Apple Bus Company 401(k) Profit Sharing Plan

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of Apple Bus Company 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General The Plan is a defined contribution plan covering substantially all employees of Apple Bus Company (the Company), who have completed six months of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was originally established as of January 1, 2009, and has been subsequently amended and restated. The Plan trustees are responsible for oversight of the Plan, including the appropriateness of the Plan's investment offerings and investment performance.

Contributions Participants may elect to contribute to the Plan in the form of pretax annual compensation up to the lesser of 100% of their eligible compensation or the maximum amount allowable by law. Effective March 1, 2015, the Plan was amended to permit in-plan Roth rollovers. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined or contributions plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company makes matching contributions equal to 20% of the first 5% of 401(k) elective deferral contributions for eligible participants. The Company made matching contributions of \$19,135 and \$11,574, respectively, for the years ended December 31, 2016 and 2015. Additionally, the Company may make discretionary or qualified nonelective contributions. The Company did not make discretionary or qualified nonelective contributions for the years ended December 31, 2016 and 2015.

Participant Accounts Each participant's account is credited with the participant's salary deferral contributions, employer contributions, and account earnings, and may be charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting Participants are immediately vested in their salary deferral contributions, employer qualified nonelective contributions and earnings thereon. Matching contributions and discretionary contributions to the Plan are subject to vesting. A participant is 100% vested after five years of credited service. Participants are credited with one year of service for each plan year in which they worked at least 1,000 hours.

Payment of Benefits Withdrawals are allowed in the event of termination, disability, death, retirement, or attainment of age 59½. Depending on the event, the withdrawal may be subject to early withdrawal penalties imposed by the *Internal Revenue Code* (IRC). Payments are made in the form of a lump-sum distribution or annual installments over a period of time of not more than the participant's life expectancy or the combined life expectancy of the participant and the participant's designated beneficiary.

Apple Bus Company 401(k) Profit Sharing Plan

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

Forfeitures Forfeitures attributable to discretionary matching and discretionary contributions may be used to first pay administrative expenses and then to reduce any employer contributions. Forfeited nonvested account balances totaling \$182 and \$831 were used to reduce administrative expenses and employer contributions for the years ended December 31, 2016 and 2015, respectively. At December 31, 2016 and 2015, the remaining forfeited nonvested accounts totaled \$758 and \$182, respectively.

Plan Termination Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The financial statements of the Plan are prepared under the accrual method of accounting.

Use of Estimates The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. The Plan trustees determine the Plan's valuation policies utilizing information provided by the investment advisers and custodian. Fair value measurements are discussed below.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Fair Value Measurement The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

Apple Bus Company 401(k) Profit Sharing Plan

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted, quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Collective Trusts: The collective trust maintained by Principal Life Insurance Company (PLIC), a party in interest, is a pool of investments of which the Plan buys and sells units of participation that generally imitate established mutual funds. The underlying investments consist of a collective trust which holds various investment contracts, separate accounts and mutual funds. The Plan's valuation estimates using the practical expedient are based on the contract and market values of the underlying investments. Participant transactions (issuances and redemptions) may occur daily. If the Plan were to initiate a full redemption of the collective trusts, PLIC reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Pooled Separate Accounts: The pooled separate accounts maintained by PLIC contain underlying assets of mutual funds, stock, bonds and fixed income securities known as sub-accounts. Sub-accounts are measured in terms of accumulation units using the practical expedient. The sub-accounts are valued based on the quoted market prices of the underlying assets. Certain fund fees, expenses, and administration charges (if any) are deducted from the value of the mutual funds to arrive at the value of the sub-accounts. The accumulation units are valued at net asset value on a daily basis. Participant transactions (issuances and redemptions) may occur daily. If the Plan were to initiate a full redemption of the pooled separate accounts, the investment advisor reserves the right to temporarily delay, for up to seven days, withdrawal from the pooled separate account in order to ensure that securities liquidations will be carried out in an orderly business manner.

Apple Bus Company 401(k) Profit Sharing Plan

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

See note 4 for the classification of these assets within the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Payment of Benefits Benefits are recorded when paid.

Expenses Certain operating expenses of the Plan are deducted from participant accounts and the remaining expenses are paid by the Company. Investment-related expenses are included in net appreciation (depreciation) in fair value investments.

Subsequent Events The Plan has evaluated subsequent events through September 19, 2017, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY TRUSTEE

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such an election, the investments and notes receivable from participants included in the statements of net assets available for benefits, and the investment income and interest income on notes receivable from participants included in the statements of changes in net assets available for benefits, as of and for the years ended December 31, 2016 and 2015, were not subject to auditing procedures and have been certified as complete and accurate by PLIC.

4. FAIR VALUE MEASUREMENTS

At December 31, 2016 and 2015, investments totaling \$546,813 and \$453,221, respectively, were measured at the net asset value using the practical expedient and were not included in the fair value hierarchy.

5. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by PLIC. PLIC is the custodian as defined by the Plan, and therefore these transactions qualify as party-in-interest transactions.

PLIC provides certain administrative services to the Plan pursuant to an agreement between the Companies and PLIC. PLIC receives revenue from mutual funds and other service providers for services PLIC provided to the funds. This revenue is used to offset certain amounts owed to PLIC for its administrative services to the Plan.

Apple Bus Company 401(k) Profit Sharing Plan

NOTES TO THE FINANCIAL STATEMENTS

(Continued)

Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing rather than a direct payment. The Plan or the Companies may make a payment to Principal for administrative services not covered by revenue sharing.

6. TAX STATUS

The Plan has adopted a prototype, non-standardized profit sharing plan established by PLIC (the Sponsor). The Sponsor's prototype plan obtained an opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the form of the prototype plan, as then designed, is acceptable under Section 401 of the IRC. Although the Plan has adopted amendments since adopting the prototype plan, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and therefore believes that the Plan is qualified and the related trust is tax-exempt.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
