1. Description of Plan

The following description of the Peckham Industries, Inc. Deferred Compensation Profit Sharing Thrift Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Peckham Industries, Inc. (the "Employer" or the "Company") who are the age of twenty-one or older. The Plan excludes those employees covered by a collective bargaining agreement, leased employees, independent contractors, and employees of the Shaftsbury, Vermont location working under temporary visa. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

The Plan permits eligible employees to defer from 1 percent to 60 percent of defined compensation, limited to annual dollar maximums as prescribed by the Internal Revenue Service (the "IRS"). Eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participant in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation unless changed by the participant. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts from other eligible retirement plans, as defined in the Plan document.

The Employer contributes a matching contribution equal to 50 percent of the first 7 percent of compensation deferred by a participant. A participant must perform 1 year and 1,000 hours of service to be eligible for the Employer matching contribution. The Employer may also make a discretionary nonelective contribution. A participant must perform 1 year and 1,000 hours of service and also be employed on the last day of the Plan year to be eligible for the Employer discretionary nonelective contribution. During 2016, no discretionary nonelective contributions were made by the Employer.

Participants' Accounts

Participants direct the investment of their contributions into various investment options offered by the Plan. Each participant's account is credited with the participant's contributions, the Employer's contributions, as well as allocations of Plan earnings or losses. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, contributions, account balances or requested participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

Forfeitures of Employer contributions may be used to pay Plan expenses as determined by the Plan administrator. Any remaining forfeitures will be used to reduce Employer's contributions. At December 31, 2016 and 2015, forfeitures totaled $57,363 and $26,532, respectively. No forfeitures were used to reduce Employer's contributions for the years ended December 31, 2016 and 2015.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. In addition, participants are fully vested in any prior plan balances that were transferred into the Plan and the income earned thereon. The Employer contributions vest in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years. The loans are secured by the balance of the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. During 2016 and 2015, interest rates ranged from 4 to 6 percent. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, retirement (age 65) or separation from service, a participant may elect to receive a lump sum amount equal to the value of the participant's vested interest in his or her account. Withdrawals from the Plan may also be granted based upon circumstances of financial hardship, in accordance with provisions specified in the Plan. The Plan also allows in-service withdrawals from vested accounts at age 59 1/2.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Risks and Uncertainties

The Plan provides for various investment options in any combination of funds offered by the Plan. These funds are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Plan management determines the Plan's valuation policies utilizing information provided by their investment advisor and Fidelity Management Trust Company. See Note 3 for discussion on fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Defaulted loans are deemed distributed and recorded as benefits paid to participants in the statements of changes in net assets available for benefits. During 2016 and 2015, $73,090 and $45,990, respectively, were recorded as deemed distributions. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Payment of Benefits

Benefits are recorded when paid.

Newly Adopted Account Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)." ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share ("NAV") practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV practical expedient. Investments that calculate NAV (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related requirement disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted, and is to be applied retrospectively. As of December 31, 2016 and 2015, the Plan did not hold any investments reported at the NAV as a practical expedient and therefore there is no impact to the Plan financial statements as a result of the adoption of ASU 2015-07.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient." ASU 2015-12 removes the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value. Under ASU 2015-12, direct investments in fully benefit-responsive investment contracts are measured, presented and disclosed only at contract value. In addition, this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5 percent or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment. The update also allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with a month-end. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively, while Part III is applied prospectively. The Plan adopted ASU 2015-12. As a result, the disclosure of investments greater than 5 percent as of December31, 2015 was removed. Additionally, the disclosure of fair value based on nature and risk was removed as of December 31, 2015.

3. Fair Value Measurements

Accounting Standards Codification ("ASC") 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.
There have been no changes in the methodologies used at December 31, 2016 and 2015.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds - Mutual funds and money market funds, which are a type of mutual fund, represent investments with various investment managers. The fair value of these investments are determined by reference to the fund's underlying assets, which are principally marketable equities and fixed income securities. Shares held in mutual funds traded on national securities exchanges are valued at the net asset value as of December 31, 2016. Shares of mutual funds are valued at quoted market prices.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	*Level 2*	*Level 3*	*Total*

4. Information Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate:

December 31,	**2016**	2015
Mutual funds	**$ 29,322,740**	$ 26,224,131
Money market fund	**$ 2,732,503**	$ 2,548,408
Notes receivable from participants	**$ 807,176**	$ 910,153

Years Ended December 31,		2016		2015
Interest and dividend income	$	986,271	$	1,356,780
Interest income on notes receivable from participants	$	42,584	$	42,338
Net appreciation (depreciation) in fair value of investments	$	1,002,678	$	(1,168,794)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Related Party and Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds and a money market fund managed by Fidelity Institutional Retirement Services. Investment fees are recorded net of investment income on the statements of changes in net assets available for benefits. Fidelity Management Trust Company is the trustee of the Plan. These transactions qualify as exempt party-in-interest transactions. Notes receivable from participants also qualify as party-in-interest transactions.

6. Plan Termination

Although it has not expressed an intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer contributions.

7. Tax Status

The IRS has determined and informed the record-keeper in an opinion letter dated March 31, 2014, that the Plan prototype and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has since been amended; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Subsequent Events

The Plan has evaluated subsequent events from the date of the statement of net assets available for benefits through October 13, 2017, the date the financial statements were available to be issued. During this period, no material recognizable events were identified.
