Henkel of America Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Henkel of America Retirement Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by State Street Bank and Trust Company, N.A. and Prudential Insurance Company of America, the trustees of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained a certification from the trustees as of December 31, 2016 and 2015 and for the years then ended, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matters

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2016, is required by the DOL's Rules and Regulations for Reporting and Disclosures under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

The supplemental schedule, Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2016 that accompanies the Plan's financial statements does not disclose the historical cost of certain nonparticipant directed plan assets held by the Plan custodian. Disclosure of this information is required by the DOL's Rules And Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, except for the omission of the information discussed in the Other Matters paragraph, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of Plan

The following description of the Henkel of America Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan established in 1977, covering non-union employees of Henkel of America, Inc. (the "Company") who were hired prior to January 1, 2003. The Henkel of America, Inc. Benefits Administrative Committee (the "Committee") and the plan administrator control and manage the operation and administration of the Plan. State Street Bank and Trust Company, N.A. ("State Street") and Prudential Insurance Company of America ("Prudential") (collectively, the "Trustees") serve as the trustees of the Plan. The Plan's investments are held primarily in the Henkel of America Master Trust (the "Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2003, the Plan was frozen to participation. Effective September 2, 2013, the Plan was amended to allow for certain terminated vested participants to receive a distribution of their vested benefits if certain requirements were met.

The Plan was restated as of January 1, 2015.

Pension Benefits

Eligible participants with five or more years of service are fully vested and entitled to pension benefits (beginning at normal retirement age, which is 65) equal to 1.15% of their average monthly compensation for the 35 year period ending with the calendar year in which the participant attains their Social Security Retirement Age, plus 0.4% of that portion of the participant's average monthly compensation, if any, that exceeds covered compensation as defined by the Plan (maximum 30 years). Reduced early retirement benefits may be elected by a participant based upon the qualifications of the predecessor plan to which they participated. Former participants of certain predecessor plans shall have their benefit calculated under this Plan offset by their benefit under the predecessor plan, as defined.

Generally, payment of benefits will be in the form of a single life annuity for unmarried participants and a joint and survivor annuity for married participants, unless the participant, with spousal consent, elects another form of benefit permitted by the Plan. Other forms of pension benefit payments are available at the participant's option. The distribution of a benefit to any participant entitled to receive a benefit will commence no later than April 1 of the following calendar year in which the participant (1) attains age 70½ or (2) the calendar year in which the participant retires.

Death and Disability Benefits

If a married vested participant dies prior to retirement, then a monthly survivor annuity is payable to the surviving spouse. If the participant dies after their earliest retirement age, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant retired on the day before his or her death. If the participant dies before their earliest retirement age, then the surviving spouse would receive the same benefit that would have been payable to the spouse had the participant survived to their earliest retirement age. If an active employee with five or more years of service dies after their earliest retirement age, then the surviving spouse is eligible to receive an additional supplemental death benefit, as defined in the plan document.

A participant who becomes disabled while an employee of the Company is eligible to receive a benefit commencing at normal retirement based on continuous service, determined as though the participant had continued in active employment to age 65.

Net Transfers (Out) In

Transfers in of $265,488 and transfers out of $2,459,673 as of December 31, 2016 represent reallocations of assets within the Master Trust between the Plan and any affiliated plan of the Company. As of December 31, 2015 there was a transfer in of $55,480.

Reclassification

Certain prior year disclosures have been reclassified to conform to the current year's presentation.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company, including actuarial fees, insurance premiums, legal fees, and accounting fees, are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in the plan interest in the Master Trust investment income (loss) presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

Investments in the Master Trust and the group annuity contract are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Committee determines the Plan's valuation policies utilizing information provided by the Trustees. See Note 6 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income (loss) includes the Plan's interest in the Master Trust's and the group annuity contract gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits presented below is based on an actuarial valuation as of January 1, 2016, prepared by the Plan's actuary, Mercer, using the present value of accrued benefits.

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits earned under the Plan are based on employees' compensation and years of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances such as retirement, death, disability, and termination of employment are included, to the extent they are attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present values of accumulated plan benefits as of January 1, 2016 is as follows:

Vested benefits:	
Retired participants and beneficiaries currently receiving benefit payments	$ 174,413,394
Other participants	222,493,984
Total vested benefits	396,907,378
Nonvested benefits	10,290,006
Actuarial present value of accumulated plan benefits	$ 407,197,384

The changes in actuarial present value of accumulated plan benefits for the year ended December 31, 2015 are as follows:

Actuarial present value of accumulated plan benefits, at beginning of year	$ 412,162,061
Increase (decrease) during the year attributable to:	
Benefits accumulated and experience gains or losses	10,407,306
Increase for interest due to decrease in discount period	20,983,739
Benefits paid	(29,986,061)
Change in actuarial assumptions	(6,369,661)
Actuarial present value of accumulated plan benefits, at end of year	$ 407,197,384

Significant assumptions underlying the actuarial computations for the year ended December 31, 2015 are as follows:

Interest rate	5.20% in 2015 and 5.30% in 2014
Mortality	RP-2014 Mortality Tables adjusted to remove post-2007 projection factors
Retirement age	Age 65

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The assumed rate of interest used to value the present value of accumulated plan benefits changed to 5.20% from 5.30% for the year ended December 31, 2015, the lump sum mortality, salary scale, retirement rates and withdrawal rates were updated, resulting in a decrease of $6,369,661 in the actuarial present value of accumulated benefits for the year ended December 31, 2015.

Recent Accounting Pronouncements

During February 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960); Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): Employee Master Trust Reporting.* ASU 2017-06 clarifies presentation requirements for a plan's interest in a master trust. The amendments also eliminate redundancy relating to 401(h) account disclosures. ASU 2017-06 is effective for fiscal years beginning after December 15, 2018. Early adoption is permitted. The amendment should be applied retroactively to each period for which financial statements are presented.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 11, 2017, the date the financial statements were available to be issued.

3. Related Party Transactions and Party In Interest Transactions

The Plan's investments are administered under a contract with State Street Bank and Trust Company, N.A. and Prudential Insurance Company of America, the trustees of the Plan. Contributions are held and managed by the Trustees, who invest cash received, interest, and dividend income and make distributions to participants. These transactions qualify as party in interest transactions which are exempt from the prohibited transactions rules of ERISA.

Certain expenses of the Trustees are paid by the Plan related to plan operations and investment activity described in Note 2. Additionally, certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

4. Funding Policy

The Plan's funding policy is for the Company to make annual contributions to the Plan as determined by the Plan's independent actuary in amounts necessary to provide the Plan with assets sufficient to fund participants' benefits by the time they retire. No participant contributions are permitted. The minimum funding requirements of ERISA were met for 2016 and 2015.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

5. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed subsequently).

3. All other vested benefits (that is, vested benefits not insured by the PBGC).

4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at the time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value by the Plan and in the Master Trust. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Short-term investments consist of cash and cash equivalents, foreign currencies, the State Street Short Term Investment Fund and U.S. Treasury Bills. The State Street Short Term Investment Fund is valued at net asset value ("NAV") of shares held at year end. Foreign currencies and U.S. Treasury Bills are valued based on quoted market prices in the active markets on which the individual securities are traded.

Common stocks are valued based on quoted market prices in the active markets on which the individual securities are traded.

Corporate debt obligations are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

The common collective trust funds are valued at the NAV of units of a bank collective trust. The commingled funds are valued at the NAV of the unit values of such funds held by the Plan at year end. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Were the Plan to initiate a full redemption of the collective trusts and commingled funds, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

U.S. government agency securities are valued using pricing models maximizing the use of observable inputs for similar securities.

The private equity limited partnerships are valued at NAV in a manner consistent with fair value guidance. The values assigned are based upon the general partners estimates and assessment of each underlying investment, incorporating valuation techniques that consider the evaluation of financing and sale transactions with third parties, EBITDA (earnings before interest, taxes, depreciation, and amortization) multiples, expected cash flows and market-based information, including comparable transactions, and performance multiples, among other factors. The Committee considers fair value measurements based on valuations provided by the general partners. The private equity limited partnerships have unfunded commitments and redemption restrictions and are classified as Level 3 in the fair value hierarchy. The redemption restrictions do not have a material impact on the stated NAV's of the limited partnerships, which represent fair value, as of December 31, 2016 and 2015.

The group annuity contract is valued at contract value which approximates fair value based on unobservable inputs, as observable inputs are not available, using valuation methodologies to determine fair value to include matrix pricing and other similar techniques.

Other investments include options on equity securities, valued based on other observable inputs directly or indirectly through corroboration with observable market data.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2016:

	Assets at Fair Value as of December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Prudential group annuity contract	$ -	$ -	$ 1,511,505	$ 1,511,505
Total assets, excluding Plan interest in Master Trust, at fair value	$ -	$ -	$ 1,511,505	$ 1,511,505

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements at December 31, 2015:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Prudential group annuity contract	$ -	$ -	$ 1,439,146	$ 1,439,146
Total assets, excluding Plan interest in Master Trust, at fair value	$ -	$ -	$ 1,439,146	$ 1,439,146

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016 and 2015, respectively.

	December 31, 2016			
	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Common collective trusts and commingled funds	$ 263,516,227	$ -	Daily	N/A

Common collective trusts and commingled funds	$ 270,903,850	$ -	Daily	N/A

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs and the ranges of values for those inputs.

	December 31, 2016			
Instrument	Fair Value	Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Prudential group annuity contract	$ 1,511,505	Discounted Cash Flow	Risk-adjusted discount rate	4.75 %
	December 31, 2015			
Prudential group annuity contract	$ 1,439,146	Discounted Cash Flow	Risk-adjusted discount rate	4.75 %

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended December 31, 2016 and 2015:

	Group Annuity Contract
Balance, December 31, 2014	$ 1,364,340
Interest and dividends	74,806
Balance, December 31, 2015	1,439,146
Interest and dividends	72,359
Balance, December 31, 2016	$ 1,511,505

7. Contract with Insurance Company

In 2016 and 2015, the Plan was invested in an unallocated group annuity contract with Prudential. The group annuity contract represents coverage for a small number of employees under a predecessor plan. The crediting interest rate and average yield was 4.75% for the years ended December 31, 2016 and 2015.

8. Interest in Master Trust

The Master Trust was established for the investment of the Plan's assets and other sponsored employee benefit plans of the Company. As of December 31, 2016 and 2015, the Plan's undivided interest in the net assets of the Master Trust was approximately 47% and 46%, respectively.

The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. Investment income and administrative expenses of the Master Trust are allocated to the participating plans based on the plans' proportionate beneficial interest in the Master Trust during the year.

The following table presents the net assets of the Master Trust as of December 31, 2016 and 2015:

	2016	2015
Investments:		
Short-term investments	$ 41,285,269	$ 19,813,530

Total net assets	$ 913,237,691	$ 901,958,129

During 2016 and 2015, the Master Trust's investments (including investments bought and sold, as well as held during the year) appreciated (depreciated) as follows:

	2016	2015
Net appreciation (depreciation) in fair value of investments:		
Corporate debt obligations	$ 18,060,429	$ (30,418,539)
Short term investments	10,686	(133)

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statement of Net Assets Available for Benefits.

The following table sets forth a summary of changes in the fair value of the Master Trust's Level 3 assets for the years ended December 31, 2016 and 2015:

	Private Equity Limited Partnerships
Balance, December 31, 2014	$ 15,758,405
Contributions	33,878
Distributions	(3,811,145)
Realized gains and losses	2,196,236
Interest and dividends	518
Expenses	(89,740)
Unrealized gains and losses	36,308
Balance, December 31, 2015	14,124,460
Contributions	19,453
Distributions	(2,786,852)
Realized gains and losses	906,967

Expenses	(74,042)
Unrealized gains and losses	(1,953,588)
Balance, December 31, 2016	$ 10,239,716

The amount of total gains or losses for the years ended December 31, 2016 and 2015 attributable to the change in unrealized gains or losses relating to assets still held at the reporting date were $(1,953,588) and $36,308, respectively.

9. Information Certified by Trustees

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2016 and 2015. Accordingly, State Street Bank and Trust Company, N.A., a trustee of the Plan, has certified to the completeness and accuracy of those investments held by the Master Trust reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2016 and 2015 and the related investment activity of the Master Trust reported in the Statement of Changes in Net Assets Available for Benefits for the years then ended.

Prudential Insurance Company of America, a trustee of the Plan, has certified to the completeness and accuracy of the group annuity contract reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2016 and 2015, the supplemental Schedule of Assets (Held at End of Year) as of December 31, 2016, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits of the income of the group annuity contract for the years ended December 31, 2016 and 2015.

10. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated August 3, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

11. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

In addition, the Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statement of Net Assets Available for Benefits.

As of December 31, 2016 and 2015, the Master Trust had investments of $193,620,689 and $113,671,361, respectively, that were concentrated in two funds in 2016 and one fund in 2015.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits and the changes in net assets available for benefits on the financial statements to Form 5500 at December 31, 2016 and 2015 and the year ended December 31, 2016:

	2016	2015
Net assets available for benefits on financial statements	$ 446,063,473	$ 434,699,210
Accrued administrative fees and expenses	768,877	406,643
Net assets available for benefits per Form 5500	$ 446,832,350	$ 435,105,853

	2016
Total net increase on the financial statements	$ 11,364,263
Plus: current year accrued administrative fees and expenses	768,877
Less: prior year accrued administrative fees and expenses	(406,643)
Total net increase on Form 5500	$ 11,726,497

Mortality sponsor elections

- Healthy and disabled participants: Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

417(e) lump sums: Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Cash balance plans

Rationale for Economic Assumptions

- **Discount Rate -** The discount rate assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.
- **417(e) lump sums –** The 417(e) lump sum assumptions for funding purposes are prescribed by IRS Section 430 and relevant regulations.
- **Cash balance interest accumulation rate** – The plan's interest crediting rate is based on a long-term outlook of the yield on thirty-year Treasury bonds based on Mercer Investment Consulting's Capital Market Outlook.
- **Salary increases** – The age-graded salary increases are based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this age-graded structure is representative of anticipated future experience.
- **Inflation** – The inflation assumption is based on the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
- **Social Security taxable wage base increases** – This assumption is equal to 75 basis points higher than inflation based on historical experience of national real wage growth.
- **Expected investment return –** The expected rate of return on plan assets for funding purposes is the median rate based on the hypothetical past performance of the plan's target asset mix, adjusted for current market conditions, and rounded to nearest ten basis points. The expected return on assets assumption is net of an adjustment for investment expenses assumed to be paid from plan assets.
- **Expenses –** Administrative expenses are not paid from the plan trust and are therefore assumed to be $0.

Rationale for Demographic Assumptions

- **Withdrawal:** Withdrawal rates are based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Disability incidence:** The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates multiplied by 82% because the plan's disability requirements are more stringent than Social Security Disability, which was the basis of the 1985 study.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Retirement Rates:** The retirement rates are based on a blend of the prior assumed retirement rates and those produced by an experience study undertaken in 2015 using data from plan years 2010 to 2014, which was given 50% credibility. The plan sponsor's expectation is that actual experience during the review period was lower than would reasonably be expected to continue into the future.
- **Vested terminated benefit commencement age:** Benefit commencement age for vested terminated participants is based on an experience study undertaken in 2015 using data from plan years 2010 to 2014. The plan sponsor believes that this period will be representative of anticipated future experience.
- **Percentage married/spouse age difference:** The assumptions regarding percent married/spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of payment:** The form of payment assumptions were changed in 2013 for all actives, future vested deferreds, future disabilities and future deaths following the plan's amendment to allow for lump sum payments for all participants upon termination. The new assumption places more emphasis on participants taking lump sums to reflect the availability of this new optional form and the plan sponsor's corresponding view on anticipated future experience.
- **Mortality for Funding:** The mortality assumption for funding purposes is prescribed by the plan sponsor through an election from allowable alternatives under IRS regulations.

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** Only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated January 1, 2010 and amended through January 1, 2016, are included in this valuation.

- **Most recent plan amendments included:** Amendment #3, adopted August 30, 2013.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over age 70.
    Deferred vested participants: Current deferred vested participants over normal retirement age are valued including a retroactive lump sum as of the valuation date. The amount of the lump sum is actuarially equivalent to a temporary life annuity of missed payments from age sixty-five to the valuation date.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
  - *Plan amendments:* See above.
  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
