The Plan Entry Date is the first day of the month that is, or next follows, the date in which an employee satisfies the applicable eligibility requirements. The Administrative Committee oversees governance of the Plan. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance, and reports to the Administrative Committee.

Contributions

Each year, participants may contribute up to 10% of their Plan Compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts and an insurance investment contract as investment options for participants. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate. The Company makes discretionary contributions and discretionary matching contributions. Contributions are subject to certain statutory limitations.

Note A – Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings (losses), and charged with an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions (including rollovers), plus actual earnings thereon. Participant contributions and any gains pertaining to the participant contributions can be withdrawn at any time. The portion of the participant's account attributable to employer matching contributions and employer discretionary contributions are fully vested after completion of six years of credited service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested in the event of death, total disability or the attainment of normal retirement age while still under the employ of the Company.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 4.50% in 2016, which are commensurate with prime plus 1 percentage point. Principal and interest is paid ratably through monthly payroll deductions. The Plan Administrator will disclose the applicable interest rate at the time the loan is requested.

Payment of Benefits

Upon termination of service, other than due to death, disability or retirement, a participant with vested benefits of $5,000 or less as of the distribution date, will be eligible to receive a distribution in a lump sum. If the vested benefit is between $1,000 and $5,000 and consent to a distribution is not received, the vested benefit will automatically be rolled over to an IRA selected by the Plan Administrator. If the total vested benefit is $1,000 or less as of the distribution date, the entire vested benefit will be distributed in a lump sum, without consent. A participant with vested benefits greater than $5,000 must consent to distribution.

Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is greater than $5,000. However, the Plan agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

In certain hardship situations, as described in the Plan agreement, participants may withdraw part of their account balances, while actively employed, but such withdrawals are limited to the amount dictated by the hardship.

Note A – Description of the Plan (concluded)

Forfeited Accounts

At December 31, 2016 and 2015 forfeited nonvested accounts totaled $85,198 and $45,102, respectively. Forfeited non-vested accounts are to be used to reduce employer and/or matching contributions for the Plan year in which the forfeiture occurs, and may be used to pay Plan expenses. In 2016, employer contributions and Plan expenses were reduced by $0 and $0, respectively, from forfeited nonvested accounts. In 2015, employer contributions and Plan expenses were reduced by $0 and $0, respectively, from forfeited nonvested accounts.

Note B – Summary of Significant Accounting Policies

Date of Management's Review of Subsequent Events

Subsequent events were evaluated through October 9, 2017, which is the date the financial statements were available to be issued.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires the Administrative Committee to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2016 and 2015, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the Administrative Committee considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Note B – Summary of Significant Accounting Policies (concluded)

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Investment Committee determines the Plan's valuation policies. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain operating expenses for maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Reclassification

Certain prior year amounts have been reclassified to conform to current year presentation, pursuant to changes outlined in Note L and otherwise.

Note C – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the assets and liability; • inputs that are derived principally from, or corroborated by, observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note C – Fair Value Measurements (continued)

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the periods presented.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts (PSAs): These investments have invested in pools of assets called separate investment accounts (SIAs), in which the primary underlying investment is the named mutual fund. The values of each of these investments is determined by multiplying the units sold by the actual unit value of the SIA on the day of the sale, and then aggregating these amounts for all SIA investments.

Although the methods above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values, the Plan believes its valuation methods are appropriate and consistent with other market participants and that the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Fair Value Measurements at the End of the Reporting Period Using:		
2016	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 18,422,310	$ 0	$ 18,422,310	$ 0
Total assets in the fair value hierarchy	18,422,310	$ 0	$ 18,422,310	$ 0
Investments measured at net asset value	0			
Total investments at fair value	$ 18,422,310			

Note C – Fair Value Measurements (concluded)

		Fair Value Measurements at the End of the Reporting Period Using:		
2015	Fair Value	Level 1	Level 2	Level 3
Pooled separate accounts	$ 16,839,938	$ 0	$ 16,839,938	$ 0
Total assets in the fair value hierarchy	16,839,938	$ 0	$ 16,839,938	$ 0
Investments measured at net asset value	0			
Total investments at fair value	$ 16,839,938			

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2016, are reported in net apreciation in fair value of investments.

The Plan's policy is to recognize transfers between Levels 1 and 2 and into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the year ended December 31, 2016, there were no significant transfers between Level 1 and 2 and no transfers into or out of Level 3.

Note D – Guaranteed Investment Contract with Insurance Company

In 2010, the Plan entered into a synthetic fully benefit-responsive guaranteed investment contract with Mass Mutual Retirement Services ("Mass Mutual") totaling $3,523,138 for 2016 and $3,137,704 for 2015.

Mass Mutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The crediting rate is based on a formula established by the contract issuer but may not be less than 3.50% for the period January 1, 2016 through May 31, 2016, not less than 2.60% for the period June 1, 2016 through November 30, 2016 and not less than 2.70% for the period December 1, 2016 through December 31, 2016. The crediting rate is reviewed annually, semi-annually, or on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note D – Guaranteed Investment Contract with Insurance Company (concluded)

This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure fully benefit-responsive investment contracts because this is the amount received by participant if they were to initiate permitted transactions under the terms of the Plan. Contract Value, as reported to the Plan by Mass Mutual, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value. Such events include but may not be limited to the following: (1) the complete or partial termination of the Plan; (2) the establishment or activation of, or material change in, any Plan investment fund, or an amendment to the Plan or a change in the administration or operation of the Plan, including the removal of a group of employees from Plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with participants.

The following table presents information about the type(s) of fully benefit-responsive investment contracts the Plan has invested in as of December 31, 2016 and 2015:

	2016	2015
Synthetic investment contracts	$ 3,523,138	$ 3,137,704
Traditional investment contracts	0	0
	$ 3,523,138	$ 3,137,704

Note E – Related Party and Party-In-Interest Transactions

The Plan has a number of service providers. Such parties are parties-in-interest under ERISA, including Reliance Trust Company, the trustee of the Plan, State Street Bank and Trust Company, the custodian of the Plan, and Mass Mutual Retirement, the record keeper for the Plan. Mass Mutual Premier Funds are subadvised by asset managers affiliated with Mass Mutual. The Plan issues loans to participants which are secured by the balances in the participants accounts. The Company paid certain administrative expenses of the Plan, including recordkeeping and audit fees. These are related party and parties-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note F – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer accounts.

Note G – Tax Status

On February 20, 2015 the Internal Revenue Service issued a favorable opinion letter with respect to the qualified status of the Plan's volume submitter plan under §401 of the Internal Revenue Code (IRC). The Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Subsequent to 2016, it was ascertained that a recently adopting entity included in the "Company" as set forth in Note A is not part of the "controlled group" as previously existed. The Plan, as currently written, does not provide for multiple employer plans. As such, management is reviewing courses of action for correction. By virtue of the fact the Plan is actively pursuing corrective action, management believes that the current Plan document substantially complies with the tax qualification requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Administrative Committee to evaluate tax positions taken by the Plan to recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress.

Note H – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

Note I – Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500:

Note K – Plan Amendment

Effective December 1, 2015, Rusnak/South Bay, LLC became a participating employer in the Plan, subject to the facts reflected in Note G.

Note L – Change in Accounting Principles

In July 2015, the FASB issued *ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefits Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirement to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplified the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management elected to adopt Parts I and II early (for the Plan year ended December 31, 2015).

In May 2015, the FASB issued *ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent)*. This ASU permits a reporting entity, as a practical expedient, to measure the fair value of certain investments using the net asset value (NAV) per share (or its equivalent) of the investment. Prior to the adoption of ASU 2015-07, investments for which fair value is measured using the practical expedient were characterized within the fair value hierarchy on the basis of whether the investment is redeemable with the investee at NAV on the measurement date, never redeemable with the investee at NAV, or redeemable with the investee at NAV at a future date. ASU 2015-07 removes the requirement to categorize investments for which fair value is measured using NAV as a practical expedient in the fair value hierarchy. Although the investment is not categorized within the fair value hierarchy, entities are required to provide the amount measured using the NAV (or its equivalent) practical expedient to permit reconciliation of the fair value of investments included in the fair value hierarchy to total investments measured at fair value on the Statement of Net Assets for Benefits. The ASU is effective for non-public companies for fiscal years beginning after December 15, 2016, with early adoption permitted. Management elected to adopt ASU 2015-07 early (for Plan year ended December 31, 2016).

Note M – Subsequent Events

Effective April 1, 2017, the Plan was amended and restated to adopt the Automatic Data Processing Defined Contribution Plan Non-Standardized 401(k) Profit Sharing Plan.
