In February 2016, the Company acquired the Spend and Clinical Resource Management ("SCM") and SG-2 businesses of MedAssets, Inc. Their 401(k) savings plans, MedAssets, Inc. Retirement Savings Plan, and the SG-2, LLC 401(k) Plan, were merged into the Plan effective December 31, 2016. Transfers totaling $149,735,644 were completed in December 2016 from the MedAssets, Inc. Retirement Savings Plan and transfers totaling $18,805,754 were completed in January 2017 from the SG-2, LLC 401(k) Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Participants should refer to the Plan document and the Summary Plan Description for a more complete description of the Plan's provisions.

Eligibility

Full-time or part-time employees of the Companies who have attained the age of eighteen are eligible to participate in the Plan upon employment regardless of length of service.

Contributions

Participants may contribute up to 100% of eligible salary on either a pre-tax or after-tax basis, provided they are non-highly compensated employees, as defined. Highly compensated employees, as defined, may only contribute up to 10% of eligible salary on a pre-tax or after-tax basis. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Employers' matching contribution is equal to 50% of a participant's contribution up to 6% of eligible salary plus 100% of a participant's contribution in excess of 6% of eligible salary, but not to exceed 10% of eligible salary. Total employee pre-tax contributions were limited to $18,000 in 2016. New hires are automatically enrolled at a contribution of 5% of eligible salary unless they opt out of the Plan. Participants can change their deferral election at any time.

The Plan also offers catch-up pre-tax contributions up to an annual maximum of $6,000 for 2016 for participants who attain age 50 during the plan year or are older than age 50. No employer matching contribution will be made with respect to catch-up contributions.

Investment Options

Participants may elect to allocate their account balances in whole percentage points among various investment options.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts and Vesting

Participant accounts are credited with the participants' contributions, the Employers' matching contributions, and allocations of earnings and losses attributed thereto and charged with an allocation of administrative expenses. Allocations of earnings and losses and administrative expenses are based on participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. Participants are immediately vested in their voluntary contributions and related earnings. Vesting in the Employers' matching contributions and related earnings occurs at the rate of 20% per year of service. The forfeited non-vested portion of the Employers' contributions and related earnings of terminated employees is used to reduce future Employer matching contributions and to pay other fees in accordance with the Plan document. The Employers used forfeitures of $469,129 in 2016 to reduce Employers' matching contributions. At December 31, 2016 and 2015, forfeited, non-vested accounts totaled $777,349 and $38,062, respectively.

Benefits

Upon termination of employment, death, disability, or retirement, a participant or designated beneficiary may elect to receive the vested portion of his or her account as soon as practical. If a participant's account is $1,000 or less, the balance of such account will automatically be distributed in a lump-sum amount upon meeting one of the conditions above. In-service distributions are available at the age of 59½ or in the event of financial hardship, subject to certain restrictions. Terminated vested employees at the age of 70 ½ must start Required Minimum Distributions (RMD's), as defined, from the Plan.

Notes Receivable from Participants

A participant may borrow a minimum of $500, up to a maximum of $50,000 (or, if less, 50% of the vested account balance) at an interest rate equal to the Prime rate plus 2%. A participant may have only one loan outstanding at any time except such loans rolled over in 2015 from the University HealthSystem Consortium consolidated retirement program. Loan terms range from up to five years for a standard loan or up to ten years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions or can be made directly from the participant's bank.

Plan Termination

Although they have not expressed any intent to do so, the Companies have the right under the Plan to amend, modify, suspend, or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants become 100% vested in their accounts. Any such action does not deprive any participant of any vested rights or result in the funds held in trust being used for purposes other than provided by the Plan. No part of the assets of the Plan may be used for, or diverted to, any purpose other than the exclusive benefit of all participants at any time prior to satisfaction of all liabilities with respect to such participants.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Administration

Vanguard Fiduciary Trust Company ("Vanguard") is the trustee and recordkeeper of the Plan.

The administrative expenses are paid by the Plan unless paid by the Companies. Investment advisory fees for portfolio management are paid directly from fund earnings; they are included in mutual fund expense ratios which are included in net appreciation in fair value of investments.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). See Note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date, and interest income is recorded on the accrual basis. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

Collective Trust

The Vanguard Retirement Savings Trust includes security-backed investment contracts including synthetic investment contracts ("SICs"), guaranteed investment contracts ("GICs") and cash equivalents. These contracts are composed of underlying assets and a wrapper contract issued by a responsible third party. The issuer of the wrapper contract provides for withdrawals at contract value for any normal benefit responsive requirements. Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events include termination of the Plan, a material adverse change to the provisions of the Plan, or the Employer elects to withdraw from a wrapper contract. The Plan's management is not aware of the occurrence or likely occurrence of any such events, which would limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the Plan's ability to transact at contract value with participants.

These investment contracts may have elements of risk due to the lack of a secondary market and resale restrictions which may result in the inability of the guaranteed investment contracts to be sold at a fair price and may substantially delay the sale of these contracts.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. The Plan has adopted Part I and II in the current year. Part III is not applicable to this Plan. Accordingly, the amendments were retrospectively applied as follows:

- Investments, presented by general type in the fair value table instead of by nature, characteristics, and risk (Part II).

NOTE B - SIGNIFICANT ACCOUNTING POLICIES - Continued

- Eliminated the individual investments that represent 5% or more of the Plan's net assets disclosure (Part II).
- Eliminated investment strategy disclosure for the Collective Trust (Part I).
- Eliminated the average yield disclosure related to the Collective Trust (Part I).

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on an accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the Plan document.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Benefit Payments

Benefit payments to participants under the Plan are recorded when paid.

NOTE C - INFORMATION CERTIFIED BY THE TRUSTEE

All information related to investments and notes receivable from participants disclosed in the accompanying financial statements, notes, and supplemental schedules, including investments held at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the year ended December 31, 2016, was obtained or derived from information supplied to the Plan's administrator and certified as complete and accurate by Vanguard, the trustee of the Plan. Accordingly, at the request of the Plan administrator, the Plan's independent certified public accountants performed no audit procedures on the certified information other than to agree the Plan's related financial statement information to the certified information.

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from the trustee of the Plan that all of the information provided is complete and accurate. Information in the accompanying financial statements and the information reported in this Note is presented in sole reliance upon that certification.

NOTE D - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. Accounting guidelines specify a hierarchy of valuation classification based on whether the inputs to the valuation techniques used in each valuation classification are observable or unobservable.

These classifications are summarized in the three broad levels listed below:

- Level 1 - Quoted prices for identical instruments in active markets
- Level 2 - Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs and significant value drivers are observable in active markets
- Level 3 - Valuations derived from valuation techniques in which significant inputs or significant value drivers are unobservable.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

These levels are not necessarily an indication of the risk or liquidity associated with the investments. In determining the appropriate levels, management performed a detailed analysis of the assets measured at fair value. The determination of where an asset falls in the hierarchy requires significant judgment, resulting in transfers between levels. The Plan evaluates its hierarchy disclosures periodically and based on various factors, it is possible that an asset may be classified differently from period to period. The following is a description of the valuation methodologies used for the Plan's investments measured at fair value and the general classification of such investments pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: The fair values of mutual funds are based on their quoted market prices and net asset values and are classified within Level 1 of the fair value hierarchy. There are no redemption restrictions on any of the Plan's investments. Mutual funds are traded in an active market.

Collective Trust Fund: The collective trust fund is valued at NAV. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. The common/collective trust is classified within Level 3 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Fair Value Measurements at December 31, 2016		
	Level 1	Level 3	Total
Mutual funds	$456,089,465	$ -	$456,089,465
Collective trust fund	-	38,415,823	38,415,823
Total assets at fair value	$456,089,465	$38,415,823	$494,505,288

NOTE D - FAIR VALUE MEASUREMENTS - Continued

	Fair Value Measurements at December 31, 2015		
	Level 1	Level 3	Total
Mutual funds	$296,998,767	$ -	$296,998,767
Collective trust fund	-	23,431,463	23,431,463
Total assets at fair value	$296,998,767	$23,431,463	$320,430,230

Changes in the fair value of the Plan's assets classified within Level 3 of the fair value hierarchy for the year ended December 31, 2016 were as follows:

	Collective Trust Fund
Balance as of January 1, 2016	$23,431,463
Interest and dividend income	479,816
Purchases, sales, repayments and settlements	
Purchases	16,418,946
Sales	(1,914,402)
Balance as of December 31, 2016	$38,415,823

NOTE E - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in the mutual funds and collective trust are managed by Vanguard; therefore, these transactions qualify as party-in-interest transactions. In addition, notes receivable from Plan participants are considered party-in-interest transactions. Certain fees paid to the Plan trustee and recordkeeper for investment management services are incorporated into the expense ratios of the individual mutual funds and paid directly from fund earnings; therefore, these transactions qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from prohibited transaction rules.

NOTE F - INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service ("IRS") on January 22, 2009 stating that the Plan, and related trust, is designed in accordance with applicable sections of the Internal Revenue Code (the "Code"). Although the Plan has been amended since the date of the letter, the Plan's administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Code and therefore, the Plan and related trust are exempt from taxation.

NOTE F - INCOME TAX STATUS - Continued

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

NOTE G - SUBSEQUENT EVENTS

The Plan evaluated subsequent events through October 13, 2017, the date these financial statements were available to be issued, and noted no other events requiring recognition or disclosure.
