Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Urbana University Defined Contribution Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016 and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF) and TIAA-CREF as agent for TIAA-CREF Trust Company, FSB (TIAA-CREF Trust), except for comparing such information with the related information included in the 2016 financial statements. We have been informed by the plan administrator that TIAA-CREF and TIAA-CREF Trust hold the Plan's investment assets and execute related transactions. The plan administrator has obtained certifications from TIAA-CREF as of and for the year ended December 31, 2016 that the information provided to the plan administrator is complete and accurate.

As described in Note 7, because of the unavailability of the Plan's prior year records with respect to certain annuity and custodial accounts issued to current and former employees, we were unable to perform auditing procedures with respect to individual participant account balances accumulated from inception of the Plan or to satisfy ourselves as to the basis on which participants' equity is stated as of December 31, 2016, or the propriety of the distributions to participants who terminated and withdrew from the Plan during the year then ended.

To the Plan Administrator
Urbana University Defined
Contribution Retirement Plan

Disclaimer of Opinion

Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* paragraphs, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2016 financial statements. Accordingly, we do not express an opinion on the 2016 financial statements.

Emphasis of Matter

As explained in Note 6, the financial statements include investments valued at approximately \$4.2 million (38 percent of net assets) and \$4.3 million (39 percent of net assets) at December 31, 2016 and 2015, respectively, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by TIAA-CREF. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2016 and delinquent participant contributions for the year ended December 31, 2016 for the year ended December 31, 2016 and delinquent participant contributions for the year ended December 31, 2016 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Prior Year Financial Statements

The financial statements of Urbana University Defined Contribution Retirement Plan as of December 31, 2015, were audited by other auditors, whose report dated September 19, 2016, disclaimed an opinion as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA and indicated the Plan had not maintained sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees. As a result, the other auditors were unable to apply auditing procedures sufficient to determine the extent to which the prior year financial statements and supplemental schedules may have been affected by those conditions.

Report on Form and Content in Compliance with DOL Rules and Regulations for 2016 Financial Statements

The form and content of the information included in the 2016 financial statements and supplemental schedules, other than that derived from the information certified by TIAA-CREF and TIAA-CREF as agent for TIAA-CREF Trust, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Urbana University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of Urbana University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Franklin University - Urbana, LLC dba Urbana University (the "University"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration - Teachers Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF) investments consist of mutual funds. Teachers Insurance and Annuity Association (TIAA) investments consist of group annuity contracts and a pooled separate account. College Retirement Equities Fund (CREF) and TIAA Access investments consist of registered investment companies.

Contributions - The Plan provides for employee salary 403(b) or Roth contributions up to a maximum of 6 percent of compensation, subject to certain limitations established by the Internal Revenue Code. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan and catch-up contributions.

The Plan also provides for required employer matching contributions of 100 percent of the participant's contribution not to exceed 6 percent of the employee's compensation.

During 2015 and 2014, the University remitted certain employee deferrals to the Plan after the Department of Labor's required timeframe. A contribution of the lost earnings totaling \$35 was made during 2016.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the University's contributions, plan earnings and forfeitures of terminated participants' nonvested accounts and charged with an allocation of administrative expenses. Allocations are based on the participant's compensation or account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Plan Loans - Participants may borrow from TIAA using their TIAA Traditional Annuity account balances as collateral for the loan. Collateral is required in an amount equal to 110 percent of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45 percent of their TIAA Traditional Annuity account balances subject to annuity contract and plan provisions. Loans bear interest at market rates. Principal and interest are paid ratably by the participant to TIAA and each payment will reduce amounts collateralized by the participant's TIAA Traditional Annuity account balance. The amount of these outstanding loans was \$111,203 and \$43,193 at December 31, 2016 and 2015, respectively. These loans are not included as assets in the accompanying financial statements. There were \$2,725 and \$2,610 of plan loan balances in default as of December 31, 2016 and 2015, respectively.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The University must approve any such hardship withdrawals.

Benefit Payments - Upon termination of employment, the incurrence of a disability, death, or attainment of age 59 1/2, a participant may elect to receive the value of his or her account in the form of a lump-sum payment, partial payments, installment payment, or annuity amount. Certain amounts invested in the TIAA Traditional Annuity group annuity contracts may not be distributed in a lump sum; see redemption restrictions below.

Redemption Restrictions - Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participant to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA) and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments. Transfers from the Retirement Choice (RC) contract must be paid over 84 monthly systematic payments. Withdrawals from the RA contract must be paid out in 10 annual installments. Withdrawals from the RC contracts are available within 120 days after termination of employment, subject to a 2.5 percent surrender charge; otherwise, they must be paid over 10 annual installments or 84 monthly systematic payments, respectively. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals. There are, however, "equity wash" provisions that prevent the immediate transfer of amounts to any competing funds available in the Plan.

Vesting - Participants are immediately vested in all employee and employer contributions plus actual earnings thereon.

Urbana University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by TIAA-CREF and TIAA-CREF Trust Company, FSB (TIAA-CREF Trust) or their affiliates. TIAA-CREF is a service provider of the Plan and TIAA-CREF Trust is a custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Termination - While it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA or amend the Plan at any time.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation - The Plan's investments are stated at fair value except as noted below.

The registered investment companies are valued at net asset value per share (NAV) (or its equivalent) of the funds, which is based on the fair value of the funds' underlying net assets. There are no redemption restrictions or unfunded commitments on these investments. The pooled separate account is valued at net asset value per share or its equivalent of the fund, which is based on the fair value of the fund's underlying assets, which consist primarily of rental property subject to long-term leases and has been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with risks involved. There are no redemption restrictions or unfunded commitments on this investment.

The TIAA Traditional Annuity is a guaranteed annuity account issued by Teachers Insurance and Annuity Association (TIAA) that invests in the general assets of TIAA. TIAA considers the Retirement Choice Plus (RCP) contracts to be benefit responsive. TIAA considers the following contracts to be nonbenefit responsive: Retirement Annuity (RA), Interest Payment (IP), Transfer Payout Annuity (TPA), and Retirement Choice (RC). The nonbenefit-responsive portion is recorded at fair value. The benefit-responsive portion is recorded at contract value. Since there are no specific securities in TIAA's general account related to these contracts, contract value is the best estimate of fair value for the nonbenefit-responsive contracts. For all portions, contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices. See Note 6 for additional information.

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Allocated Insurance Contracts - The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Benefit Payments - Benefits are recorded when paid. There were no benefit payments requested but not paid (due to redemption restrictions) as of December 31, 2016 and 2015.

Administrative Expenses - Various administrative costs are paid by the University.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 6, 2017, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

TIAA-CREF and TIAA-CREF Trust Company, FSB hold the Plan's investments and execute all related transactions. The investments and related income and losses included in the accompanying financial statements, and supplemental schedule of assets held, are based solely on information certified by TIAA CREF and TIAA-CREF, as agent for TIAA-CREF Trust Company, FSB.

Urbana University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Tax Status

The Internal Revenue Service (IRS) is not currently accepting applications for individual 403(b) plan determination letters. The plan administrator believes that the Plan is designed and is currently being operated in compliance with applicable requirements of Internal Revenue Code Section 403(b). Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 5 - Annuity Contracts

Based on the terms of the contracts, a portion of the TIAA Traditional Annuity is considered benefit responsive. The total balance in the TIAA Traditional Annuity was \$4,083,514 and \$3,882,942 at December 31, 2016 and 2015, respectively. The benefit-responsive portion of the TIAA Traditional Annuity totaled \$204,807 and \$0 at December 31, 2016 and 2015, respectively. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a "vintages" approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into "vintages" and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest credit rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it has been between 1.00 and 3.00 percent.

Generally, there are no events that could limit the ability of the plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and which require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because a portion of the contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Urbana University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Restatement - Due to a reevaluation of the significance of the inputs used in the valuation of the group annuity contracts, it was determined that the investment previously classified as Level 3 should have been classified as Level 2 based on the fair value hierarchy. Additionally, it was determined that certain registered investment companies previously classified as Level 1 should have been valued at net asset value. Accordingly, the 2015 fair value disclosure has been updated to reflect this change.

Urbana University Defined Contribution Retirement Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 6 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 7 - Excluded Investments

Due to the lack of sufficient accounting records and supporting documents relating to certain annuity and custodial accounts issued to current and former employees, the extent to which individual participant account balances accumulated from inception until inclusion in the Plan's financial statements may be misstated is not determinable. As a result, the propriety of the related participant balances at December 31, 2016 and 2015 and related participant distributions to participants who terminated and withdrew from the Plan during the years then ended is also not determinable.
