HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION

The following description of the HDSS 401(k) Retirement Plan for Union Employees (the “Plan”) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

Effective February 13, 2013, Chicago Bridge & Iron Company N.V. (“CB&I”) acquired the Sponsor of the Plan, High Desert Support Services LLC, as part of a stock purchase agreement whereby CB&I acquired the stock of The Shaw Group, Inc.

General – The Plan is a defined contribution plan effective January 1, 2013, covering all employees of High Desert Support Services LLC (the “Company” or “Employer”) who have completed one hour of service and are represented for collective bargaining purposes by the Teamsters Union Local #166. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). Effective January 1, 2015, the Plan Adoption Agreement was amended and restated to comply with current law.

Plan Trustee and Record-Keeper – Bank of America, N.A. (“BoFA” or “Trustee”) and Merrill Lynch, Pierce, Fenner & Smith, Inc. (“MLPF&S”) served as the Plan’s Trustee and record-keeper, respectively.

Contributions – The Plan allows participants to contribute up to 100% of their annual compensation, as defined by the Plan. Participants may contribute on a pre-tax and/or after-tax Roth basis up to the maximum dollar amount allowed by law, which was \$18,000 for 2016. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions of up to \$6,000 for 2016. Participants may also transfer amounts representing distributions from other qualified defined benefit or defined contribution plans, subject to approval by the Company.

Participants’ Accounts – Each participant’s account is credited with the participant’s contribution and allocations of (a) the Plan earnings, and (b) charged with an allocation of administrative expenses. Allocations are based on participant earnings on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options – Participants direct the investment of all contributions into various investment options offered by the Plan consisting of mutual funds and common collective trust funds offered by the Plan. Participants may transfer account balances among investment options.

Vesting – Participants are 100% vested in their own contributions, as well as actual earnings thereon.

Notes Receivable from Participants – Participants may borrow up to a maximum amount equal to the lesser of \$50,000 less the highest outstanding loan balance during the prior twelve months or 50% of their vested account balance. The minimum loan amount is \$1,000. Participants may only have one loan outstanding at any given time. Notes receivable from participants are secured by the balance in the participant’s account and bear interest at a fixed rate of prime plus 1%. All outstanding notes receivable at December 31, 2016 and 2015 carry interest rate at the rate of 4.25% to 4.5% per annum. The loans are repaid ratably through payroll deductions over a period of five years or less for a general loan, and up to ten years on a primarily residence loan.

Payment of Benefits – Upon separation of service due to death, disability, retirement, or termination of employment, a participant may elect to receive a lump-sum payment equal to the value of the participant’s vested balance. Distributions may be made in cash or as an in-kind distribution. A participant may withdraw all or a portion of their account in the event of a financial hardship, as defined by the Plan. Additionally, certain in-service withdrawals are permitted upon attainment of age 59 ½. Upon separation, vested account balances less than \$5,000 are immediately distributable in a lump sum under the terms of the Plan without the participant’s consent. If there is no direction from the participant and the vested balance is greater than \$1,000 but less than \$5,000, the vested balance will be distributed as a direct rollover into an individual retirement account selected by the Plan Administrator. If the vested balance is \$1,000 or less, it will be distributed.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – PLAN DESCRIPTION – continued

Administrative Expenses – The Company absorbs significant administrative expenses of the Plan. Fees related to the administration of notes receivable from participants and distributions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Plan Termination – Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared on the accrual basis of accounting and include all adjustments necessary to present fairly the financial statements of the Plan in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates – The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Quoted market prices are used to value investments where available. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments held, bought, and sold during the year.

Notes Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits – Benefits are recorded when paid.

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

New Accounting Standards – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which amends existing guidance in Accounting Standards Codification ("ASC") Fair Value Measurement Topic 820. The standard eliminates the requirement to categorize within the fair value hierarchy investments for which fair values are measured using the net asset value ("NAV") per share as a practical expedient.

HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – continued

The provisions of ASU 2015-07 are effective for the Plan for fiscal years beginning after December 15, 2015, are required to be applied retrospectively to all periods presented, and early adoption is permitted. The Plan has early adopted this update effective January 1, 2015, and its investment in the stable value common trust fund and other common collective trust funds that are measured at fair value using the NAV per share (or its equivalent) as a practical expedient have not been categorized in the fair value hierarchy (See Note 3 for additional information).

In July 2015, the FASB issued ASU 2015-12, which amends existing guidance in ASC Defined Contribution Pension Plans Topic 962. The standard simplifies certain aspects of employee benefit plan accounting and is comprised of the following three parts:

- Part I of the standard clarifies that indirect investments in fully benefit-responsive investment contracts (“FBRICs”) through investment companies, such as stable value common or collective trust funds, are not in the scope of FBRIC guidance and should therefore be presented at fair value. Prior to the standard, an entity was required to measure FBRICs at (i) contract value for purposes of determining the net assets of an employee benefit plan and (ii) fair value (measured under ASC 820) for purposes of presentation and disclosure, and to provide an adjustment to reconcile fair value to contract value on the face of the Plan financial statements when those measures differed.
- Part II of the standard eliminates the requirement to disclose individual investments that represent 5% or more of net assets available for benefits, eliminates the requirement to disclose net appreciation or depreciation for investments by general type, and simplifies the level of disaggregation for investments measured using fair value.
- Part III of the standard is only applicable to entities that have a fiscal year-end that does not coincide with a month-end.

The amendments in this update are effective for fiscal years beginning after December 15, 2015 and should be applied on a retrospective basis for the periods presented for Parts I and II, and on a prospective basis for Part III. Early adoption is permitted. The Plan elected to early adopt ASU 2015-12 Parts I and II as of January 1, 2015. Part III was not applicable to the Plan.

Subsequent Events – Management has evaluated subsequent events through October 2, 2017, the date that the financial statements were available to be issued. Management has determined that aside from the event disclosed in Note 8, no additional disclosures were necessary. No events occurring after this date have been evaluated for inclusion in these financial statements.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures topic of the FASB codification provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the framework are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

HDSS 401(k) RETIREMENT PLAN FOR UNION EMPLOYEES

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – FAIR VALUE MEASUREMENTS – continued

- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015:

- *Mutual funds:* Valued at the daily closing price as reported by the fund. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
- *Common collective trusts:*
 - o Stable value common trust fund – The fund is primarily comprised of FBRICs that are valued at the NAV of units of the collective trust. The NAV is used as the practical expedient to estimate fair value; however, the practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchase and sales) may occur daily and there are no unfunded commitments. There are no significant restrictions on participant redemptions; however, if the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require twelve months notification in order to ensure that securities liquidations will be carried out in an orderly manner.
 - o Other common collective trust funds – The fair values of other common collective trust funds are determined by the NAV provided by the fund administrator. Although the NAV's unit prices are quoted on a private market that is not active, the unit prices are based on underlying investments which are traded on an active market (market approach). There are also no restrictions on the NAV price or its equivalent. Participant transactions (purchase and sales) may occur daily and there are no unfunded commitments. There are no significant restrictions on participant redemptions; however, if the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require up to 60 days notification in order to ensure that securities liquidations will be carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan Administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5 – INCOME TAX STATUS

The Plan operates under a non-standardized adoption agreement in connection with a prototype defined contribution plan and trust sponsored by MLPF&S. This prototype plan document has been filed with the appropriate agency and the prototype plan document administrator obtained an opinion letter dated March 31, 2014 from the Internal Revenue Service stating that the prototype plan and related trust, as then designed, constituted a qualified plan under Section 401 of the IRC and, therefore, were not subject to tax. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. Plan management has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 6 – EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by the MLPF&S, therefore these transactions qualify as party-in-interest transactions as defined by ERISA. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA. Except as disclosed in the supplement schedule of delinquent participant contributions, there have been no known prohibited transactions with parties-in-interest.

The Plan has notes receivable from participants as of December 31, 2016 and 2015. As a result, these receivables and all transactions relating to these receivables qualify as party-in-interest transactions. These transactions are exempt from being prohibited transactions by ERISA.
