Notes to Financial Statements

Note 1 – Description of the Plan

The following description of the Charles Clark Chevrolet (the "Company") 401(k) Profit Sharing Plan & Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established May 1, 2002. It covers, immediately upon employment, all employees of the Company who are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute a percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals each payroll period. Each year the Company determines the formula for the discretionary matching contribution. For the years ended 2016 and 2015, the matching contribution was of an amount equal to 10 percent of salary deferral up to the first 5 percent deferred. Contributions are subject to certain Internal Revenue Code (IRC) limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings, and charged with an allocation of (a) Plan losses and (b) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contributions plus actual earnings thereon is based on years of continuous service, subject to a six-year graded vesting schedule.

Notes Receivable from Participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of 50 percent of their vested account balance or $50,000, and the loan must be in the form of a signed note with a reasonable and definite repayment schedule. The loan must provide at least quarterly payments under a level amortization schedule and Participant is required to enter into monthly payroll deductions or in an ACH agreement. The loans are secured by the vested balance in the participant's account and bear an interest rate of 4.25 percent, which is commensurate with the local prevailing rate as determined by the Plan administrator.

Payment of Benefits - Upon termination of service due to death, retirement, disability, or other reasons, a participant receives a mandatory lump-sum distribution if the vested account balance does not exceed $5,000. If the vested account balance exceeds $5,000, the participant may choose the method of distribution as specified in the Plan agreement.

Forfeited Accounts - At December 31, 2016 and 2015, forfeited non-vested accounts totaled $2,103 and $3,353, respectively. Forfeitures are used first to pay reasonable Plan expenses and then used to reduce future employer contributions. Plan expenses paid by forfeitures totaled $3,180 and $1,684 for the years ended December 31, 2016 and 2015, respectively.

Note 2 – Summary of Significant Accounting Policies

Basis of Financial Statement Presentation - The financial statements of the Plan are prepared using the accrual method of accounting in conformity with accounting principles generally accepted in the United States of America.

Estimates - In preparing the financial statements, the Plan administrator is required to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment Valuation and Income Recognition - The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Units of participation in Pooled Separate Accounts are valued at fair value which is generally determined by the quoted market price of the underlying investments. The guaranteed fund is fully benefit-responsive and is reported at contract value, as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value of the investment in the guaranteed fund is estimated to be approximately the same as contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis.

Excess Contributions Payable - Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 excess contributions to the applicable participants prior to March 15, 2017.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - Expenses of maintaining the Plan are paid by the Plan to the extent of forfeited non-vested accounts; the excess is paid by the Company.

Date of Management's Review - Subsequent events were evaluated through October 12, 2017, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;

- Quoted prices for identical assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled Separate Accounts: Valued at the net asset value (NAV) of shares held in the underlying mutual fund investments.

Guaranteed fund: Valued at contract value which represents contributions made under the contract plus earnings less participant withdrawals and administrative expenses. Contract value approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015. Classification within the fair hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

December 31, 2016	Total	Fair Value Measurements at Reporting Date Using: Level 2	Level 3
Pooled Separate Accounts*	$ 2,187,443	$ 2,187,443	$ -
Guaranteed fund	1,323,120	-	1,323,120
Total investments at fair value	$ 3,510,563	$ 2, 187,443	$ 1,323,120

December 31, 2015	Total	Fair Value Measurements at Reporting Date Using: Level 2	Level 3
Pooled Separate Accounts*	$ 2,194,233	$ 2,194,233	$ -
Guaranteed fund	962,982	-	962,982
Total investments at fair value	$ 3,157,215	$ 2,194,233	$ 962,982

*Pooled Separate Accounts are valued based on NAV provided by the fund managers. The NAV provided by the fund managers is not quoted in an active market and is therefore considered Level 2. There are no unfunded commitments. There are no redemption restrictions.

The Company evaluates the significance of various inputs to assess the appropriate classification of the Plan's investments within the fair value hierarchy. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Transfers between levels are evaluated for their significance based upon the nature of the investment and size of the transfer relative to the net asset available for benefits. For the years ended December 31, 2016 and 2015, there were no transfers between levels within the fair value hierarchy.

The following table reconciles the beginning and ending balances of fair value measurements using significant unobservable inputs (Level 3) for the guaranteed fund for the years ended December 31, 2016 and 2015.

	2016	2015
Beginning balance	$ 962,982	$ 743,455
Participants' contributions	93,496	60,277
Employer's contributions	5,363	3,429
Interest income	29,314	22,298
In service withdrawal	(21,230)	(20,864)
Distributions and forfeitures	(99,122)	(100,159)
Transfers, net	356,203	249,023
Loans issued	(16,913)	(2,238)
Loan repayments	13,395	7,907
Administrative expenses	(368)	(146)
Ending balance	$ 1,323,120	$ 962,982

Note 4 -- Investment Contract with Insurance Company

The investment contract with an insurance company is a group annuity contract with Sentry Life Insurance Company ("Sentry"). Participant-directed contributions are invested in selected Pooled Separate Accounts primarily invested in mutual funds and in a guaranteed fund.

The guaranteed fund is a traditional fully benefit-responsive investment contract. Sentry maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value which approximates fair value as reported to the Plan by Sentry. Contract value represents contributions made under the contract plus earnings less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract has certain restrictions that impact the ability to collect the full contract value. For example, the Plan may not withdraw more than 20 percent of the beginning of the year balance of the contract without incurring a penalty. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. In the event of contract discontinuance by either the Plan or Sentry, the distribution of the guaranteed fund could be at other than contract value, depending on current interest rates at the time of distribution.

The fair value of the guaranteed fund at December 31, 2016 and 2015 was $1,323,120 and $962,982, respectively. The crediting interest rate is determined by Sentry annually, and for 2016 and 2015 was 2.55 percent and 2.75 percent, respectively; the average yield earned by the guaranteed fund and allocated to participants for the years ended December 31, 2016 and 2015 was 2.55 percent and 2.75 percent, respectively.

Note 5 – Related Party Transactions

The Plan fully absorbs and is responsible for administrator fees, which totaled $6,736 for the Plan year ended December 31, 2016. Forfeitures are used first to pay reasonable Plan expenses. The Company fully absorbs the remaining administrative expenses which totaled $14,135 for the Plan year then ended. These transactions are exempt party-in-interest transactions.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

The Internal Revenue Service has determined and informed the Company by letters dated November 26, 2001, March 31, 2008 and March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Note 8 – Excess Contributions Refundable

At December 31, 2016 and 2015, payables of $33,178 and $37,168, respectively, are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

Note 9 – Concentrations

All investments of the Plan are placed with Sentry Life Insurance Company. The investments are either in a Guaranteed Fund, which is an unsecured general obligation of Sentry Life Insurance Company, or in Pooled Separate Accounts, which represent ownership of units of participation in pooled investments in mutual funds rather than specific assets.

Note 10 – Information Prepared and Certified by Custodian

The following information included in the accompanying financial statements and supplemental schedule as of and for the years ended December 31, 2016 and 2015 was obtained from data that has been prepared and certified as complete and accurate by the custodian, Sentry Life Insurance Company:

	2016	2015
Investment contract with insurance company		
Pooled Separate Accounts	$ 2,187,443	$ 2,194,233
Guaranteed fund	1,323,120	962,982
Notes receivable from participants	98,305	77,291
Net (loss) gain from Pooled Separate Accounts	160,084	(49,327)
Interest income	32,802	24,570
Other income	148	125

Information included in the supplemental schedule of assets held at end of year.

Note 11 – Reconciliation of Financial Statements to Form 5500

Financial information regarding contributions on Form 5500 is reported on the cash basis; the financial statements are prepared using the accrual method of accounting.

The following is a reconciliation of the net assets available for benefits per the financial statements to Form 5500:

	December 31,	
	2016	2015
Net assets available for benefits per the financial statements	$ 3,599,691	$ 3,224,039
Employer's contribution receivable	(1,699)	(1,529)
Participants' contributions receivable	(22,302)	(25,172)
Excess contribution payable	33,178	37,168
Net assets available for benefits per Form 5500	$ 3,608,868	$ 3,234,506

The following is a reconciliation of net increase in net assets available for benefits per the financial statements to net income per Schedule H of Form 5500:

	Year Ended December 31, 2016
Net increase in net assets available for benefits per the financial statements	$ 375,652
Decrease in participants' contributions receivable	2,870
Increase in employer's contributions receivable	(170)
Decrease in excess contribution payable	(3,990)
Net income per Form 5500	$ 374,362

Note 12 – Risk and Uncertainties

The Plan invests in a variety of investment funds. Investments in general are exposed to various risks, such as interest rate, market, credit, and overall volatility risk. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur

in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 13 – Prohibited Transactions

During 2016, late remittances of participant contributions totaled $312,377. All contributions were remitted during the Plan year. The late remittance of funds is a technical violation of the provisions of ERISA even though the Company does not profit from the transactions. Lost earnings totaling $108 were remitted subsequent to December 31, 2016.

Note 14 – Adoption of New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." ASU 2015-07 removes the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value per share practical expedient. The amendments in ASU 2015-07 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. The amendments are applied to all periods presented. ASU 2015-07 has been adopted by the Plan.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefits Plans (Topic 965) – (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date Practical Expedient ("ASU 2015-12")." ASU 2015-12 will simplify accounting and reporting for employee benefit plans.

Part I of ASU 2015-12 designates contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit responsive investment contracts are presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statement. Part I is applicable to the Plan and has been adopted by the Plan.

Part II of ASU 2015-12 eliminates the requirement for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part II is applicable to the Plan and has been adopted by the Plan.

Part III of ASU 2015-12 reduces the complexity of employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. Part III is not applicable to the Plan.

ASU 2015-12 may be adopted in whole or in part (I, II, and III), as applicable. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and Part II of ASU 2015-12 as of December 31, 2015.
