NOTE 1 – PLAN DESCRIPTION

Description of the Plan

The following description of the Chef Works, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of Chef Works, Inc. (the “Company” or "Plan Sponsor"). The Plan is a retirement savings plan under the Internal Revenue Code ("IRC") Section 401(a) and contains a cash or deferred arrangement as provided for by IRC Section 401(k). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the IRC.

Eligibility

Employees age 18 or older with at least 3 months of credited service are eligible to participate in the Plan. Employees age 18 or older with at least 1 year of credited service consisting of 1,000 hours are eligible to receive employer matching contributions. Enrollments into the Plan are done quarterly. Ineligible employees generally include non-resident aliens, leased employees, those whose employment is covered by a collective bargaining agreement, and certain other classes of employees as specified in the Plan document.

Contributions

Participant contributions – Participants may elect to contribute up to 100% of their eligible compensation, as defined, up to limits imposed by the IRC. Participants may designate all or a portion of their contributions as Roth (after-tax) contributions. In addition, employees who are age 50 or older may elect to defer additional amounts (called "catch-up contributions") to the Plan up to the maximum allowed by the IRC. Participants may also contribute amounts representing distributions from other qualified sources and rollover distributions from other qualified plans.

Employer matching contributions – Effective January 1, 2016, the Plan Sponsor began a Company matching contribution that replaced the previous employer profit sharing contribution agreement. Under the new agreement, the Company will match 50% of the participant’s contribution, up to 2% of the participant’s deferred election and up to 2% of eligible salary. If the Company exceeds its yearly profit goals, set by the Plan Sponsor’s management, there will be an additional matching contribution equal to 50% of the participant’s contribution up to 4% of the participant’s deferred election. The Company’s matching contribution vests at a rate of 20% per year and is 100% vested after five years.

The Plan also includes provisions for discretionary additional employer matching contributions. Total discretionary matching contributions for the year ended December 31, 2016 was $0. Total discretionary matching contribution for the year ended December 31, 2015 was $90,000, which was also a receivable employer contribution at December 31, 2015.

NOTE 1 – PLAN DESCRIPTION (continued)

Participant Accounts

Participant accounts are credited with the participant and employer's contributions (if any), and allocations of Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. Individual participant accounts are charged for loan and distribution fees. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants direct the investment of all contributions into various investment options offered by the Plan.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. The Company's discretionary contributions vest over a 5-year period, which is as follows:

Years of Service	Vested Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Participants become fully vested upon termination for reason of retirement, death, or disability, of if the Plan is terminated. Nonvested benefits are forfeited by participants upon termination for reasons other than normal retirement, death, or disability.

Forfeitures

Included in the Plan's investments is a cash reserves account which comprises amounts forfeited by participants and certain other amounts forwarded to the Plan by the Company. Such amounts are to be used to restore prior forfeitures, reduce future employer contributions, or pay administrative expenses. As of December 31, 2016 and 2015, the forfeited non-vested accounts totaled $11,012 and $9,524, respectively.

Payment of Benefits

Upon disability, death, termination, retirement, or attaining age 59 ½, participants may elect to receive a distribution of their account (as defined) in lump sum, or defer distribution if the account exceeds $5,000. However, if such a participant's vested account balance is less than $5,000, but greater than $1,000, the Plan Sponsor may roll the balance into an individual retirement account with the trustee. Also, at its discretion, the Plan may elect to distribute vested account balances of less than $1,000. Generally, initial distribution must begin the later of the April 1 of the calendar year following the year in which the participant attains the age of 70 ½ or retires.

NOTE 1 – PLAN DESCRIPTION (continued)

Payment of Beneifts

In addition, in the event of hardship as defined by the IRC, participants may request withdrawals from their vested account balance. After a hardship withdrawal, a period of six months must lapse before a participant can make additional salary reduction contributions.

Administrative Expenses

Expenses to the Plan, including legal, audit, administrative, and trustee expenses, are generally paid by the Company, with the exception of certain administrative expenses which are paid for by the Plan and charged to the participants' accounts.

Notes Receivable from Participants

Participants may borrow against their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested interests in their account balance. Participant may have only 1 loan outstanding at a time. Loans are required to be repaid within 5 years, unless they are for the purchase of a principal residence, in which case the maximum repayment period is 30 years. The loans are secured by up to half of the participant's vested account balance. The loans bear interest at the prime rate plus 1%. As of December 31, 2016 and 2015, the interest rates on outstanding notes receivable from participants was 4.25%-4.50%. Principal and interest are paid regularly through payroll deductions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual method of accounting in accordance with U.S. generally accepted accounting principles (GAAP).

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the "exit price") in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Contracts

The Voya Fixed Account is a benefit-responsive investment contract. Investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Contributions to Voya Institutional Trust Company (formerly ING National Trust) under this contract are maintained in a general account that is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the Trustee.

Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. There are no reserves against contract value for credit risk.

There are no unfunded commitments, redemption restrictions or notice period applicable to the guaranteed investment contract. Under the terms of the guaranteed investment contract, the Plan sponsor must provide a minimum of 90 days notice to Voya prior to redemption of the contract.

Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation and depreciation in the fair value of investments consists of both the realized gains or losses and unrealized appreciation or depreciation of those investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Plan Administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Income Tax Status

The Company adopted a prototype plan which received a favorable opinion letter in which the Internal Revenue Service stated that the Plan, as then designed, was, in its opinion, in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving this letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States require Plan management to evaluate tax positions taken by the Plan if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Subsequent Events

The Plan's management has evaluated subsequent events through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE

All investment and notes receivable information disclosed in the accompanying financial statements and supplemental schedule (Schedule H, Line 4i), including investments held at December 31, 2016 and 2015, investment income from mutual funds and investment company contracts and interest income for the year ended December 31, 2016, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by VOYA Retirement Insurance and Annuity Company (“VOYA”), formerly ING Life Insurance and Annuity Company, the trustee of the Plan.

NOTE 4 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures* (“FASB ASC 820”), provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The following describes the three levels of the fair value hierarchy under FASB ASC 820, as well as a description of the valuation methodologies for Plan investments as of December 31, 2016 and 2015:

NOTE 4 – FAIR VALUE MEASUREMENTS (continued)

Level 1 – The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded. The fair values of common stocks are based on the closing price reported on the active market where the individual securities are traded.

Level 2 – The fair value of corporate bonds and U.S. government securities are valued using a market approach on yields currently available on comparable securities of issuers with similar credit ratings.

Level 3 – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (for example, supported with little or no market activity).

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used.

Mutual Funds: Valued at the closing price reported in the active market in which the individual investments are traded – level 1.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. In addition, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There was no change in the fair value methodology used at December 31, 2016 and 2015.

The following summarizes the classification of investments and method of valuation in accordance with the requirements of FASB ASC 820:

	December 31, 2016			
	Total	Level 1	Level 2	Level 3
Mutual funds	$ 6,274,049	$ 6,274,049	$ -	$ -

	December 31, 2015

Total assets at fair value	$ 4,955,454	$ 4,955,454	$ -	$ -

NOTE 5 – RELATED PARTY TRANSACTIONS

The Company provides administrative services at no cost to the Plan, and substantially all of the Plan's operating expenses are paid by the Company. Certain Plan investments are units of a guaranteed investment account and mutual funds managed by VOYA Retirement Insurance & Annuity Company, the Plan's trustee. The Plan has contracted with VOYA for VOYA to provide certain necessary duties and responsibilities for the operation of the Trust. These transactions qualify as exempt party-in-interest transactions.

NOTE 6 – PLAN TERMINATION

Although it has expressed no intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
