TEXAS NEUROLOGY 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2016 and 2015

A. Description of the Plan

The following brief description of the Texas Neurology 401(k) Profit Sharing Plan (the "Plan") is provided for general information purposes only. The Plan is sponsored by Texas Neurology, P.A. (the "Company" or "Plan Sponsor"). Participants should refer to the plan document for more complete information. The Company's corporate offices are located in Dallas, Texas.

The Plan was effective January 1, 1993, restated effective January 1, 2016, as a defined contribution plan available to all employees of the Company who have completed one month of service. All employees of the Company are eligible to participate in the Plan, except for those employees covered by a collective bargaining agreement where retirement benefits were the subject of good faith bargaining, and nonresident aliens. Eligible employees may enter the Plan on the first day of each calendar month of the plan year, coincident with or next following satisfaction of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The purpose of the Plan is to encourage the Company's employees to save and invest, systematically, a portion of their current compensation so that they and their families may have a source of additional income upon their retirement, or in the event of death.

Contributions

Participants may contribute up to 85% of pre-tax annual compensation, as defined by the Plan. Highly compensated employees, as defined by the plan document, may defer up to 15% of pre-tax annual compensation, as defined by the Plan. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code ("IRC") as defined in the Plan document. Eligible participants may make a rollover contribution to the Plan. Unless they affirmatively elect otherwise, all newly eligible employees will have their compensation reduced by an automatic enrollment contribution of 6% for each payroll period in which they are active participants beginning on the participants' entry date. A participant may request to withdraw any contributions contributed under the automatic enrollment contribution feature with the first 90 days of the first automatic contribution.

Participants who are eligible to make salary deferral contributions under the Plan and who have attained age 50 before the close of the year may make catch-up contributions in accordance with, and subject to the limitations imposed by the Code.

The Company may make a discretionary matching contribution to the Plan as determined annually by management. Participants must (1) be employed on the last day of the year, and complete one month of service during the year; or, (2) have died, retired, or suffered disability during such year to be eligible to receive discretionary matching contributions. The Company's matching contribution for the year ended December 31, 2016 equaled 50% of participants' contributions up to 6% of eligible compensation.

A. Description of the Plan – continued

Contributions – continued

The Company may also make a discretionary, non-elective ("profit sharing") contribution to the Plan as determined annually by management. Participants must (1) be employed on the last day of the year, and complete 1,000 hours of service during the year; or, (2) have died, retired, or suffered disability during such year to be eligible to receive profit sharing contributions. The Company's profit sharing contribution for the year ended December 31, 2016 equaled 3% of a participant's gross compensation less the employer discretionary matching contribution and allocated forfeitures.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's discretionary contributions, (b) Plan earnings; and, (c) forfeitures of terminated participants' non-vested accounts. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contribution portions of accounts, plus actual earnings thereon is as follows:

Years of Service	Vested Percentage
Less than 1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

In the event of disability, early retirement, or death, the participant will become fully vested.

Participant Loans

A participant may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms range up to five years or longer for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Company. As of December 31, 2016 and 2015, interest rates ranged from 4.25% to 6%. Principal and interest is paid ratably through payroll deductions. Participant loans are classified as notes receivable from participants in the Plan's financial statements. A participant may not have more than one loan outstanding at any one time.

A. Description of the Plan – continued

Payment of Benefits

Participants withdrawing during the year for reasons of service or disability, retirement, death, or termination are entitled to their vested account balance. Benefits are distributed in the form of rollovers or lump sum payments. If withdrawing participants are not entitled to their entire account balance, the amounts not received are forfeited.

A participant may receive a hardship distribution from salary reduction contributions if the distribution is: (1) on account of uninsured medical expenses incurred by the participant, their spouse or dependents; (2) to purchase (excluding mortgage payments) a principal residence of the participant; (3) for the payment of post-secondary tuition expenses; (4) needed to prevent eviction of the participant from their principal residence or foreclosure upon the mortgage of the participant's principal residence; (5) for the payment of burial or funeral expenses incurred by the participant's parents, spouse, or dependents; or (6) for the repair of damage to the participant's principal residence that qualifies for the casualty deduction as defined by IRC 165.

Forfeitures

Forfeited balances of terminated participants' non-vested accounts are used to offset employer matching contributions and profit sharing contributions for the year. Forfeitures allocated to participant accounts during the year ended December 31, 2016 totaled $22,841. There were no unallocated forfeited balances as of December 31, 2016 and 2015.

Investment Options

Upon enrollment in the Plan, a participant may direct their salary deferrals in 1% increments into any of the Plan's investment options.

Minimum Top-heavy Allocations

For purposes of minimum top-heavy allocations, an allocation of contributions and forfeitures equal to three percent of each non-key employee's compensation, as defined by the plan document, or the highest percentage allocated to any key employee will be made to the employee's account when the Plan is top-heavy. A key employee is a highly compensated officer or owner/shareholder, as defined by the plan document. The Plan is top-heavy if more than 60% of the account balances are attributed to key employees during the year. Minimum top-heavy allocations are distributed after considering employer discretionary matching contributions and forfeiture allocations for all participants. The profit sharing contribution was used to source the minimum top-heavy allocations.

A. Description of the Plan – continued

Plan Expenses

Employees of the Company perform certain administrative functions with no compensation from the Plan. In accordance with Plan provisions, the Company pays substantially all costs relating to asset charges and recordkeeping. All significant administrative expenses are paid by the Company and are not reflected in the accompanying financial statements.

B. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in United States of America ("GAAP").

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Contributions

Contributions from the Company and participants are accrued as they become obligations of the Company, as determined by the Plan's administrator, and in the period in which they are deducted, in accordance with salary deferral agreements.

Investment Valuation and Income

The investments of the Plan are stated at fair value (except for fully-benefit responsive investment contracts, which are reported at contract value) as of the end of the year and are subject to market or credit risks customarily associated with equity investments. Fair value measurements are determined in accordance with GAAP, which defines fair value, establishes a framework for measuring fair value, and expands disclosures about assets and liabilities measured at fair value. See Note C for information related to the Plan's valuation methodologies.

B. Summary of Significant Accounting Policies - continued

Investment Valuation and Income – continued

Investment gains and losses are accounted for using the average cost basis of the securities sold. The net realized and unrealized gains and losses on investments include realized gains and losses on sales of investments during the year and unrealized increases or decreases in the market value of investments held at year end. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are recorded at the unpaid principal balance plus accrued but unpaid interest.

Payment of Benefits

Benefits are recorded when paid.

C. Fair Value Measurements

GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a three-tier hierarchy that is used to identify assets and liabilities measured at fair value. The hierarchy focuses on the inputs used to measure fair value and requires that the lowest level input be used. The three levels defined are as follows:

- Level 1 — observable inputs that are based upon quoted market prices for identical assets or liabilities within active markets.

- Level 2 — observable inputs other than Level 1 that are based upon quoted market prices for similar assets or liabilities, based upon quoted prices within inactive markets, or inputs other than quoted market prices that are observable through market data for substantially the full term of the asset or liability.

- Level 3 — inputs that are unobservable for the particular asset or liability due to little or no market activity and are significant to the fair value of the asset or liability. These inputs reflect assumptions that market participants would use when valuing the particular asset or liability.

C. Fair Value Measurements – continued

GAAP requires that management describe the methodologies used to measure the fair value of assets and liabilities. The methodologies used to measure the fair value of the Plan's investments are as follows:

- Mutual funds are valued at the published per share net asset value of shares held by the Plan and are classified within Level 1 of the valuation hierarchy. There are no significant restrictions on redeeming these investments at net asset value.

- Self-directed brokerage accounts consist primarily of common stock and registered investment company shares that are valued at the closing price reported on the active market on which the individual securities are traded and classified within Level 1 of the valuation hierarchy.

There have been no changes in the methodologies used at December 31, 2016 and 2015. The following table details the Plan's investments at fair value by level, within the fair value hierarchy, as of December 31, 2016 and 2015. The Plan has no assets classified within Level 2 or Level 3 of the valuation hierarchy.

	2016	
	Level 1	**Total**
Mutual Funds	$ 2,492,865	$ 2,492,865
Self-directed brokerage accounts	9,886,709	9,886,709
Total investments at fair value	$12,379,573	$12,379,573

	2015	
	Level 1	**Total**
Mutual Funds	$ 3,014,938	$ 3,014,938
Self-directed brokerage accounts	8,983,946	8,983,946
Total investments at fair value	$11,998,884	$11,998,884

These items are classified in their entirety based on the lowest priority level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the placement of assets and liabilities within the levels of the fair value hierarchy.

D. Fully Benefit-Responsive Investment Contract

The Plan holds a traditional investment contract totaling $89,745 and $67,776 as of December 31, 2016 and 2015, respectively. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer, ranging from 2.05% – 2.12% for years ended December 31, 2016 and 2015. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also limit the ability of the Plan to transact at contract value with the participants.

E. Information Certified by the Custodian

The Plan Administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator limited auditing procedures with respect to the investment information certified by the custodian, which included certain investments as of December 31, 2016 and 2015, the related investment income for the year ended December 31, 2016, and certain information included in the supplemental schedule H, line 4i – schedule of assets (held at end of year).

The fair value of the self-directed brokerage accounts as of December 31, 2016 and 2015 and the related investment income for the year ended December 31, 2016 were not certified by the custodian. This investment information was applied full-scope auditing procedures as of December 31, 2016 and 2015, and for the year ended December 31, 2016.

F. Tax Status

The Plan has adopted the Datair Employee Benefit Systems Inc. Prototype Non-Standardized Profit Sharing Plan with CODA which has a favorable opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014. This opinion letter states that the form of the prototype plan is acceptable under Section 401 of the Code. The Company may rely on this letter with respect to the qualification of the Plan under Code Section 401(a) with certain limitations.

F. Tax Status – continued

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Company believes that the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan terminates, all amounts credited to participant's accounts will become 100% vested.

H. Parties-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee organization, or relatives of such persons.

The Plan invests in shares of mutual funds and a guaranteed annuity contract managed by Nationwide Trust Company, FSB. Nationwide Trust Company, FSB acts as custodian for only those investments as defined by the Plan. Transactions in such investments, as well as loans made to participants, qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

I. Subsequent Events

In preparing the accompanying financial statements, management has evaluated all subsequent events and transactions for potential recognition or disclosure through October 12, 2017, the date the financial statements were available for issuance.
