The following description of the San Diego Services, LLC 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

San Diego Services, LLC 401(k) Plan is a defined contribution plan that was established in 1999 covering all eligible employees of San Diego Services, LLC dba Paragon Services Engineering (the Company). All Company employees who have reached the age of twenty-one and have completed one year of qualified service are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to 100% of annual compensation or the federal maximum, whichever is less, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified benefit or contribution plans. The Company may elect to make a discretionary matching and non-elective employer contribution. For the year ended December 31, 2016, the Company made elective discretionary matching contributions of $47,010. The Company did not make any discretionary non-elective employer contributions for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited/debited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings/losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in the Company's discretionary contributions plus actual earnings thereon based on years of continuous service. After the two years of service, a participant begins vesting 20% each year and is 100% vested in the Company contributions after six years of credited service.

Note 1: Description of the Plan, Continued

Investment options

The Plan provides participants with several investment options. These options consist of various pooled separate accounts. Plan participants may direct the change of these investments in accordance with the Plan guidelines.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum equal to $1,000 and a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable. Notes receivable from participants terms range from one to five years or more for the purchase of a primary residence. The notes receivable are secured by the balance in the participant's account and bear an interest rate of prime plus one. Principal and interest is paid ratably through payroll deductions. Participants can only have two loans outstanding from the Plan at any given time.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive or rollover into a qualified plan the value of the vested interest in his or her account as a lump-sum distribution, net of tax withholdings, if applicable. The Plan allows for in-service withdrawals by participants who have attained the normal retirement age of 59 ½. A participant may also receive hardship withdrawals, subject to certain limitations, as defined in the Plan document.

Forfeited Accounts

Forfeitures are made available to pay administrative expenses and reduce employer contributions under the Plan. During the year ended December 31, 2016, no forfeitures were used to reduce employer contributions.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2: Summary of Significant Accounting Policies, Continued

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Pooled separate accounts are valued based on the net asset value (NAV).

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant notes receivable are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Administrative expenses are paid by the Company. Certain administrative processing fees are charged to the participants and therefore, are reflected in the accompanying statement of changes in net assets available for benefits as administrative fees.

Financial Statement Presentation

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820); Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. This guidance removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. This guidance also removes the requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The provisions of ASU 2015-07 are effective for all plan years beginning after December 15, 2015. Early application is permitted. The Plan has implemented this accounting guidance.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans* (Topic 960); *Defined Contribution Plans* (Topic 962); and *Health and Welfare Benefit Plans* (Topic 965): *Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. Part I of the guidance requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of the guidance eliminates the current GAAP requirements to disclose individual investments that represent five percent or more of net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed and non-participant-directed investments. Part III of the guidance provides a practical expedient to permit the plan to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The provisions of ASU 2015-12 are effective for all plan years beginning after December 15, 2015. Early application is permitted. The Plan has implemented Part II of this accounting guidance. The Plan has not adopted Parts I and III, as they are not applicable to the Plan.

Note 3: Investments Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Nationwide Financial Services, Inc., including its subsidiary, Nationwide Trust Company, a division of Nationwide Bank (Nationwide), the custodian of the Plan, has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments as shown on the statements of net assets available for benefits as of December 31, 2016 and 2015.

Note 3: Investments Certified by the Custodians, Continued

- Net appreciation in fair value of investments for the year ended December 31, 2016, as included on the statement of changes in net assets available for benefits.
- The schedule of assets (held at end of year) as of December 31, 2016, as shown on Schedule H, Line 4i.

At the request of the plan administrator, the Plan's independent certified public accountants did not perform procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. All other information has been audited in accordance with auditing standards generally accepted in the United States of America.

Note 4: Fair Value Measurement

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). There are three levels of the fair value hierarchy under FASB ASC 820. Level 1 inputs are quoted market prices in active markets for identical investments that the Plan has the ability to access at the measurement date. Level 2 inputs are inputs other than quoted market prices included within Level 1 that are observable for the Plan's investments, either directly or indirectly. Level 3 inputs are unobservable inputs for the Plan's investments.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts - Separate accounts are valued at NAV of units held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. The separate accounts are either invested in registered mutual funds that are traded in active markets or are invested in non-registered collective investment funds. The investment objectives and underlying investments of the separate accounts vary with some holding diversified portfolios of domestic or international stocks and mutual funds, some holding securities of the U.S. companies in a particular industry sector, some holding public and private corporate bonds, commercial and residential mortgages, and others holding specific mutual funds. There were no unfunded commitments and the investment can be redeemed on a daily basis.

Note 4: Fair Value Measurement, Continued

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan has concluded that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

With the adoption of ASU 2015-12, the pooled separate accounts, which are measured at net asset value, are no longer required to be included with the fair value hierarchy. The Plan held these investments in the amount of $2,913,304 and $2,476,529 at December 31, 2016 and 2015, respectively.

There were no assets measured at fair value on a non-recurring basis at December 31, 2016 and 2015. There were no transfers from on fair value level to another for the years ended December 31, 2016 and 2015.

Note 5: Parties-in-interest Transactions

Certain Plan investments were managed by Nationwide. Nationwide, the custodian as defined by the Plan and are parties-in-interest. San Diego Pension Consultants is the record-keeper and the administrative provider for the Plan. The Plan incurred certain administrative expenses of $255 for the year ended December 31, 2016. The Company pays any other fees related to the Plan's operations.

Note 6: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 7: Tax Status

The Plan has adopted a Prototype 401(k) Plan that the Internal Reporting Service (IRS) approved by a letter dated March 31, 2014. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7: Tax Status, Continued

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and believes there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8: Excess Contributions

To meet the relevant nondiscrimination provisions of the Plan, excess contributions totaling $11,110 are recorded as a liability on the accompanying statements of net assets available for benefits for the year ended December 31, 2016. The Plan either paid or is in the process of paying these excess contributions to participants after the year-end.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
