Ohio CAT Incentive Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of Ohio CAT Incentive Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Ohio Machinery Company d/b/a Ohio CAT (the "Company" or the "Plan Sponsor") and IROCK Crushers, LLC who are not covered by collective bargaining agreements and who have completed three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may elect to defer between 1 percent and 100 percent of compensation as defined by the Plan on either a pretax or after-tax basis, subject to the maximum contribution amounts allowable by law. The Company provides a matching contribution equal to 50 percent of the first 4 percent of annual compensation that a participant contributes to the Plan. The Company may provide an additional discretionary matching contribution, however, no such contribution was made for the year ended December 31, 2016. An additional nonelective contribution for participants who have completed one year of service may be made at the discretion of the employer in an amount to be determined from year to year. The Company made an additional nonelective contribution of 1 percent of each eligible participant's compensation for the year ended December 31, 2016. The Plan provides for the acceptance of rollover contributions from other qualified plans. The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the plan year.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. A participant's interest in company contributions and actual earnings thereon become vested based on years of continuous service. A participant is 100 percent vested after five years of credited service.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions, if applicable, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Ohio CAT Incentive Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Benefit Payments - Upon termination of service, a participant may elect to receive a lump-sum amount equal to the vested value of his or her account. If the value of the vested benefits credited to a participant's account is \$1,000 or less at the time of termination, the entire amount will be automatically distributed to a participant without the participant's consent. In the event of a mandatory distribution of an amount greater than \$1,000 but not exceeding \$5,000, the entire amount will be distributed in the form of a direct rollover to an individual retirement account as designated by the plan administrator.

Active participants may request hardship withdrawals from their elective deferral account balance, subject to plan provisions. A participant who receives a distribution on account of a hardship is prohibited from making deferrals for 12 months after receipt of the distribution.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by State Street Bank and Trust Company or its affiliates. State Street Bank and Trust Company is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines.

Plan Transfers - The Plan receives funds from or transfers funds to another plan of the Company generally upon change in employment status of the participant (union versus nonunion status). The Plan received approximately \$8,000 for the period ended December 31, 2016.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balances. Notes receivable terms range from one to five years or up to 10 years for the purchase of a primary residence. Notes receivable bear interest at a market rate. Principal and interest are paid ratably through biweekly payroll deductions.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future company contributions.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the Plan are prepared using the accrual basis of accounting.

Ohio CAT Incentive Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 2 - Summary of Significant Accounting Policies (Continued)

Investment Valuation - The Plan's investments are stated at fair value. The fully benefit-responsive unallocated contract is valued at contract value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. The interest-bearing cash is valued at fair value based on its outstanding balance.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Administrative Expenses - Various administrative costs are paid by the Company. These transactions qualify as party-in-interest transactions.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures at the date of the financial statements and during the reporting period. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including October 9, 2017, which is the date the financial statements were available to be issued.

Ohio CAT Incentive Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Unaudited Information

State Street Bank and Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated August 31, 2015. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 5 - Fair Value Measurements (Continued)

	Investments (at Fair Value)	Level I

Cash - Interest bearing	\$ 86,762	\$ 86,762
Mutual funds	44,083,746	44,083,746
Total	<u>\$ 44,170,508</u>	<u>\$ 44,170,508</u>

Note 6 - Investment Contracts

The Plan has a benefit-responsive investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Interest is credited on contract balances using a single “portfolio rate” approach. Under this methodology, a single interest rate is applied to all contributions made to the product regardless of the timing of those contributions. Interest crediting rates are reviewed on a semiannual basis for resetting, but may not be less than 0 percent. When establishing interest credit rates for this product, MassMutual considers many factors, including current economic and market conditions, the general interest rate environment, and both the expected and actual experience of a reference portfolio within the issuer’s general account.

As described in Note 2, because the contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.
