Note 1 - Description of the Plan and Significant Accounting Policies

The following description of GolfTEC 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established April 1, 1997 and amended and restated on January 1, 2015. The Plan is available to substantially all employees age 21 or older. Participants may enter the Plan on the first day of each Plan quarter. Once eligibility requirements are met, enrollment is automatic at 3%, unless the employee opts out of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of GolfTEC Management LLC (the "Company") administers the Plan. Delaware Charter Guaranty and Trust Company dba Principal Trust Company ("Principal") serves as trustee, manages Plan assets, and maintains the Plan's records. The Plan offers Plan participants a variety of investment options that are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Contributions

Participants may make before-tax and after-tax Roth contributions from 1% to 50% of their annual compensation, not to exceed limits established by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also allows rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Participants who have reached the age of 50 before the end of the Plan year and have contributed the maximum amount permitted by law or by the terms of the Plan may elect to make catch-up contributions. Catch-up contributions are limited to the maximum amount permitted by law.

Each payroll period, the Company makes matching contributions of 50% of elective deferrals up to 1.5% of compensation. The Company contributed $195,748 (net of approximately $8,331 of forfeitures utilized) for the year ended December 31, 2016. Employer discretionary contributions are allowed by the Plan; however, none have been made.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution, Company matching contributions, and an allocation of the Plan earnings or losses and administrative expenses. Allocations are based upon Plan earnings and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting

Participants are 100% vested in their voluntary contributions and allocated earnings or losses thereon.

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the fifth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated.

Participant Loans Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000, reduced by the participant's highest outstanding loan balance during the preceding 12 months, or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at a rate ranging from 4.25% to 4.75%, which is fixed at loan inception and is commensurate with local prevailing rates as determined quarterly by the Plan administrator. The loans mature at various dates through September 2020. The Plan allows for two loans to be outstanding at any time. Principal and interest are paid ratably through payroll deductions. Loans are to be repaid no less than on a quarterly basis over a five-year period, with the exception of loans for a principal residence, which are to be repaid over a period not to exceed thirty years. Loans are recorded in the accompanying financial statements at amortized cost plus interest.

Payments of Benefits

Upon termination of service, death, disability, or retirement (the age of 65), a participant may receive a lump-sum amount equal to the value of the participant's vested account balance. Accounts with balances less than $1,000 will be automatically distributed upon a distribution event. Accounts with balances greater than $1,000 but not greater than $5,000, and where the participant has not elected to receive his or her vested interest under any form or payment allowed under the Plan, will be paid in a direct rollover to an individual retirement plan designated by the Plan administrator. The Plan allows for distributions for financial hardship and in-service withdrawals for participants over the age of 59½, subject to limitations. Benefits are recorded as distributions to participants when paid.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account and will be reallocated on the earlier of the fifth consecutive one-year break in service or the end of the Plan year following the payment of the vested account balance. At December 31, 2016 and 2015, forfeited non-vested accounts totaled $453 and $0, respectively. During the year ended December 31, 2016, forfeitures of $1,731 were used to pay Plan expenses.

Valuation of Investments and Income Recognition

The investments of the Plan, with the exception of fully benefit-responsive investment contracts, are reported at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Mutual funds are reported at fair value based on quoted prices in active markets for identical assets that the Plan had the ability to access at the measurement date.

The collective investment trusts are reported at net asset value ("NAV") reported by the fund managers as a practical expedient to estimating fair value, as these investments do not have readily determinable fair market values. Due to the nature of the investments held by these accounts, changes in market condition and economic environment may significantly impact the NAV and, consequently, the fair value of the accounts' interest in the trusts. The fair value of these investments has been measured using the NAV per share of the Plan's ownership interest in the accounts on an equivalent measure, where it is not probable that the fund or trust will sell at a price other than NAV. These accounts have no redemption restrictions or unfunded commitments as of December 31, 2016 and 2015.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at contract value.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

At December 31, 2016 and 2015, four and three investments accounted for 69% and 58% of total investments at fair value, respectively. During the year ended December 31, 2016, three investments accounted for 56% of total investment income.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued.

Effective September 1, 2017, the Plan was amended to include a one-time automatic enrollment of all inactive eligible employees at a 3% deferral rate and an increase of active participants to a 3% deferral rate. In addition, the Plan was amended to include an automatic annual escalation of 1% for all active participants on September 1 of each year, beginning in 2018. Participants have the option to opt out of the automatic enrollment and annual increase.

Note 2 - Assets Certified by Principal

Principal has certified in writing to the Plan administrator that the stated amounts for investments at fair value, contract value, and loans at amortized cost as of December 31, 2016 and 2015 and the income or losses earned on the assets for the year ended December 31, 2016, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value measured on a recurring basis.

December 31, 2016

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 556,573	$ -	$ -	$ 556,573
Investments measured at NAV				3,112,306
Total investments at fair value				$ 3,668,879

December 31, 2015

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 497,838	$ -	$ -	$ 497,838
Investments measured at NAV				2,452,768
Total investments at fair value				$ 2,950,606

In accordance with Accounting Standards Codification Topic 820, certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Note 3 - Fair Value Accounting (continued)

There were no changes to the valuation techniques used during the period.

Note 4 - Investment Contract with Insurance Company

The Plan entered into a fully benefit-responsive guaranteed interest contract with Principal. Principal maintains the contributions in a general account ("Principal Fixed Income Guaranteed Option"). The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

(1) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code;

(2) Premature termination of the contracts;

(3) Plan termination or merger;

(4) Changes to the Plan's prohibition on competing investment options; or

(5) Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

(1) An uncured violation of the Plan's investment guidelines;

(2) A breach of material obligation under the contract;

(3) A material misrepresentation; and

(4) A material amendment to the agreements without the consent of the issuer.

Note 5 - Income Taxes

On March 31, 2014, the IRS issued an opinion letter indicating that the prototype Plan document adopted by the Plan, as then designated, qualified under Section 401(a) of the Internal Revenue Code. Accordingly, no provision for income taxes has been included in the Plan's financial statements. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Errors were identified in the Plan related to late contributions and auto-enrollment failures. The errors required corrective contributions, which have been corrected subsequent to year-end.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Party-in-Interest and Related Party Transactions

Certain Plan investments are mutual funds, a guaranteed interest contract, and collective investment trusts managed by Principal. Principal is the trustee, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.
