1. DESCRIPTION OF PLAN

The following description of the Emerging 1, Inc. 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Emerging 1, Inc. (Company) who are twenty-one or older and have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration - The Plan is administered by the Company. All assets of the Plan are held and managed by Reliance Trust Company.

Contributions - Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants can contribute compensation up to the maximum amount allowable in accordance with applicable sections of the Internal Revenue Code. Participants may also make Roth contributions, as well as rollover contributions from other qualified retirement plans. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company will make matching contributions equal to 10% of the participant's contribution. Matching contributions are only made on the first 10% of the participant's compensation. Additional nonelective contributions to participants may also be made by the Company. Contributions are subject to certain limitations.

Participant Investment Options - Participants direct the investment of all contributions into various investment options offered by the Plan.

Participant Accounts - Each participant's account is allocated with the participant's contributions, Company's contributions, Plan earnings and administrative expenses. Company nonelective contributions are allocated to participants based on the participant's eligible compensation for the year in relation to the eligible compensation for the year of all participants. Plan earnings and administrative expenses are allocated based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately 100% vested in their contributions plus actual earnings thereon. Company matching contributions plus earnings thereon become 50% vested upon completion of one year of service and are fully vested after two years of service. Company nonelective contributions plus earnings thereon become 20% vested upon completion of two years of service and continue to vest at the rate of 20% for each successive year of service until 100% vested after six years of service. Participants are considered to have completed one year of service for vesting purposes upon completion of 1,000 hours of service at any time during the plan year.

Forfeitures - Participants who terminate their employment prior to becoming 100% vested will forfeit the nonvested portion of the Company contributions in their account. Amounts forfeited are transferred from the terminated participant's account into a forfeiture account. At December 31, 2016 and 2015, the forfeiture account balance totaled $13,840 and $17,263, respectively. Forfeitures can be used to reduce the Company's contributions or pay Plan expenses. During the years ending December 31, 2016 and 2015, forfeitures used to reduce the Company's contributions totaled $3,935 and $29,368, respectively.

1. DESCRIPTION OF PLAN, Continued

Notes Receivable from Participants - Participants may borrow from their vested account balance a minimum of $500 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the remaining vested account balance and bear interest at rates available for similar loans from commercial lending institutions. Principal and interest are paid ratably through periodic payroll deductions.

Payment of Benefits - Upon retirement, death, disability, hardship or termination of employment, a participant may elect to receive benefits in a lump-sum, installments or partial withdrawals.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the modified cash basis of accounting. Under this method of accounting, contributions to the Plan are recognized when received and distributions from the Plan are recognized when paid rather than when incurred.

Use of Estimates - The preparation of financial statements in conformity with the modified cash basis of accounting requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan determines its valuation policies utilizing information provided by the investment advisers and trustee. See Note 4 for discussion of fair value measurements.

Purchase and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net change in the fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of benefits paid to participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net change in the fair value of investments. See Note 5 for expenses paid directly by the Company.

3. INFORMATION CERTIFIED BY THE TRUSTEE

In accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator has obtained certification from Reliance Trust Company as of and for the year ended December 31, 2016 that the investments and the related investment activity, appearing in the 2016 statement of net assets available for benefits - modified cash basis, the 2016 statement of changes in net assets available for benefits - modified cash basis, and the schedule of assets held for investment purposes, are complete and accurate.

4. FAIR VALUE MEASUREMENTS

The Plan accounts for its investment in accordance with Financial Accounting Standards Board Accounting Standards Codification, "Fair Value Measurements and Disclosures", (Fair Value Standard), which defines fair value, establishes a framework for measuring fair value and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market. Valuation techniques that are consistent with the market, income or cost approach, as specified by the Fair Value Standard, are used to measure fair value.

The Fair Value Standard prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has ability to access.

- Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

4. FAIR VALUE MEASUREMENTS, Continued

Common collective trust funds are valued at the net asset value (NAV), which is based on the market value of the underlying investments held by each fund. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 727,027	$ 0	$ 0	$ 727,027
Total assets in fair value hierarchy	727,027	0	0	727,027
Investments measured at net asset value (a)	0	0	0	232,699
Total investments at fair value	$ 727,027	$ 0	$ 0	$ 959,726

The following table sets forth by level, within the fair value hierarch, the Plan's investments at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 488,784	$ 0	$ 0	$ 488,784
Total assets in fair value hierarchy	488,784	0	0	488,784
Investments measured at net asset value (a)	0	0	0	131,840
Total investments at fair value	$ 488,784	$ 0	$ 0	$ 620,624

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

For years ended December 31, 2016 and 2015, there were no significant transfers between Level 1 and 2 and no transfers in or out of Level 3.

4. FAIR VALUE MEASUREMENTS, Continued

All of the investments measured at fair value based on NAV per share have a daily redemption frequency.

5. RELATED PARTY TRANSACTIONS

Reliance Trust Company is the trustee as defined by the Plan and, therefore, transactions with the trustee qualify as party-in-interest transactions which are exempt from the prohibited transaction rules. Fees incurred by the Plan for the investment management services are included in net change in the fair value of investments, as they are paid through revenue sharing, rather than a direct payment. The Company made a direct payments to the third party administrator of $4,696 in 2016 and $3,003 in 2015, which were not covered by revenue sharing.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in the Company contribution portion of their account balance.

7. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter, dated July 8, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

8. RISKS AND UNCERTAINTIES

The Plan provides various investment options. Investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect the account balances of participants and the amounts reported in the statement of net assets available for benefits.

9. SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of the independent auditors' report, which is the date the financial statements were available to be issued.
