Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Sequa Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 8, which was certified by the Bank of New York Mellon/BNY Mellon, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2016 and 2015 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

SEQUA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 - DESCRIPTION OF THE PLAN

General

The Sequa Pension Plan (the "Plan") is a noncontributory, defined benefit plan sponsored by Sequa Corporation (the "Company"). Effective July 1, 2011, the Plan covers all eligible salaried and hourly non bargaining employees, as well as certain hourly employees covered by collective bargaining agreements with employers that have adopted the Plan. Prior to July 1, 2011, the Plan only covered certain hourly employees covered by collective bargaining agreements with employers that have adopted the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Participation and Benefits

Certain collective bargaining employees became eligible for participation in the Plan upon attaining the age of 21 and completing one year of service, as defined in the Plan document. Benefit accruals and participation for all bargaining employees were frozen (based on the latest bargaining agreements, the last one effective June 30, 2013). Participation in the Sequa Retirement Plan for non-bargaining employees was frozen to new employees on December 31, 2005. Benefit accruals were frozen for non-bargaining participating employees who did not attain age 45 by December 31, 2005. Non-bargaining participating employees who were at least age 45 by December 31, 2005 continue to accrue benefits unless the participant made an irrevocable election to cease participation in the Plan and instead participate in the discretionary Company retirement contribution feature of the Sequa 401(k) plan.

Participants are eligible for pension benefits upon reaching normal retirement age of 65 provided they are fully vested (credited with at least five years of service). There is no partial vesting before five years of service. The Plan benefit payments are determined by the collective bargaining agreements for the collective bargaining employees in the Plan. Retirement benefit payments for salaried and hourly non collective bargaining employees are based on a specified percentage of participant's average compensation multiplied by years of benefit service. The Plan contains provisions for early retirement, late retirement, disability and surviving spouse benefits.

Further information regarding eligibility for participation, the methods used to determine participants' accrued benefits, type of benefits and vesting provisions is contained in the Plan document, which is available to all Plan participants.

Funding and Administrative Expenses

The Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. The Company's policy is to contribute an annual amount sufficient to meet the minimum funding requirements of ERISA. The Company was in compliance with the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015. Administrative expenses are paid out of Plan assets.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with U.S. Generally Accepted Accounting Principles ("U.S. GAAP"). The more significant accounting policies followed by the Plan are as follows:

Investment Valuation and Income Recognition

All Plan assets are held by the Sequa Corporation Master Trust (the "Master Trust"). The Master Trust investments reflected in the accompanying financial statements have been reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (see Note 10).

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Master Trust's gains (losses) on the investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosures of the actuarial present value of accumulated plan benefits and contingent assets and liabilities. These estimates and assumptions are based on management's best estimate and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including consideration of the current economic environment. Management adjusts such estimates when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results may differ from those estimates and assumptions.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3 - PLAN TERMINATION

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth by ERISA. Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC, while other benefits may not be provided for at all.

The PBGC will guarantee the payment of most vested normal age retirement benefits and early retirement benefits which employees were receiving or were entitled to receive as of the date the Plan's termination.

For 2016, the total amount of such guaranteed benefits is subject to an overall monthly ceiling of \$5,011 for a single life annuity commencing at age 65. This amount is adjusted periodically by the PBGC. Other forms of benefits and/or benefit commencement dates prior to age 65 might have a lower ceiling. Benefit commencement dates after age 65 might have a higher ceiling.

(Continued)

SEQUA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 3 - PLAN TERMINATION (continued)

Plan members will be fully vested in their rights under the Plan to the extent then funded, in the order of priority specified in the Plan. In accordance with ERISA, a more detailed description of the allocation of the Plan assets upon termination can be obtained by reference to the Plan document, which is available to all Plan participants.

NOTE 4 - TRUST AGREEMENT

Under the terms of the Master Trust Agreement, The Bank of New York Mellon/BNY Mellon, N.A. (the "trustee") serves as trustee of the Plan and carries out an investment policy established by the Sequa Corporation Employee Benefit Plans Investment Committee, consistent with the purposes of the Plan and the requirements of applicable laws and regulations. The trustee is considered a party-in-interest to the Plan.

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including any lump-sum distributions that are available to participants, which are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died and (c) present employees or their beneficiaries. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered to the valuation date.

Towers Watson Delaware Inc. (a subsidiary of Willis Towers Watson PLC), the Company's actuary and retirement consultant, estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. For collective bargaining employees, benefits under the Plan are based on the benefit levels negotiated between the Company and each union, multiplied by the employee's benefit service (generally to a maximum of 30 years). For salaried and hourly non collective bargaining employees, benefits under the Plan are based on a specified percentage of the participant's average compensation multiplied by years of benefit service.

The actuarial present value of accumulated plan benefits as of December 31, 2015 is as follows:

Vested benefits	
Retired participants and beneficiaries	\$ 285,097,582
Other participants	109,475,746
Nonvested benefits	<u>273,278</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 394,846,606</u>

(Continued)

SEQUA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 5 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (continued)

The changes in actuarial present value of accumulated plan benefits since the date of the previous Plan valuation, December 31, 2014, are as follows:

Actuarial present value of accumulated benefits as of December 31, 2014	\$ 402,734,376
Increase (decrease) attributed to	
Benefits accumulated and actuarial (gains) and losses	3,489,904
Interest	25,304,213
Benefit payments	(31,374,873)
Assumption changes	<u>(5,307,014)</u>
	<u>(7,887,770)</u>
Actuarial present value of accumulated benefits as of December 31, 2015	<u>\$ 394,846,606</u>

The more significant assumptions underlying the computations are as follows:

Assumed rate of return on investments	6.5% compounded annually
Mortality basis	Adjusted RP-2014 base table (without collar adjustment for salaried and hourly non collective bargaining employees, and with blue collar adjustment for collective bargaining employees) MP-2016 improvement scale
Weighted-average retirement age	Age 63 for salaried and hourly non collective bargaining employees; Age 65 for collective bargaining employees

Actuarial assumptions for the period before normal retirement include factors for assumed mortality and termination of employment.

Assumption changes reflected in the actuarial present value of accumulated plan benefits as of December 31, 2015 include the following:

- The mortality improvement scale was updated to the MP-2016 improvement scale that was released by the Society of Actuaries in October 2016. In addition, the RP-2014 base tables described above were adjusted by unwinding the MP-2015 improvement scale from the tables back to 2006 (the base year of the RP-2014 tables) and then projecting forward from 2006 for all years with the MP-2016 improvement scale.

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2016 has not yet been completed.

SEQUA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 6 - RISKS AND UNCERTAINTIES

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

NOTE 7 - TAX STATUS

The IRS has determined and informed the Company by a letter dated September 27, 2012, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date. During 2016, the Plan administrator applied for a new determination letter, however a response has not yet been received.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or de-recognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 8 - UNAUDITED INFORMATION - CERTIFIED INVESTMENTS

Substantially all information pertaining to the Plan's interest in the Master Trust included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by The Bank of New York Mellon/BNY Mellon, N.A. This certified information has not been audited by independent accountants.

NOTE 10 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

(Continued)

SEQUA PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
 - If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used by the Master Trust for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Plan interest in the Sequa Master Trust: The fair value of the Plan's interest in the Master Trust reflects the Plan's interest in the fair value of the underlying net assets of the Master Trust.

Mutual funds: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs).

Bonds: The fair values (pricing) of the individual bonds are based upon recent transaction prices, when available, and are otherwise determined using factors which include but are not limited to market quotations, yields, maturities, and the bond's terms and conditions (Level 2 inputs).

Collective trust funds: Fair values of shares of collective trusts are based upon the net asset values of the funds reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. There are no restrictions as to the redemption of these collective trusts nor does the Plan have any contractual obligations to further invest in any individual collective trusts.

Pooled trust: The fair values of participating units held in the pooled trust, are based on the net asset values reported by the fund managers as of the financial statement dates and recent transaction prices. There are no restrictions as to the redemption of this pooled trust nor does the Plan have any contractual obligations to further invest in any individual pooled trust. The investment objective of the pooled trust fund is to seek an attractive risk-adjusted total return on a medium- and long-term basis through primarily investing in a portfolio of alternative investment funds and/or managed accounts.

Limited partnerships: Fair value is based on the best information available and is determined by the general partner of the Partnership by reference to information including, but not limited to, the following: projected sales, net earnings, earnings before interest, taxes, depreciation and amortization, balance sheets, public or private transactions, valuations for publicly traded comparable companies and/or other measures and consideration of any other pertinent information including the types of securities held and restrictions on disposition. The methods employed to determine the fair value use either the market, income or cost approaches.

NOTE 10 - FAIR VALUE MEASUREMENTS (Continued)

The trustee applied the practical expedient for valuing its investment in limited partnerships as permitted under U.S. GAAP, which allows for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value using net asset value per share, or its equivalent, as reported by the general partner.

The following represents a summary of the redemption periods of limited partnership investments made by the Master Trust and remaining capital commitments of the Plan to these limited partnerships:

	Fair Value at December 31, 2016	Unfunded Commitments	Date of Redemption
Oak Hill	\$ 34,428,798	\$ -	Liquidity is available on the first business day of every month with notice required by the last business day of the prior month. Settlement for redemptions is trade date plus 15 business days.
Irving Place Capital Partners II L.P.	\$ 653,731	460,784	April 2017 unless extended for an additional year
Other limited partnership interests	871,562	45,725	Various through 2017
	<u>\$ 35,954,091</u>	<u>\$ 506,509</u>	

The primary business objective of the limited partnerships is to seek significant capital appreciation through private equity and equity-related investments in leveraged buyouts, recapitalizations and growth capital opportunities. The Plan does not have any significant contractual obligations to further invest in any of the individual limited partnerships, other than the unfunded commitments noted above.

The amount of liquidity provided to investors in a particular limited partnership is generally consistent with the liquidity and risk associated with the underlying portfolio (i.e., the more liquid the investments in the portfolio, the greater the liquidity provided to the investors).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Total assets at fair value	\$ 79,925,774	\$ 108,029,370	\$ -	\$ 384,930,510

*Investments measured at fair value using net asset value per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in the hierarchy tables for such investments are intended to permit reconciliation of the fair value hierarchy to the investments at fair value line item presented in Note 9.

NOTE 11 - PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under Department of Labor's regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. Amounts paid by the Plan to parties-in-interest included fees paid for investment management. The Plan held investment interests in a registered investment company and collective trust funds issued by the Bank of New York Mellon/BNY Mellon, N.A. The Bank of New York Mellon/BNY Mellon, N.A., is the trustee of the Plan as of December 31, 2016 and 2015. Accordingly, these investments qualify as party-in-interest investments.

NOTE 12 - SUBSEQUENT EVENTS

date:

■ Preretirement death benefit	The later of the death of the active participant or the date the participant would have attained age 55
■ Deferred vested benefit	The later of age 65 or termination of employment
■ Disability benefit	For union participants: the later of age 40 and 10 years of service or incidence of disablement
■ Retirement benefit	Upon termination of employment
Form of payment	<p>For non-union participants:</p> <p>50% of participants are assumed to elect a single life annuity and 50% are assumed to elect a 50% J&S annuity.</p> <p>For union participants:</p> <p>40% of participants are assumed to elect a single life annuity, 20% are assumed to elect a 50% J&S annuity, 20% are assumed to elect a 100% J&S annuity, 10% are assumed to elect a 5 year certain and life annuity, and 10% are assumed to elect a 15 year certain and life annuity.</p>
Percent married	<p>For purposes of valuing pre-retirement surviving spouse benefits, 75% of participants were assumed to be married.</p> <p>For purposes of determining the optional forms expected to be elected at commencement, 100% of participants were assumed to be married.</p>
Spouse age	Females three years younger than males
Covered pay	Assumed plan compensation for the year beginning on January 1, 2016 was determined to be equal to the 2015 pensionable earnings, increased by salary scale. Only applicable for non-union employees currently accruing benefits.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be

within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year).

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets, but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years.

Benefits Not Valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with Sequa Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

For non-union participants: The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment as well as lump sums to terminated participants if the value is less than \$10,000. Such lump sums are not explicitly valued as such; rather such benefits are valued using the benefit choice assumptions described above.

For union participants: The plan pays small benefits (with a present value up to \$5,000) in a single lump sum payment. Such lump sums are not explicitly valued as such; rather such benefits are valued using the benefit choice assumptions described above.

Assumptions Rationale - Significant Economic Assumptions

Interest Rate

The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.

Rates of Increase in Compensation and CPI

Assumed increases were chosen by the plan sponsor and they represent an estimate of future experience.

Administrative Expenses

Administrative expenses are estimated by determining the expected expenses for the coming year, including items like PBGC premiums. These estimates are based on recent experience and reviewed on an on-going basis for reasonability.

Assumptions Rationale - Significant Demographic Assumptions

Mortality (Healthy/Disabled)

Assumptions used for funding purposes are as prescribed by IRC §430(h).

Rates of termination /disability/retirement

The assumptions are based on plan sponsor expectations for the future with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.

Benefit commencement date for deferred benefits:

- Preretirement death benefit: Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the

	spouse elects to defer. If the spouse elects to defer, actuarial increases from the earliest commencement date must be given, so that a later commencement date is expected to be of approximately equal value, and experience indicates that most spouses do take the benefit as soon as it is available.
<ul style="list-style-type: none"> Deferred vested benefit 	Deferred vested participants' assumed commencement age is a single age intended to capture the average age at commencement. Deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at multiple ages is not expected to be significant.
Form of payment	The percentage of retiring participants assumed to take various annuity forms of payment were based on observed experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Percent married	<p>For purposes of valuing pre-retirement surviving spouse benefits, the assumed percentage married of 75% is based on general population statistics of individuals of retirement age.</p> <p>For purposes of determining the optional forms expected to be elected at commencement, the assumed percentage married was set to 100% to reflect that the plan allows for participants to elect a non-spouse beneficiary upon retirement.</p>
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	--

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated to the current valuation date as required by IRC §430.</p> <p>The mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvement, as required by IRC §430.</p>
Change in methods since prior valuation	There have been no method changes since the prior valuation.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Summary of principal pension plan provisions

Non-union employees

Plan Provisions

Covered Employees

All employees other than employees covered by a collective bargaining agreement, non-resident aliens with total earnings constituting foreign service income for U.S. federal income tax purposes, employees who are a citizen of the United States but a permanent resident of foreign jurisdiction, and any employees accruing a pension benefit under a defined benefit plan of the employer or an affiliated employer other than this plan.

Effective June 30, 2011 the Sequa Retirement Plan (which covered salaried and non-union employees) was merged into the Sequa Pension Plan (which covered union employees). All participants of the Sequa Retirement Plan became participants of the Sequa Pension Plan as of the merger date. Benefits remained unchanged for the Sequa Pension Plan participants and the former Sequa Retirement Plan participants.

Participation Date

Effective January 1, 1989, an employee is eligible to participate on the date the employee attains age 21 and completes one year of service. Each employee who was a participant in the plan immediately before January 1, 1989, shall continue to be a participant in the plan.

Effective December 31, 2005 all active participants who had attained age 45 on or before December 31, 2005 were required to make a one-time irrevocable election either to continue earning accruals in the plan after December 31, 2005 or to freeze accruals and to participate instead in the discretionary profit-sharing portion of the Sequa 401(k) plan. All accruals were frozen for all active participants who had not attained age 45 on or before December 31, 2005.

Effective June 30, 2011 the Sequa Retirement Plan (which covered salaried and non-union employees) was merged into the Sequa Pension Plan (which covered union employees). All participants of the Sequa Retirement Plan became participants of the Sequa Pension Plan as of the merger date. Benefits remained unchanged.

Definitions

Vesting service	The sum of all periods of service and credited severance periods, measured in full years and completed months.
Pension service	<p><i>Retirement and Consolidated (including TACR)</i></p> <p>The sum of all periods of service beginning at the date an employee became a participant in this plan or a prior plan. However, if an employee elected to begin making the required employee contributions on the earliest date eligible, benefit service will begin at his date of hire, subject to age restrictions (not before age 25 prior to January 1, 1985; not before age 21 on or after January 1, 1985). Effective January 1, 1989, benefit service for new employees is calculated from date of employment.</p> <p><i>After Six</i></p> <p>Completed months of service from the employee's date of hire. Excludes service before February 27, 1968 for Superior Pants employees.</p>
Pensionable pay	Base pay, overtime, bonuses, commissions, and annual incentives before any voluntary salary reduction (sections 401(k), 125, or 132(f) of the Internal Revenue Code). Pensionable pay excludes severance pay, salary continuation pay paid by an insurer, short and long term disability pay, workers compensation, relocation expenses, dues, housing, furnishing and auto allowances, fringe benefits, and any nonqualified plan of deferred compensation contributions.
Average earnings	For Retirement and Consolidated (including TACR), the monthly average of a participant's pensionable pay beginning at the later of 1994 or date of employment and ending at termination of employment. For After Six, the monthly average of a participant's pensionable pay beginning at the later of 1984 or date of employment and ending at termination of employment.
Social Security benefit	The projected amount of the participant's primary Social Security benefit according to the law in effect at the date of termination of employment assuming continuation of then current earnings to age 65.
Covered compensation	The amount of monthly compensation with respect to which old age and survivor's insurance benefits would be provided to the participant under the Social Security Act, in effect as of the date of termination, determined as if the participant's annual compensation was equal to the maximum amount of earnings subject to tax under the Federal Income Contributions Act (OASDI portion).
Normal retirement date (NRD)	First of month coinciding with or next following the attainment of age 65
Monthly pension benefit	<p>For Retirement and Consolidated (including TACR) the greater of (a) or (b) plus (c):</p> <p>(a) The sum of (i) and (ii)</p>

- (i) 0.9% of average earnings multiplied by years of pension service
- (ii) 0.6% of average earnings in excess of covered compensation multiplied by years of pension service not in excess of 35 years
- (b) 1.1% of average earnings multiplied by years of pension service
- (c) The product of (i), (ii), and (iii)
 - (i) The participant's shortfall addition per year percentage
 - (ii) Average earnings
 - (iii) Pension service earned after December 31, 1996 and before January 1, 2000

Additional minimum benefits apply under this plan for certain individuals.

For After Six the greater of (a), (b), (c), or (d):

- (a) 0.9% of average earnings multiplied by pension service plus 0.6% of average earnings that exceeds covered compensation multiplied by pension service not in excess of 35 years
- (b) 1.1% of average earnings multiplied by pension service
- (c) The monthly accrued benefit under the plan as of December 31, 1988
- (d) For non-highly compensated participants who were age 55 with 10 years of service as of January 1, 1989, their expected benefit under the prior plan formula prorated for termination before normal retirement date.

Monthly preretirement death benefit

50% of the monthly pension benefit as of the date of death, reduced for the 50% joint and survivor election and deferred to the participant's earliest retirement age

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing five years of vesting service. For the participants of the Chromalloy American Corporation Pension Plan, retirement before NRD and on or after both attaining age 50 and completing ten years of vesting service.
Postponed retirement	Retirement after NRD
Vested termination	Termination for reasons other than death or retirement after completing five years of vesting service
Preretirement death benefit	Death while eligible for normal, early, postponed, or deferred vested retirement benefits, with a surviving spouse

Benefits Paid Upon the Following Events

Normal retirement	Monthly pension benefit determined as of NRD
Early retirement	Monthly pension benefit determined as of early retirement date, reduced 6.67% for each of the first five years and 3.33% for each of the next five years that payment precedes the participant's NRD For prior plan participants in the Chromalloy American Corporation Pension Plan for Salaried Employees as of December 31, 1988, an unreduced early retirement benefit is provided for participants whose age plus years of vesting service is at least equal to 90.
Postponed retirement	Monthly pension benefit determined as of actual retirement date
Vested termination	Monthly pension benefit determined as of termination date, reduced 6.67% for each of the first five years and 3.33% for each of the next five years that payment precedes the participant's NRD
Preretirement death	Monthly preretirement death benefit reduced 6.67% for each of the first five years and 3.33% for each of the next five years that payment precedes the participant's NRD

Other Plan Provisions

Forms of payment	Preretirement death benefits are payable only as described above. Monthly pension benefits are paid as described above as a life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of 50% joint and survivor annuity option or, if the participant elects and the spouse consents, another actuarially equivalent optional form offered by the plan. Optional forms available ongoing are a 100%, 75%, or a 66⅔% joint and survivor annuity, or a 5-, 10-, 15-, or 20-year certain and life annuity. Actuarial equivalence is based on an interest rate of 7.00% and Revenue Ruling 2001-62 mortality table. In addition a lump sum option is available if the value of the participant's benefit does not exceed \$10,000.
Pension Increases	None
Plan Participants' Contributions	As of January 1, 1989 employee contributions are no longer required.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Schedule SB, Line 25 - Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
