1. Description of Plan

The following brief description of the Y&L Consulting, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established and commenced on May 1, 2014. The Plan is a defined contribution plan covering all employees of Y&L Consulting, Inc. (the Company), except employees who are members of a collective bargaining unit, self-employed individuals, and independent contractors. There are no age or service requirements for employees to be eligible to participate in the plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company may, at its discretion, match a portion of participant contributions or make a non-elective discretionary contribution known as a profit sharing contribution. Contributions are subject to certain limitations. The Company did not make any matching or profit sharing contributions for the year 2016. Each year, participants may contribute up to a maximum amount determined the by Federal Government, which for the years 2016 and 2015 was $18,000. Also, participants who have obtained the age of 50 before the close of the Plan year are eligible to make catch-up contributions, which for the years 2016 and 2015 was up to an additional $6,000.

Participant Accounts

Participants may direct their contributions to selected investments as made available by the Plan administrator. Participants may change their investment options throughout the year via direct telephone or website access with the custodian, John Hancock Life Insurance Company (U.S.A), hereafter referred to as John Hancock.

Each participant's account is credited with the participant's contribution, the Company's contributions (if any), and an allocation of Plan earnings. The Company's matching contributions, if any, depend on the amount of the each participant's elective deferral contribution and is based upon a matching percentage set by the Company. Plan earnings are credited to each participant's account based upon the performance of the investments selected at each valuation date. The benefit to which a participant is entitled is the benefit that can be derived from the participant's vested account.

1. Description of Plan (continued)

Payment of benefits

On termination of service, a lump-sum amount will be distributed equal to the value of the participant's vested interest in his or her account.

Vesting

Participants are 100% vested at all times in the accrued benefits from their elective contributions and the Company's safe harbor contributions. Participants become 20% vested after two years of service and increasing 20% per year until 100% vested after the completion of six years of service in all matching and non-elective discretionary contributions made by the Company and the earnings thereon.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeited amounts from nonvested accounts may be used by the Plan for several purposes including reducing the Company's matching and non-elective contributions or applied to reduce administrative expenses of the Plan. Unallocated forfeitures at December 31, 2016 and 2015 were $0.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction in contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of participant initiated transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation or depreciation of fair value of investments.

Recent Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12 which is a three-part ASU to simplify financial reporting for benefit plans. Individual parts of this ASU can be adopted and during the year 2015 the Plan adopted Part II of this ASU and the effects related to the financial reporting of the Plan are as follows:

Part II - Plan Investment Disclosures, simplified Plan investment disclosures which among other things eliminating the requirement to disclosure net appreciation or depreciation in fair value of investments by general type and eliminating the requirement to disclose individual investments with a value equal to or greater than 5% of net assets available for benefits.

Part II of ASU No. 2015-12 is effective for fiscal years beginning after December 15, 2015 with early adoption or application permitted.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

Subsequent events were evaluated through October 12, 2017, the date the financial statements were available to be issued.

3. Information Certified By John Hancock

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information certified by John Hancock, except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental schedule.

John Hancock certified the completeness and accuracy of the Plan's fair values of assets at December 31, 2016 and 2015 in the amounts of $495,945 and $309,659, respectively. John Hancock also certified the completeness and accuracy of the net appreciation in fair value of investments in the amount of $30,874 for the year ended December 31, 2016.

4. Fair Value Measurements

The fair value measurement accounting literature establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

4. Fair Value Measurements (continued)

- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for major categories of investments measured at fair value:

Level 2 Fair Value Measurements

The fair values of pooled separate accounts reported by the insurance company are measured based upon data provided by outside valuation service providers who in turn generally use the mean of bid and asked prices but may also use alternative observable pricing inputs for certain securities less a separate account charge.

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2016:

	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ 495,945	$ -	$ 495,945
	$ -	$ 495,945	$ -	$ 495,945

4. Fair Value Measurements (continued)

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2015:

	Level 1	Level 2	Level 3	Fair Value
Pooled separate accounts	$ -	$ 309,659	$ -	$ 309,659
	$ -	$ 309,659	$ -	$ 309,659

5. Tax Status

The Company adopted the Datair Employee Benefit Systems, Inc. Volume Submitter Profit Sharing Plan with CODA which received a favorable opinion letter from the Internal Revenue Service (IRS) on March 31, 2014 which stated that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in accordance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, no uncertain positions taken or expected to be taken would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are investments managed by John Hancock. John Hancock is the custodian of Plan assets and they provide participant accounting and, therefore these transactions qualify as party-in-interest transactions. Total fees paid by the Plan for investment management and other services amounted to $3,968 for the year ended December 31, 2016.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants would become fully vested in their account balances.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:

	2016	2015
