NOTE 1 - DESCRIPTION OF PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of State Line Auto Auction, Inc. who have one year of continuous service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Strong Industries, Inc. was a participating employer in the Plan until May 2016, when it transferred its respective plan assets out of this Plan into a new separate Plan.

Contributions - Participating employees may defer up to 25% of their eligible compensation but are subject to certain maximum limitations as set by the Internal Revenue Service. The participating employers make matching contributions of 20% on the first 5% of an employee's contributions. In addition, annual non-elective employer contributions are made to the Plan at the discretion of the employers. There was no such contribution for 2016 or 2015.

Participant Accounts - Each participant's account is credited with the participant's contribution, the Companies' contributions, loan and loan repayments, and allocation of the Plan earnings (losses). The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The Plan is a participant-directed Plan.

Vesting - Participants are immediately vested in their contributions plus earnings, net of losses, thereon. Vesting in the remainder of their account is based on years of service. A participant is 100% vested after six years of credited service.

Payment of Benefits - On termination of service, a participant may elect to receive either a lump-sum distribution equal to the participant's vested interest in his or her account or installment payments. Alternatively, a participant may elect to have the account directly rolled over to an IRA or another employer's tax qualified plan.

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 5.50%, which are commensurate with the local prevailing rate as determined by the Plan administrator. Principal and interest are paid through regular payroll deductions.

Forfeited Accounts - Forfeited accounts are used to reduce future employer contributions.

Operating Expenses – Expenses of maintaining the Plan are paid by the participating employers.

Payments of Benefits - Benefits are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in the administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Investment Valuation and Income Recognition - Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair market value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable – Amounts payable to participants for contributions in excess of amounts allowed by the Plan were recorded as a liability as of December 31, 2016 and 2015. The Plan returned the excess contributions to the participants in the early months following each year-end.

Subsequent Events – Subsequent events were evaluated through October 6, 2017, which is the date the financial statements were available to be issued.

Reclassification – Certain items from the 2015 financial statements have been reclassified to conform with 2016's presentation. There was no effect on assets available for benefits.

NOTE 3 - INFORMATION PREPARED AND CERTIFIED BY TRUSTEES

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustees in 2016 and 2015:

	2016	2015
Investments, at Fair Value	$ 2,995,516	$ 3,237,167
Investments, at Contract Value	212,731	-
Notes Receivable from Participants	152,328	82,685
Interest and Dividend Income	80,713	203,268
Net Appreciation (Depreciation) in Fair Value of Investments	77,289	(232,252)

NOTE 4 - TAX STATUS

The Plan used a prototype plan sponsored by Automatic Data Processing (ADP) until May 2016, when it adopted a prototype plan sponsored by the Great West Trust Company LLC. The Internal Revenue Service approved the prototype plans under their volume submitter program. The Plan administrator believes the Plan is designed and operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE 5 - RELATED PARTY TRANSACTIONS

In 2016, the Plan invested in shares of a guaranteed investment contract managed by Empower Retirement, an investment management subsidiary of Great West Trust Company LLC. Great West Trust Company LLC is the trustee of the Plan and, therefore, these transactions qualify as parties-in-interest transactions.

In 2015, the Plan invested in shares of money funds managed by State Street Global Advisors, an investment management subsidiary of State Street Bank and Trust Company. State Street Bank and Trust Company was the trustee of the Plan and therefore, these transactions qualified as parties-in-interest transactions.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with these investments, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts.

NOTE 8 - RECENT ACCOUNTING STANDARDS UPDATES

Plan Investment Disclosures

In 2015, the Plan early adopted ASU 2015-12 Plan Accounting: Defined Contribution Pension Plans (Topic 962) which is effective for fiscal years beginning after December 15, 2015. The ASU eliminates the disclosure requirements to: disaggregate assets measured at fair value by nature, characteristics and risks, identify investments that represent five percent or more of the net assets available for benefits, and the net appreciation or depreciation in fair value of investments by general type.

Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share

In 2015, the Plan early adopted ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent, which is effective for fiscal years beginning after December 15, 2016. ASU 2015-07 eliminates the requirement to categorize investments in the fair value hierarchy if the fair value is measured at net asset value (NAV) per share (or its equivalent) using the practical expedient in the FASB's fair value measurement guidance.

NOTE 9 - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value.

NOTE 9 - FAIR VALUE MEASUREMENTS (Continued)

Level 1 Fair Value Measurements

The fair value of mutual funds and money market funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of mutual funds are based on the closing prices reported on the active market where the individual securities are traded. The reported values for fixed annuity insurance contracts are reported daily based on the valuation method disclosed in the annuity contract, as calculated by the annuity provider.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and December 31, 2015:

	Fair Value	Fair Value Measurements Using Quoted Prices in Active Markets for Identical Assets (Level 1)
December 31, 2016		
Mutual Funds	$ 2,995,516	$ 2,995,516
Total Investments at Fair Value	**$ 2,995,516**	**$ 2,995,516**
December 31, 2015		
Mutual Funds	$ 2,950,782	$ 2,950,782
Common/Collective Trust*	286,385	-
Total Investments at Fair Value	**$ 3,237,167**	**$ 2,950,782**

*Common/Collective Trust measured at fair value using the net asset value per share (or its equivalent) as a practical expedient has not been categorized in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the amounts presented on the statements of net assets available for benefits.

NOTE 10 - GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2016, the Plan entered into a traditional fully benefit-responsive guaranteed investment contract with Great West Trust Company LLC (Great West). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract meets the criteria to be considered fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statements of net assets available for benefits at contract value. Contract value, as reported to the Plan by Great West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2016 was $212,731. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than .54%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the Plan's ability to transact at contract value Great West. Such events include the following: (a) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.
