1. Description of the Plan

The following brief description of the Hargray Holdings LLC 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan and is sponsored by Hargray Holdings, LLC (the Company). Employees are eligible for participation after attaining age 18. Enrollment is allowed immediately upon meeting the above conditions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 75% of pretax annual compensation, subject to Internal Revenue Code (IRC) limitations. Eligible employees who have attained age 50 before the close of the Plan year are allowed to make catch-up contributions up to the maximum allowed by the IRC. Contributions are subject to certain limitations. Newly hired employees who become eligible to participate in the Plan are automatically enrolled at 6% of their compensation, unless another option is selected by them.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. A current description of the investment funds may be obtained from the Plan administrator.

The Company has elected to make a non-discretionary employer matching contribution on behalf of each of its eligible participants whereby participants in the Plan receive a matching contribution of 75% of the first 6% of compensation contributed to the Plan. Additional amounts may be contributed at the option of the Company's board of directors. For 2016, the non-discretionary matching contribution was $1,031,684.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses). Allocations are based on participant compensation, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Notes Receivable from Participants

Participants may borrow, from their fund accounts, a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50% of their account balance. A participant may not have more than one loan outstanding at any time. Note receivable transactions are treated as a transfer between the investment fund(s) and the participant note receivable fund. The notes receivable from participants are secured by the balance in the participant's account and bear a reasonable rate of interest as defined by the Plan. Interest rates on all outstanding loans range from 4.25% to 8.25%. Principal and interest payments occur ratably through regular payroll deductions over a period not to exceed five years, unless the notes receivable were used to purchase a primary residence in which case the note receivable terms may exceed five years.

1. Description of the Plan (cont.)

Vesting

Participants are immediately 100% vested in their contributions, plus actual earnings thereon. Participants are 100% vested in the Company non-discretionary matching contribution and discretionary contribution, if any, after attaining one year of service with the Company.

Payment of Benefits

A participant's contributions and employer contributions may be withdrawn upon retirement (on or after the attainment of normal retirement age), termination of employment, disability, or death. Participants may elect to have distributions paid in a lump-sum, annuities, or installments. Under certain qualifying circumstances, hardship withdrawals are permitted under the Plan.

Forfeited Accounts

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five year period, the forfeited contributions are reinstated. Forfeited balances of terminated participant's non-vested accounts are used first to pay administrative expenses. Remaining forfeitures, if any, are used to reduce future employer contributions. At December 31, 2016 and 2015, there were approximately $301 and $470, respectively, in unallocated, forfeited account balances. During 2016, approximately $6,901 of forfeited account balances were used to reduce employer contributions.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan as provided in the Plan agreement. Certain other administrative expenses of the Plan are paid by the Company. Investment fees are paid by the Plan in the form of reductions of net investment income earned by Plan participants.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (cont.)

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales are recorded on a trade-date-basis. Investment income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment Benefits

Benefit payments to participants are recorded upon distribution.

Risk and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and amounts reported in the statements of net assets available for benefits.

Recently Issued Accounting Pronouncements

In May 2015, the FASB issued Accounting Standards Update (ASU) *No. 2015-07, "Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent)"* (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. This ASU is effective for fiscal years beginning after December 15, 2016, and is to be applied retrospectively, with early adoption permitted.

In July 2015, the FASB issued ASU No. 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient"* (ASU 2015-12). Part I of this ASU clarifies that contract value is the only required measurement for Fully Benefit-Responsive Investment Contracts (FBRICs) and clarifies that indirect investments in FBRICs should no longer be reflected as FBRICs and therefore, should be reported at fair value.

2. Summary of Significant Accounting Policies (cont.)

Part II of this ASU eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of the net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. It also allows investments to be disaggregated by general type and eliminates the requirement to disaggregate investments by class. Further, significant investment strategies for an investment in a fund that files a Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity when the plan measures that investment using the NAV practical expedient are no longer required.

Part III allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The provisions of this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015 with early adoption permitted. Parts I and II are to be applied retrospectively and Part III should be applied prospectively.

The 2016 and 2015 financial statements have been modified to reflect these changes as required by these ASUs.

3. Information Prepared and Certified by Fidelity (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, (collectively Fidelity), have provided certifications that the financial information included in the financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016 provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016 are covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

4. Fair Value Measurements (cont.)

Basis of Fair Value Measurement (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015.

Registered Investment Companies - Shares of registered investment companies represent investments with various investment managers. The fair values of these investments are determined by reference to the registered investment companies' underlying assets, which are principally marketable equity and fixed income securities. These registered investment companies are traded on national securities exchanges and are valued at the NAV as of December 31, 2016 and 2015. It is not probable that the shares of registered investment companies will be sold at amounts that differ materially from the NAV of shares held.

Common Collective Trust Fund - The Fidelity Managed Income Portfolio is a common collective trust fund that is valued at the net asset value using NAV as the practical expedient based on the last reported sales price of the underlying investments held. The Plan's interest in the collective trust was based on information reported by the trustee using the audited financial statements of the collective trust at year-end. The NAV is based on the value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of shares outstanding. The investment income (loss) was allocated to Participants based on their proportionate share of the net assets of the fund. In accordance with ASU 2015-07 this asset is not included in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

December 31, 2016	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 27,969,410**	**$ -**	**$ -**	**$ 27,969,410**
Common collective trusts measured at NAV*	**-**	**-**	**-**	**3,738,000**
Total investments at fair value	**$ 27,969,410**	**$ -**	**$ -**	**$ 31,707,410**

4. Fair Value Measurements (cont.)

December 31, 2015	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,815,775	$ -	$ -	$ 25,815,775
Common collective trust measured at NAV*	-	-	-	3,864,545
Total investments at fair value	$ 25,815,775	$ -	$ -	$ 29,680,320

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

Fair value of investments, other than Level 1, in certain entities that calculate net asset value per share (or its equivalent) follows:

Fair value of common collective trust at		**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
December 31, 2016	**$ 3,738,000**	**N/A**	**Immediate**	**Daily**
December 31, 2015	**$ 3,864,545**	**N/A**	**Immediate**	**Daily**

The collective trust fund participates in a stable value fund that invests primarily in Guaranteed Investments Contracts (GICs), including traditional GICs, Synthetic GICs and separate account GICs; money market mutual funds and other stable value products that can be carried at contract value. It is the policy of the MIP CL 1 Fund to use its best efforts to maintain a stable net asset value of $1 per unit; although there is no guarantee that the MIP CL 1 Fund will be able to maintain this value.

Interest crediting rates are typically reset on a monthly or quarterly basis. Because changes in market interest rates affect the yield to maturity and the fair value of the underlying fixed-income securities, they can have a material impact on the interest crediting rate. In addition, withdrawals and transfers from the MIP CL 1 Fund are paid at contract value but may be funded through fair value liquidation of the underlying fixed-income securities, which could impact the crediting rate. All synthetic GICs provide for a minimum crediting rate of zero percent, which is intended to protect participants' principal and accrued interest. The total return for the MIP CL 1 Fund for the year ended December 31, 2014 was 0.7%.

The MIP CL 1 Fund's trust agreement provides that withdrawals for purposes other than normal benefit payments, participant loans, direct transfers or paying trustee fees may require advance notice of up to twelve months. In certain circumstances, the amount withdrawn from the MIP CL 1 Fund would be payable at fair value rather than at contract value. These circumstances may include, but are not limited to, the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events within the control of the MIP CL 1 Fund or the plan sponsor resulting in a material and adverse financial impact on the issuer's obligations under the GICs. At December 31, 2016, the Company does not believe these events are probable.

5. Tax Status

The Plan is based on the Volume Submitter Defined Contribution Plan of Fidelity Management Trust Company which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the form of the Plan was designed in accordance with the provisions of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax position taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require provision for income taxes in the accompanying financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits far any tax periods in progress.

6. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

7. Related Parties and Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity. These transactions, as defined by the Plan, qualify as party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions.

8. Subsequent Events

Subsequent to December 31, 2016, Hargray Communications Group was purchased and, as a result, the parent company, Hargray Holdings, LLC was dissolved. Effective May 1, 2017, the Plan's adoption agreement was restated to change the name of the Plan to Hargray Communications Group 401(k) Savings Plan. The employer name was also changed to Hargray Communications Group. There were no other significant changes to the Plan as a result of the restated adoption agreement.

Management has evaluated subsequent events through October 10, 2017, which is the date the financial statements were available to be issued.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits reported on the financial statements to amounts reported on the Form 5500 as of and for the year ending December 31, 2016.
