Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Independent Auditor's Report

The Administrative Committee
AXIA Incorporated Salaried Employees' Retirement Plan
Fairburn, Georgia

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the AXIA Incorporated Salaried Employees' Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Prudential Retirement Insurance and Annuity Company (Prudential) and Metropolitan Life Insurance Company (MetLife), the certifying entities of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that Prudential and MetLife hold the Plan's investments and execute investment transactions. The Plan administrator has obtained certifications from Prudential and MetLife as of December 31, 2016 and 2015, and for the years ended, that the information provided to the Plan administrator by them is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter – Supplemental Schedules

The supplemental schedules, Schedule H, Line 4i, schedule of assets (held at year-end) as of December 31, 2016 and Schedule H, Line 4j, schedule of reportable transactions for the year ended December 31, 2016, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedules.

Report on Form and Content in Compliance with DOL's Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the certifying entities, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

SECTION VII

PLAN PROVISIONS

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Discount Rate: Segment rates, with a 4-month lookback

Mortality Table: Prescribed IRS Static Mortality Table – Separate

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

The Fair Market Value of Assets used for funds invested in the General Account of an Insurance Company is the stated contract value with a market value adjustment factor. This value is an estimate only and not the precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute a final offer by Prudential or a final experience adjustment.

SECTION VII

ACTUARIAL METHODS

Under the Actuarial Methods described below, if all current assumptions remain constant and are realized, funding at least the Minimum Required Contribution each year will eventually accumulate sufficient plan assets to cover the Funding Target. Future widening of the interest rate stabilization corridor may extend the time period for the plan to become fully funded.

Cost Method

Costs have been computed in accordance with the Unit Credit Actuarial Cost Method and reflect the actuarial assumptions described under "Actuarial Assumptions" of this report as provided under the applicable regulations of the Pension Protection Act of 2006.

Target Normal Cost

The Target Normal Cost is the present value of benefits expected to accrue during the plan year plus an estimate of the expenses to be paid from plan assets during the plan year.

Funding Target and Funding Shortfall

The Funding Target is the present value of benefits accrued as of the beginning of the plan year and the Funding Shortfall is the excess of the Funding Target over the Actuarial Value of Assets (reduced by the Credit Balance). The initial Funding Shortfall is amortized over seven years.

In subsequent years, the Funding Shortfall less the present value of prior year amortization installments is amortized over seven years, and added to any prior year amortization installments.

Segment rates are adjusted as necessary to fall within the specified corridor of the corresponding 25-year average of segment rates for the period ending September 30 of the calendar year preceding the first day of the plan year. The specified corridor is:

<u>Plan Year</u>	<u>Corridor</u>
Through 2020	90% - 110%
2021	85% - 115%
2022	80% - 120%
2023	75% - 125%
2024 and later	70% - 130%

The adjustments to fall within the specified corridor of the 25-year average of segment rates apply for determining the minimum required contribution and related funded percentages. They do not apply for determining the maximum tax deductible contribution or certain other situations.

Sponsor Elections

Discount Rate: Segment rates, with a 4-month lookback

Mortality Table: Prescribed IRS Static Mortality Table – Separate

SECTION VII

ACTUARIAL METHODS

At-Risk Determination

The At-Risk Funding Target is determined by assuming that participants eligible to retire in the current plan year and next 10 plan years retire at the earliest possible date, but not before the end of the plan year. All participants are assumed to elect the optional form resulting in the highest possible present value.

A load is added to the At-Risk Funding Target and At-Risk Target Normal Cost when a plan is At-Risk in at least two years during the preceding four years. The load increases the At-Risk Funding Target by 4% of the Not At-Risk Funding Target plus \$700 per participant, and increases the At-Risk Target Normal Cost by 4% of the Not At-Risk Target Normal Cost.

The Funding Target and Target Normal Cost are calculated by multiplying the Not At-Risk values by 100% minus the Phase-In Percentage, plus the At-Risk values multiplied by the Phase-In Percentage.

Credit Balance

The Credit Balance consists of the Carryover Balance from excess contributions prior to the Pension Protection Act (PPA) of 2006, plus the Prefunding Balance from elected excess contributions after the PPA. Balances accumulate with interest and are reduced for amounts applied towards the Minimum Required Contribution, voluntary waivers by the plan sponsor, and compelled waivers to avoid benefit restrictions. The Actuarial Value of Assets is reduced by the Credit Balance to determine certain funded percentages and to determine the Funding Shortfall.

Asset Valuation Method

The Actuarial Value of Assets is determined using an annual average of the adjusted Fair Market Value of Assets with the earliest determination 24 months prior to the valuation date. The Fair Market Value of Assets in prior years is adjusted for contributions, benefit payments, expenses and expected earnings (not to exceed the third segment rate).

This is equivalent to the Fair Market Value of Assets, plus two-thirds of the (gain)/loss from the prior year, plus one-third of the (gain)/loss from the second preceding year. The (gain)/loss in each year is the difference between the expected and actual returns on the Fair Market Value of Assets.

The Actuarial Value of Assets is adjusted to be no less than 90% or no more than 110% of the Fair Market Value of Assets, as required by IRC Section 430(g)(3)(B)(iii).

Since the expected earnings assumption cannot exceed the third segment rate, over time, the method may produce an Actuarial Value of Assets slightly below the Fair Market Value of Assets.

The Actuarial Value of Assets for determining the Maximum Tax Deductible Contribution reflects interest rate stabilization rates for discounting contributions and limiting expected earnings.

The Fair Market Value of Assets used for funds invested in the General Account of an Insurance Company is the stated contract value with a market value adjustment factor. This value is an estimate only and not the precise calculation which would be done at contract discontinuance or to measure the impact of excess withdrawals in any calendar year. It does not constitute a final offer by Prudential or a final experience adjustment.

SECTION VII

PLAN PROVISIONS

Earnings

Earnings mean Total Compensation received from the Employer including severance pay, value of stock options, stock appreciation rights, insurance benefits, reimbursed moving expenses and other similar benefits. In any year in which a full time employee does not work the number of hours that constitute a normal full-time work schedule, earnings is annualized.

Final Average Earnings

Average Monthly Earnings is 1/12 of the Average Earnings for the five highest consecutive years within the past fifteen years.

Final Average Earnings 1/12 of the Average Earnings for the three consecutive years, ending with the plan year of terminations. Earnings are limited to the Social Security taxable Wage base.

As of March 31, 2003, the plan was amended to freeze salary increases; however, any participant who is active as of December 31, 2003, and who is age 60, or age 50 with 5 years of service as of that date will receive credit for future salary increases.

Service

Last period of employment starting with (a) initial employment after January 1, 1976, (b) date as specified in prior plan if hired before January 1, 1976, (c) re-employment after termination prior to January 1, 1976, (d) reemployment after break in service after January 1, 1976, whichever is later, and ending upon the break in service date.

For employees hired after January 1, 1986

1. Service, which is used for benefit eligibility purposes, does not include any plan year in which an employee works less than 1000 hours. Years of service prior to the plan year in which an employee attains age 18 on or after January 1, 1985 or the employee attained age 22 before January 1, 1985 are excluded.
2. Credited Service which is used for benefit computation purposes, does not include years of service before participation and is adjusted for years on which the employee works less than the full-time work schedule. Credited service for an employee of Fischboin Company Division will not begin prior to July 1, 1979. Credited service for an employee of the Marco Paper Products Company includes service after August 20, 1971. Credited service for an employee of Nostaway Division of the Beaver Dam, Kentucky location includes service after July 31, 1988. Credited service for an employee of Jensen Tools, Inc. includes services after January 2, 1974.
3. Credited Service for Benefit computation was frozen as of March 31, 2003.

Early Retirement Benefit (Cont')

Social Security Supplement – an employee with credited service prior to January 1, 1994, retiring under the early retirement provisions, is eligible for a temporary supplemental benefit payable until age 65 equal to the amount determined in (b.) 'Under the Accrued Benefit Formula', with average monthly salary, Final Average Earnings, Covered Compensation, Social Security and Credited Service all determined as of December 31, 1993. If the participant was a super highly compensated employee as of December 31, 1988, the amount determined in (b.) is calculated as of December 31, 1988.

Deferred Vested Benefit

Eligible after 5 years of Service

Accrued Monthly Benefit payable at age 65. If a participant eligible for early retirement decides to commence early, the early retirement benefit will be equal to the accrued benefit multiplied by the early retirement factor below based on age.

Notes to Financial Statements

1. Description of the Plan

The following brief description of the Filtration Group 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan for the employees of Filtration Group, LLC, Filtair Inc., Burke Environmental LLC, Chemco Manufacturing Inc., Waco Filters Corporation, Clear Edge Filtration, Universal Air Filters, Air Flow Technology, AG Industries, Global Filter, Buffalo Filter, Air Systems Products, Kaydon Corporation, and Purafil Inc. (collectively, the Company). The Company established the Plan effective July 1, 1995. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

During 2016, Zinga Industries, Inc. was acquired by and become a division of Filtration Group, LLC. As a result, on September 30, 2016, balances in the amount of \$1,598,651 were transferred from the Zinga Industries, Inc. 401(k) Plan to the Plan.

Eligibility

Under provisions of the Plan, all active employees of the Company, excluding members of a collective bargaining unit and leased employees, who have completed 1 month of service and are at least 21 years of age, are eligible to participate in the Plan. Participants become eligible to participate on the first plan entry date (first of each month) after meeting all eligibility requirements.

Contributions

Participants may contribute up to 100% of annual compensation, subject to annual limitations set forth in Section 402(g) of the Internal Revenue Code (IRC). The Company, at its discretion, may make matching and/or profit-sharing contributions. Profit-sharing contributions are allocated to each participant's account based upon the participant's eligible compensation multiplied by a percentage determined by management. Such contributions are subject to certain limitations.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. A current description of the investment funds may be obtained from the Plan administrator.

Participant Accounts

Each participant's account is credited or charged with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings or losses and charged with his or her withdrawals and an allocation of administrative expenses. Allocations are based on participant deferrals, earnings, or account balances, as defined. The benefit to which a participant is entitled is that which can be provided from the participant's vested account.

Notes to Financial Statements

1. Description of the Plan (cont.)

Notes Receivable from Participants

A participant may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance. Loans are secured by the participant's account balance and bear interest at a reasonable rate of interest as determined by Plan management based on prevailing interest rates charged for similar loans in the loan market. Repayments of the loans are made in substantially equal payroll deductions amortized over the life of the loan. The loan must be repaid within five years unless the loan is used to purchase a primary residence, in which case the repayment period may not extend beyond ten years from the date of the loan. The principal amount of the loan, together with all accrued interest, shall immediately become due when the participant is no longer employed by the Company.

Payment of Benefits

Participant accounts may be withdrawn upon retirement, death, disability, attainment of age 59½, or termination of employment as a lump-sum or in the form of installments as specified in the Plan. On termination of service due to any other reason, the participant may elect to receive a lump-sum or rollover to an eligible retirement plan in the amount equal to the value of the participant's vested interest in his or her account. In-service and hardship distributions are available to participants provided certain requirements are met. In-service distributions are limited to withdrawals from 100% vested accounts. Hardship distributions are limited to withdrawals not exceeding a participant's salary deferrals.

Any participants with a vested balance less than \$5,000 will receive a lump-sum distribution automatically upon death, disability, termination or retirement.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants vest in Company contributions plus actual earnings, as follows:

<u>Years of Service</u>	<u>Percentage Vested</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5 or more	100%

Forfeited Accounts

Forfeited non-vested accounts totaled \$99,561 and \$128,271 at December 31, 2016 and 2015, respectively. Company contribution amounts forfeited, plus earnings (losses) thereon, are used to reduce future Company contributions or pay plan fees. During the year ended December 31, 2016, forfeited funds in the amount of \$82,672 were used to offset employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Accounting Estimates

The preparation of financial statements in conformity with GAAP require the Plan's management to make estimates and assumptions that affect the reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value, including the common collective trusts, which hold indirect investments in fully benefit-responsive investment contracts.

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). See Note 4 for discussion of the fair value measurements.

Purchases and sales are recorded on a trade-date basis. Interest is recorded when earned and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Plan Expenses

Loan origination fees associated with notes receivable from participants and the Plan's record keeping and custodian fees are paid by the Plan and are reflected in the financial statements as administrative expenses of the Plan. Investment management fees are charged to the Plan as a reduction of investment return and included in the investment income reported by the Plan. All other expenses of the Plan are paid by the Company.

Notes to Financial Statements

2. Summary of Significant Accounting Policies (cont.)

Subsequent Events

Management has evaluated subsequent events through October 12, 2017, which is the date the financial statements were available to be issued and there were no such events requiring adjustments to the financial statements or disclosures, as stated herein.

3. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Bank of America N.A. (Bank of America) has certified that the financial information included in the financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016 provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016 is covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs in which little or no market data exists (Level 3 measurements). The three levels of the fair value hierarchy under GAAP are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Filtration Group 401(k) Retirement Savings Plan

Notes to Financial Statements

4. Fair Value Measurement(cont.)

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trust - Valued at NAV per unit, as provided by the administrator of the fund at year-end. The NAV is used as the practical expedient to estimate fair value.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

<i>December 31, 2016</i>	Level 1	Level 2	Level 3	Total
Cash, interest-bearing	\$ 522	\$ -	\$ -	\$ 522
Mutual funds	<u>34,267,251</u>	<u>-</u>	<u>-</u>	<u>34,267,251</u>
	<u>\$ 34,267,773</u>	<u>\$ -</u>	<u>\$ -</u>	<u>34,267,773</u>
Common collective trusts measured at NAV*				<u>3,185,286</u>
Total investments at fair value				<u>\$ 37,453,059</u>
<i>December 31, 2015</i>	Level 1	Level 2	Level 3	Total
Mutual funds	<u>\$ 30,635,652</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 30,635,652</u>
Common collective trusts measured at NAV*				<u>2,541,756</u>
Total investments at fair value				<u>\$ 33,177,408</u>

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value to the amounts presented in the statements of net assets available for benefits.

Fair value of investments in certain entities that calculate NAV per share (or its equivalent) follows:

Investment	Fair value at December 31,		Unfunded	Redemption	Redemption
	2016	2015	Commitments	Frequency	Notice Period
Collective trusts	\$ 3,185,286	\$ 2,541,756	N/A	Daily	None

Filtration Group 401(k) Retirement Savings Plan

Notes to Financial Statements

5. Income Tax Status

The Plan is based on the prototype plan sponsored by Merrill Lynch Pierce Fenner & Smith, Inc. (Merrill Lynch). The Internal Revenue Service (IRS) has opined and informed Merrill Lynch by a letter dated March 31, 2014, that the prototype plan is designed in accordance with applicable sections of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress.

6. Party-In-Interest

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Transactions and payments to Bank of America for administrative fees, recordkeeping fees and investment management fees qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions. Such transactions are exempt from the prohibited transaction rules.

7. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants will become 100% vested in their accounts.

8. Risks and Uncertainties

The Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks such as interest rate, market and credit risks.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statements of net assets available for benefits.

Filtration Group 401(k) Retirement Savings Plan

Notes to Financial Statements

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the statement of net assets per the financial statements at December 31, 2016 and 2015 to the Schedule H of the Form 5500:

	2016	2015
Net assets available for benefits per the financial statements	\$ 38,912,905	\$ 34,455,870
Employer contributions receivable	(143,242)	-
Participant contributions receivables	(46,305)	-
Net assets available for benefits per Schedule H of the Form 5500	\$ 38,723,358	\$ 34,455,870

The following is a reconciliation of net increase in net assets available for benefits per the financial statements for the year ended December 31, 2016 to the net income on the Schedule H of the Form 5500:

	2016
Net increase in net assets available for benefits per financial statements	\$ 2,858,384
Less: participant contribution receivable current year	(46,305)
Less: employer contribution receivable current year	(143,242)
Net increase in net assets available for benefits per Form 5500	\$ 2,668,837

The Plan files Form 5500 on the cash basis of accounting while the financial statements are on the accrual basis. Under the cash basis of accounting, income is reported as received and expenses are recorded as paid.
