Saline County Medical Center Retirement Plan

Notes to Financial Statements

December 31, 2016 (Date of Dissolution) and 2015

Note 1: Description of the Plan

The following description of the Saline County Medical Center Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document and *Summary Plan Description* for a more complete description of the Plan's provisions, which are available from the Plan Administrator.

Saline Memorial Hospital, the Plan Sponsor, entered into a partnership with RCCH HealthCare Partners, Inc. (RCCH) in 2016. On July 27, 2016, the Plan agreement was amended whereby Capella Healthcare, Inc., a wholly owned subsidiary of RCCH, became the sponsor of the Saline County Memorial Center Retirement Plan. Also effective July 27, 2016, the Plan was frozen to new entrants and contributions to the Plan ceased.

At the close of business on December 31, 2016, the Saline County Medical Center Retirement Plan was merged into the RCCH Healthcare Partners 401(k) Plan and total plan assets of $21,603,816 are shown as a transfer out in the statements of changes in net assets available for benefits.

General

The Plan was a defined contribution plan sponsored by Capella Healthcare, Inc., a member of the RCCH's controlled group (the Medical Center) (formerly Saline County Medical Center), for the benefit of its employees who had at least one year of eligible service and were age 21 or older. The Plan was subject to the provisions of ERISA. Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust) were the trustees of the Plan and served as plan custodians.

Contributions

The Plan permitted eligible employees through a salary deferral election to have the Medical Center make annual contributions of up to 20 percent of eligible compensation. Employee rollover contributions were also permitted. The Medical Center made matching contributions of 100 percent of employees' salary deferral amounts up to 5 percent of employees' compensation. Contributions were subject to certain limitations.

Participant Investment Account Options

Investment account options available included various funds. Each participant had the option of directing his or her contributions into any of the separate investment accounts and could change the allocation daily.

Participant Accounts

Each participant's account was credited with the participant's contribution, the Medical Center's contribution and Plan earnings. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled is the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their voluntary contributions plus earnings thereon. Effective January 1, 2008, participants were immediately vested in the Medical Center's contribution portion of their accounts plus earnings thereon.

Payment of Benefits

Upon termination of service, an employee could elect to receive either a lump-sum amount equal to the value of his or her account or a joint and survivor annuity.

Notes Receivable from Participants

The Plan Document included provisions authorizing loans from the Plan to active eligible participants. Loans were made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan was $1,000. The maximum amount of a participant's loan was determined by the available loan balance restricted to the lesser of $50,000 or 50 percent of the participant's vested account balance. All loans were covered by demand notes and were repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant was paying the loan in full. Interest on the loans was based on local prevailing rates as determined by the Plan Administrator.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Quoted market prices, if available, were used to value investments. Mutual funds were valued at the net asset value (NAV) of shares held by the Plan at year-end. Guaranteed interest accounts were valued at estimated fair value as provided by Principal Life Insurance Company (the Insurer). Pooled separate accounts and the collective trusts were valued at NAV. The NAV is used as a practical expedient to estimate fair value of the pooled separate accounts and the collective trusts. Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net appreciation was included in the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan Document.

Payment of Benefits

Benefit payments to participants were recorded upon distribution.

Administrative Expenses

Administrative expenses could be paid by the Medical Center or the Plan, at the Medical Center's discretion.

Note 3: Certification of Plan Trustees and Custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Principal Trust, the trustees and custodians of the Plan, have certified the following information included in the accompanying financial statements is complete and accurate:

- Investments and notes receivable from participants as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Investment income and interest income from notes receivable from participants as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

Note 4: Contracts with Insurance Company

The Medical Center had multiple investment contracts with the Insurer. The Medical Center had three-year contracts with guaranteed interest rates ranging from 0.25 percent to 0.84 percent, and five-year contracts with guaranteed interest rates ranging from 0.36 percent to 1.35 percent. The Insurer maintained the contributions in a general account. The account was credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer was contractually obligated to repay the principal and a specified interest rate guaranteed to the Plan. The guaranteed investment contracts were not fully benefit responsive.

Note 5: Related Party Transactions and Party-in-Interest Transactions

Party-in-interest transactions included those with fiduciaries or employees of the Plan, any person who provided services to the Plan, an employer whose employees were covered by the Plan, an employee organization whose members were covered by the Plan, a person who owned 50 percent or more of such an employer or employee association or relatives of such person.

The Plan invested in certain funds of the Plan trustees/custodians. The Plan paid $15,194 and $23,023 of recordkeeping fees to Principal Trust during 2016 and 2015, respectively. The Medical Center provided certain administrative services at no cost to the Plan.

Note 6: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2015:

		Fair Value Measurements Using		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2015				
Mutual funds	$ 3,137,189	$ 3,137,189	$ -	$ -
Guaranteed interest accounts	1,206,210	-	-	1,206,210
Total assets in the fair value hierarchy	4,343,399	$ 3,137,189	$ -	$ 1,206,210
Common collective trust [(A)]	10,589,337			
Pooled separate accounts [(A)]	6,646,443			
	$ 21,579,179			

(A) Certain investments that were measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts included above are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of changes in net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There were no significant changes in the valuation techniques during the year ended December 31, 2015. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices were available in an active market, securities were classified within Level 1 of the valuation hierarchy. If quoted market prices were not available, then fair values were estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities were classified in Level 2 of the valuation hierarchy.

In certain cases where Level 1 or Level 2 inputs were not available, securities were classified within Level 3 of the hierarchy. Level 3 securities included the guaranteed interest accounts. See the table below for inputs and valuation techniques used for Level 3 securities.

Fair value determinations for Level 3 measurements of securities were the responsibility of the Medical Center. The fair value of the guaranteed investment contracts was provided by the Insurer.

The Medical Center challenged the reasonableness of the assumptions used and reviewed the methodology to ensure the estimated fair value complied with accounting standards generally accepted in the United States.

Level 3 Reconciliation

The following is a reconciliation of the beginning and ending balances of recurring fair value measurements recognized in the accompanying statements of net assets available for benefits using significant unobservable (Level 3) inputs:

	Guaranteed Interest Accounts
Balance, January 1, 2015	$ 1,317,285
Purchases	370,434
Sales	(486,831)
Earnings	5,322
Balance, December 31, 2015	1,206,210
Purchases	231,812
Sales	(355,662)
Earnings	5,967
Transfer to related entity plan	(1,088,327)
Balance, December 31, 2016	$ 0

Realized and unrealized gains and losses included in net increase in net assets available for benefits for the period January 1, 2015 through December 31, 2016, were reported in net appreciation in fair value of investments in the statements of changes in net assets available for benefits.

Unobservable (Level 3) Inputs

The following table presents quantitative information about unobservable inputs used in recurring Level 3 fair value measurements at December 31, 2015:

	Fair Value at 12/31/15	Valuation Technique	Unobservable Inputs	Range (Weighted Average)
Principal Guaranteed Interest Accounts	$ 1,206,210	Discounted cash flows	Interest rate Prepayment penalty	0.57%

Investment Measured Using NAV per Share Practical Expedient

The following table summarizes the investment for which fair value was measured using NAV per share practical expedient as of December 31, 2015. There were no participant redemption restrictions for these investments; the redemption notice period was applicable only to the Plan.

	December 31, 2015			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 6,646,443	N/A	Daily	None
Common collective trusts	$ 10,589,337	N/A	Daily	None

Note 7: Tax Status

The Plan operated under a nonstandardized adoption agreement in connection with a prototype retirement plan document sponsored by Principal Life Insurance Company. This prototype plan document had been filed with the appropriate agency. The Plan had not obtained or requested a determination letter. However, the Plan Administrator believes that the Plan was designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 8: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:

	2016	2015

The following is a reconciliation of employer contributions per the financial statements for the years ended December 31, 2016 and 2015, to Form 5500:

	2016	2015
Employer contributions per the financial statements	$ 477,033	$ 882,130

The following is a reconciliation of transfers to related entity plan per the financial statements for the years ended December 31, 2016 and 2015, to Form 5500:

	2016	2015
Transfer to related entity plan per the financial statements	$ (21,603,816)	$ -
Other miscellaneous adjustments	(6,787)	-
Transfer to related entity plan per Form 5500	$ (21,610,603)	$ -

Note 9: Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.
