Note 1. Description of the Plan

The following description of the Fluor Paducah Deactivation Project 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan sponsored by Fluor Federal Services, Inc. (the "Company" or "Plan Sponsor"). Reliance Trust Company ("Reliance Trust") is the Plan's current Trustee and State Street Bank & Trust Company is the Plan's former Trustee, and ADP Retirement Services ("ADP") is the Plan's third party administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was formed in 2014, with an effective date of October 1, 2014.

The Plan was formed by Fluor Federal Services, Inc. under the direction, and subject to the approval of the U.S. Department of Energy ("DOE"), in connection with a service contract between the Company and the DOE. The term of the service contract ends in October 2017. If the contract between the DOE and the Company is not renewed or extended and is awarded to another contractor, the sponsorship of the Plan will be assumed by the successor contractor.

The Plan is a defined contribution plan covering all employees of the Company who are working for the Fluor Federal Services Paducah Deactivation Project (Task Order number DE-DT0007774 under Contract No. DEEM0001131) and are not otherwise eligible to participate in any other employee benefit plan that offers the same or similar benefits sponsored or maintained by another member of the same controlled group of corporations that the Company is a member (determined within the meaning of section 1563(a) of the Code). Employees covered under a collective bargaining agreement may participate in the Plan to the extent permitted in the collective bargaining agreement. There are no age requirements or service period requirements to participate in the Plan.

Contributions:

Each year, participants may contribute up to 60 percent of pretax annual compensation, as defined in the Plan. Participants who have attained the age of 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution or defined benefit plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes 100 percent of the first 3 percent of eligible compensation that a participant contributes to the Plan, plus 50 percent of participant contributions between 3 and 5 percent. Additional profit sharing amounts may be contributed at the option of the Company's board of directors. During the year ended December 31, 2016 and 2015, the Company made $2,416,356 and $1,497,508, respectively, in contributions to the Plan. The Company's contributions for participants covered under a collective bargaining agreement are subject to terms outlined in the respective collective bargaining agreement. There were no discretionary contributions during 2016 and 2015. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Note 1. Description of the Plan, Continued

Participant accounts:

Each participant's account is credited with the participant's contributions and Company contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are vested immediately in their contributions and Company safe harbor matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested in profit sharing contributions at the end of 2 years of credited service. Years of service with other employers defined by the Plan are recognized in credited service for determining vesting.

Notes receivable from participants:

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate, determined at the origination of each loan, is 1 percent above prime rate, as defined. Principal and interest is paid ratably through payroll deductions.

Payment of benefits:

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or other installment options as provided by the Plan. Hardship distributions are permitted upon demonstration of financial hardship. All fully vested balances are available for distribution after the participant reaches the age of 59½.

Forfeited accounts:

At both December 31, 2016 and 2015, forfeited nonvested accounts totaled $10. These forfeited amounts will be used by the Plan to reduce future employer contributions. During 2016 and 2015, the Plan used $19,815 and $2,035, respectively, from forfeited nonvested accounts to reduce employer contributions.

Note 2. Summary of Significant Accounting Policies and Activities

Basis of accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Use of estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the Trustees. See Note 4 for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits:

Benefits are recorded when paid.

Expenses:

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other distributions to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent events:

The Plan has evaluated subsequent events through October 11, 2017, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies and Activities, Continued

Recently issued accounting pronouncements:

In January 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which addresses certain aspects of recognition, measurement, presentation, and disclosure of financial instruments. The amendments in this ASU are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. With certain exceptions, early adoption is not permitted. Plan management is currently evaluating the impact that ASU 2016-01 will have on its financial statements.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies are not expected to have a material impact on the Plan's net assets or changes in net assets.

Note 3. Trustee Certifications

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the years ended December 31, 2016 and 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current Trustee as of December 31, 2016 and for the year then ended and from the former Trustee as of December 31, 2015, that the information provided to the Plan Administrator by the current and former Trustees related to the following assets is complete and accurate. Accordingly as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and related income:

	2016	2015
Investments at fair value:		
Mutual funds	$ 10,108,362	$ 4,547,699
Common collective trust funds	257,468	44,923
	10,365,830	4,592,622
Notes receivable from participants	260,389	102,599
	$ 10,626,219	$ 4,695,221

The Trustee also certified to the completeness and accuracy of $333,532 of net appreciation and $333,542 of net depreciation, in the fair value of investments and $308,696 and $211,116 of interest and dividends, including interest income on notes receivable from participants, for the years ended December 31, 2016 and 2015, respectively.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trust funds: Valued at NAV. The NAV, as provided by the Trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Note 4. Fair Value Measurements, Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2016 and 2015:

	December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 10,108,362	$ -	$ -	$ 10,108,362

	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 4,547,699	$ -	$ -	$ 4,547,699
Total assets in the fair value hierarchy	$ 4,547,699	$ -	$ -	4,547,699
Investments measured at NAV (a)				44,923
Investments at fair value				$ 4,592,622

(a) Certain investments that were measured at NAV per share or its equivalent have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following tables for December 31, 2016 and 2015 set forth a summary of the Plan's investments reported at NAV as a practical expedient to estimate fair value.

	$ 44,923	$ -		

Note 5. Related Party and Party in Interest Transactions

Certain Plan investments are shares of mutual funds managed by Reliance Trust for 2016 and State Street Bank & Trust Company for 2015 or their affiliates. Reliance Trust is the current Trustee, State Street Bank & Trust Company is the former Trustee, as defined by the Plan and, therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment management services are also party in interest transactions, and these amounts are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payments to ADP, the third party administrator, totaling $8,650 and $4,052 in 2016 and 2015, respectively, which were not covered by revenue sharing. The Company pays directly, at its discretion, any other fees related to the Plan's operations.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

Note 7. Tax Status

The Company has adopted the Plan based on a prototype plan document sponsored by ADP. ADP has received an opinion letter from the IRS dated July 16, 2014 that states that the form of the prototype plan is acceptable under Section 401 of the Internal Revenue Code ("IRC"). The Plan Administrator has not requested a determination letter from the IRS on the Plan. The Plan has been amended since the date of the IRS opinion letter on the prototype plan. While the Plan cannot rely on the IRS opinion letter, the Company and the Plan Administrator believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Restatement

Net assets available for benefits as of December 31, 2015 have been restated for an error that occurred in 2015. This error was the result of 2015 employee and employer contributions that were deposited in 2016, but not recorded in the 2015 financial statements. The following schedule shows the cumulative effect increase in net assets available for benefits as of December 31, 2015:
