1. Description of the Plan

The following brief description of the Porex Corporation 401(k) Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined contribution plan and is sponsored by Porex Corporation (the Company). Employees are eligible for participation after completing two months of service and reaching the age of 21. Participants become eligible to participate on the first Plan entry date (first of each month) following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may contribute up to the dollar limitation set forth in Section 402(g) of the Internal Revenue Code (IRC) in effect at the beginning of the Plan year. Eligible employees who have attained age 50 before the close of the Plan year are allowed to make catch-up contributions up to the maximum allowed by the IRC. Contributions are subject to certain limitations. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% with automatic annual increases of 1% until a maximum of 5% is reached.

Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. A current description of the investment funds may be obtained from the Plan administrator.

The Company has elected to operate under an Employer Discretionary Matching Contributions provision whereby participants in the Plan receive a matching contribution equal to 100% of the participant's contribution up to 3% of annual compensation plus 50% of the next 2% of the participant's annual compensation contributed to the Plan. In addition, the Company, at its discretion, may elect to make additional annual profit-sharing contributions (Profit-Sharing Contributions) to the Plan. Participants must be employed on the last day of the Plan year to be eligible for any Profit-Sharing Contributions made for that Plan year. Profit-Sharing Contributions, if any, will be allocated to eligible participants in the ratio that each eligible participant's eligible compensation bears to the total eligible compensation paid to all eligible participants for the Plan year. Profit-Sharing Contributions will be invested at the discretion of participants. No Profit-Sharing Contributions were made in 2016**.**

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings (losses). Allocations are based on participant compensation, deferrals or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

1. Description of the Plan (cont.)

Notes Receivable from Participants

A participant may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the participant's vested account balance. Loans are secured by the participant's account balance and bear interest at a reasonable rate of interest based on prevailing interest rates charged for similar loans in the loan market. Repayments of the loans are made in substantially equal payroll deductions amortized over the life of the loan. The loan must be repaid within five years unless the loan is used to purchase a primary residence, in which case the repayment period may not extend beyond ten years from the date of the loan. The principal amount of the loan, together with all accrued interest, shall immediately become due when the participant is no longer employed by the Company.

Vesting

Participants are fully vested in their payroll deferral contributions and rollover contributions. The vested percentage attributable to employer matching and profit-sharing contributions are 20% for the first year of service, 40% for second year of service, 60% for third year of service, 80% upon the fourth year of service, and 100% thereafter.

Forfeited Accounts

Forfeited non-vested accounts totaled $2,343 and $1,582 at December 31, 2016 and 2015, respectively. Matching contribution amounts forfeited, plus earnings (losses) thereon, are used to reduce employer contributions or pay Plan fees. During the year ended December 31, 2016, no forfeited funds were used to offset contributions or to reduce Plan expenses.

Payment of Benefits

Participant accounts may be withdrawn upon retirement, death, disability, attainment of age 59½, or termination of employment as a lump-sum or in the form of installments as specified in the Plan. On termination of service due to any other reason, the participant may elect to receive a lump-sum or rollover to an eligible retirement plan in the amount equal to the value of the participant's vested interest in his or her account. In-service and hardship distributions are available to participants provided certain requirements are met. In-service distributions are limited to withdrawals from 100% vested accounts. Hardship distributions are limited to withdrawals not exceeding a participant's salary deferrals.

Plan Expenses

Certain administrative expenses of the Plan are paid by the Plan. Certain other administrative expenses of the Plan are paid by the Company. Investment fees are paid by the Plan in the form of reductions of net investment income earned by Plan participants

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan were prepared using the accrual basis of accounting. The Plan follows accounting standards set by the Financial Accounting Standards Board (FASB). The FASB sets accounting principles generally accepted in the United States of America (GAAP).

2. Summary of Significant Accounting Policies (cont.)

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price).

Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Recently Issued Accounting Pronouncements

In July 2015, the FASB issued ASU No. 2015-12, *"Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contributions Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient"* (ASU 2015-12). Part I of this ASU clarifies that contract value is the only required measurement for Fully Benefit-Responsive Investment Contracts (FBRICs) and clarifies that indirect investments in FBRICs should no longer be reflected as FBRICs and therefore, should be reported at fair value.

Part II of this ASU eliminates the current GAAP requirements for plans to disclose individual investments that represent 5% or more of the net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. It also allows investments to be disaggregated by general type and eliminates the requirement to disaggregate investments by class. Further, significant investment strategies for an investment in a fund that files a Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity when the plan measures that investment using the NAV practical expedient are no longer required.

2. Summary of Significant Accounting Policies (cont.)

Recently Issued Accounting Pronouncements (cont.)

Part III allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The provisions of this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015 with early adoption permitted. Parts I and II are to be applied retrospectively and Part III should be applied prospectively.

The Plan adopted Part II of ASU 2015-12. Parts I and III are not applicable to this Plan.

Subsequent Events

Management has evaluated subsequent events through October 12, 2017, which is the date the financial statements were available to be issued.

3. Certified Information

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company (Fidelity) has provided certifications that the financial information included in the financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016, provided to the Plan is complete and accurate. The information as to investment assets and transactions therein, and investment income included in the accompanying financial statements and supplemental schedule as of December 31, 2016 and 2015, and for the year ended December 31, 2016, is covered by such certifications.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Basis of Fair Value Measurement

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level 3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

4. Fair Value Measurements (cont.)

Basis of Fair Value Measurement (cont.)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

5. Tax Status

The Plan is based on the Volume Submitter Profit Sharing Plan with CODA of Fidelity Management & Research & Co. which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the Prototype Plan was designed in accordance with the provisions of the IRC. Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified, and the related trust is tax exempt.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not based on the technical merits not to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Any unallocated assets of the Plan should be allocated to participant accounts and distributed in such a manner as the Company may determine.

7. Related Parties and Party-In-Interest Transactions

Certain Plan investments are managed by Fidelity. These transactions, as defined by the Plan, qualify as party-in-interest transactions. Notes receivable from participants are also defined by ERISA as party-in-interest transactions. Such transactions are exempt from the prohibited transactions rules.

8. Risks and Uncertainties

The Plan's investments include funds which invest in various types of investment securities and in various companies within various markets. Investment securities are exposed to several risks such as interest rate, market, and credit risks.

Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect the amounts reported in the statement of net assets available for benefits.

9. Delinquent Participant Contributions

During 2016, employee withholdings of $14,478 were not remitted within the appropriate time period by the Company. The Company remitted the delinquent contributions during 2016. This transaction constituted prohibited transactions as defined by ERISA. The Company plans to remit the lost earnings for the delinquent contributions in 2017.
