MAYDAY MANUFACTURING
401(K) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
March 31, 2017, December 31, 2016 and 2015

NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of the Mayday Manufacturing 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible full-time employees of Mayday Manufacturing Company, Inc. (the “Plan Sponsor”). Eligible employees may elect to make pretax salary deferral contributions. Employees must complete one year of service and be employed on the last day of the year to be eligible for the discretionary profit sharing contribution. The Plan is administered by the Plan Sponsor along with Great-West Life Trust Company (“Great-West”) (the “Trustee”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

During 2016, the business of the Plan Sponsor was sold by its parent company. As a result of this transaction, effective March 31, 2017, all the assets of the Plan were transferred to another qualifying benefit plan sponsored by the acquiring company.

Contributions

Participants were permitted to elect to contribute up to the maximum amount allowed by Internal Revenue Service (“IRS”) regulations for the Plan year. In addition, the Plan Sponsor made matching contributions equal to 50% of participant deferrals up to a maximum of 4% of the participant’s eligible compensation.

If a participant reached age 50 during the calendar year and was making the maximum Plan or IRS pre-tax contribution, they were permitted to make an additional “catch-up” contribution each pay period, up to the annual IRS dollar limit.

In addition, the Plan Sponsor was permitted to make a discretionary profit sharing contribution in an amount determined by the board of directors on an annual basis based on Plan Sponsor profitability. There were no discretionary profit sharing contributions for the period ended March 31, 2017 and for the years ended December 31, 2016 and 2015.

Rollovers

Rollover contributions consisted of amounts rolled over by participants from another qualified plan as defined by the Internal Revenue Code (“IRC”).

Allocation of Forfeitures

Forfeitures attributable to Plan Sponsor matching contributions and discretionary profit sharing contributions were used to reduce the Plan Sponsor’s contribution or to pay Plan expenses. At December 31, 2016 and 2015, there were accumulated forfeitures of \$2,207 and \$13,022, respectively. Forfeitures totaling \$11,727 and \$6,704 were used to reduce the Plan Sponsor’s contributions or to pay Plan expenses during the years ended December 31, 2016 and 2015, respectively. There were no accumulated forfeitures as of March 31, 2017 and no amounts used to reduce Plan Sponsor’s contributions or to pay Plan expenses during the period ended March 31, 2017.

Participant Accounts

Separate accounts were maintained in the name of each participant. Participants directed their contributions and Plan Sponsor matching and discretionary contributions into one or a combination of available investment accounts. Each participant's account was credited with the participant's contribution, the Plan Sponsor's matching contribution, the Plan Sponsor's discretionary profit sharing contribution, an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled is the benefit that can be provided from the participant's vested account.

Investment Options

Participants elected their allocation percentage among investment options with varying degree of risk. Participants could change their investment directive at any time during the year.

Vesting

Participants were immediately vested in their contributions and earnings thereon. Plan Sponsor matching contributions and Plan Sponsor discretionary profit sharing contributions and related earnings were vested 20% per year for six years.

Notes Receivable from Participants

The Plan allowed participants to apply for and obtain notes in an amount defined in the Plan (no less than \$1,000 and limited to 50% of the participant's vested account balance provided such notes do not exceed \$50,000), from the balance of the participant's account. All notes were required to be repaid within five years unless the note was used to acquire the participant's primary residence in which case the term of the note was permitted to be set for a term of up to 15 years. The notes were secured by the balance in the participant's account with interest at a fixed rate of Prime plus 1% as of the date of the note's inception. Payments of principal and interest were credited to the participant's account.

Notes were considered to be in default when payments were not made by the end of the calendar quarter following the quarter in which the payment was due, if there was still an outstanding balance on the note's maturity date, or employment with the Plan Sponsor was terminated. In the event of default, the entire outstanding note balance, consisting of the missed payments, remaining principal, and all accrued but unpaid interest, was reported to the IRS as taxable income. If a note was not fully repaid by the end of its term, the outstanding balance was treated as a deemed distribution, and was reported to the IRS as taxable income.

Payment of Benefits

On termination of service, if a participant's account was less than \$1,000, the participant was required to receive a lump-sum amount equal to the value of his or her vested account balance. If the participant's account balance was between \$1,000 and \$5,000 and the method of distribution was not specified by the participant, an automatic rollover to an Individual Retirement Account was made. If the participant's account exceeds \$5,000, the terminated participant could elect to defer distribution until a later date (not later than their normal retirement date).

Administrative Expenses

Certain administrative functions were performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan. Administrative fees were paid by the Plan.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan were maintained on the accrual basis.

Use of Estimates

In preparing the Plan's financial statements in accordance with accounting principles generally accepted in the United States of America, the Plan Sponsor was required to make estimates and assumptions that affect the reported amounts of Plan assets, liabilities and the reported increases and reductions of Plan assets during the reporting period. Actual results could differ from these estimates.

Fair Value of Financial Instruments

Fair value estimates were made at a specific point in time based on relevant market information about the financial instrument. These estimates were subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Valuation of Investments and Investment Income

The Plan's investments in mutual funds were stated at fair value at December 31, 2016 and 2015. The Plan's investment in a fully benefit-responsive investment contract was stated at contract value at December 31, 2016 and 2015.

The Plan entered into a fixed annuity contract with Great-West. Great-West maintained the Plan's investment in their general accounts and was contractually required to repay the principal and a specified interest rate that was guaranteed to the Plan. Because the fixed annuity contract was fully benefit-responsive, contract value was the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Great-West, represented contributions made under the contract, plus earnings at guaranteed crediting rates, less participant withdrawals and administrative expenses. Participants could ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

In certain circumstances, the amount withdrawn from the fixed annuity contract would be payable at fair value rather than at contract value. These circumstances may include, but are not limited to, the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events within the control of the fund or the Plan Sponsor resulting in a material and adverse financial impact on the issuer's obligations under the contract.

Investment income consisted of dividend and interest income. The net appreciation (depreciation) of investments consists of realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of securities were recorded on a trade-date basis. Dividends were

recorded on the ex-dividend date. Realized gains and losses from security transactions were reported based on historical cost.

Notes Receivable from Participants

The Plan allowed loans in accordance with the Plan document. The loans were carried at their unpaid principal balance, plus any accrued interest. Loans are deemed distributions by the Plan when they are determined to be in default.

Payment of Benefits

Benefits were recorded when paid.

Income Taxes

Under the Income Taxes Topic of the Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC"), the Plan Sponsor is required to identify potential uncertain tax positions taken, assess and quantify those positions and record reserves. As of and for the period ended March 31, 2017 and as of and for the years ended December 31, 2016 and 2015, the Plan Sponsor has identified no uncertain tax positions. The Plan files the United States Federal Form 5500 annually.

Subsequent Events

The Plan has evaluated subsequent events through October 10, 2017, the date the financial statements were available to be issued.

NOTE 3 – SUMMARY OF FINANCIAL DATA CERTIFIED BY TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements, which was prepared by the Trustee as of and for the years ended December 31, 2016 and 2015, and furnished to the Plan Sponsor. The Plan Sponsor has obtained certifications from the Trustee as of and for the period ended March 31, 2017 and as of and for the years ended December 31, 2016 and 2015, that such information is complete and accurate.

NOTE 4 – INVESTMENTS

The Plan's investments are participant-directed accounts that are held by the Trustee.

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Plan uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The classification of fair value measurements within the hierarchy was based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value were as follows:

- Mutual funds: Valued at the closing price reported on the active market on which the individual securities are traded.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the valuation methods.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
2016				
Mutual funds	\$ 3,513,077	\$ -	\$ -	\$ 3,513,077
2015				
Mutual funds	\$ 3,389,871	\$ -	\$ -	\$ 3,389,871

NOTE 5 – TAX STATUS

The Plan adopted the provisions of the Tailwind Technologies 401(k) Plan document. The Plan obtained a favorable determination letter from the IRS to the effect that the Plan was exempt from federal income taxes dated July 10, 2014. The Plan was amended since receiving the determination letter. However, the Plan Sponsor is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status and believes that the Plan was designed and operated in

compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE 6 – RELATED-PARTY TRANSACTIONS

Certain Plan investments were managed by the Trustee, and therefore, those transactions qualified as party-in-interest transactions. Fees paid by the Plan for the investment management services are included as a reduction of the return on each fund. There are also indirect fees deducted directly from the investment earnings of the Plan.
