Independent Auditors' Report

To the Participants and Administrator of
Keystone Employees' Retirement Plan:

We have audited the accompanying financial statements of the Keystone Employees' Retirement Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Keystone Employees' Retirement Plan as of December 31, 2015 and 2016, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Appendix A – Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Adjusted Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 7.50% per year) or the applicable statutory interest rate for the year.

The Adjusted Market Value of Assets is equal to the market value of assets plus discounted employer contributions receivable for the prior plan year. The employer contributions are discounted back to the valuation date using the effective interest rate.

Changes in Actuarial Methods Since Prior Valuation

None.

Appendix B – Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding / FASB ASC Topic 960	Maximum Deductible / PBGC Alternative Method	PBGC Standard Method
Segment 1 (0-5 years)	4.43%	1.34%	1.82%
Segment 2 (5-20 years)	5.91%	4.03%	4.12%
Segment 3 (20+ years)	6.65%	5.06%	5.01%
Effective Interest Rate	6.11%	4.37%	4.40%

ERISA minimum funding: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: Spot segment rates for the month preceding the valuation date (standard method) or 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization (alternative method). The alternative method was adopted January 1, 2008 and the Plan Sponsor is now eligible to elect either method.

FASB ASC Topic 960: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Asset Returns

7.50% per year. It is based on the Plan Sponsor's election.

Compensation Increases

Year	Rate
2016	8%
2017	2
2018	2
2019+	3

Inflation (CPI)

2.30% per year. It is based on Milliman's capital market expectations.

Maximum Benefit and Annual Compensation Limitation Increases

ERISA minimum funding and Maximum Deductible Contribution: 0% per year as required by statute.

FASB ASC Topic 960: The assumed inflation assumption of 2.3% per year.

Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

Social Security Taxable Wage Base Increases

3.00% per year

Administrative Expenses

An allowance of $226,230 for administrative expenses has been included in the Target Normal Cost, reflecting the actual administrative expenses paid from the Plan's trust during the previous year.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: Statutory static tables for 2016 based on RP-2000 Mortality Table projected to anticipate greater future longevity, with separate rates for non-annuitants and annuitants.

FASB ASC Topic 960: Adjusted RP-2014 Blue Collar Mortality Table projected with Mortality Improvement Scale MP-2015, with employee rates before benefit commencement and healthy annuitant rates after benefit commencement.

Retirement

- **Bartonville and Steel & Wire (excluding EWP Salaried):** Employees are assumed to begin to retire at age 50 with 30 years of service or age 62 with 25 years of service as per the following table:

Age	Rate
50-51	5.0%
52-54	2.5
55-60	5.0
61	20.0
62	30.0
63-65	25.0
66-68	35.0
69	65.0
70	100.0

For vested terminated participants, the earlier of age 62 with 15 years of service or age 65.

- **Steel & Wire (EWP Salaried):** The earlier of age 62 with 25 years of service or age 65. For vested terminated participants, the earlier of age 62 with 15 years of service or age 65.
- **Sherman Wire:** Age 65.
- **Engineered Wire Products:** Age 65.

Termination

Annual rates of termination are based on age. Rates are shown in the following table.

Age	Rate
<20	0%
20	10
21	9
22	8
23	7
24	6
25-39	5
40-44	3
45-49	2
50-60	1
61+	0

Disability

None assumed.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

90% of married Bartonville participants with 15 years of service elect the plan's Supplemental Surviving Spouse's Benefit. All other participants elect a Life Annuity.

Marital Characteristics

For participants not in pay status: 80% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 3 years older than females.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Benefits Not Valued

None.

Special Data Adjustments

None.

Weighted Average Retirement Age

The weighted average retirement age for active participants is 64. This equals the sum, over all retirement ages, of the retirement age multiplied by the probability of retiring at that age, as shown below.

Appendix C – Summary of Principal Plan Provisions

This summary of plan provisions is intended to only describe the essential features of the Plan. All eligibility requirements and benefit amounts shall be determined in strict accordance with the plan document itself.

Definitions

Accrued Benefit: The participant's accrued benefit as of December 31, 1995, if any, determined under the terms of any applicable predecessor plan which covered the participant, plus for each calendar year thereafter:

- **For the ISWA Union or the SPFPA Union:** The sum of (i) 1.2% of the participant's average earnings for each such calendar year, and (ii) .55% of the participant's average earnings in excess of the Social Security wage base for such year. The minimum monthly accrued benefit amount shall be equal to the participant's total number of full and fractional years of benefit service multiplied by $50.
- **For participants not in a collective bargaining unit:** 1.2% of the participant's average earnings for such year. Except for employees of Engineered Wire Products, Inc., the minimum monthly accrued benefit amount shall be equal to the participant's total number of full and fractional years of benefit service multiplied by $50.
- **For Local Union No. 40:** The participant's monthly retirement income shall be equal to the participant's number of full and fractional years of benefit service (not in excess of 40 such years) multiplied by $28.50.

Actuarially Equivalent: Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants.

- For purposes of determining the amount of any joint and survivor annuity form of payment, the factors shall be based on an interest rate of 8 ½% and mortality in accordance with the 1984 Unisex Pension Mortality Table set forward one year for females and males.
- For purposes of determining lump sum distribution amounts, actuarially equivalent factors are based on the applicable mortality table specified in Sections 417(e) of the Code for the plan year of distribution and the statutory three-tier segment interest rates in effect for the November prior to the plan year of distribution. For members of the ISWA Union, the SPFPA Union, or Local Union No. 40, the factors used shall be either the above described factors or the factors used by the Pension Benefit Guaranty Corporation for determining present values under a defined benefit pension plan terminating on the date of distribution, whichever factors provide the larger lump sum actuarially equivalent value.
- For purposes of determining the amount of the Five Year Certain or Ten Year Certain optional forms of benefit (only for employees of Engineered Wire Products, Inc. who are members of a collective bargaining unit represented by Local Union No. 40), the interest rate shall be 6.5% and mortality shall be based upon the 1971 Group Annuity Mortality Table (blended 95% male and 5% female).
- For any other purposes, the interest rate assumption shall be six percent and the mortality table shall be the applicable Code Section 417(e)(3) mortality table.

Average Earnings: The earnings for such year divided by the number of months in that year for which the participant had earnings. For the ISWA Union or SPFPA Union, "average earnings" shall be the earnings of the participant for such year divided by twelve.

Benefit Service: A full month is credited for each full or partial month of employment, provided that if the aggregate number of days of employment in a participant's initial calendar month and final calendar month of employment does not exceed 31 days, the participant will be granted only one month of benefit service for both such partial calendar months.

- **For employees of Engineered Wire Products, Inc.:** who are members of a collective bargaining unit represented by Local Union No. 40, the benefit service credited to a participant for a Plan Year shall not be less than the amount determined below:

Hours of Service during the year	Benefit Service
Less than 90	None
90 to 269	.1
270 to 449	.2
450 to 629	.3
630 to 809	.4
810 to 989	.5
990 to 1,169	.6
1,170 to 1,349	.7
1,350 to 1,529	.8
1,530 to 1,709	.9
1,710 or more	1.0

Earnings: Total compensation for services rendered to the employers as a covered employee, including any amounts which are treated as salary reduction contributions and used to purchase non-taxable benefits under IRC Section 125 or 401(k). Annual Compensation may not exceed the inflation-adjusted limit specified by the IRS ($265,000 for the 2016 plan year).

Plan Effective Date: Amended and restated as of January 1, 2011.

Plan Year: The 12-month period beginning January 1 and ending December 31.

Social Security Wage Base: The amount of compensation which is considered as wages for that year under Section 3121(a) (1) of the Code divided by twelve.

Eligibility for Participation

An employee is a participant of the plan if the employee is a member of a group of employees to which the plan has been and continues to be extended either by the employer unilaterally or by collective bargaining.

Normal Retirement

Normal Retirement Date: The first day of the month coincident with or next following the later of the attainment of age 65 or the fifth anniversary of the date of plan participation.

For members of the ISWA Union or SPFPA Union, Normal Retirement Date is no later than age 66.

Normal Retirement Benefit: The Accrued Benefit.

Early Retirement

Early Retirement Date: The first day of the month coincident with or next following the attainment of age 60 and completion of 15 years of service.

- **For the ISWA Union or SPFPA Union:** The earlier of age 55 years and 20 years of service or age 60

years and 15 years of service.

- **For employees of Engineered Wire Products, Inc.:** who are members of a collective bargaining unit represented by Local Union No. 40, the first day of the month coincident with or next following the attainment of age 55 and completion of 15 years of service.

Early Retirement Benefit: The Accrued Benefit, unreduced if the participant is 62 years old and not a member of a collective bargaining unit represented by Local Union No. 40. Otherwise the benefit is actuarially reduced for commencement prior to Normal Retirement Date as follows:

- **For the ISWA Union or the SPFPA Union:**

Age at Commencement	Percentage Payable
55 but not age 56	54.81%
56 but not age 57	59.48%
57 but not age 58	64.62%
58 but not age 59	70.31%

- **For Local Union No. 40:** The amount of such reduction shall be 1/180 for each of the first 60 months and 1/360 for each additional month by which the commencement precedes the participant's Normal Retirement Date.

Special Early Retirement Benefit: For the ISWA Union or SPFPA Union. The Accrued Benefit, unreduced if a participant:

- has completed 30 years of service; or
- is terminated as a result of a permanent shutdown of a plant, a layoff by reason of a reduction in force, or a disability, and has attained age 55 years and completed 15 years of service **or** has not attained age 55 years and the participant's age and years of service equal 80 or more.

Deferred Retirement

Deferred Retirement Date: The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.

Deferred Retirement Benefit: The greater of (i) the Accrued Benefit determined as of the Deferred Retirement Date or (ii) the Accrued Benefit determined as of the Normal Retirement Date and actuarially increased to the Deferred Retirement Date.

Termination

Termination Date: The date of termination of service other than for reasons of retirement, disability, or death.

Termination Benefit: The Accrued Benefit, multiplied by the vested percentage in the following table, payable at the Normal Retirement Date, or payable as of the first day of any month coincident with or next following attainment of age 60 if at least 15 years of Service have been completed (actuarially reduced for commencement prior to Normal Retirement Date).

Years of Service	Vested Percentage
Less than 5	0%
5 or more	100%

Preretirement Death

Preretirement Death Benefit Eligibility: Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.

Preretirement Death Benefit: 50% of the benefit which would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected a joint and 50% survivor annuity, and died on that same date.

- **For the ISWA Union or the SPFPA Union:** The surviving eligible spouse who was married to a participant at the date of the participant's retirement, who had at least 15 years of service and who died during employment or who retired and died (excluding a retiree entitled to deferred vested benefits) shall be entitled to the above benefit, commencing on the first day of the month following the death of the participant.
- **For employees not covered by collective bargaining agreements:** The surviving eligible spouse who was married to a participant at the date of the participant's retirement, who had at least 15 years of service and who died during employment or who retired and died (excluding a retiree entitled to deferred vested benefits) shall be entitled to a benefit commencing on the first day of the month following the death of the participant. The benefit will be the benefit described above, subject to a minimum of $125 for any month before the earliest date the spouse is eligible for Social Security survivor's benefits and $75 for any month thereafter.

Disability Retirement

Disability Retirement Date: The first day of the month coincident with or next following the date of termination of employment from all of the Keystone Companies, because of the participant's disability incurred prior to the participant's termination of employment, before the participant's Normal Retirement Date but after the participant has completed 15 years of service.

- **For employees not covered by collective bargaining agreements:** the participant must have reached his Normal Retirement Date.
- **For employees of Engineered Wire Products, Inc.:** who are members of a collective bargaining unit represented by Local Union No. 40, the participant must be at least 50 years old.

Disability Retirement Benefit: The Accrued Benefit, determined as of the disability separation date.

Forms of Payment

Normal Forms: Life annuity if single, actuarially equivalent joint and 50% survivor annuity if married.

Optional Forms: Actuarially equivalent life annuity with 5 or 10 years certain (only for employees of Engineered Wire Products, Inc. who are members of a collective bargaining unit represented by Local Union No. 40); actuarially equivalent joint and 50% to 100% (as elected) survivor annuity.

Small Lump Sum: Payable automatically if the actuarially equivalent present value of the vested Accrued Benefit is $5,000 or less.

Changes in Principal Plan Provisions Since Prior Valuation

None.

Independent Auditors' Report

To the Participants and Administrator of
Keystone Employees' Retirement Plan:

We have audited the accompanying financial statements of the Keystone Employees' Retirement Plan ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Keystone Employees' Retirement Plan as of December 31, 2015 and 2016, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Note 1 - Description of Plan:

General. The following description of the Keystone Employees' Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit plan for certain employees of Keystone Consolidated Industries, Inc. ("Keystone") not covered by a collective bargaining agreement including those at the following divisions: Keystone Steel and Wire ("KSW") and the corporate office. The Plan also covers employees at the following subsidiaries: Sherman Wire Company (formerly DeSoto, Inc.) ("Sherman") and Engineered Wire Products, Inc. ("EWP"). In addition, the Plan covers bargaining unit employees at KSW. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). In 2004, the Plan was amended to state that no hourly or salaried employee hired after August 12, 2004 could participate in the Plan.

Keystone was a wholly-owned subsidiary of Contran Corporation ("Contran") at December 31, 2016. All of Contran's outstanding voting stock is held by a family trust established for the benefit of Lisa K. Simmons and Serena Simmons Connelly and their children for which Ms. Simmons and Ms. Connelly are co-trustees, or is held directly by Ms. Simmons and Ms. Connelly or entities related to them. Consequently, Ms. Simmons and Ms. Connelly may be deemed to control Keystone and the Plan.

As permitted by ERISA, applicable Department of Labor regulations and the Internal Revenue Code, effective December 31, 2015, Keystone and Contran undertook a spin-off and merger involving the Keystone Employees' Retirement Plan for Inactive Employees ("Keystone Plan"), pursuant to which specified groups of participants in the Keystone Plan were transferred out of the Keystone Plan and merged into the Contran Corporation Pension Plan ("Contran Plan") and the Plan. As such, the Contran Plan and the Plan assumed the obligation to pay the pension benefits for these groups of former Keystone Plan participants, and the Keystone Plan transferred $91.7 million and $137.2 million to the Contran Plan and the Plan, respectively. ERISA and the Internal Revenue Code prescribes the method of determining the amount of Plan assets which were transferred to the Contran Plan and the Keystone Plan. Under the prescribed method, the amount of the Plan assets transferred to the Contran Plan and the Keystone Plan was based on the relative portion of the Plan pension liabilities transferred, with such pension liabilities determined on an ERISA plan termination basis (as if the Plan had been terminated as of the date of the spin-off).

Contributions. The contributions to the Plan are designed to fund at least the minimum required by ERISA. For the years ended December 31, 2015 and 2016, the Company made no contributions to the Plan due to the full funding limitations imposed by the Internal Revenue Code of 1986, as amended, (the "Code").

Pension benefits. All participants are 100% vested after five years of service, as defined, and are entitled to receive monthly pension benefits beginning at normal retirement date (generally age 65). A participant's benefits are calculated based upon a percentage of the participant's average monthly compensation, as defined. The percentage rate used depends on the section of the Plan covering the participant.

Benefit payment options available at the time of retirement are straight life annuity, 10-year certain annuity and joint and survivor annuity (100%, 75% and 50%). The Plan permits early retirement with reduced benefits, as specified in the Plan.

Disability and death benefits. The Plan includes provisions for disability and for survivor's benefits for beneficiaries of participants who die after completion of at least one year of service, as defined.

Plan termination. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accrued benefits of each participant would become fully vested to the extent funded. The net assets of the Plan, after providing for liquidation expenses, are to be allocated to participants and beneficiaries in accordance with Section 4044 of ERISA. To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation, subject to certain limitations.

Expenses of administering the Plan. The administrative expenses are paid by the Plan.

Tax status. The Plan obtained a favorable "determination letter" from the Internal Revenue Service ("IRS") dated April 6, 2017. The Plan had no significant uncertain tax positions for the years ended December 31, 2015 and 2016. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

Note 2 - Summary of significant accounting policies:

Basis of accounting. The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Payment of benefits. Benefits are recorded when paid.

Management estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

Risks and uncertainties. The actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan indirectly invests in a variety of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. In addition, the Plan on occasion sells securities short which obligates the Plan to purchase securities in the future at the then market price. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's statement of net assets available for benefits.

Investment valuation and income recognition. The Plan's investments are stated at fair value. See Note 3 for a discussion of fair value measurements. The net appreciation (depreciation) for the year includes the Plan's gains and losses on investments bought and sold as well as held throughout the year and is reflected in the Plan's statements of changes in net assets available for benefits.

Subsequent events. The Plan has evaluated subsequent events through October 11, 2017, the date these financial statements were available to be issued.

Note 3 – The Combined Master Retirement Trust:

At December 31, 2015 and 2016, significantly all of the assets of the Plan were held and related investment transactions were executed by U.S. Bank National Association ("U.S. Bank") as Trustee of the Keystone Consolidated Industries, Inc. Master Retirement Trust I (the "Keystone Trust"). The Keystone Trust invests in units of The Combined Master Retirement Trust (the "Combined Trust"), a collective investment trust formed by Valhi, Inc. ("Valhi"), a majority-owned subsidiary of Contran. The Combined Trust provides for the collective investment of part or all of the assets of various employee benefit plans maintained by Keystone and certain other Contran affiliated corporations (the "Qualified Plans").

Investments held by the Combined Trust are stated at fair value. The fair value per Combined Trust unit is determined semi-monthly by dividing the fair value of the net assets of the Combined Trust by the number of units outstanding for the Combined Trust. Units are issued or redeemed based on the most recent unit value. In accordance with the plan of trust, net income from investment activities is distributed only through the redemption of units.

At December 31, 2015 and 2016, the Combined Trust had net assets of $648,786,030 and $637,826,422, respectively. Summarized financial information of the Combined Trust at December 31, 2015 and 2016, and the statements of changes in net assets for the years then ended are presented below.

The Plan and the Combined Trust carry their investments at fair value in accordance with Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* which establishes a consistent framework for measuring fair value and is applied to all financial statement items required to be measured at fair value. The standard requires fair value measurements to be classified and disclosed in one of the following three categories:

- *Level 1* – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- *Level 2* – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the assets or liability; and
- *Level 3* – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Combined Trust's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2016.

Common stocks: Investments are valued at the closing price reported on the active market on which the individual securities are traded. Other investments in this class that trade infrequently or not at all are valued based on recent third-party transactions in the investment, third party valuations during the year, potential sales and other unobservable inputs.

Mutual funds: Investments are valued at the daily closing price as reported by the fund. Mutual funds held by the Combined Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Combined Trust are deemed to be actively traded.

Commingled funds: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's commingled funds were valued at the NAV at December 31, 2015 and 2016.

Limited partnerships: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's limited partnerships eligible to be valued at the NAV were valued at the NAV at December 31, 2015 and 2016. Other investments in this class, not eligible to be valued at the NAV, trade infrequently or not at all and are valued based on financial information obtained from the issuer, current and projected financial condition and results of operations of the issuer and other unobservable inputs. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Corporate bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

U.S. government securities: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities.

Municipal bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

Real estate mortgage notes: Real estate mortgage notes are valued based on the developer's estimate of actual and projected sales for the projects.

Cash and cash equivalents: Investments are valued at the daily closing price as reported by the money market fund. The money market fund held by the Combined Trust is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Combined Trust is deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy of ASC Topic 820, *Fair Value Measurements and Disclosures*, the Combined Trust's investments at fair value as of December 31, 2015 and 2016.

(a) In accordance with ASC Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the total investments presented in the statement of net assets.

The following table sets forth a summary of changes in the fair value of the Level 3 assets of the Combined Trust's level 3 assets for the years ended December 31, 2015 and 2016.

The Combined Trust's policy is to recognize transfers into and out of Level 3 as of December 31st. There were no transfers between levels in the fair value hierarchy during 2015 and 2016. Additional information concerning the Combined Trust's significant level 3 assets as of December 31, 2016 (comprised only of common stocks) is presented below. The Combined Trust has no unfunded commitments with respect to these investments at December 31, 2016.

Common stocks: This class includes investments in privately held companies primarily in the education and financial industries that are focused on growth. The Combined Trust's investment in these companies can only be sold with the approval of the respective issuer.

The following tables summarize the valuation methodology and significant unobservable inputs used for the Combined Trust's investments in securities that are categorized within Level 3 of the fair value hierarchy as of December 31, 2015 and 2016:

Limited Partnerships	30,209	$684	*	*
Investments measured at NAV practical expedient	$191,891	$684		

* See discussion regarding redemptions below.

Commingled funds – Fixed income funds: This class includes fixed income funds with the investment objective to provide returns 300 to 500 basis points above the 3-Month LIBOR after fees over a full market cycle. The funds invest primarily in fixed income securities along with derivatives and currencies in markets including developing markets.

Commingled funds – Growth funds: This class includes growth funds with the investment objective to seek long-term capital appreciation over the medium to long term in all market conditions. These funds invest mainly in equity securities across a broad capitalization range of companies and countries including securities in emerging market countries.

Commingled funds – Hedge funds: This class includes hedge funds with the investment objective to seek above average returns over time with lower risk than traditional investments. The funds may use any number of strategies including convertible arbitrage, distressed credit, long/short equity, event driven, fixed income arbitrage, managed futures and niche strategies. One fund, valued at $17.2 million at December 31, 2016, may be redeemed monthly with not less than 61 days notice and redemptions may be suspended or delayed at the discretion of the manager. Another fund, valued at $13.6 million at December 31, 2016, may be redeemed quarterly with not less than 65 days notice, however, redemption prior to the first anniversary of investment is subject to a 5% penalty and redemptions may be suspended or delayed at the discretion of the manager. For the third fund in this class, valued at $3.6 million at December 31, 2016, redemptions may be made annually after a three year lock-up with 180 days notice.

Limited partnerships: This class includes investments in private equity funds that have different areas of focus with the goal of capital appreciation. The agreements covering certain of the Trust's limited partnership interests contain provisions that obligate the Trust to invest additional amounts when and as determined by the general partner. Each of the commitment periods are subject to extension and amendment as provided in the respective limited partnership agreements. At December 31, 2016, the commitment periods range from 2017 through 2023. One fund, valued at $20.1 million at December 31, 2016, may be partially redeemed with at least 60 days notice. The remaining Trust investment in that fund may only be redeemed as the underlying investments are liquidated. The remaining private equity funds in this class may be redeemed only with the approval of the general partner of the partnership. If the Trust remains invested, distributions will be made from investments as the underlying investments of the partnerships are liquidated. It is estimated that the underlying assets of the funds would be liquidated over the next 1 to 7 years.

Note 4 - Actuarial present value of accumulated benefits:

Accumulated benefits are those estimated future payments that are attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (i) retired and terminated participants or their spouses, (ii) spouses of deceased participants, and (iii) active participants or their spouses. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actual valuations are determined at January 1 of each Plan year.

The significant assumptions used in the valuations as of December 31, 2015 and 2016 were: (i) life expectancy of participants - Adjusted RP 2014 Blue Collar fully generation table with Scale MP in 2015 and in 2016; (ii) retirement age assumption - ranging from age 50 to 65, if eligible, otherwise age 65; (iii) based on MAP-21 segment rates, resulting effective interest rates were 6.11% in 2015 and 5.93% in 2016; (iv) employee turnover withdrawal table consistent with Keystone's expected experience; disability - none. The foregoing assumptions were based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits at December 31, 2015 and 2016 and the changes in the actuarial present value of accumulated benefits for the years then ended are summarized below.

	December 31, 2015	December 31, 2016
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	$124,229,241	$127,019,640
Other participants	77,350,549	78,680,655
	201,579,790	205,700,295
Nonvested benefits	7,900,656	8,191,066
Total actuarial present value of accumulated plan benefits	$209,480,446	$213,891,361
Actuarial present value of accumulated plan benefits at beginning of year	$ 114,854,681	$ 209,480,446
Change during the year attributable to:		
Reduction in discount period	5,338,851	12,129,703
Plan Amendments	86,067,467	-
Net benefits accumulated and experience	5,834,106	5,411,709
Participant transfer corrections	-	(1,767,869)
Change in actuarial assumptions and methods	912,887	1,428,483
Benefits paid to participants	(3,527,546)	(12,791,111)
Net increase	94,625,765	4,410,915
Actuarial present value of accumulated plan benefits at end of year	$209,480,446	$213,891,361

Benefits paid above are different than the amount reported in the Plan's financial statements due to certain timing differences related to benefit payments.

Note 5 – Recent accounting pronouncements adopted:

In January 2016, FASB issued Accounting Standards Update (ASU) No. 2016-01, *Financial Instruments (Subtopic 825-10) - Overall Recognition and Measurement of Financial Assets and Financial Liabilities.* ASU No. 2016-01 amended ASC 825, *Financial Instruments*, which eliminates the requirement to disclose the fair value of financial instruments not recorded at fair value required under ASC 825. This ASU is effective for years beginning after December 15, 2018 with early adoption permitted. The Trust has elected to early adopt this ASU as of December 31, 2016. There was no significant impact to the financial statements as a result of the adoption.

In February 2017, FASB issued Accounting Standards Update (ASU) No. 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)-Employee Benefit Plan Master Trust Reporting.* ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust. This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented with early adoption permitted. The Plan has elected to early adopt this ASU as of December 31, 2016. As a result of early adoption, additional disclosures related to the Plan's interest in the master trust have been made and applied retrospectively as required by the standard. There was no impact on the Plan's net assets or changes in net assets.
