Thermoflex Corp. 401(k) Plan
Notes to Financial Statements

Note 1: Description of Plan

The following description of the Thermoflex Corp. 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan, as restated effective January 1, 2016, is a defined contribution plan covering all eligible employees of Thermoflex Corporation (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Employees, including all employees of the Company and employees leased to the Company, as defined, are eligible to participate in making elective deferral contributions upon reaching age of 21 and completing 90 days of service, provided the employee is not a nonresident alien. Eligible employees may enter the Plan on the first day of the month following their fulfillment of the eligibiity requirements.

Contributions

Each year, participants may contribute a portion of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan under a group annuity contract.

During 2016, in connection with the Plan restatement, the Company made corrective contributions totaling $72,896, comprised of missed 2014 and 2015 deferrals for eligible leased employeees aggregating $68,297, and lost earnings on such deferrals amounting to $4,599.

Effective January 1, 2016, the Plan no longer provides for Company matching, discretionary or qualified nonelective contributions.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions; Company corrective contributions, if applicable; and allocations of plan earnings (losses), and forfeitures of terminated participants' nonvested accounts. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions and Company corrective contributions plus actual earnings thereon.

Note 1: Description of Plan (Continued)

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $500, up to a maximum equal to the lesser of 50% of their vested balance or $50,000, reduced by any outstanding loan balance, if any, during the one-year period ending on the day before the new loan is made. The notes are secured by the balance in the participant's account and bear interest at 5.25%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are repaid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability, retirement or for other reasons, as defined, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. In addition, hardship distributions out of the participant's voluntary contributions account are permitted if certain criteria are met. The Plan also allows for in-service distributions upon attaining age 59 1/2. At December 31, 2016 and 2015, there were no amounts owed to former participants whose employment had been terminated and who requested payout of their account balances.

Forfeitures

At December 31, 2016 and 2015, there were no forfeited nonvested accounts. Forfeitures may be used to pay administrative expenses.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States (GAAP).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value, except for its fully benefit-responsive investment contract (FBRIC), which is reported at contract value (Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2: Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition (Continued)

FBRIC's are reported at contract value, which is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the plan agreement.

Excess Contributions Payable

At December 31, 2016, amounts payable to participants totaling $21,346 for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants in September 2017. Excess contributions of $8,344 for the year ended December 31, 2015 were distributed to participants in June 2016 and July 2016.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Plan expenses directly attributable to a participant, such as loan fees and withdrawal fees, are paid by the applicable participant. Professional fees and certain administrative expenses incurred by the Plan are paid by the Company. To the extent not covered by the Company, all other expenses are paid by the Plan. Investment-related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2017, which is the date the financial statements were available to be issued.

Note 2: Summary of Significant Accounting Policies (Continued)

Recent Accounting Policies

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Management has elected to adopt Parts I and II of this ASU, which is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is not applicable to the Plan.

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement*. This ASU amends Accounting Standards Codification (ASC) Topic 820 and removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share practical expedient. This ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The guidance in this ASU is effective for the Plan's year ending December 31, 2017; however, the Plan chose to early adopt this new guidance for the year ended December 31, 2016. The presentation of the fair value of the Plan's collective investment funds as of December 31, 2015, has been removed from the hierarchy levels in the table presented in Note 3 in order to conform to the presentation used as of December 31, 2016. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Note 3: Fair Value Measurements

GAAP specifies a three-tier fair value hierarchy, which prioritizes the inputs used in estimating fair value. These tiers include Level 1, defined as observable inputs such as quoted market prices in active markets; Level 2, defined as inputs other than quoted market prices in active markets that are either directly or indirectly observable; and Level 3, defined as unobservable inputs in which little or no market data exits, therefore, requiring an entity to develop its own assumptions.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Note 3: Fair Value Measurements (Continued)

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment funds: Fair values are based on the NAV of shares held by the Plan at year-end as reported by the fund managers based on the value of the underlying assets at year-end. The NAV is used as a practical expedient to estimate fair value.

Pooled separate accounts: Investments in pooled separate accounts are represented by a "unit of account," whose value is the result of the accumulated values of the underlying investments. The underlying investments are public investment vehicles valued using the NAV provided by the administrator of the mutual fund investments. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is used as a practical expedient to estimate fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflect future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2016 and 2015.

	Assets at Fair Value as of December 31, 2016 (Audited)			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 588,930	$ -	$ -	$ 588,930

Note 3: Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

Note 4: Guaranteed Investment Contract

The Plan invests in a FBRIC with Principal Life Insurance (Principal Life) in the form of a guaranteed investment contract (GIC) that invests in traditional investment contracts. Principal Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Principal Life is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The GIC is carried at contract value. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 1%. Such interest rates are reviewed on an annual basis for resetting. The average yield and crediting yield was 1.69% and 1.75% for the year ended December 31, 2016.

Certain events limit the Plan's ability to transact at contract value with Principal Life, including plan termination and other events as specified in the GIC. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants or the issuer are probable of occurring.

Note 5: Information Prepared and Certified by Trustee

Certain information disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016; net appreciation in fair value of investments; and interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Principal Trust Company (Principal), the Trustee of the Plan.

Note 6: Related-Party Transactions and Party-in-Interest Transactions

Transactions involving participant notes receivable and plan investments managed by Principal, the Trustee of the Plan, qualify as party-in-interest transactions. These transactions are not considered prohibited transaction under ERISA regulations. Fees paid by the Plan for administrative expenses aggregated $232 for the year ended December 31, 2016.

Note 7: Plan Termination

Although it has not expressed the intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Note 8: Tax Status

The Company intends to file an application for a favorable letter of determination with the Internal Revenue Service during the next filing cycle. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed, and being operated, in compliance with the applicable requirements of the Internal Revenue Code and they, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 9: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015, to Form 5500:
