1. Description of Plan

The following description of the Air Techniques, Inc. Employee Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provision.

General – The Plan is a defined contribution plan and was established on January 1, 1990 to cover all non-union employees of Air Techniques, Inc. (the "Company") who have reached the age of 21 and who have completed 30 days of entry service, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Management is responsible for oversight of the Plan. The Plan Administrator determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to management.

Contributions – Each year, participants may contribute up to 90 percent of annual compensation on a pre-tax and/or after-tax (ROTH) basis, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Effective November 1, 2016, the Plan included an auto-enrollment provision whereby all eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated fund until changed by the participant. The Plan was also amended to include automatic increase of deferral amount by 1 percent of plan compensation for participants each plan year, but not to exceed 6 percent of plan compensation.

The Company may make a discretionary matching contribution to eligible employees each plan year based upon a formula, as defined by the Plan. Additional discretionary or nonelective contributions may be contributed at the option of the Company. No discretionary or nonelective contributions were made during 2016. The Company made matching contributions of $239,096 during the year ended December 31, 2016.

Participants direct the investments of their contributions and the employer contributions into various investment options offered by the Plan.

Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

1. Description of Plan *(continued)*

Participant's accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

On October 31, 2016, the Plan transferred all of its participants' accounts from Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the prior trustee, to Fidelity Management Trust Company, the current trustee. The funds transferred were held in a takeover account and applied to each participants' account in November 2016.

Vesting – Participant's contributions and earnings thereon are immediately fully vested. Company matching and discretionary and non-elective contributions are subject to a vesting schedule. The following table illustrates the percentage of any Company matching or discretionary contributions that an employee is entitled to, based on the number of years of continuous service with the Company:

Years	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The participant may have two loans outstanding at any time. The loan is a fixed rate loan with interest set at the time the loan is made based on the rates available for similar loans from commercial lending institutions, as determined by the Plan Administrator. Principal and interest is paid ratably through semi-monthly payroll deductions.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of time through an annuity, as defined. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The Plan also provides for in-service distributions subject to conditions and limitations provided for in the Plan document.

1. Description of Plan *(continued)*

Forfeited accounts – At December 31, 2016 and 2015, forfeited non-vested accounts totaled $4,357 and $9,207 respectively. These accounts will be used to reduce future plan expenses or employer contributions. The forfeited balance of $4,357 as of December 31, 2016 was used for employer matching contributions for the year ended December 31, 2016.

2. Significant Accounting Policies

Basis of accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value (except for the fully benefit-responsive investment contract (see Note 4), which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. No allowance for credit losses has been recorded as of December 31, 2016 or 2015.

Payments of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

2. Significant Accounting Policies *(continued)*

Recent accounting pronouncements – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy, along with the related required disclosures. ASU 2015-07 is effective for nonpublic entities' fiscal years beginning after December 15, 2016, and is to be applied retrospectively, with early adoption permitted. Management adopted this ASU early in 2015, via retrospective application.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit – Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully-benefit responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully-benefit responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation (depreciation) in fair value by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management early adopted Parts I and II in 2015, via retrospective application.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, Fair Value Measurements and Disclosures, are described as follows:

3. Fair Value Measurements *(continued)*

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission ("SEC"). These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective investment trusts: Collective trust funds are valued using NAV provided by the administrator of the underlying fund. The NAV is based on the value of the underlying assets owned by the fund less its liabilities, divided by the number of units outstanding. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount different than the reported NAVs. Participant transactions (purchases and sales) may occur daily.

3. Fair Value Measurements *(continued)*

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 14,008,068	$ -	$ -	$ 14,008,068
Investments in the fair value hierarchy	$ 14,008,068	$ -	$ -	$ 14,008,068
Investments measured at net asset value (a)				2,251,453
Investments at fair value				$ 16,259,521

	Assets at Fair Value as of December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 12,006,053	$ -	$ -	$ 12,006,053
Investments in the fair value hierarchy	$ 12,006,053	$ -	$ -	$ 12,006,053

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

For the years ended December 31, 2016 and 2015, there were no significant transfer between Level 1 and Level 2 and no transfers in or out of Level 3.

3. Fair Value Measurements *(continued)*

Investment Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016. There are no participant redemption restrictions for these investments.

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (if currently eligible)	Redemption Notice Period
Morely Stable Value Fund	$ 2,251,453	N/A	Daily	None

4. Fully Benefit-Responsive Investment Contract

The Plan held a traditional investment contract. This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. The contract value was $3,343,944 at December 31, 2015.

The traditional investment contract held by the Plan was a guaranteed investment contract. The contract issuer was contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate was based on a formula established by the contract issuer on a monthly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

4. Fully Benefit-Responsive Investment Contract *(continued)*

Certain events may have limited the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code ("IRC")or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events occurred that limited the ability of the Plan to transact at contract value with the contract issuers and that also limited the ability of the Plan to transact at contract value with the participants.

In addition, certain events allowed the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer.

5. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions. During 2015 and through October 31, 2016, certain Plan investments were managed by Principal Life Insurance Company, the trustee of the Plan at that time, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred and paid directly by the Plan were $32,869 to Principal for the year ended December 31, 2016.

6. Plan Termination Policies

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

7. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified to us as complete and accurate by the trustees.

	2016	2015
Investments at fair value	$ 14,008,068	$ 12,006,053
Investments at contract value	2,251,453	3,343,944
Notes receivable from participants	251,295	337,333
Total assets	$ 16,510,816	$ 15,687,330

In addition, for the year ended December 31, 2016, $829,307 in net depreciation in fair value of investments, $5,975 in interest, $354,713 in dividends, and $9,433 in interest income on notes receivable from participants has been prepared and certified to us as complete and accurate by the trustees.

10. Subsequent Events

The Plan evaluated subsequent events through October 13, 2017, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements. As of the date of this report, the Company is in the process of changing recordkeepers and the trustee of the Plan.
