A. DESCRIPTION OF PLAN

The following description of the Baha Industries Corp. D/B/A Open Systems Technologies 401(k) Plan ("the Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

1. General

The Plan is a defined contribution plan covering all eligible employees of the following companies (collectively, "the Company"):

Baha Industries Corp.
Open Systems Technologies, Inc.
HAS Consulting Corp.
Open Systems Healthcare, Inc.

Employees are eligible to make employee contributions on the first day of the first plan year quarter after commencing employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

2. Contributions

Each year, participants may contribute up to the maximum amount allowed by law. There is a 50% pretax annual compensation limit as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan does not provide for any employer matching or discretionary contributions. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, common collective trusts and a guaranteed investment contract as investment options for participants. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

3. Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon.

5. Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account, bear interest at the prevailing prime rate at the loan inception date and are not to exceed a period of five years (unless for the purchase of a principal residence). Principal and interest is paid ratably through monthly payroll deductions. Participants should refer to the Participant Loan Program for a more complete description of the Plan's loan provisions.

6. Payment of Benefits

On termination of service due to death, disability or retirement, a participant (or beneficiary) will receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount. Partial withdrawals or installments are only permitted for required minimum distributions or hardship distributions (upon satisfying certain conditions). For termination of service due to other reasons, a participant may elect to receive his vested interest in his or her account or leave all or part of his or her vested account in the Plan and defer receipt of his or her benefits. Partial withdrawals or installments are only permitted for 1) required minimum distributions, 2) in-service distributions for a participant who has reached age 59½ or 3) hardship distributions (upon satisfying certain conditions).

B. SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

2. Adoption of Accounting Standards Update

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12 "Plan Accounting", in order to reduce complexity in employee benefit plan accounting. The Plan has adopted provisions of this update related to investment disclosures, which are reflected in Note D. In addition, the Plan has adopted provisions for the elimination of certain investment disclosures. The adoption of these provisions has no effect on the Plan's net assets available for benefit.

3. Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

4. Investment Valuation and Income Recognition

Investments are reported at fair value (except for the guaranteed investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note D for discussion of fair value measurements.

Purchases and sales of securities are recorded on a confirm-date basis. Interest income and mutual fund dividends are recorded on the date of transaction. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

5. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, for Form 5500 purposes the participant loan balance is reduced and a benefit payment is recorded. See Note J for a financial statement to Form 5500 reconciliation.

6. Payment of Benefits

Benefits are recorded when paid.

7. Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distribution requests are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

8. Reclassifications

Certain amounts in the 2015 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2016 financial statements.

9. Subsequent Events

The Plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available to be issued.

C. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Delaware Charter Guarantee and Trust Company D/B/A Principal Trust Company and Principal Life Insurance Company (custodians), have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2016 and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

D. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;

- inputs other than quoted prices that are observable for the asset or liability;

- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common collective trusts: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

Assets at Fair Value at December 31, 2016

Description	Fair Value At 12/31/16	Level 1	Level 2	Level 3
Mutual funds	$11,780,293	$11,780,293	$ -	$ -
Common collective trusts	4,351,593	-	4,351,593	-
Total Assets at Fair Value	$16,131,886	$11,780,293	$4,351,593	$ -

Assets at Fair Value at December 31, 2015

Description	Fair Value At 12/31/15	Level 1	Level 2	Level 3
Mutual funds	$11,512,710	$11,512,710	$ -	$ -
Common collective trusts	3,113,789	-	3,113,789	-
Total Assets at Fair Value	$14,626,499	$11,512,710	$3,113,789	$ -

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and the size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers into or out of levels 1, 2 or 3.

E. GUARANTEED INVESTMENT CONTRACT WITH PRINCIPAL LIFE INSURANCE COMPANY

In 2012, the Plan entered into a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company (Principal). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is

contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value within reasonable timeframes.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2016 and 2015 was $1,293,964 and $1,154,309, respectively. During 2013, Principal changed its position on fair value for the guaranteed investment contract. Most participant transactions are executed using contract value without adjustment, therefore, they believe that contract value is a good proxy for fair value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1.0%. Such interest rates are reviewed on a semiannual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator believes that any events that would limit the Plan’s ability to transact at contract value with participants are probable of not occurring.

The guaranteed investment contract shall terminate when 1) no guaranteed interest balances have been established that are accepting deposits and 2) there are no guaranteed interest balances with a value greater than zero under the contract.

F. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are shares of mutual funds, mutual funds held in common collective trusts and a guaranteed investment contract managed by Delaware Charter Guarantee and Trust Company D/B/A Principal Trust Company and Principal Life Insurance Company. Collectively, they are the custodians as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services

are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly certain other fees related to the Plan's operations.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants are already 100% vested in their accounts.

H. TAX STATUS

The volume submitter plan used by the Plan obtained an opinion letter dated March 31, 2014, in which the IRS stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has not requested an individual determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

On January 1, 2015 the Plan was most recently amended and restated.

I. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

J. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	$17,644,046	$15,981,271
Amounts allocated to withdrawing participants	(69,252)	(27,885)
Net assets available for benefits per the Form 5500	$17,574,794	$15,953,386

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2016, to Form 5500:

Benefits paid to participants per the financial statements	$2,410,165
Add: Amounts allocated to withdrawing participants at December 31, 2016	48,431
Less: Amounts allocated to withdrawing participants at December 31, 2015	(7,064)
Benefits paid to participants per the Form 5500	$2,451,532

K. Subsequent Events

As of the date of the financial statements, the Plan administrator is in the process of preparing two amendments to the Plan. The first concerns participant’s plan entry dates and the second concerns the adoption of the Plan by another affiliate.
