contingent annuity and a life with term certain annuity. Some optional forms are not available to participants who commence benefits before age 55.

Appendix C - Summary of principal plan provisions applicable to bargaining employees at the Thermo King Minneapolis location.

Plan Provisions

The plan was originally effective October 31, 1997. The Ingersoll Rand/Thermo King Pension Plan (Plan 73) was merged into IR Pension Plan Number One on December 31, 1998. The plan was most recently amended effective January 1, 2006. The plan was closed to new participants effective June 20, 2013.

Coverage and participation

All eligible employees may participate in the Plan. On and after January 1, 1995, employees must elect to contribute 1.50% of compensation in order to earn a pension.

Definitions

Credited service

One month of service is credited for benefit purposes for each month where the employee works as a participant of the plan or prior plan for at least one day of the month, subject to any exclusion in the plan.

Vesting service and vesting

One month of service is credited for eligibility purposes for each month where the employee works as a participant of the plan or prior plan for at least one day of the month, subject to any exclusion in the plan. Additional vesting service may be credited for participation with a previous employer within the control group.

A participant is vested after completing five years of vesting service.

Compensation

Compensation used for valuation purposes is the annual rate of pay.

Normal retirement date (NRD)

An employee is eligible for normal retirement on the first day of the month next following the later of age 65 and 5 years of eligibility service.

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Postponed retirement	Retirement after NRD.
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service.
Early retirement	Retirement after age 60 with at least 10 years of service or after age 58 with at least 30 years of service.
Preretirement death benefit	Married and certain number of years eligibility service as indicated below:

<u>Age</u>	<u>Eligibility Service</u>
Any	25 years or more
60 or older	10 years or more
50 or older	15 years or more

Benefits Paid Upon the Following Events

Normal retirement	<p>The greater of (i) and (ii) below:</p> <p>(i) Under the <u>Career Accumulation Method</u>, the normal retirement benefit equals the sum of the monthly amount accumulated to January 1, 1992, plus $\frac{1}{12}$ of 2% of compensation for each calendar year commencing on or after January 1, 1992 in which an employee contributed. A minimum of \$15 per year of credited service applied for 1992, 1993 and 1994 regardless of an employee's election to contribute to the Plan.</p> <p>(ii) Under the <u>Flat Rate Method</u>, the normal retirement benefit equals the sum of \$38 times years of credited service while contributing to the Plan, plus \$13 times years of credited service prior to January 1, 1995 in which an employee was eligible to contribute to the Plan, but elected not to contribute.</p>
Postponed retirement	Employees may work past the age of 65 and continue to earn credited service. The benefit formula and forms are the same as with a normal retirement and commence on the last day of the month succeeding the participant's late retirement.

Vested termination

The benefit is based on amount of service as follows:

- (i) If a participant terminates employee with fewer than 5 years of vesting service, the employee will receive a refund of employee contributions plus interest, or if over \$5,000, an actuarially equivalent annuity beginning any time up to normal retirement date.
- (ii) If a participant terminates employment with 5 years or more of vesting service, the benefit is the greater of the benefit determined as for normal retirement and an annuity that is the actuarial equivalent of the participant's contributions with interest.
- (iii) A participant who attains (i) age 58 with at least 30 years of eligibility service or (ii) age 60 with at least 10 years of eligibility service can elect to receive benefits prior to normal retirement date, reduced by $\frac{1}{2}$ of 1% for each month that benefit commencement precedes normal retirement date.

Early retirement

Based on hire date as noted below:

- (i) For employees hired after December 31, 1994, the early retirement benefit is equal to the normal retirement benefit reduced by 0.5% per month that early retirement date precedes participant's normal retirement date.
- (ii) For employees hired before January 1, 1995, the early retirement benefit is equal to the normal retirement benefit reduced by $\frac{1}{3}$ of 1% per month that early retirement date precedes participant's normal retirement date. If the participant has 30 or more years of service, the benefit will be reduced by $\frac{1}{4}$ of 1% per month that early retirement date precedes participant's 60th birthday.

Early Retirement Supplement: For employees hired prior to January 1, 1995 who retire early and elect an annuity form of payment, a temporary monthly supplement is payable until age 62 equal to \$10 per year of Credited Service.

Preretirement death

Pre-Retirement Death Benefit: Immediate benefit payable to participant's spouse equal to 55% of the benefit determined as for Early Retirement, except that benefits are reduced as if the employee retired at the date of death (subject to a maximum benefit reduction for early commencement) assuming that the Joint and 55% form of payment had been elected. Payments are guaranteed for 60 months and payable to the spouse's beneficiary if necessary. Alternatively, a lump sum payment based upon the benefit accrued through December 31, 1994 is available.

Vested Death Benefit: Deferred benefit, payable to participant's spouse at what would have been the employee's earliest benefit commencement date, equal to 55% of the Termination Benefit, assuming that the Joint and 55% form of payment had been elected. Payments are guaranteed for 60 months and payable to the spouse's beneficiary if necessary.

Other Plan Provisions

Forms of payment

Normal form

For a single employee, the normal form of payment is a monthly pension ceasing at the retired employee's death. For a married employee, the normal form of payment is a reduced monthly pension which allows for a continuation of payments equal to 55% of the reduced pension to the surviving spouse after the employee's death.

Optional forms

Any employee may elect, by written application, to receive the normal benefit or other optional forms of benefit payment. These include single life annuity, joint and 100% survivor annuity, joint and 55% survivor annuity, lump sum (based upon the benefit accrued as of 12/31/94 (any additional benefit accruals are payable in any of the other optional benefit forms)) and a minimum guarantee of the greater of (i) 60 times the monthly annuity benefit, and (ii) the accumulated contributions plus interest, is applied to annuity benefit options payable under the Plan, without regard to any early retirement supplements.

For participants hired before January 1, 1995 who elect a lump sum, the payment is the sum of (i) and (ii) as follows:

- (i) A payment equal to the lump sum equivalent of the normal retirement benefit determined as of December 31, 1994. The lump sum equivalent will be calculated assuming benefits begin at Early Retirement Date. Benefits are reduced for early commencement $\frac{1}{3}$ of 1% for each month that the Early Retirement Date precedes Normal Retirement Date, or, if the participant has 30 or more years of Eligibility Service, by $\frac{1}{4}$ of 1% for each month that Early Retirement Date precedes the first of the month following the participant's 60th birthday.
- (ii) An annuity equal to the difference between (a) the normal retirement benefit (based on total Credited Service) determined as of the participant's Early Retirement Date and reduced by $\frac{1}{2}$ of 1% for each month that Early Retirement Date precedes Normal Retirement Date, and (b) the normal retirement benefit determined as of December 31, 1994, reduced for early commencement as described in (i) above.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Ingersoll-Rand Pension Plan Number One (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by JP Morgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter- Supplemental Schedule

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2016 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Ingersoll-Rand Pension Plan Number One
Notes to Financial Statements
December 31, 2016 and 2015

1. Description of the Plan

The following brief description of the Ingersoll-Rand Pension Plan Number One (the “Plan”) is provided for general information purposes. Participants should refer to the plan document for complete information.

General

Except for a small group of union employees, the Plan is a noncontributory defined benefit plan covering United States employees of most U.S. subsidiary companies of Ingersoll-Rand plc (“the Company”) and certain Puerto Rico salaried employees of subsidiaries of the Company not covered by other defined benefit pension plans as defined by the Plan. Generally, and except as described below, participation in the Plan begins at the date of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”), the Internal Revenue Code of 1986, as amended (“IRC”), and the Puerto Rico Internal Revenue Code of 2011. The Plan is sponsored by Ingersoll-Rand Company, a U.S. subsidiary of Ingersoll-Rand Plc.

Pension Benefits

The normal retirement age is 65, subject to variations for specific subsidiaries. Participants who performed an hour of service after January 1, 2003 are eligible to receive payment of their vested benefit at any time after leaving the Company, subject to variations for specific subsidiaries. The monthly pension benefit is based on annual eligible compensation, years of credited service, and, in certain cases, Social Security benefit. Variations of this formula apply to employees and former employees of specific subsidiaries and discontinued operations of the Company. Employees electing early retirement receive reduced pension benefits based on the difference between the normal retirement date and the date when pension payments begin. Variation of reduction in benefit payments depends on the variation related to the subsidiaries. The Plan also provides for surviving spouse benefits, in accordance with variations of the Plan and applicable law. Certain vested participants have the option to take an immediate lump sum payment. Plan participants are 100% vested upon reaching five years of service or, while employed, attaining age 65. Beginning January 1, 2013, a participant also shall be 100% vested if, while employed, becomes disabled or dies.

On June 8, 2012, the Ingersoll-Rand plc Board of Directors approved amendments to the retirement plans for certain U.S. and Puerto Rico non-bargained employees, including amendments to the Plan. The amendments provided that eligible participants hired prior to July 1, 2012 were given a choice to continue participation in the Plan until the Plan freezes on December 31, 2022 (or the participant’s date of termination, if earlier) or to freeze their accrued benefits in the Plan as of December 31, 2012 and to begin receiving an additional 2% non-matching company contribution into the Company’s applicable defined contribution plan. Eligible non-bargained employees hired or rehired on or after July 1, 2012 will not be eligible to participate in the Plan and instead will automatically receive the 2% non-matching company contribution into the applicable defined contribution plan. Beginning January 1, 2023, all eligible employees will receive the 2% non-matching contribution into the applicable defined contribution plan and will no longer accrue any benefit in the Plan.

On December 1, 2013, the Company completed the spin-off of its commercial and residential security businesses to its shareholders. The businesses were transferred to Allegion plc (“Allegion”), a newly created independent Irish company. Allegion is now an independent public company trading under the symbol “ALLE” on the New York Stock Exchange. At the completion of the spin-off, Allegion formed its own defined benefit plans intended to be qualified under section 401(a) of the IRC. The assets of all current and former employees of the relevant Company’s subsidiaries determined to be part of the spin-off to Allegion were transferred from the Plan into the newly formed Allegion defined benefit plan shortly after the completion of the spin-off. During 2016, the Company discovered an additional amount of liability that had not properly transferred after the completion of the spin-off and transferred \$807,773 to represent the liability and related earnings.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Ingersoll-Rand Pension Plan Number One
Notes to Financial Statements
December 31, 2016 and 2015

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the dates of the financial statements. Actual results could differ from those estimates and assumptions.

Valuation of Investments

Plan investments are held in the Ingersoll-Rand Collective Trust Fund ("CTF"), a master trust administered by the JPMorgan Chase Bank N.A. (the "Trustee"). The CTF provides unified investment management for certain U.S. tax qualified pension plans of Ingersoll-Rand plc and its domestic subsidiaries.

The CTF maintains separate accounts at fair value for each participating plan. Each account records contributions, benefit payments and direct plan disbursements and receipts, and a pro rata share of indirect expenses, realized and unrealized gains or losses, interest and dividend income. Pro rated items are allocated monthly to each account based on each participating Plan's beginning of month asset value in relation to the total CTF assets.

Investments in the CTF are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) represents the Plan's pro-rata share of net realized and unrealized gains and losses on the CTF's investments.

Funding Policy

The Company's funding policy is to make annual minimum contributions as required by law as determined by the actuary, and other contributions in its discretion as allowed by law. The actuary determines the required contributions using the Projected Unit Credit Cost Method. As determined by the actuary, no contributions were required during 2016 and 2015; however, the Company made contributions of \$22,000,000 during 2016 and 2015. The amounts over the minimum required contributions were discretionary. Generally, the Plan is non-contributory; however, one of the Company's former contributory defined benefit plans was previously merged into the Plan. After the merger, a small group of participants under this variation of the Plan must continue to contribute a certain percentage of eligible union wages, as defined, to the Plan as a condition of participation.

Expenses

The Plan pays many expenses incurred with administering the Plan and a pro rata share of the CTF expenses. The Plan's actuarial cost method includes a factor to fund such expenses through employer contributions. Fees paid by the Plan include various professional fees, investment fees, Pension Benefit Guaranty Corporation ("PBGC") fees and any other costs of administering the Plan. The PBGC requires the Plan to pay an annual fee based on the number of participants in the Plan. The fee for 2016 and 2015 was \$64 and \$57 per participant, respectively; however, the yearly cost is determined by the PBGC and is subject to change. The fixed annual PBGC fee per participant is expected to be \$69 in 2017 and \$74 in 2018.

Benefit Payments

Benefit payments are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2017, in connection with the preparation of these financial statements, which is the date the financial statements were available to be issued.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include vested benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries or alternate payees under QDROs. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2016 was determined by the consulting actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation at January 1, 2016 and 2015 were as follows:

- Participants' life expectancy for non-disabled participants, based on Base Mortality Table RP-2014 base table projected back to 2011 with Mortality Projection Scale MP-2014 with a 15 year convergence period and a long term rate of 0.75% with separate mortality rates for annuitants and non-annuitants. Life expectancy for disabled participants utilized the Base Mortality table RP-2014 disabled retiree base table projected back to 2011 with Mortality Projection Scale MP-2014 with a 15 year convergence period and a long term rate of 0.75%.
- Retirement ages, which start at 55 and use actual plan experience.
- Turnover rates, which vary with age and length of service.
- Administrative expense assumption was \$4,374,423 and \$3,474,000 for 2016 and 2015, respectively.
- Average interest rate, which is assumed to be 5.50% in 2016 and 2015.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value ("NAV") practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. This guidance requires retrospective application and is effective for annual reporting periods beginning on or after December 15, 2015. As such, the Plan has removed all investments from the fair value hierarchy for which fair value is measured using the NAV per share practical expedient. The adoption has been reflected in Note 4.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. The adoption of Parts I and III had no effect on the financial statement presentation. The adoption of Part II eliminated the requirement to disaggregate investments by nature, characteristics and risks. The adoption has been reflected in Note 4.

In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. This guidance requires the disclosure of the Plan's dollar amount of their interest in each general type of investment held by the master trust. In addition, the guidance requires disclosure of the master trust's other asset and liability balances and the Plan's interest in each of those other assets and liability balances. This guidance requires retrospective application and is effective for annual reporting periods beginning on or after December 15, 2018. Early adoption is permitted. The Company does not expect the adoption of this accounting guidance to have a significant impact on the Plan's financial statements.

3. Fair Value Measurements

Fair value is defined as the exchange price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Fair value measurements are based on a framework that utilizes the inputs market participants use to determine the fair value of an asset or liability and establishes a fair value hierarchy to prioritize those inputs. The fair value hierarchy is comprised of three levels that are described below:

- Level 1 Inputs to the valuation methodology are based on quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs other than Level 1. Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in markets that are not active;
 - Other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable inputs based on little or no market activity and that are significant to the fair value of the assets and liabilities.

The fair value hierarchy requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs are obtained from independent sources and can be validated by a third party, whereas unobservable inputs reflect assumptions regarding what a third party would use in pricing an asset or liability based on the best information available under the circumstances. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for the underlying assets in the CTF measured at fair value. There have been no significant changes in the methodologies used at December 31, 2016 and 2015.

Commingled funds: The investments are public investment vehicles valued using their daily Net Asset Value ("NAV") per share or the equivalent. NAV per share or the equivalent is used for fair value purposes as a practical expedient. NAVs are calculated by the investment manager or sponsor of the fund. The NAV is a reasonable exit price, but it is quoted in a market that is not active.

U.S. government and agency obligations: Quoted market prices are not available for these securities. Fixed income securities are valued through a market approach with inputs including, but not limited to, benchmark yields, reported trades, broker quotes and issuer spreads. Such securities are classified as Level 2.

Corporate and foreign bonds: Quoted market prices are not available for these securities. Fixed income securities are valued through a market approach with inputs including, but not limited to, benchmark yields, reported trades, broker quotes and issuer spreads. Such securities are classified as Level 2.

Mortgage-backed securities, collateralized mortgage obligations and other asset-backed securities: Prices are based on a compilation of primarily observable market information or a broker quote in a non-active market. Fixed income

Notes to Financial Statements
December 31, 2016 and 2015

securities are valued through a market approach with inputs including, but not limited to, benchmark yields, reported trades, broker quotes and issuer spreads. Such securities are classified as Level 2.

Registered mutual fund - equity specialty: The shares of registered investment companies are valued at quoted market prices in an exchange or active market. Registered mutual funds are pooled assets of multiple investors overseen by investment managers. Investors own a proportionate interest in the fund (i.e. number of units of the fund). Daily price (Net Asset Value or "NAV" per share) is determined based on the total market value of the fund divided by total number of shares outstanding. Registered mutual funds are typically daily traded, and their NAVs are publicly quoted. Such securities are classified as Level 1.

Registered mutual fund - fixed income specialty: The shares of registered investment companies are valued at quoted market prices in a closed exchange. Registered mutual funds are pooled assets of multiple investors overseen by investment managers. Investors own a proportionate interest in the fund (i.e. number of units of the fund). Daily price (Net Asset Value or "NAV" per share) is determined based on the total market value of the underlying assets of the fund divided by total number of shares outstanding. Such securities are classified as Level 2.

Cash and cash equivalents: The investments are valued using a market approach with inputs including quoted market prices for either identical or similar instruments. As these investments are not traded on active markets, these investments are classified as Level 2.

Real estate limited partnerships: Investments in real estate take the form of direct investment in real estate funds. Private real estate fund values are reported by the fund manager and are based on valuation or appraisal of the underlying investments. As the investments are infrequently traded and may not have available comparables, these investments are classified as Level 3.

Derivatives: Exchange-traded derivatives valued using quoted prices are classified within level 1 of the valuation hierarchy. If they are not listed on an exchange, derivative contracts are valued using models that use as their basis readily observable market parameters, which are actively quoted in the market and can be validated through external sources. Depending on the types and contractual terms of derivatives, fair value can be modeled using a series of techniques, such as the Black-Scholes option pricing model, simulation models or a combination of various models, which are consistently applied. Most of the inputs for this valuation are readily observable from actively quoted markets. Such instruments are generally classified as Level 2.

Guaranteed Interest Contracts ("GIC"): The value is reported based upon observable inputs, including the insurance company's assumptions as to what market participants would use in pricing such instruments. GICs are classified as Level 3.

The methods described above may produce a fair value that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. See Note 4 for further disclosures of the fair value of the assets held within the CTF.

4. Investments in the Collective Trust Fund (Master Trust)

All of the Plan's investments are included in the CTF, which was established for the investment of assets of the Plan and several other Company sponsored U.S. tax qualified retirement plans. Each participating retirement plan has an undivided interest in the CTF. Assets of the CTF are held by the Trustee. At December 31, 2016 and 2015, the Plan's interest in the net assets of the CTF was approximately 92.59% and 92.30%, respectively.

The following investments and net appreciation (depreciation) in fair value of investments, interest, and dividend income and other receipts of the CTF are certified by the Trustee to be complete and accurate. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate. The CTF financial statements are prepared on the modified cash basis of accounting, while the Plan's financial statements are prepared on the accrual basis of accounting.

5. Plan Termination

Except for a small group of employees who are subject to a collective bargaining agreement, Ingersoll-Rand plc has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA and the IRC. In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and the IRC and its respective related regulations.

Certain benefits under the Plan are insured by the PBGC if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee benefits to all Plan participants and for all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated April 28, 2017, that the Plan and related trust are designed in accordance with the applicable sections of the IRC to be exempt from taxation. The plan administrator believes that the Plan is designed and is currently being operated in material compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require

Ingersoll-Rand Pension Plan Number One
Notes to Financial Statements
December 31, 2016 and 2015

recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Transactions with Parties-in-interest

Through the CTF, certain plan investments are held by JPMorgan Chase Bank, N.A. JPMorgan Chase Bank, N.A. is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. These transactions are allowable party-in-interest transactions under Section 408(b)(8) of the ERISA regulations.

8. Risks and Uncertainties

Through the CTF, the Plan invests in various stocks, bonds, fixed-income and other investment securities. These securities are exposed to various risks, such as interest rate, market and credit risks. The Company's objective in managing its defined benefit plan assets is to ensure that all present and future benefit obligations are met as they come due. It seeks to achieve this goal while trying to mitigate volatility in plan funded status, contribution, and expense by better matching characteristics of the plan assets to that of the plan liabilities. The Company utilizes a dynamic approach to asset allocation whereby a plan's allocation to fixed income assets increases as the plan's funded status improves. Due to the level of risk associated with certain of the CTF's investments, and the level of uncertainty related to changes in the fair values of such investments, it is at least reasonably possible that changes in such risks in the near term would materially affect the Plan's investment balances, and amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
