Report of Independent Auditors

The Members

Siemens Corporation Administrative Committee and
Investment Committee

We have audited the accompanying financial statements of Siemens Savings Plan and Siemens Savings Plan for Union Employees, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Siemens Savings Plan and Siemens Savings Plan for Union Employees at December 31, 2016 and 2015, and the changes in their net assets available for benefits for the year ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

Supplemental Schedules

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying supplemental schedules of assets (held at end of year) as of December 31, 2016, and nonexempt transactions for the year then ended, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Siemens Savings Plans

Notes to Financial Statements

December 31, 2016

1. Description of Plans

The following description of the Siemens Savings Plan (the Savings Plan), and the Siemens Savings Plan for Union Employees (the Union Plan) (each, separately, the Plan, and collectively, the Plans or the Siemens Savings Plans) is provided for general information purposes only. Participants should refer to each Plan document for a more complete description of each of the Plans.

General

The Plans are defined contribution plans sponsored by Siemens Corporation (the Company), an indirectly wholly-owned subsidiary of Siemens Aktiengesellschaft (Siemens AG), covering salaried, hourly, and union employees of the Company and other affiliated participating companies. The Plans are subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plans generally define an employee as any person employed by the Company or an affiliated participating company.

Participation in the Savings Plan is available to any employee who is employed by a company that is a participating company, excepting leased employees, nonresident aliens, an employee assigned to an affiliated company of Siemens AG located outside the United States and who is neither a citizen of the United States nor a lawful permanent resident of the United States within the meaning of Section 7701(b)(1)(A)(i) of the Internal Revenue Code of 1986, as amended (the Code), and anyone employed on a temporary basis. Unless expressly approved by the Company, employees covered by a collective bargaining agreement not providing for participation in the Savings Plan are excluded from participation in the Savings Plan. Participation in the Union Plan is available to any employee defined by the Company as any person employed by the Company or an affiliated participating company and covered by a collective bargaining agreement providing for participation in the Union Plan.

Eligible employees may enroll in the appropriate Plan on any day following their date of employment. Each newly hired employee who is eligible to participate in one of the respective Plans is automatically enrolled in the appropriate Plan and will have tax-deferred contributions at 3% of eligible pay withheld after 30 days of becoming eligible for enrollment in such Plan, unless the employee affirmatively elects not to participate in the Plan, elects to participate at a different rate, or elects to participate on a basis other than tax deferred contributions.

The default investment option for the automatic contributions is the applicable Life Cycle Portfolio based upon the decade in which the participant turns age 65.

1. Description of Plans (continued)

The assets and liabilities of participants in tax qualified defined contribution plans associated with companies acquired by the Company or certain of its affiliates prior to 2016 (the Prior Plans) were transferred into the applicable Plan (see Note 8 for transfers to/from the Savings Plans that occurred during 2016). Generally, service recognized under a Prior Plan is recognized as continuous employment for eligibility and vesting purposes under the applicable Plan. Each active employee with an account balance that was transferred into one of the Plans from one of the Prior Plans becomes fully vested in his or her Prior Plan's account balance.

The assets of the Plans are held in the Master Trust for Siemens Savings Plans (the Master Trust). The assets of the Master Trust were held by JPMorgan Chase Bank, N.A. at December 31, 2016 and 2015. Also, included in the Master Trust, under a sub-trustee arrangement, are assets from the Siemens Corporation Savings Plan for Puerto Rico Employees, which is sponsored by the Company.

Administration

The Administrative Committee of the Company is responsible for administering the Plans' operations and the Investment Committee of the Company is responsible for monitoring investments by the Plans, and all members of the Investment Committee are appointed by the Board of Directors of the Company.

Contributions

Generally, participants in the Savings Plan or Union Plan can elect to contribute from 2% to 25%, in 1% increments, of their eligible pay, as defined by the plan documents for each of the Plans. The Savings Plans provide that the Administrative Committee may limit the maximum contribution rates for Highly Compensated Employees to a lower amount in order to comply with nondiscrimination rules under the Internal Revenue Code. When automatically enrolled, a participant's contribution on a tax deferral basis is set at 3% of eligible pay and the default investment option is the applicable Life Cycle Portfolio determined based on the decade in which the participant turns age 65, until either is changed by the participant. For participants who are automatically enrolled in the Plans for the first time on or after January 1, 2011, the deferral rate will automatically increase by 1% each subsequent year, until the participant's contribution is 10% of eligible pay. If a participant is automatically enrolled in the Plans within the first six months of the calendar year, the first automatic increase occurs in the January following enrollment. If the participant is automatically enrolled within the last six months of the calendar year, the first

Siemens Savings Plans

Notes to Financial Statements (continued)

1. Description of Plans (continued)

automatic increase occurs in the second January following enrollment. Participants who enrolled in the Plans before January 1, 2011, can elect to have this automatic deferral increase feature apply to them up to a maximum of 25% or if applicable, any maximum permissible Contribution rate for employees who are Highly Compensated Employees. Participants may make contributions on a tax-deferred basis, an after-tax basis, or a combination of tax-deferred and after-tax bases. Effective January 1, 2011, participants could make designated Roth contributions (as further described below). Each Plan also allows participants to change their contribution percentage elections daily. Participants may cease their contributions at any time.

The Savings Plan and the Union Plan each allow participants age 50 or older to make additional tax-deferred contributions. These annual catch-up contributions were subject to Internal Revenue Service (IRS) limits of \$6,000 in 2016.

For most employees eligible for participation in the Savings Plan the Company or the participating company matches 100% of each such employee's contributions on the first 6% of the employee's eligible pay contributed to the Plan. Certain participants of the Union Plan may have different Company contribution rates as provided by the collective bargaining agreement providing for their participation in the Union Plan. Certain participants who were employed by Rolls Royce as of November 30, 2014, and certain participants who were former employees of Bayer Healthcare LLC or Bayer Corporate Business Services LLC are eligible for special Company contributions under the Plan.

Effective January 1, 2011, an employee's Roth contributions to the Plans were included as part of the employee's contributions to the Plans that were eligible for matching contributions up to 6% of eligible pay.

Each participant whose employment with the Company or a participating company is terminated has the option to transfer any lump sum amount that would otherwise be received from the Siemens Pension Plan or Siemens Pension Plan for Union Employees (defined benefit pension plans sponsored by the Company) directly into the appropriate Siemens Savings Plan.

1. Description of Plans (continued)

All contributions are subject to certain limitations of the Code. The maximum combined participant and employer contributions to a participant's account for a plan year was limited to the lesser of \$53,000 for 2016, or 100% of the participant's annual compensation. For the 2016 calendar year, the IRS limited the annual tax-deferred contribution to \$18,000 for each participant. Other IRS limits exist for certain highly compensated employees participating in either of the Plans.

Service Based Company Contribution

Effective January 1, 2011, certain participants of the Savings Plan or the Union Plan who, as of December 31, 2010, were earning a benefit under the Siemens Pension Plan or the Siemens Pension Plan for Union Employees and who ceased accruing benefits under such plans as of December 31, 2010, became eligible for a special company contribution referred to as a Service Based Company Contribution (SBCC). The SBCC is made to each eligible employee's account, regardless of whether the employee is making any contributions to the Savings Plan or the Union Plan.

The amount of the SBCC is a percentage of eligible compensation. The contribution levels were initially based on the participant's date of employment, company, and the level of pension and savings plan benefits that the participant's company offered as of December 31, 2010 (or, if transferred to another eligible company after December 31, 2010, the contributions for which the participant would have been eligible had they been employed by that company on December 31, 2010). Effective August 1, 2015, the amount of the SBCC is based on the participant's SBCC contribution level in effect as of July 31, 2015, and is not affected by transfers to another Siemens company, provided they are transferred to a Siemens company that participated in the Siemens Pension Plan (SPP) as of December 31, 2010. Effective January 1, 2015, eligible participants in the Siemens HealthCare Diagnostics cash balance formula became eligible for a SBCC with "deemed years of service" based on their SBCC contribution percentages effective on December 31, 2014, which had been based on the participant's age and years of service. The SBCC is credited once a year to each such eligible employee's SBCC account established in the Savings Plan or Union Plan, as applicable, no later than March 31 of the calendar year following the calendar year for which the SBCC is made. The SBCC percentage ranges from 0% to 12% based on years of vesting service. On March 15, 2017, with respect to calendar year 2016, the Company contributed \$74,219,866 and \$1,285,642 in SBCC contributions to the Savings Plan and the Union Plan, respectively.

Rollover Contribution

During 2016, \$46,581,856 and \$199,901 was reported as rollover contribution into the Savings Plan and the Union Plan, respectively. These amounts have been included in the participant contributions on the Statement of Changes in Net Assets.

Investment Options

A participant may direct his or her contributions to the following investment options, in increments of at least 1%, within the Siemens Savings Plans:

- a) Stable Value Investment Option,
- b) U.S. Large Cap Stock Investment Option,
- c) High Yield Bond Investment Option,
- d) Non-U.S. Developed Markets Stock Investment Option,
- e) Core Bond Investment Option,
- f) U.S. Small Mid Cap Stock Investment Option,
- g) LifeCycle Investment Portfolios Option,
- h) Non-U.S. Emerging Markets Stock Investment Option,
- i) Self-Directed Brokerage Account Investment Option.

Each of the Plans allows participants to change their investment elections prospectively and to transfer funds between investment options (including the Self-Directed Brokerage Account Investment Option), on any business day, with the exception of the Non-U.S. Developed Markets Stock Investment Option, the Non-U.S. Emerging Markets Stock Investment Option. Any amount invested in the Non-U.S. Developed Markets Stock Investment Option or the Non-U.S. Emerging Markets Stock Investment Option that results from a reallocation by participants of their investments must remain invested in that option for at least 30 days.

1. Description of Plans (continued)

Certain of the investments above include separately managed accounts.

The year-end crediting rate to investments for the stable value investment option was 2.23% and 2.33% for 2016 and 2015, respectively. The year-end average yield to investments earned by the Plans in 2016 and 2015, were 1.95% and 1.83%, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, associated Company or participating company contributions (including the amount of any matching contribution and SBCC), and allocated earnings or losses (net of apportioned plan expenses). Plan earnings are allocated based on the participants' share of net earnings or losses of their respective elected investment options. The benefit to which a participant is entitled at any given time is the participant's vested account balance at such time.

Vesting

Each participant's contributions and earnings thereon are fully vested at all times. Company or participating company matching contributions and earnings thereon become 40% vested after two years of continuous employment and continue to vest at an annual rate of 20%, reaching 100% vesting after five years of continuous employment with the Company, its subsidiaries or affiliates. In addition, each participant becomes 100% vested in the Company's or participating company's matching contributions and earnings thereon upon retirement, death, total or permanent disability, complete or partial termination of the respective Plan, complete discontinuance of Company contributions, termination of employment due to the closing of the facility in which the participant is employed, and, also, in the case of the Siemens Savings Plan only, permanent layoff, or transfer (without intervening employment) to an affiliated company outside the United States which does not participate in the Siemens Savings Plan.

Participants are 100% vested in the amount of any SBCC at the time the contributions are made to the applicable Plan.

For the Company's or a participating company's contributions made subsequent to the effective date of a plan's merger into one of the Plans, former participants of the originating plan vest according to the relevant vesting schedule of the respective Plan. Prior service under each originating plan is recognized, as stated in the plan documents of the appropriate Plan.

1. Description of Plans (continued)

Participant Loans

Each of the Plans allows any participant to borrow an amount equal to the lesser of 50% of his or her vested account balance (less any current outstanding loan balance) or \$50,000 (less the highest outstanding loan balance in the last 12 months and less any defaulted loan balances). Each loan is made from the participant's balance in each of the investment funds in which the participant has an available balance, with the exception of the Self-Directed Brokerage Account. The term of a loan shall not exceed four years (a thirty year loan term is permitted in cases where the loan proceeds are used to purchase the participant's principal residence). Generally, a participant may not have more than two loans outstanding at any point in time. The balance in a borrowing participant's account secures any such loans. Such loans bear interest at a "reasonable rate" as established periodically (prime rate). Principal and interest are to be repaid ratably during the year through payroll deductions. Any loans outstanding at the time a participant terminates employment with the Company or its affiliates are deemed "loan defaults" and are treated as distributions from the Plans, unless repaid within 60 days or prior to full distribution of the participant's balance whichever is earlier. The SBCC is not available for loans, although it is included in the calculation to determine the maximum amount available for a loan and also serves to secure the loans. The outstanding balance of any active participant loan that is deemed to be in default, will automatically become taxable income to the participant and must be reported to the IRS at the end of the relevant tax year. The amount taxable will include both the taxable portion of the remaining principal and any accrued interest that was due as of the date of the loan default.

Payment of Benefits

Each of the Plans can disburse funds upon a participant's separation from service with the Company or its affiliates as a result of the following: retirement, death, total or permanent disability, permanent layoff, or termination of employment with Siemens worldwide (except that the Savings Plan can disburse funds by reason of transfer to a non-U.S. Siemens affiliate that does not participate in the Savings Plan with respect to account balances calculated as of December 31, 2009). The payment of such disbursement can take one of three forms: a lump sum payment, partial lump sum payments (up to two in any calendar year), or monthly or annual installment payments. However, any vested benefit of \$1,000 or less at the time of termination will automatically be paid out as a lump sum. Also, benefits between \$1,000 and \$5,000 will be transferred to an IRA with Hewitt Financial Services unless the participant directs otherwise.

Withdrawals During Employment

During employment, participants are generally permitted to make up to two withdrawals per calendar year from their after-tax, rollover and vested employer contributions to the Plan, and the earnings on such amounts. If a participant has participated in the Plan for less than five years and elects to withdrawal after-tax contributions made to the Plan on or after January 1, 1987, or employer contributions made to the Plan within two years of the date of the withdrawal, employer contributions on behalf of the participant will be suspended for a three-month period. Under certain circumstances, if a participant can demonstrate a financial hardship (as defined in the Plan) a participant may take a hardship withdrawal of his or her tax-deferred and, effective 2011, his or her designated Roth contributions (but not earnings on such amounts). In addition, a participant who has reached age 59½ may take a withdrawal of his or her tax-deferred and designated Roth contributions (including earnings related to these contributions credited after December 31, 1988) without demonstrating financial hardship and will not be limited in the number of withdrawals that can be taken in any year. SBCCs are not available for withdrawal during employment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying individual financial statements of the Plans have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Participant Loans Receivable

Participant loans receivable represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans receivable is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015 (see Note 1). If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the individual financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

Risks and Uncertainties

The Plans invest in various types of investment securities. Investment securities are exposed to various risks, including interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the individual statement of net assets available for benefits. Each of the Plans' exposure to a concentration of credit risk is limited by diversification of investments across all participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into various financial instruments. To the extent that a participant directs that his or her contributions be invested through the Self-Directed Brokerage Account Option, the participant solely determines the extent to which such amounts will be diversified, if at all.

New Accounting Pronouncements

In February 2017, the FASB issued ASU 2017-06, *Employee Benefit Plan Master Trust Reporting*. For each master trust in which a plan holds an interest, ASU 2017-06 requires a plan's interest in that master trust and any change in that interest to be presented in separate line items in the statement of net assets available for benefits and in the statement of changes in net assets available for benefits, respectively. Further, ASU 2017-06 removes the requirement to disclose the percentage interest in the master trust for plans with divided interests and requires that all plans disclose the dollar amount of their interest in each of the master trust's general types of investments, which supplements the existing requirement to disclose the master trust's balances in each general type of investments. ASU 2017-06 also requires plans to disclose (1) their master trust's other asset and liability balances and (2) the dollar amount of the plan's interest in each of those balances. Management has not yet adopted the pronouncement and is in the process of evaluating the impact.

Reporting of Fully Benefit Responsive Investment Contracts

Investment contracts held by a defined contribution plan such as those that are part of the Stable Value Investment Option of the Plans that invest in fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to transfer amounts out of this investment option or receive a distribution from the Plans. The contract value of the fully-benefit responsive investment contracts represents contributions plus earnings, less participant withdrawals and administrative expenses.

Investment Valuation and Income Recognition

The assets of each of the Plans are held in the Master Trust for the Siemens Savings Plans (Master Trust). Unit values of the investment options, within the Master Trust, represent the proportionate participation in the Plans' investment options and includes earnings from realized and unrealized appreciation and depreciation of the investment option investments, interest and dividend income, less investment-related fees and expenses charged to the respective option.

The Master Trust investments are recorded at fair value, with the exception of the Stable Value fund (the Fund) which is recorded at contract value.

Stable Value Fund

The Fund invests in financial instruments designed to create a synthetic guaranteed investment contract. The financial instruments consist of high-quality fixed income instruments along with wrap contracts with insurance companies, banks, and other financial institutions. The wrap contracts are issued by highly rated financial institutions and serve to preserve the value of the Fund's investments by mitigating the fluctuations in the market value of the fixed income instruments. The objective of this investment option is to provide liquidity and safety of principal while providing a higher return over time than the return offered by money market funds. The assets underlying this investment option are currently managed by INVESCO and other sub-advisers. However, there is no guarantee (either from INVESCO or the Company) of achieving the objective, nor is there a guarantee against loss of principal or earned investment returns.

Siemens Savings Plans

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Employer and participant contributions invested in the investment contracts, as well as any interest credited thereon, are guaranteed by the financial institution that issues the wrapper contract and not by the Company. The overall average credit quality of the financial instruments underlying the investment option will not be below a grade of AA.

Investments in marketable securities (domestic and foreign common stock, preferred stock, government obligations, and corporate debt obligations) are valued at the closing market price as established on the appropriate national securities exchange. Investments in registered investment companies and short-term investment funds are valued at their aggregate unit-value as established by the fund trustee and reported to the general public. Investments in common collective investment funds and limited partnerships are valued at their net asset value (NAV) which represents the aggregate unit-value as established by the fund trustee or general partner and reported to the Master Trust. Collective investment funds which are wrapped by insurance companies and other financial institutions are valued at contract value. Purchases and sales of securities by the Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the applicable ex-dividend date.

Plan Expenses

Only expenses of the Plans that are permitted to be charged to the Plans and Master Trust, in accordance with applicable law and with the provisions of the respective plan documents and Master Trust Agreement, are charged to the Plans and Master Trust. For expenses that are not specific to an investment fund, such as administrative, trustee, and auditing expenses, an expense allocation is charged to the net asset balance of each investment option on a daily basis. For expenses that are specific to an investment option, such as investment manager fees, the contracted expense rate is charged to the specific investment option's net assets on a daily basis, and is included in the investment option's reported income. Contracted expense rates vary based on the investment options.

Forfeitures

Employees who terminate their employment with the Company or its affiliates forfeit any non-vested portion of employer contributions and any earnings thereon in accordance with the terms of the respective Plans. Such forfeitures of employer contributions are utilized by the Company or a participating affiliated company, as applicable, to reduce future employer contributions. During 2016, the total amount of forfeitures the Savings Plan and the Union Plan

Siemens Savings Plans

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

used to reduce the amount of employer contributions were \$5,818,043 and \$88,087, respectively. At December 31, 2016 and 2015, there were no forfeited non-vested amounts for either the Savings Plan or the Union Plan, as all such amounts were used to reduce employer contributions.

3. Parties-in-Interest

Currently, three members of the Investment Committee are participants in the Savings Plan, but only two of the members are eligible to make current contributions to the Savings Plan. Currently, three members of the Administrative Committee are current participants in the Savings Plan and are eligible to make current contributions to the Savings Plan. The trustee of the Plans, JPMorgan Chase Bank, N.A., also serves as the investment manager with respect to the money market pooled account. In addition, the Trustee also serves as the custodian for certain commingled funds managed by INVESCO in which the Plans participate.

4. Plan Termination

Although it has not expressed an intent to do so, the Company reserves the right to discontinue its contributions to either or both of the Plans at any time and to terminate either or both of the Plans subject to the provisions of ERISA. In the event that a termination of either of the Plans should occur, the value of each affected participant's account (including employer contributions and earnings thereon) shall become fully vested and funds will be distributed in accordance with ERISA.

5. Tax Status of the Plans

The IRS has issued determination letters dated October 3, 2014 and April 26, 2013, for the Savings Plan and the Savings Plan for Union Employees, respectively, advising that the Plans qualify for tax-exempt status pursuant to the provisions of Section 401(a) of the Code and therefore, the related Trust is exempt from taxation. Subsequent to these determination letters by the IRS, the Plans were amended. Once qualified the Plans are required to operate in conformity with the Code to maintain their qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code. Accordingly, no provision has been made for federal income taxes. Both the Savings Plan and the Union Plan were filed with the IRS this year for a determination letter that they continue to be qualified under the applicable requirements of the Code and that the related Trust continues to be tax-exempt.

Siemens Savings Plans

Notes to Financial Statements (continued)

5. Tax Status of the Plans (continued)

U.S. GAAP require plan management to evaluate uncertain tax positions taken by the Plans. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plans, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plans have recognized no interest or penalties related to uncertain tax positions. The Plans are subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress

6. Investment in Master Trust

All of the Plans' investments, other than loans, are in the Master Trust, which was established for the investment of assets of the Plans and certain other defined contribution plans sponsored by the Company or by an affiliate of the Company. Each participating defined contribution plan has a proportionate interest in the Master Trust. The assets of the Master Trust were held by the Trustee at December 31, 2016 and 2015.

At December 31, 2016 and 2015, each of the Plans' respective proportionate interests in the net assets of the Master Trust were as follows:

	2016	2015
Savings Plan	98.31%	98.26%
Union Plan	1.66	1.70

The remaining proportionate interest in the net assets of the Master Trust are held by the Siemens Corporation Savings Plan for Puerto Rico Employees under a subtrustee arrangement. Investment income and administrative expenses relating to the Master Trust are allocated to the individual Company-sponsored plans on a daily, weighted average basis.

Fair Value Measurements

The Company defines fair value as the exchange price that would be received for an asset or paid for a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The Company utilizes a fair value hierarchy which requires the Plans to maximize the use of observable inputs and minimize unobservable inputs when determining fair value and also establishes three levels of classifications.

As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active;
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals); and Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk). The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Siemens Savings Plans

Notes to Financial Statements (continued)

6. Investment in Master Trust (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Mutual Funds and Money Market Funds: These investments are held in a pooled investment vehicle. This fund maintains a \$1 per share value. Any gains and/or earnings by the underlying assets are paid out as interest.

Equity (foreign and U.S.): All assets in which the Master Trust holds a direct share have been classified as common stocks. These assets are valued at the closing price reported on the active market on which the individual securities are traded.

Registered investment funds:

Fixed income and government securities (foreign and U.S.): The value of the assets are based on market data, incorporating various inputs such as benchmark curves, benchmarking of like securities, matrix pricing, model processes such as the Option Adjusted Spread model, to assess the interest rate impact of and develop prepayment scenarios. Both models and processes take into account market conventions.

Equities: These investments own shares of pooled investment vehicles which, in turn, own various underlying assets. Each funds' performance will be the result of the underlying assets. Certain registered investment funds are purchased and sold on the open market and, therefore, their NAV is accessible to the reporting entity at the measurement date and assessed as a Level 1 investment on the following table. In general, participants may redeem the investment funds on a daily basis, however, any amount in the Non-U.S. Developed Markets Stock fund or the Non-U.S. Emerging Markets Stock fund that results from a reallocation of investments must remain invested in that option for at least 30 days.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company's management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies and assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
