Notes to Financial Statements

December 31, 2016

Note 1. Description of the Plan

The following description of the MedBridge Healthcare 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of MedBridge Healthcare, LLC (the "Company") who have completed at least 30 days of service and are age twenty-one or older. Prior to July 1, 2016, the Plan covered employees who had completed 90 days of service and were age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions:

Each year, participants may contribute up to the maximum allowed by law of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Effective May 1, 2016 the Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. The Company may make discretionary matching contributions to the Plan. Prior to March 16, 2016, the Company did not make any discretionary matching contributions. Effective March 16, 2016, the Company began contributing 25 percent of the first 4 percent of base compensation that a participant contributes to the Plan. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 3 years of credited service.

Notes to Financial Statements

December 31, 2016

Note 1. Description of the Plan, Continued

Notes receivable from participants:

Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 2 percent above the prime rate at the time the loan is obtained. Principal and interest is paid ratably through biweekly payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the early retirement age of 55 with three years of vesting service, or the normal retirement age of 59½.

Forfeited accounts:

At December 31, 2016 and 2015, there were no forfeited non-vested accounts. Forfeited non-vested accounts would be used either to reduce plan administrative expenses or to reduce future employer contributions. In 2016, \$1,030 of forfeited non-vested accounts were used to reduce employer contributions.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the custodian and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Excess contributions payable:

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions on May 31, 2016. There were no excess contributions for the 2016 plan year.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other distributions to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through October 13, 2017, the date the financial statements were available to be issued.

Recently issued accounting pronouncements:

In January 2016, FASB issued ASU No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Plan's net assets or changes in net assets.

Note 3. Custodian and Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the former custodian and trustee and furnished to the plan administrator. The plan administrator has obtained certifications from the former custodian and trustee that the information provided to the plan administrator by the former custodian and trustee related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets and related income:

	<u>2016</u>	<u>2015</u>
Investments at fair value:		
Pooled separate accounts	\$ 1,679,501	\$ 2,592,949
Mutual funds	987,568	-
Common collective trust funds	5,206,426	-
Guaranteed interest account	227,359	136,848
Notes receivable from participants	<u>207,794</u>	<u>38,288</u>
	<u>\$ 8,308,648</u>	<u>\$ 2,768,085</u>

The former custodian and trustee also certified to the completeness and accuracy of a total of \$267,035 net appreciation in the fair value of investments and \$19,582 of interest and dividends for the year ended December 31, 2016. The trustee also certified to the completeness and accuracy of \$5,187 of interest income on notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Notes to Financial Statements

Note 4. Fair Value Measurements, Continued

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts and common collective trust funds: Valued at the NAV of units held by the Plan at year end. The NAV, as provided by the former custodian and trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the accounts, the investment adviser reserves the right to temporarily delay withdrawal from the accounts in order to ensure that securities liquidations will be carried out in an orderly business manner.

Guaranteed interest account: Guaranteed interest accounts are valued at fair value by the former custodian and trustee by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit worthiness of the issuer. Fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Retirement Plan Committee evaluates a variety of factors including review of economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2016 and 2015:

	December 31, 2016

Level 3 gains and losses, continued:

- (1) Represents the range of rate curves used in the valuation analysis that we have determined market participants would use when pricing the instrument. Range is derived from interpolation between observable 20-year and 30-year swap rates.
- (2) This input factor is the number of contract holders taking withdrawals as well as the amount and timing of the withdrawals and a range does not provide a meaningful presentation.
- (3) This input is based on an appropriate industry mortality table and a range does not provide a meaningful presentation.

In estimating fair value of the investments in Level 3, the Retirement Plan Committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the Retirement Plan Committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

The following table for December 31, 2016 and 2015 sets forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value:

Note 5. Guaranteed Interest Account

The Plan provides an investment option to invest in a non-benefit-responsive guaranteed interest account with Principal Life Insurance Company ("Principal"), an affiliate of the Plan trustee. Principal maintains the contributions in a general account. The account is credited with a guaranteed fixed rate of return. The guaranteed interest account is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan by Principal.

The guaranteed interest account is non-benefit-responsive, and therefore fair value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest accounts.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015 was \$227,359 and \$136,848, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a monthly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

	<u>2016</u>	<u>2015</u>
Average yields:		
Based on actual earnings	0.26%	0.14%
Based on interest rate credited to participants	0.26%	0.14%

Note 6. Related-Party and Party in Interest Transactions

Certain Plan investments are units of common collective trust funds managed by Principal Trust Company, and other investments are units of pooled separate accounts, and a guaranteed interest account managed by an affiliate of Principal Trust Company. Principal Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to the third party administrator totaling \$10,481 which were not covered by revenue sharing. The plan sponsor pays directly any other fees related to the Plan's operations.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 8. Tax Status

Prior to July 1, 2016, the Company had adopted the Plan based on a prototype plan document sponsored by Principal Life Insurance Company. Principal Life Insurance Company received an opinion letter from the IRS dated August 8, 2014 that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The plan administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Subsequent to July 1, 2016, the Company has adopted the Plan based on a volume submitter plan document sponsored by Principal Life Insurance Company. Principal Life Insurance Company has received an opinion letter from the IRS dated August 8, 2014 that states that the form of the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The plan administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the volume submitter plan. While the Plan cannot rely on the IRS opinion letter, the Company and the plan administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. During April 2015, the Plan was selected for review by the IRS, Tax Exempt and Government Entities Division for the year ended December 31, 2013. The audit resulted in no change in the tax liability and the IRS accepted the return as filed.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

The following is a reconciliation of net increase per the financial statements to net increase per Form 5500 for the year ended December 31, 2016:

Net increase per the financial statements	\$ 636,646
Excess contributions payable accrued per the financial statements and not accrued per Form 5500 as of December 31, 2015	<u>(8,180)</u>
Net income per Form 5500	<u>\$ 628,466</u>

Note 11. Plan Amendments

Effective May 1, 2016, the Plan adopted an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2 percent of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Also on this date, the Plan was amended to include employees of Sleep Services of America, Inc ("SSA") and to count vesting for service prior to May 1, 2016.

Effective July 1, 2016, the Plan was amended to reduce the service requirement for participation in the Plan from 90 days to 30 days.

Note 12. Plan Merger

On February 29, 2016, the Company acquired SSA. On May 1, 2016, the Sleep Services of America, Inc. 401(k) Savings Plan was merged into the Plan, and SSA employees could begin participating in the Plan. As a result, net assets of \$4,912,097 were transferred to the control of the Plan on September 30, 2016.

Note 13. Plan Errors and Prohibited Transactions

During 2016, the Company inadvertently failed to make deposits of \$626 of participant loan payments within the timeframe as required by the DOL. The DOL considers late deposits, without regard to materiality, to be prohibited transactions. The general rule for deposits of 401(k) withholdings requires that the Company remit withheld employee 401(k) deferrals to the Plan as of the earliest date on which such amounts can reasonably be segregated from the Company's general assets, but in no event later than 15 business days after the end of the month in which the contributions were withheld. Management believes that assets can reasonably be segregated within 5 business days; therefore, any amount remitted after 5 days is considered late. The Company made deposits ranging from 36 days to 120 days after the date in which the contribution was withheld and does not intend to correct the lost earnings.

Note 13. Plan Errors and Prohibited Transactions, Continued

During 2016, certain employer contributions were made to participant accounts in excess of the discretionary match of 25 percent of the first 4 percent of base compensation. Correction of such amounts would result in a reclassification between accounts within investments at fair value, and would not impact the accompanying statements of net assets available for benefits or statement of changes in net assets available for benefits. Plan management does not believe that the tax status of the Plan would be affected by this error.
