CPRIME 401(k) PLAN
Notes to Financial Statement
December 31, 2016

NOTE 1: DESCRIPTION OF PLAN

The following brief description of Cprime 401(K) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan was established on May 1, 2008, under the provisions of Section 401(k) of the Internal Revenue Code and is a defined contribution plan for eligible employees, as defined in the Plan Document, of CPRIME, INC (the Company and plan Sponsor). The Chief Executive Officer of the Company serves as the Trustee and is responsible for administration and management of the Plan. The Plan is subject to the provisions of The Employment Retirement Income Security Act of 1974 (ERISA) and is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC).

Plan administration:

The plan is administered by Cprime, Inc. The Trustee of the plan is John Hancock Life Insurance Co and the third-party administrators are Retirement Administration, Inc.

Eligibility:

Employees become eligible to participate once they have attained the age of twenty-one and after they have completed one year of service. Employees may enroll in the Plan on the first day of the month following the day in which they meet the eligibility requirements.

Contributions:

Each year, participants may contribute any percent of pretax annual compensation as defined in the plan document, and subject to limits as established by Internal Revenue Service. The limit was $18,000 for 2016. In addition, participants age 50 or older before the end of the Plan year, are able to make catch-up contributions. The catch-up dollar limit for 2016 was $6,000.

The Plan also allows for an additional discretionary profit sharing contribution subject to the following conditions:

- Participants employed on the last day of the Plan Year will share if completed a Year of Service during the Plan Year.
- If terminated, (not employed on the last day of the Plan Year), participants must complete a Year of Service during the Plan Year.

- Participants will share in the profit sharing contribution for the year regardless of the amount of service you complete during the Plan Year in the year of your death, disability or retirement.

The Company did not make any profit-sharing contributions during the year ended December 31, 2016.

Investment:

A Participant could direct the investment of all their contributions to any of the investment options offered by the Plan. Participants may change their investment options any time directly through the Custodian.

Vesting and Forfeitures:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant starts to vest 20% after two years of service and additional 20% each year thereafter and is 100% vested after six years of credited service. In case of retirement, disability or death, the participant becomes 100% vested. If a non-vested participant was terminated from the Plan, the participant would forfeit their account. Such forfeitures will be applied towards administrative expenses, and remaining forfeitures will be used to reduce any Employer contribution. At December 31, 2016, the forfeiture account held nil balance.

Individual Participant Account:

Each participant's account is credited with the participant's contribution, allocation of Company's discretionary profit sharing contributions and an allocation of the Company's matching contributions and Plan earnings. Further, the participant's account is charged with withdrawals and allocations of Plan losses and administrative expenses. Allocations are based on the participant's earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants Loans:

The Plan provides that participants may borrow from their fund accounts a minimum of $1,000 up to maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan issuances are accounted for as a transfer from the participant directed

accounts into Notes Receivable from participant. Loan terms range from one to five years, or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at market rates for similar loans. Loans issued to the participants during 2016 bear an interest rate of 4.25%. Principal and interest is paid ratably through bi-weekly payroll deductions.

Payment of Benefits:

Upon termination of service due to death, disability, retirement or any other reason, a participant with account balance of $5,000 or greater could elect to receive either a lump-sum amount equal to the value of his or her vested interest in their 401(k) account or rollover their vested account balance to some other eligible retirement plan or may leave the vested portion in the Plan. Terminated participants whose account balance is less than $5,000 receive a lump-sum distribution. Participants may also receive in-service distributions due to hardship or after attaining age 59½. Participants who are still employed and have reached age 70½ may defer receiving benefit payments until they are no longer employed.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Administrative expenses:

Administrative expenses for loan processing are charged to the account of the participant requesting a loan. All other administrative expenses are paid by the Company. This amounted to $ 2,812 for the year 2016. The Company provides bookkeeping and other administrative services for Plan at no charge.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting:

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts of net assets available for benefits,

changes therein and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuations and Income Recognition:

The plan's investments were stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchase and sales of securities were recorded on a trade date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation (depreciation) of investments and net realized gains and losses on the sale of investments during the period.

Distributions to Participants:

Distributions to participants were recorded when paid.

Notes receivable from Participants:

Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Subsequent Events:

The Plan has evaluated subsequent events through October 13, 2017, which is the date the financial statements were available to be issued. The Plan has concluded that no events or transactions have occurred which would require adjustments or disclosures in the financial statements.

Risk and Uncertainties:

The Plan provides for various investment options in any combination of investment securities, including a group annuity contract and registered investment companies. Investment securities are exposed to various risks such as interest rate, overall market volatility, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

Recently Adopted Accounting Guidance

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit –Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Plan management has elected to adopt Parts I and II in the current year and has implemented the guidance within these financial statements, including retrospective application to prior period presented. The primary impact of adoption resulted in the application of the simplified disclosure in Note 3 – Fair Value Measurements. There was no impact to total investments disclosed in the Plan's financial statements or the notes.

In May 2015, Financial Accounting Standards Board (FASB) issued accounting standards update to ASC Topic 820, No. 2015-07 entitled "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share or Its Equivalent". The amendments in the update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The Plan has adopted ASU 2015-07 in the current year and has implemented the guidance within these financial statements. The primary impact of adoption resulted in the application of the simplified disclosure in Note 3 – Fair Value Measurements. There was no impact to total investments disclosed in the Plan's financial statements or the notes.

NOTE 3: FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The Hierarchy gives the highest

priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the assets or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds

Mutual funds are registered with the U.S. Securities & Exchange Commission. The funds are valued at daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016.

	Assets at Fair Value as of December 31, 2016			
Description	Level 1	Level 2	Level 3	Total
Mutual Funds	$2,106,122	-	-	$2,106,122
Investments Total	$2,106,122	-	$ -	$2,106,122

NOTE 4: FEDERAL INCOME TAX STATUS

Effective May 1, 2008, the Plan adopted a non-standardized form of a prototype plan sponsored by John Hancock Life Insurance Co. The prototype plan has received an opinion letter dated March 31, 2014 from the Internal Revenue Service as to the prototype plan's qualified status under section 401(k) of the Internal Revenue Code (the Code) and therefore, is exempt from federal income taxes under Section 501(a) of the Code. The Plan is exempt from state taxes under similar statutes.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements.

NOTE 5: INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the department of labor's rules and regulation for reporting and disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the plan's independent auditors not to perform any auditing procedures with respect to the investment information which was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by John Hancock Life Insurance Co, the Custodian of the Plan’s assets.

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that have been prepared and certified to as complete and accurate by the trustees.

	2016
Investment, at fair value – Mutual Funds	$ 2,106,122
Participant Notes Receivable	49,026
Participant contributions receivable	769

The Custodian of the Plan also certified the completeness and accuracy of net appreciation (depreciation) in the fair value of investments including the investments bought and sold, as well as held during the year as well as interest income thereon. During the period ended December 31, 2016, the Plan's investments bought and sold, as well as held during the year appreciated by $ 163,431.

In addition, the Custodian certified notes receivable from participants of $49,026 at December 31, 2016, as well as interest income on notes receivable from participants of $1,096 for the year ended December 31, 2016.

NOTE 7: RELATED PARTY TRANSACTIONS

The Plan's investments in the registered investment companies are managed by John Hancock Life Insurance Co. John Hancock Life Insurance Co Company is the Custodian as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Any purchases and sales of these funds are performed in open market at fair value.

Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. The Plan issues loans to participants, which are secured by the balances in the participant's account. These transactions also qualify as party-in-interest transactions.
