EMS SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

1. DESCRIPTION OF PLAN

The following description of the EMS Savings Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General—The Plan is a defined contribution plan covering all employees of Francis David Corporation d.b.a Electronic Merchant Systems (the “Company”). Employees may participate in the Plan if they are a member of the defined participant group upon reaching age 21 and completing six months of eligible service as defined by the Plan. Plan entry dates are the first day of the quarter, following the date eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Administrative expenses of the Plan are paid by the Company.

Contributions — Each year participants may elect to have between 1% and 100% (plus catch up contributions as defined in the Plan document) of their compensation contributed to the Plan through payroll deductions on a pre-tax basis, as defined by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make discretionary matching contributions. For the 2016 and 2015 Plan years, the Company elected to contribute to the participant’s accounts, an amount equal to 50% of their contributions, up to 5% of compensation. The Company may also make qualified non-elective contributions (QNEC). Company matching contributions were \$146,008 and \$142,092 for the years ended December 31, 2016 and 2015, respectively. Total QNEC made to the Plan for the years ended December 31, 2016 and 2015 were \$-0- and \$-0- respectively.

Participant Accounts—Each participant’s account is credited with his or her payroll reduction contributions, the Company matching contributions, and allocations of QNEC and investment earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. QNEC are allocated as a uniform percentage of Plan compensation for the Plan year to non-highly compensated employees. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting—Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Corporation’s matching contributions and QNEC and earnings thereon is based on years of continuous service. A participant is 100% vested after two years of service or upon reaching normal or early retirement age, death, or total and permanent disability.

Forfeitures – Forfeitures are created when participants terminate employment prior to becoming entitled to full benefits. The forfeitures may be used to offset the Company’s contributions or administrative expenses. Forfeited non-vested accounts totaled \$-0- and \$1,232 at December 31, 2016 and 2015, respectively. The Company utilized \$-0- and \$-0- during 2016 and 2015 to offset plan expense.

EMS SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

Participant Loans—Participants may borrow up to 50% of their vested account balance, from a minimum of \$1,000 up to a maximum of \$50,000. Loan terms range from one to five years or up to ten years for the purchase of a primary residence. Loans are secured by the balance in the participant's account and bear interest from 5% to 8%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits—Upon attaining age 59 ½ or termination of service due to death, disability or retirement, participants or their beneficiaries may elect to withdraw funds from the Plan. The value of their account will automatically become fully vested and may be paid out in either a lump-sum amount or installments over a specific period. Upon proven financial hardship or separation of service, participants may elect to receive a distribution equal to the value of their vested account.

Administrative Expenses—Some administrative expenses are paid by the Plan. All other expenses related to the Plan are paid by the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accounting records of the Plan are maintained on the accrual basis of accounting. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through an insurance company guaranteed interest account. Contract value for this insurance company guaranteed interest account is based on the deposits made to the contract, plus earnings at the calculated composite interest rate, less withdrawals and fees (See Note 7). The Statements of Net Assets Available for Benefits should present the fair value of the insurance company guaranteed interest account as well as the adjustment from the fair value to contract value, however, for the Plan, there was not a significant difference between these values. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates—The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

EMS SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

Investment Evaluation and Income Recognition—The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains (losses) on investments bought and sold, as well as held, during the year.

Subsequent Events—The Company evaluated events through October 10, 2017, the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in the financial statements.

4. FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. It applies to fair value measurements already required or permitted by existing standards. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs used in valuation models (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described on the following page.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Quoted prices for similar assets or liabilities in active markets or quoted prices for identical or similar assets or liabilities in inactive markets. Level 2 input include those other than quoted prices that are observable for the asset or liability and that are derived principally from, or corroborated by, observable market data by correlation or by other means. If the asset or liability has a specified term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Non-interest-bearing cash – Valued at cost, which approximates fair value.

Insurance company pooled separate accounts – Valued at the closing price reported for the pooled separate accounts, which represent the net asset value of shares held by the Plan at year end.

Insurance company guaranteed interest account – Valued at fair value based on the deposits made to the contract, plus earnings calculated composite interest rate, less withdrawals and fees (See Note 7).

Participant loans – Valued at amortized cost, which approximates fair value.

ELECTRONIC MERCHANT SYSTEMS SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS, CONTINUED FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

The proceeding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. TAX STATUS

The Company adopted a Volume Submitter Profit Sharing plan with a cash or deferral arrangement. The Volume Submitter Plan received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRS). Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions, suspend or terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their account balances.

7. INSURANCE COMPANY GUARANTEED INTEREST ACCOUNT

During 2016 and 2015, the Plan participated in an insurance company guaranteed interest account through John Hancock Life Insurance Company. As described in Note 2, because the investment is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed interest account. Contract value, as reported to the Plan by John Hancock Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct withdrawal or transfer of all or a portion of their investment at contract value. Contract value is the amount payable to Plan participants upon demand. The insurance company guaranteed interest account contains investments having various maturity dates through 2026.

The interest rate is reset monthly. The following table presents the guaranteed interest rate and current yield for the insurance company guaranteed interest accounts at December 31, 2016 and 2015:

	<u>2016</u>	<u>2015</u>
Guaranteed rate	.88%	.34%
Current Yield	.23 – 3.52%	.11 – .40%

8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500

	<u>2016</u>	<u>2015</u>
Net Assets available for benefits per the financial Statement	\$5,372,173	\$4,693,498

Net Assets available for benefits per the Schedule H To Form 5500	<u>\$5,421,339</u>	<u>\$4,729,443</u>

9. PARTY – IN –INTEREST TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts and a guaranteed interest account managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the Plan's custodian, and therefore, these transactions are considered party-in-interest transactions.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in near term and that such changes could materially affect participant's account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

11. REFUND OF EXCESS ELECTIVE DEFERRALS AND RELATED EARNINGS

In order to pass the 2016 and 2015 Actual Deferral Percentage (ADP) Test, the Plan administrator elected to refund excess elective deferrals and earnings thereon to certain highly-compensated employees. The calculated amounts were \$49,226 and \$35,945 at December 31, 2016 and 2015 respectively. These amounts have been included in excess contributions payable in the accompanying Statements of Net Assets Available for Benefits at December 31, 2016 and 2015.
