INDEPENDENT AUDITORS' REPORT

October 10, 2017

Plan Administrator

Theatrical Stage Employees

Local No. 27 Defined Benefit Pension Plan

Westlake, Ohio

We have audited the accompanying financial statements of the Theatrical Stage Employees Local No. 27 Defined Benefit Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Theatrical Stage Employees Union Local 27 Defined Benefit Plan as of December 31, 2016 and 2015, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets held (at end of year) as of December 31, 2016 and reportable transactions for the year ended December 31, 2016 are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the plan's management, and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

**Theatrical Stage Employees Union
Local No. 27 Defined Benefit Pension Plan
Notes to the Financial Statements
December 31, 2016 and 2015**

NOTE 1DESCRIPTION OF PLAN

The following brief description of the Theatrical Stage Employees Union Local No. 27 Defined Benefit Pension Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

a. General

The Plan is a multi-employer defined benefit pension plan covering members of the International Alliance of Theatrical Stage Employees, Moving Picture Technicians, Artists and Allied Crafts (IATSE) Local 27 and Local 209 who have completed one year of service with participating employers. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b. Contributions

The Plan is funded by contributions from participating employers based on collective bargaining agreements or other written agreements with the union.

c. Pension Benefits

Participants shall be eligible to receive the normal retirement benefit as specified on Section 5.01 of the Plan agreement if they have (a) attained normal retirement date (b) been credited with at least 5 Year of Credited Service (c) termination of employment and (d) filed an application for a retirement benefit, in the amount determined by Plan provisions. The Plan does allow for an early retirement at the later of age 55 or the completion of ten years of credited service. Death, disability, and termination benefits are provided under the plan. Employees will receive their pension benefits in the form of an Automatic Qualified Joint and Survivor Annuity. Employees may elect to receive their benefits as a life annuity, life annuity with period certain, or if amount is less than \$1,000 as a lump sum.

d. Vesting

Prior to his normal age, a participant shall have a vested accrued benefit after 5 years of vesting service. Upon attaining Normal Retirement Age, a Participant shall automatically be 100% vested.

NOTE 2SUMMARY OF ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

a. Date of Management's Review

Subsequent events were evaluated through October 10, 2017, which is the date the financial statements were available to be issued.

b. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

c. Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**Theatrical Stage Employees Union
Local No. 27 Defined Benefit Pension Plan
Notes to the Financial Statements
December 31, 2016 and 2015**

NOTE 2 (CONTINUED)**d. Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

e. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

f. Administrative Expenses

All expenses of maintaining the Plan are paid by the Plan and are recorded in the accompanying statements of changes in net assets available for benefits.

NOTE 3**FAIR VALUE MEASUREMENTS**

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

FAIR VALUE MEASUREMENT AT REPORTING DATE USING:

	<u>Fair Value</u>	<u>Quoted Prices in active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
<u>December 31, 2016</u>

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs have the lowest priority. The plan uses appropriate valuation techniques based on the available inputs to measure the fair value of the investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 1 Fair Value Measurements

The fair value of mutual funds are based on quoted market prices.

Level 2 Fair Value Measurements

Money market funds are valued at a stable net asset value.

NOTE 4

Investments

During 2016 and 2015 the Plan's investment (including investments bought, sold, and held during the year) appreciated (depreciated) in value by \$ 400,115 and \$ (279,548) respectively.

Notes to the Financial Statements
December 31, 2016 and 2015**

NOTE 5FUNDING POLICY

Benefits provided by this Plan are funded by contributions from employers in accordance with their Collective Bargaining Agreements. The actuary determined in its latest report that contributions for December 31, 2015 and December 31, 2014 did meet the minimum funding requirements of ERISA.

NOTE 6PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees are eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is listed to the lowest benefit that way payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government Agency) up to applicable limitations.
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

NOTE 7ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AND CHANGES IN ACCUMULATED PENSION BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provision to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability) are included to the extent they are deemed attributable to employees services rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary from the Segal Company and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

NOTE 7 (CONTINUED)

Description of Weighted Average Retirement Age:

Age 65, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2016 actuarial valuation.

Future Benefit Accrual:

Active participants as of January 1, 2016 are assumed to work the same number of hours in future years as worked in the prior year.

Definition of Active Participants:

Active participants are defined as those reported by the fund office as active as of the valuation date with at least one year of Credited Service.

Net Investment Return:

6.0% - The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgement. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes, as well as the Plan's target asset allocation.

Administrative Expenses:

\$ 95,000 for the year beginning January 1, 2016, payable monthly. \$ 83,000 for the year beginning January 1, 2015, payable at the beginning of the year.

Actuarial Value of Assets:

The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value, and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.

Actuarial Cost Method:

Entry Age Normal Actuarial Cost Method. Entry Age is the age at the date of employment or, if date is unknown, current age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by wages with Normal Cost determined as if the current benefit accrual rate had always been in effect.

Estimated Rate of Investment Return:

On Actuarial Value of Assets 5.8%, for the Plan Year Ending December 31, 2015
On Current (Market) Value of Assets -1.2%, for the Plan Year Ending December 31, 2015

NOTE 8

TAX STATUS

The Internal Revenue Service has determined, and informed the Plan by Letter dated October 20, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan sponsor believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to income tax examinations prior to 2013.

NOTE 9

RELATED PARTY TRANSACTIONS

The Plan shares office space and staff with Local No. 27 of the International Alliance of Theatrical Stage Employees and Moving Picture Machine Operators of the United States and Canada (Local Union). Secretarial expense and rent were paid to the Local Union as reimbursement for the Plan's share of these expenses as follows:

	<u>2016</u>	<u>2015</u>
Secretarial Expense/Rent	\$ 23,011	\$ 21,642

NOTE 10

RISK AND UNCERTAINTIES

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that the changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 11

DEPARTMENT OF LABOR INVESTIGATION

During 2016, the Department of Labor (DOL) investigation was concluded with the plan being reimbursed by a vendor and insurance a total of \$ 64,277 for expense amounts the DOL determined to be excessive .

Statement by Enrolled Actuary
To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS
(SCHEDULE MB, LINE 6)

Mortality Rates

Healthy Employees: 108% of the RP-2014 Blue Collar Employee Mortality Tables, projected from 2014 using scale SSA-2014 on a generational basis.

Healthy Annuitants: 108% of the RP-2014 Blue Collar Annuitant Mortality Tables, projected from 2014 using scale SSA-2014 on a generational basis.

Disabled: 108% of the RP-2014 Disabled Retiree Mortality Tables, projected from 2014 using scale SSA-2014 on a generational basis.

The underlying tables with the generational projection to the ages of participants as of the measurement date reasonably reflect the mortality experience of the Plan as of the measurement date.

The mortality rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of deaths and the projected number based on the prior years' assumption over the most recent five years.

**Termination Rates
before Retirement**

Age	Rate (%)		
	Mortality*		Withdrawal
	Male	Female	
20	0.06	0.02	9.94
25	0.07	0.02	9.67
30	0.06	0.03	9.30
35	0.07	0.03	8.71
40	0.09	0.05	7.75
45	0.14	0.08	6.35
50	0.24	0.13	4.22
55	0.39	0.20	1.55
60	0.66	0.30	0.15

* Mortality rates shown are sample rates from the employee table in the base year (2014)

The termination rates were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of terminations and the projected number based on the prior years' assumption over the most recent five years.

**Retirement Age for
Active Participants**

65

The retirement age for active participants is based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirement by age and the projected number based on the prior years' assumption over the most recent five years.

**Description of
Weighted Average
Retirement Age**

Age 65, determined as follows: The weighted average retirement age for each participant is calculated as the sum of the product of each potential current or future retirement age times the probability of surviving from current age to that age and then retiring at that age, assuming no other decrements. The overall weighted retirement age is the average of the individual retirement ages based on all the active participants included in the January 1, 2016 actuarial valuation.

Retirement Age for Inactive Vested Participants	62 if eligible for early retirement, otherwise 65 The retirement age for inactive vested participants was based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the actual number of retirements by age and the projected number based on the prior years' assumption over the most recent five years.
Future Benefit Accruals	Active participants as of January 1, 2016 are assumed to work the same number of hours in future years as worked in the prior year. The future benefit accruals were based on historical and current demographic data, adjusted to reflect estimated future experience and professional judgment. As part of the analysis, a comparison was made between the assumed and the actual benefit accruals over the most recent five years.
Employer Contributions	6.5% of earned wages
Unknown Data for Participants	Same as those exhibited by participants with similar known characteristics. If not specified, participants are assumed to be male
Definition of Active Participants	Active participants are defined as those reported by the fund office as active as of the valuation date with at least one year of Credited Service.
Percent Married	100%
Gender and Age of Spouse	Spouses assumed to be opposite sex of participant. Females are 3 years younger than male spouses.
Annual Wage Increase	3% per year
Benefit Election	All participants are assumed to elect the 50% Joint and Survivor Annuity form of payment. The benefit elections were based on historical and current demographic data, adjusted to reflect the plan design, estimated future experience and professional judgment.
Net Investment Return	6.00% The net investment return assumption is a long-term estimate derived from historical data, current and recent market expectations, and professional judgment. As part of the analysis, a building block approach was used that reflects inflation expectations and anticipated risk premiums for each of the portfolio's asset classes as provided by Segal Marco Advisors, as well as the Plan's target asset allocation.
Annual Administrative Expenses	\$95,000, payable monthly, for the year beginning January 1, 2016 The annual administrative expenses were based on historical and current data, adjusted to reflect estimated future experience and professional judgment.

Actuarial Value of Assets	The market value of assets less unrecognized returns in each of the last five years. Unrecognized return is equal to the difference between the actual market return and the projected return on the market value, and is recognized over a five-year period. The actuarial value is further adjusted, if necessary, to be within 20% of the market value.
Actuarial Cost Method	Entry Age Normal Actuarial Cost Method. Entry Age is the age at date of employment or, if date is unknown, current age minus pension credits. Normal Cost and Actuarial Accrued Liability are calculated on an individual basis and are allocated by wages, with Normal Cost determined as if the current benefit accrual rate had always been in effect.
Benefits Valued	Unless otherwise indicated, includes all benefits summarized in <i>Exhibit 8</i> .
Current Liability Assumptions	<i>Interest</i> : 3.28%, within the permissible range prescribed under IRC Section 431(c)(6)(E) <i>Mortality</i> : Mortality prescribed under IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1: RP-2000 tables projected forward to the valuation year plus seven years for annuitants and 15 years for nonannuitants.
Estimated Rate of Investment Return	<i>On actuarial value of assets (Schedule MB, line 6g)</i> : 5.8%, for the Plan Year ending December 31, 2015 <i>On current (market) value of assets (Schedule MB, line 6h)</i> : -1.2%, for the Plan Year ending December 31, 2015
FSA Contribution Timing (Schedule MB, line 3a)	Unless otherwise noted, contributions are paid periodically throughout the year pursuant to collective bargaining agreements. The interest credited in the FSA is therefore assumed to be equivalent to a July 1 contribution date.

SUMMARY OF PLAN PROVISIONS (SCHEDULE MB, LINE 6)

This exhibit summarizes the major provisions of the Plan included in the valuation. It is not intended to be, nor should it be interpreted as, a complete statement of all plan provisions.

Plan Year	January 1 through December 31
Pension Credit Year	January 1 through December 31
Plan Status	Ongoing plan
Normal Pension	<i>Age Requirement: 65</i> <i>Service Requirement: Ten years of credited service</i> <i>Amount: \$22 for each year of Credited Service before January 1, 2003 and 1.6% of contributions received on the participant's behalf after December 31, 2002. For the years ending December 31, 2003, 2004, and 2005, the participant's benefit accrual was the greater of \$18 and 1.6% of contributions received.</i>
Early Retirement	<i>Age Requirement: 55</i> <i>Service Requirement: Ten years of Credited Service</i> <i>Amount: Normal pension accrued, reduced by 6% for each year of age less than 65</i>
Disability	<i>Age Requirement: None</i> <i>Service Requirement: Five years of vesting service</i> <i>Amount: Normal pension accrued</i>
Vesting	<i>Age Requirement: None</i> <i>Service Requirement: Five years of Vesting Service</i> <i>Amount: Normal pension accrued</i> <i>Normal Retirement Age: 65</i>

Qualified Pre-Retirement Survivor Annuity

Age Requirement: None

Service Requirement: Five years of vesting service

Amount: 50% of the benefit participant would have received had he or she retired the day before he or she died and elected the joint and survivor option. If the participant died prior to eligibility for an early retirement pension, the spouse's benefit is deferred to the date participant would have been age 65. If the participant died with 10 years of Credited Service, but prior to early retirement age, the spouse's benefit is deferred to the date the participant would have been first eligible to receive an early retirement pension.

Post-Retirement Death Benefit

If married, pension benefits are paid in the form of a joint and survivor annuity unless this form is rejected by the participant and spouse. If not rejected, the benefit amount otherwise payable is reduced to reflect the joint and survivor coverage. If rejected, or if not married, benefits are payable for the life of the employee, or in any other available optional form elected by the employee in an actuarially equivalent amount.

Optional Forms of Benefits

The normal forms of payment are as follows:

➤ Single Life Annuity

➤ 50% Joint and Survivor Annuity

The optional forms of payment are as follows:

➤ Single Life Annuity with 60 and 120 payments guaranteed

➤ 75% Joint and Survivor Annuity

➤ 100% Joint and Survivor Annuity

Participation

After completion of 1,000 hours during a calendar year.

Vesting Credit

One year of vesting service for each credit year during the contribution period in which the employee works 1,000 hours

Years of Credited Service

One year of Credited Service for each credit year during the contribution period in which the employee works 1,000 hours

Contributions

Varies from 1.43% to 7.39%, with an average rate of 5.29% of earned wages as of January 1, 2016

Changes in Plan Provisions

There were no changes in plan provisions reflected in this actuarial valuation

**Justification for
Change in Actuarial
Assumptions
(Schedule MB, line 11)**

For purposes of determining current liability, the current liability interest rate was changed from 3.51% to 3.28% due to a change in the permissible range and recognizing that any rate within the permissible range satisfies the requirements of IRC Section 431(c)(6)(E) and the mortality tables were changed in accordance with IRS Regulations 1.431(c)(6)-1 and 1.430(h)(3)-1.

Based on past experience and future expectations, the following actuarial assumption was changed as of January 1, 2016:

Administrative expenses, previously \$83,000, payable at the beginning of the year.

Since this change did not affect the accrued liability, no amortization base was established.
