Note A. Description of the Plan

The following description of Labcon, North America 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General

The Plan was established in 1994 as a defined contribution retirement plan covering all full-time employees of Labcon, North America (the "Employer"), who have completed three months of service. There is no age requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Employer is the Plan Sponsor and serves as Plan Administrator.

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Employer contributes 50 percent of the first 7 percent of base compensation that a participant contributes to the Plan as a discretionary matching contribution. Additional amounts may be contributed at the option of the Employer. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Employer's contributions and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance. The investment direction for the account is provided by the participant.

Vesting

Participants vest immediately in their contributions, rollover and transfer contributions, and the actual earnings and losses thereon. Vesting in the Employer's matching contribution and the Employer's non-elective contribution portion of the participant's account plus actual earnings thereon is based on years of continuous service. Participants become 100% vested after five years of credited service.

Note A. Description of the Plan (continued)

Notes Receivable from Participants

Participants may borrow from their vested account balances subject to certain limits set forth in the Plan document and the IRC and the approval of the Employer. The amounts borrowed are secured by the participants' vested account balances. The notes bear a fixed interest rate equal to the prime rate plus two percent at the time that the loan is made. Note repayments are made by payroll deductions in equal installments over the term of the note. Failure to comply with note terms may result in deemed distributions to participants.

Payment of Benefits

Upon termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum payment in an amount equal to the value of the participant's vested portion of his or her account. In the event of termination of employment before retirement, a participant will be entitled to receive his or her vested account balance. If a terminated participant's vested account balance is greater than $5,000, such participant may leave his or her funds in the Plan. If the terminated participant's vested account balance is equal to or less than $5,000, the Employer may elect to distribute the participant's funds without consent. Participants may withdraw all or a portion of their vested account balances for specific hardship reasons, subject to approval of the Employer.

Forfeited Accounts

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $3,288 and $2,607. respectively. These accounts will be used to first reduce employer contributions and secondarily pay Plan expenses.

Note B. Summary of Significant Accounting Policies

Basis of Accounting

The Plan’s financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") require the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan did not have any excess contributions payable to participants at December 31, 2016.

Note B. **Summary of Significant Accounting Policies** (continued)

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued interest. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan payments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements.

Securities transactions are accounted for on the trade date (the date the order to buy or sell is executed). Net appreciation in fair value of investments includes the change in market value of all Plan investments (including investments bought and sold as well as those held during the year) and all gains and losses, including amounts reinvested.

Benefits Paid to Participants

The payment of benefits to participants is recorded upon the cash payment of such benefits or when a deemed distribution of a participant loan occurs.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Employer. Expenses that are paid by the Employer are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included as a reduction of net appreciation of fair value of investments.

New Accounting Pronouncement

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for fiscal years beginning after December 15, 2016 for non-public entities. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this update for the 2016 plan year, and it was retrospectively applied to December 31, 2015. Prior year disclosures have been revised to reflect the retrospective application of this update. The impact of adopting this update is reflected in Note D.

Note C. Information Certified and Provided by the Custodian

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, that was prepared by or derived from information provided by Charles Schwab Bank (the "Custodian") and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Charles Schwab that information provided to the Plan Administrator is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets at December 31:

	2016	2015
Mutual funds	$ 8,973,051	$ 7,847,754
Collective trust fund	1,363,331	1,448,148
Self-directed brokerage accounts	283,631	252,589
Noninterest bearing cash	2,430	1,562

The Custodian also certified the completeness and accuracy of $256,847 of net appreciation in the fair value of investments and $505,938 of interest and dividend income related to the assets listed above for the year ended December 31, 2016.

Note D. Fair Value Measurements

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability ("exit price") in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. GAAP requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs to determine the exit price. The Plan categorizes its financial instruments, based on the priority of inputs to the valuation technique, into a three-level hierarchy, as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Include primarily common stocks and other securities which are valued at the closing price reported on the active market on which the individual securities are traded.

Note D. **Fair Value Measurements** (continued)

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective or future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,973,051	$ -	$ -	$ 8,973,051

Fair value of investments in entities that use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Period Notice
Metlife Stable Value	$ 1,363,331	n/a	Daily	None

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015:

	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Period Notice
Metlife Stable Value	$ 1,448,148	n/a	Daily	None

Note E. **Related Party Transactions**

Certain Plan investments are mutual funds managed by the custodian or an affiliated entity, and therefore these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each fund. Certain administrative fees related to the administration of the Plan were paid by the Plan or by the Employer. These transactions qualify as party-in-interest transactions.

Note F. Plan Termination

Although the Employer has not expressed any intent to do so, the Employer has the right under the Plan to discontinue, amend or modify and terminate the Plan without any liability for such termination subject to the provisions of ERISA. In the event of a Plan termination, participants would become 100% vested in any unvested portion their accounts.

Note G. Income Tax Status

The Plan document is a volume submitter plan that received a favorable opinion letter from the Internal Revenue Service ("IRS") on March 31, 2014. The Plan has never requested a tax determination letter from the IRS. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with applicable provisions of the IRC and that the related trust was tax exempt as of the financial statement date.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note H. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note I. Subsequent Events

The Plan has evaluated subsequent events through October 11, 2017, the date on which the financial statements were available to be issued.

As of the date the financial statements were available to be issued, several counties in Northern California have experienced severe property damage because of wildfires starting approximately October 8, 2017. There could be a significant decline in plan assets as a result of adverse financial conditions of plan participants. Any specific monetary amount is currently unknown.
