Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Century Aluminum of West Virginia, Inc. Hourly Employees Pension Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2016 and 2015 and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by SEI Private Trust Company (the "Custodian"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Custodian holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2016 and 2015 that the information provided to the plan administrator by the Custodian is complete and accurate.

To the Plan Administrator
Century Aluminum of West Virginia, Inc.
Hourly Employees Pension Plan

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2016 and reportable transactions for the year ended December 31, 2016 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Century Aluminum of West Virginia, Inc. Hourly Employees Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of Century Aluminum of West Virginia, Inc. Hourly Employees Pension Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit pension plan and covers substantially all employees of Century Aluminum of West Virginia, Inc. (the "Company") who are represented by the United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industries and Service Workers International Union, AFL-CIO-CLC (the "Union"). The Plan is a "spin-off" of all active employees at the Ravenswood facility who were participants in the Kaiser Aluminum and Chemical Corporation Pension Plan (KAPP). In connection with the spin-off, the Company is responsible for the benefits of active participants of the Company who were formerly in KAPP. The spin-off met applicable government regulations. Represented employees hired after February 7, 1989 are eligible to participate in the Plan in accordance with the Plan's provisions.

In accordance with the Plan and the February 7, 1989 asset purchase agreement between the Company and Kaiser Aluminum and Chemical Corporation (KACC), the Plan grants credit for service under KAPP for the purpose of eligibility, vesting, and benefit accruals. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

On July 27, 2015, the Company announced the immediate and permanent closure of the Company's plant located in Ravenswood, West Virginia (Ravenswood). The Ravenswood smelter has been idled since February 2009. The decision to permanently close the Ravenswood smelter was based on the inability to secure a competitive power contract for the smelter, compounded by challenging aluminum market conditions largely driven by increased exports of aluminum from China. As a result, the economics of restarting and operating the facility are unfavorable. The Company does not believe the permanent closure of the Ravenswood plant will have a material impact on the Plan's financial statements.

Contributions - All contributions to the Plan are made by the Company. The Company contributes such amounts, as determined on an actuarial basis, to provide the Plan with assets sufficient to meet the projected benefits to be paid to plan participants. No participant contributions are permitted.

Funding - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. Annual contributions meet the minimum funding requirements of ERISA.

December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Pension Benefits - Retirement benefits under the Plan are based upon age attained and years of service. The collective bargaining agreement between the Company and the Union specifies the pension factors by job class, which are utilized in the determination of monthly benefits. Eligibility for normal retirement requires the participant to attain the age of 62 and have 10 years of service or to have 30 or more years of continuous service, but not to have attained age 62. The Plan permits early retirement at age 60, provided the participant has completed at least 10 years of continuous service. The Plan also provides for death and disability benefits. Participants become vested following the completion of five years of service.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by SEI Private Trust Company or its affiliates. SEI Private Trust Company is the trustee/custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Change in Accounting Principle - Beginning in 2016, the accumulated plan benefit information and the changes in accumulated plan benefit information have been disclosed on a beginning-of-the-year basis in the notes to the financial statements. Previously, such information was presented as of the end of the year. Accounting principles generally accepted in the United States of America and the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 allow disclosure of actuarial information as of the beginning or end of the year. The change did not have an impact on the net assets available for benefits or the changes in net assets available for benefits.

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. These include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Beneficiaries of employees who have died
- c. Present employees or their beneficiaries

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

Actuarial Assumptions - The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment.

The actuarial valuation was completed using the beginning-of-the-year method. Therefore, the accumulated plan benefits as of December 31, 2015 are presented from information provided by the actuary as of January 1, 2016. There has been no significant change in the Plan's provisions or coverage from December 31, 2015 to January 1, 2016.

The significant actuarial assumptions used in the valuation of the Plan at December 31, 2015 are summarized as follows:

Actuarial cost method	Unit credit actuarial cost method
Assumed rate of return	6.75 percent
Mortality basis	RP-2014 Mortality Table (adjusted to 2006), with blue collar adjustment, projected on a fully generational basis using Scale SSA
Incident of retirement	Early retirement age assumptions beginning at age 55 with full retirement at age 70

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Certain administrative costs, including custodial, retirement services, and Pension Benefit Guaranty Corporation (PBGC) fees and expenses, are paid by the Plan. All other administrative costs are paid by the Company.

Notes to Financial Statements

December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

Risks and Uncertainties - Contributions to the Plan and the plan benefit obligations are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the financial statements.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 4, 2017, which is the date the financial statements were available to be issued.

In January 2017, the Company completed the sale of substantially all of its assets and Century Aluminum, Inc. has accepted the assignment rights and delegation of obligations as the plan sponsor of the Plan from the Company.

Note 3 - Fair Value Measurements

Accounting standards require that certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Century Aluminum of West Virginia, Inc.

Hourly Employees Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at quoted prices reported in active markets.

U.S. Government Securities - U.S. government securities are valued using quoted market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 - Fair Value Measurements (Continued)

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer.

Note 4 - Unaudited Information

SEI Private Trust Company (the "Custodian") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedules of assets held at end of year and reportable transactions are based solely on information provided by the Custodian.

Note 5 - Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by consulting actuaries from PricewaterhouseCoopers, LLP. The calculation of the estimated present value of accumulated plan benefits attributable to participants in the Plan, which was made as of December 31, 2015, the most recent actuarial valuation, is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 38,589,769
Participants entitled to deferred benefits	4,707,159
Other vested participants	<u>181,752</u>
Total vested benefits	43,478,680

Nonvested benefits	<u>28,879</u>
--------------------	---------------

Total actuarial present value of accumulated plan benefits \$ 43,507,559

A summary of significant changes in the actuarial present value of accumulated plan benefits during the year ended December 31, 2015 is as follows:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 47,228,230
(Decrease) increase during the year attributable to:	
Net benefits accumulated (including actuarial gains and losses)	(348,235)
Increase for interest due to the decrease in the discount period	2,999,415
Changes in actuarial assumptions	(694,229)
Benefits paid	<u>(5,677,622)</u>
Net decrease	<u>(3,720,671)</u>

Actuarial present value of accumulated plan benefits - End of year	<u>\$ 43,507,559</u>
--	----------------------

Century Aluminum of West Virginia, Inc. Hourly Employees Pension Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 5 - Accumulated Plan Benefits (Continued)

The change in actuarial assumptions line item above is the result of a change in the mortality tables to better reflect anticipated plan experiences. The RP-2014 Mortality Table (adjusted to 2006), with blue collar adjustment, projected on a fully generational basis using Scale SSA was used as of December 31, 2015, whereas the RP-2000 Combined Mortality Table, with blue collar adjustment, projected on a fully generational basis using Scale SSA was used as of December 31, 2014.

Note 6 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 7 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Actuarial Methods for Funding Purposes

1. Actuarial Cost Method

The actuarial cost method is the Unit Credit Actuarial Cost Method.

Under this cost method, the target liability is defined as the present value of the accrued benefits on the valuation date. The funding shortfall is the excess, if any, of the amount by which the target liability exceeds the actuarial value of Plan Assets.

The target normal cost, determined on the valuation date, is the amount required to fund the benefit expected to be earned in the current year plus expected expenses.

2. Asset Valuation Method

Smoothed Method (for ERISA Funding purposes only):

Smoothed value method. Under this method the Plan Assets is equal to the average of the fair market value on the valuation date and the adjusted fair market value on each of the preceding two valuation dates, but not less than 90% nor more than 110% of the Fair Value of Assets. The adjusted fair market value as of any preceding valuation date is equal to the fair market value as of such date increased for contributions reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, decreased for benefit payments and expenses reflected in the fair market value of assets on the current valuation that were not reflected in the fair market value of assets as of such preceding valuation date, and adjusted for expected earnings (not in excess of the third segment rate with no phase-in applicable to the corresponding valuation date).

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods

Assumptions Rationale

Salary Increase	The salary increase rate assumption was selected by management based on expectations for future salary increases.
Mortality	The mortality assumption used is prescribed by IRC section 430(h).
Retirement Rates	The retirement rate assumption was selected by management based on historical experience and future expectations for retirements.
Withdrawal Rates	The turnover assumption was selected by management based on historical experience and future expectations for terminations.
Expected Return on Plan Assets	The Expected Return on Assets was selected by Century based on the Plan's asset mix and information from the Plan's asset advisors. We did not assess the reasonableness of this assumption as such an evaluation was not in scope.

Actuarial gains and losses resulting from plan experience differing from the assumptions above are monitored each year.

Summary of Plan Provisions (continued)

Accrued Retirement Benefit

The monthly pension is equal to Continuous Service times the applicable pension factor:

Job Class	Pension Factor
1 - 4	40.25
5 - 8	40.9
9 - 12	41.55
13 - 16	42.25
17 - 20	42.9
21 - 14	43.55
25 & over	44.25

Benefit Reductions

All retirement benefits are reduced by Public Pension, Severance Allowance and Disability Pension benefits paid or payable to the participant. In addition, retirement benefits will be reduced to the maximum annual benefit limitations of IRC Section 415 to the extent required under the Code.

Maximum Benefit

A participant's monthly benefit prior to reduction for Public Pension, Severance Allowance, Disability Payments and Primary Social Security Benefit is limited to 85% of a participant's high two year average pay in his last 10 calendar years prior to retirement, but not less than \$17 per year of continuous service.

The 85% factor is increased by 1% for each full year of Continuous Service over 30 years (maximum 100%).

Special Retirement Pension

Ten weeks vacation pay plus accrued vacation pay paid out of employer assets as a single sum at retirement in lieu of the first three months of pension benefits. This benefit is payable only to participants who qualify for Normal or Early Retirement.
