The Budd Company Pension Plan for
Executive and Administrative Employees

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Budd Company Pension Plan for Executive and Administrative Employees (the "Plan"), which comprise the statement of net assets available for benefits - modified cash basis as of December 31, 2016 and 2015 and the related statement of changes in net assets available for benefits - modified cash basis for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 2; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee"), except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the Trustee holds the Plan's investment assets and executes related transactions. The plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2016 and 2015 that the information provided to the plan administrator by the Trustee is complete and accurate.

To the Plan Administrator
The Budd Company Pension Plan for
Executive and Administrative Employees

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Basis of Accounting

We draw attention to Note 2 to the financial statements, which describes the basis of accounting. The financial statements are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The Budd Company Pension Plan for Executive and Administrative Employees

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of The Budd Company Pension Plan for Executive and Administrative Employees (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a noncontributory defined benefit plan previously sponsored by The Budd Company, Inc. Effective August 1, 2016, thyssenkrupp North America, Inc. (the "Company") became the plan sponsor pursuant to a court-approved Chapter 11 bankruptcy proceeding involving The Budd Company, Inc. The Company is the parent company of The Budd Company, Inc and is a member of its controlled group. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

In December 2006, The Budd Company, Inc. sold the majority of its operating facilities, which employed substantially all active employees covered under the Plan.

Effective May 31, 2012, benefits under the Plan were frozen and no additional benefits will accrue under the Plan. Any participant who was actively employed by The Budd Company, Inc. on May 31, 2012 was credited with three additional years of credited service under the Plan. The three additional years of credited service were not conditioned upon future employment of The Budd Company, Inc. and will not count toward eligibility for early retirement; they may be used to increase the participant's accrued benefit only. Additionally, all participants actively accruing benefits on May 31, 2012 became fully vested in their accrued benefits on that date.

Eligibility and Vesting - Employees become fully vested upon completion of five years of service. Employees who terminate service before becoming fully vested forfeit all benefits under the Plan.

Pension Benefits - Normal retirement is permitted at the age of 65 with five years of continuous service. The Plan permits early retirement at ages ranging from 55 to 64. Monthly benefits are based on years of credited service and an annualized average of the participants' monthly base earnings, as described in the plan document. The Plan also contains provisions for disability, deferred vesting, and surviving spouse benefits.

Death Benefits - In certain circumstances, if an active or terminated employee who has a vested interest in the Plan dies prior to his or her normal retirement age, the surviving spouse or designated beneficiary shall receive a survivor benefit, as defined in the Plan.

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Funding Policy - Contributions are made by the Company in actuarially determined amounts. The Company's policy is to make contributions necessary to satisfy ERISA funding standards. The Company also, from time to time, will make additional contributions, with the total not to exceed the maximum contribution deductible under the Internal Revenue Code. Annual contributions meet the minimum funding requirements of ERISA.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation - The accompanying financial statements have been prepared on the modified cash basis of accounting. Under the modified cash basis of accounting, contributions and investment income (loss) are recorded when received, benefit payments and expenses are recorded when paid, and investments are recorded at fair market value.

Investment Valuation - The fair value of the Plan's interest in the ThyssenKrupp North America, Inc. Master Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the investment units held by the Master Trust, plus actual contributions and allocated investment income (loss), less actual distributions and allocated administrative expenses.

The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. The government securities and corporate debt securities are valued using quoted market prices and/or other market data for the same or comparable instruments and transactions in establishing the prices, discounted cash flow models, and other pricing models. These models are primarily industry-standard models that consider various assumptions, including time value and yield curve as well as other relevant economic measures. Investments in partnerships are valued at net asset value per share (or its equivalent) of the funds based on audited financial statements of the funds, where available, with adjustments to account for partnership activity and other applicable valuation adjustments. The money market funds and interest-bearing cash are valued at fair value based on their outstanding balances. All other investments are valued based on quoted market prices. See Note 6 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

Benefit Payments - Benefits are recorded when paid. During 2016, a lump-sum payment option was offered to all terminated vested participants in the Plan. Total payments under the option were approximately \$38,700,000.

Administrative Expenses - Administrative expenses associated with the Plan are paid by the Plan unless voluntarily paid by the Company. During 2016 and 2015, all expenses were paid by the Plan.

Risks and Uncertainties - Contributions to the Plan and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. It is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the statement of net assets available for benefits.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements - During 2016, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*, and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) - I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Part II of ASU No. 2015-12 was applicable to the Plan and modified the investment disclosures under ASC 820, *Fair Value Measurements*, and ASC 960. The standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

Upcoming Accounting Pronouncements - In February 2017, the FASB issued ASU No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) - Employee Benefit Plan Master Trust Reporting*. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the Master Trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 13, 2017, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Investment Information

The Bank of New York Mellon/BNY Mellon, N.A. (the "Trustee") holds the Master Trust's investments and executes all related investment transactions. The investment balances and related investment results included in the accompanying financial statements, including information summarized in Note 5, are based solely on information provided by the Trustee.

Certain assets of the Master Trust are in investment funds managed by The Bank of New York Mellon/BNY Mellon, N.A. or its affiliates. Since The Bank of New York Mellon/BNY Mellon, N.A. is the trustee of the Plan, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The market value of these investments was approximately \$68,000,000 and \$66,000,000 at December 31, 2016 and 2015, respectively.

Note 4 - Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered to the valuation date. These include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries.

The normal individual retirement benefit is based on the participant's years of credited service and their compensation, as defined in the plan document.

The Budd Company Pension Plan for Executive and Administrative Employees

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The actuarial present value of accumulated plan benefits is determined by an independent actuary, Willis Towers Watson, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The determination was made as of January 1, 2016.

The more significant actuarial assumptions underlying the actuarial computations at January 1, 2016 is as follows:

- Actuarial cost method - Traditional unit credit cost method
- Interest rate - 6.80 percent
- Mortality basis - RP-2014 White Collar Mortality Rates at 2012, increased by 8.5 percent, based on employee rates for non-annuitants and annuitant rates for those in payment
- Retirement - Based upon a defined table of ages and percentages

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits as of January 1, 2016 was as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving benefit payments	\$ 267,763,993
Other vested participants	<u>56,284,985</u>
Total vested benefits	324,048,978

Nonvested benefits	<u>189,834</u>
--------------------	----------------

Total actuarial present value of accumulated plan benefits	<u>\$ 324,238,812</u>
--	-----------------------

The Budd Company Pension Plan for Executive and Administrative Employees

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Actuarial Present Value of Accumulated Plan Benefits (Continued)

The following schedule summarizes the components of net decrease in actuarial present value of accumulated plan benefits for the year ended January 1, 2016:

Actuarial present value of accumulated plan benefits - Beginning of year	\$ 321,412,412
Increase (decrease) during the year attributable to:	
Actuarial losses	672,790
Increase due to the decrease in the discount period	21,829,506
Benefits paid	(27,909,149)
Change of assumptions	<u>8,233,253</u>
Net increase	<u>2,826,400</u>
Actuarial present value of accumulated plan benefits - End of year	<u>\$ 324,238,812</u>

The change in actuarial assumptions relates to the interest discount rate being changed from 7.10 percent in 2015 to 6.80 percent in 2016 to better reflect anticipated plan experiences.

Note 5 - Interest in Master Trust

The Plan's investments are in various investment units held by the Master Trust, which was established for the investment of assets of the Plan and several other pension plans sponsored by affiliated participating employers of thyssenkrupp North America, Inc. Each participating retirement plan has an ownership interest in the investment units, which are described below. The assets of the Master Trust are held by the Trustee. Investment income (loss) is allocated to the individual plans based upon the plans' individual ownership of that associated investment unit. Administrative expenses relating to the Master Trust are allocated to the individual plans based upon their share in the net assets of the Master Trust.

During 2016, one of the participating plans offered a one-time lump-sum payment to all participants in conjunction with the plan's termination. The transfer out of the Master Trust totaled approximately \$27,062,000. Various other participating plans offered lump-sum buyout windows for certain participants that caused higher benefit payments in 2016, which resulted in decreased assets in the Master Trust.

Note 5 - Interest in Master Trust (Continued)

Securities Lending - The Master Trust participates in a securities lending program with the Trustee for its U.S. and non-U.S. securities held in custody with the Trustee. The program allows up to \$100,000,000 of the qualified assets to be on loan at any given time. These securities are lent to certain unrelated third-party brokers in exchange for cash and noncash collaterals. U.S. assets and non-U.S. assets on loan are collateralized at 102 percent and 105 percent, respectively, of the assets' market value. Both the collateral and the securities loaned are marked-to-market on a daily basis, with additional collateral obtained or refunded as necessary. In the event that the loaned securities are not returned by the borrower, the bank will, at its own expense, either replace the loaned securities or, if unable to purchase those securities on the open market, credit the plan's accounts with cash equal to the fair value of the loaned securities.

The net assets of the investment units of the Master Trust reflect, as an asset, the collateral received under the securities lending arrangement with an offsetting liability representing the Master Trust's obligation to return the collateral to the borrower. The collateral received from borrowers totaled \$68,334,307 and \$66,270,163 as of December 31, 2016 and 2015, respectively. At December 31, 2016, the entire balance received related to cash collateral, which was invested in a money market account. At December 31, 2015, the balance received consisted of cash collateral received of \$62,939,021, which was invested in a money market fund, and noncash collateral of \$3,331,142. The noncash collateral received primarily consisted of fixed-income securities and letters of credit. In the event that a loaned security is called, the Master Trust will receive the market value of the asset in cash. The market value of loaned securities totaled \$66,874,976 and \$64,849,587 at December 31, 2016 and 2015, respectively.

Derivative Instruments - The Master Trust is party to certain agreements, which are designed to manage exposure interest rate risks. The interest rate instruments are used for the purpose of hedging changes in the fair value of assets that result from interest rate changes, or as an efficient substitute for traditional securities. The notional amount represents the contract amount, not the amount at risk. The notional amount of interest rate instruments was approximately \$14,740,000 and \$16,000,000 at December 31, 2016 and 2015, respectively. Management has elected to present derivative information on a gross basis when subject to master netting arrangements. The estimated fair value of derivative instruments at December 31, 2016 and 2015 is insignificant. For the years ended December 31, 2016 and 2015, a loss of \$362,987 and \$652,593, respectively, attributable to derivative instruments was recognized as investment loss in the statement of changes in net assets available for benefits.

The Budd Company Pension Plan for Executive and Administrative Employees

Notes to Financial Statements December 31, 2016 and 2015

Note 5 - Interest in Master Trust (Continued)

The investment managers, on behalf of the Master Trust, manage its interest rate and foreign currency risks by limiting exposure to and by monitoring the financial condition of each counterparty. In the unlikely event that a counterparty fails to meet the terms of an interest rate or foreign currency agreement, the Master Trust's risk is limited to the fair value of the instrument.

Note 6 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Master Trust's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Master Trust has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Master Trust's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The Master Trust's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2016 and 2015.

Investments in Entities that Calculate Net Asset Value per Share

The Master Trust holds shares or interests in investment companies at year end whereby the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company.

At December 31, 2016 and 2015, the fair value, unfunded commitments, and redemption rules of those investments are as follows:

Investments Held at December 31, 2016

	Fair Value	Unfunded Commitments	Redemption Frequency, if Eligible	Redemption Notice Period (in Business Days)
Common collective trust funds:				
Equity investments (1)	\$ 167,031,143	\$ -	Daily	1-2

Note 6 - Fair Value Measurements (Continued)

- (3) GMO Multi-Strategy Fund (Offshore), L.P. invests in various investment funds seeking a variety of investment strategies, including common stock, depository receipts, bonds (including sovereign debt of emerging countries), commodities, currencies, forwards, futures, options, and swap agreements.
- (4) Western Asset Global Multi Strategy, LLC invests primarily in global fixed-income securities in both developed and emerging market countries that are generally rated at least BBB by Standard & Poor's, or equivalent quality.

Note 7 - Tax Status

The Plan obtained its latest determination letter on July 27, 2012, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Company has applied for a new determination letter and the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 8 - Plan Termination

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Schedule SB, Part V Summary of Plan Provisions

Plan Provisions

Initial effective date is July 1, 1950. The plan was amended effective January 1, 2008 and further amended effective May 31, 2012.

Covered employees

All elapsed time employees who are in the active service of the employer are eligible to participate in the plan as of their employment date. 1,000 hour employees whose commencement date is on or after January 1, 2009 shall become a participant in the January 1st or July 1st after earning 1,000 hours of service in the year commencing on the date of employment or in a later plan year.

The following employees are not eligible to participate in this plan:

- Non-U.S. employees
- Employees covered by a collective bargaining agreement.
- Employees whose job classification makes them eligible to participate in another qualified pension plan sponsored by the employer, excluding The Budd Company Preferred Savings Plan or any other savings or profit sharing plan.
- Leased employees and independent contractors.

1,000 hour employees are part-time employees regularly schedule to work fewer than 40 hours per week or paid on an hourly basis, temporary employees whose term of employment is not intended to be indefinite but is intended to consist of a limited duration of two years or less, and employees paid on an hourly basis. Elapsed time employees are employees who are not 1,000 hour employees.

Participation date

Participation was closed to new entrants effective May 9, 2012.

Plan year

Definitions

Vesting service

Vesting service for elapsed time employees begins on the first day of employment with the Company and affiliates and ends upon termination. Vesting service is granted for any period of severance that is less than one year.

All actively employed participants on May 31, 2012 are 100% vested.

Pension service

All Vesting Service except:

- Service obtained as an ineligible employee.
- Service credited for vesting purposes during a Period of Severance that is less than one year.

A 1,000 hour employee who became a participant on July 1st receives ½ year of credited service if the employee completes 500 hours of service between that July 1st and the following December 31st.

A year of credited service is credited to 1,000 Hour Employees for 2012 if they work 1,000 hours in the 2012 plan year prior to May 31, 2012, and 5/12 of a year of credited service is credited for those with less than 1,000 hours.

Participants actively employed, on layoff, or on long-term disability as of May 31, 2012 are credited with three additional years of credited service effective May 31, 2012. The additional three years of credited service are not reflected for benefit eligibility purposes.

Pensionable pay

Base Compensation: Regular base salary including elective deferrals (IRC §401(k) and IRC §125), but excluding overtime, cost-of-living allowances, shift premiums, commissions, bonuses, vacation or holiday pay paid in lieu of time off and other special forms of pay.

Compensation: W-2 compensation reported as IRC §3401(a) wages, without regard to rules that limit pay based on nature or location of employment or services performed, including unemployment compensation, income from outside employment offset by layoff benefits including elective deferrals under IRC §125, IRC §402(e)(3), or IRC §402(h).

Average earnings

Final average base compensation: The monthly average of the highest 36 consecutive full calendar months' base compensation out of last 60 months of employment that gives the highest average.

Final average gross earnings: The monthly average of the highest 3 calendar years' compensation out of last 5 calendar years prior to attaining normal retirement age that gives the highest average. Compensation for the current year is projected to the normal retirement age to determine the high 3-year average.

Social Security benefit

Primary Insurance Amount (PIA) payable at the plan's normal retirement age is calculated using constant future earnings. The past earnings are estimated using National Average Wages (NAW).

Normal retirement date (NRD)

Age 65 after five years of participation in the plan.

Monthly pension benefit

The lesser of (a) and (b), but not less than (c), where:

(a) 2% of Final Average Base Compensation times Credited Service up to 32.5 years.

(b) 75% of Final Average Gross Earnings minus 35% of PIA, with the resulting benefit multiplied by the ratio of Credited Service as of termination to Credited Service projected as of Normal Retirement Date. Credited Service for this calculation includes years during which the Participant was active in any other plan sponsored by the employer.

(c) \$420 times years of Credited Service.

Benefits are determined using the regular Formula of Section 5.1(a)(1)(A) without application of the Formula under Section 5.1(a)(1)(B) for participants with credited service greater than four years (prior to the additional 3 years granted by this amendment).

Benefits accrued under the Plan are fully frozen effective May 31, 2012.

Disablement

No disability benefit is provided under the plan. Participants on long-term disability continue to accrue credited service while employed by the employer. Upon termination or retirement, a disabled participant will receive the plan benefit that he/she is entitled under the normal, early or vested termination provisions of the plan.

Preretirement death

In the event of the death of an active participant after becoming eligible for early, normal or late retirement, the amount of the death benefit will be equal to the benefits payable as though the participant had terminated employment as of the date of death, elected the normal form of payment, and died the next day following the commencement of payments. If the employee and spouse have not been married for a full year prior to the date of death, the 50% Joint and Survivor form of payment will replace the Normal Form of payment. The participant will be treated as having given advance notice of retirement to determine the reduction factors for early commencement.

In the case where either (i) the employee was not yet eligible for early retirement at the date of death or, (ii) the participant was a former employee entitled to a deferred vested benefit, the benefit payable to the spouse is calculated as though the participant had terminated employment as of the date of death, elected the 50% Joint and Survivor form of payment commencing at the earliest age possible, and died the next day following the commencement of payments. The participant will be treated as not having given advanced notice of retirement to determine the reduction factors for early commencement.

UAW transfers

The E&A plan assumed responsibility for the UAW benefit liability of two closed groups of former UAW participants (1989, 1994) who had previously transferred to a salaried position. UAW benefits for these employees will be based on the terms of the UAW plan, as amended, and credited service earned while covered by the UAW plan. E&A benefits for these employees will be based on the terms of the E&A plan, as amended, and credited service earned while covered by the E&A plan. All benefits for these participating (E&A and UAW) will be paid from the E&A plan.

Shelbyville transfers

Support associates who were covered by the Shelbyville plan prior to November 30, 1998 and transferred participation to the E&A plan had their benefit liability from the Shelbyville plan transferred to the E&A plan. Benefits for service prior to November 30, 1998 will be based on the terms of the Shelbyville plan and benefits for service after November 30, 1998 will be based on the terms of the E&A plan. All benefits for these participants (E&A and Shelbyville) will be paid from the E&A plan.

Other Plan Provisions

Forms of payment

Normal form of retirement income:

The normal form of benefit for a single participant is a monthly annuity payable for life. The normal form for a participant who is married on his annuity starting date is a split benefit, where half of the benefit is payable in a Joint and 50% Survivor form, and the other half is payable as a Joint & 60% Survivor form, with a pop-up in the event of the spouse's death before the retiree's death, for the portion of the benefit accrued before 2008. For the portion of the benefit accrued after 2007, the normal form for married participants is the Joint and 50% Survivor form.

The option conversion factors to calculate the normal form of payment from a straight life benefit for a married participant are:

- Option factor for Joint and 50% Survivor part of benefit: 87% decreased 0.5% for each year the retiree's age exceeds the spouse's age (minimum 77%) and increased 0.5% for each year the spouse's age exceeds the retiree's age (maximum 96%).

In lieu of the normal form of payment, the following actuarial equivalent optional forms of payment are available:

- Life Annuity
- Joint and Survivor Annuity with a 25%, 33-1/3%, 50%, 66-2/3%, 75% or 100% survivor benefit payable to the Participant's Spouse or other designated beneficiary (continuation percentages may be restricted for a non-spouse beneficiary depending on age of participant and beneficiary).

For the portion of the benefit accrued before 2008, participants may elect to receive their entire benefit under the Life Annuity or Joint and Survivor Annuity or receive half of their benefit under a form of payment listed above and the other half under the Joint and 60% Survivor Annuity described as part of the Normal form of payment. Regardless of the form of payment selected, a participant other than a terminated vested participant, may elect to receive a temporary supplemental benefit of \$250, \$300 or \$350 per month payable until age 62, with an actuarially reduced benefit payable from age 62 on, for the portion of the benefit accrued before 2008. If the actuarial equivalent for a terminated vested participant is less than \$5,000, the benefit shall be paid as a single sum payment. In the event that the plan's AFTAP falls below certain thresholds employee may elect to bifurcate their benefit option or defer commencement until the option is no long prohibited.

Pension Increases

Not applicable.

Plan participants' contributions

They are not required or permitted.

Maximum on benefits and pay

All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Form of payment	<p>Participants married at retirement are assumed to elect the split benefit form of payment where half of the benefit is payable as a Joint and 50% Survivor form, and the other half is payable as a Joint and 60% Survivor form, with a pop-up in the event of the spouse's date of death before the retiree's death.</p> <p>Single participants at retirement are assumed to elect a monthly annuity for life.</p>
Percent married	80% of all active and terminated vested participants are assumed to be married to an eligible spouse at retirement.
Spouse age	Wives are assumed to be three years younger than their husbands.
Administrative expenses	<p>The amount included this year for plan-related expenses is \$2,021,043.</p> <p>Administrative expenses are based on the prior experience and the current year's expected PBGC premiums.</p>
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Participant data

Employee data was supplied by the plan sponsor as of the valuation date, January 1, 2016.

Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with thyssenkrupp North America, Inc. and based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Willis Towers Watson used asset data supplied by the trustee. Benefit Outsourcing Solutions, the plan administrator, furnished participant data as of the valuation date. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the company, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	<p>Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.</p> <p>Assumed termination rates differ by age because of expected differences in termination rates by age.</p>
Retirement	Retirement rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed.
Form of payment	The percentage of retiring participants assumed to take joint and survivor annuities is based on observed experience over recent periods with annual review.
Percent married	The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.
