NOTE 1 – DESCRIPTION OF PLAN

The following description of the Legacy Effects, LLC 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Legacy Effects, LLC (the "Company"). The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code ("IRC") and similar state tax laws. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan initially became effective on February 1, 1990. The Plan Adoption Agreement was amended and restated on January 1, 2016.

Employees will become eligible to participate in the Plan if they have completed 3 months of service and have reached the age of 18. Plan entry dates are on the first day of the month after satisfying eligibility requirements.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the plan, up to the IRC annual maximum. Such contributions may be pre-tax or after-tax (Roth), as defined by the Plan. Participants may also contribute amounts representing distributions from other qualified plans ("rollovers"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the Plan.

Under the adoption agreement, the Plan allows for the Company to make a discretionary matching contribution. Participants must be employed on the last day of the plan year to be eligible for the matching contribution. The Company did not elect to make a matching contribution for the year ended December 31, 2016.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions, (b) Plan earnings or losses, and charged with administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account

Draft

NOTE 1 – DESCRIPTION OF PLAN (CONT'D)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Participants are also 100% vested in employer discretionary contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 reduced by the highest outstanding loan balance in the participant's account during the prior twelve month period or (b) 50% of the participant's vested interest in the Plan. The loans are secured by the balance in the participant account. All loans shall bear a reasonable interest rate, which shall remain fixed throughout the duration of the loan. All loans must be repaid within five years unless it is for the purchase of a principal residence, in which case the loan repayment period may not extend beyond 30 years from the date of the loan.

Principal and interest is paid ratably through payroll deductions. A participant can have up to three loans outstanding at a time.

Payment of Benefits

Upon leaving the Company for any reason (retirement, termination, disability or death) a participant can elect to receive their vested benefits in the form of either a single lump-sum cash payment of the entire balance or periodic payments over a period of not more than the participant's assumed life expectancy. However, if the participant's vested account balance is $5,000 or less, the Company can elect to transfer the balance out to a separate IRA outside of the Plan.

Additionally, under certain circumstances of financial hardship, participants are allowed to have hardship distributions from their accounts. Hardship distributions are subject to income taxes and may be subject to additional tax based on early withdrawal. Participants may not contribute to the Plan or any other retirement plan for six months following a hardship withdrawal.

Forfeitures

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures are retained in the Plan and may be used to pay Plan expenses and reduce future employer contributions. For the year ended December 31, 2016 there we no forfeitures to be allocated.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Delinquent notes receivable that are classified as distributions based on the terms of the Plan document. Interest income on notes receivable from participants is recorded when it is received.

Benefit Payments

Benefit payments consist of payments to participants (or, if applicable, the beneficiary) at retirement, disability, death or termination of employment. Benefit payments are made in the form of lump-sum distributions, direct rollovers or annuities. Benefits are recorded when paid.

Fees and Expenses

Certain administrative expenses incidental for the administration of the Plan, including fees of the administrative agent and independent public accountants may be paid by the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

Use of Estimates (cont'd)

make estimates and assumptions that affect the amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Adoption of New Accounting Standards

In July 2015, FASB issued a three-part update to the guidance for plan accounting of employee benefit plans ("ASU 2015-12"). ASU 2015-12 simplifies employee benefit plan reporting, and includes three parts: *Part I. Fully Benefit-Responsive Investment Contracts; Part II. Plan Investment Disclosures; and Part III. Measurement Date Practical Expedient*. Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Also, for purposes of the fair value measurement disclosures, Part II simplifies the level of disaggregation of investments that are measured using fair value as it requires only disaggregation by type rather than by type and class (nature, characteristics, and risks). Part III is not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to early adopt all applicable parts of ASU 2015-12 as of January 1, 2015.

In May 2015, FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). This guidance eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient ("NAV"). In addition, under ASU 2015-07, disclosures about investments in certain entities that calculate net asset value per share are limited to those investments for which the entity has elected to estimate the fair value using the net asset value practical expedient. The guidance of ASU 2015-07 is effective beginning after December 15, 2015, but early adoption permitted. The Plan has elected to early adopt ASU 2015-07 as of January 1, 2015.

NOTE 3 – FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or

NOTE 3 – FAIR VALUE MEASUREMENTS (CONT'D)

liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

An asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common/collective trust ("CCT"): Units held in common/collectives are valued using the NAV practical expedient of the CCT as reported by the CCT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CCT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CCT is calculated based on a compilation of primarily observable market information.

NOTE 3 – FAIR VALUE MEASUREMENTS (CONT'D)

Pooled separate accounts ("PSA"): Pooled separate accounts are valued at the NAV based on units of the pooled separate accounts. The NAV is used as a practical expedient to estimate fair value, and is generally based on the fair value of the underlying investments held by the pooled separate account less its liabilities. This practical expedient is not used when it is determined to be probable that the pooled separate account will sell the investment for an amount different than the reported NAV. The redemption frequency of the pooled separate accounts is daily, and there are no redemption restrictions or unfunded commitments related to the pooled separate accounts.

Since the fair value of pooled separate accounts and common/collective trusts is measured based upon their net asset value as a practical expedient, as provided by ASU 2015-07, these investments have not been classified in the fair value hierarchy.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with Subtopic 820-10, certain investment with totals fair values of $5,602,755 and $5,289,097 at December 31, 2016 and 2015, respectively, were measured at NAV per share (or its equivalent) as a practical expedient and have not been classified by level in the fair value hierarchy.

NOTE 4 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable form participants as reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, respectively;

- Investment income and interest income on notes receivable from participants as reflected in the statement of changes in net assets available for plan benefits for the year ended December 31, 2016.

Draft

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the sponsoring Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in any employer contributions.

NOTE 6 – TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan administrator is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the Department of Labor. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

All plan investments in common/collective trusts and pooled separate accounts are managed by Principal Life Insurance Company, custodian of the Plan. These transactions qualify as party-in-interest transactions for which there is a statutory exemption. Additionally, the notes receivable from participants qualify as party-in-interest transactions.

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
