Notes to Financial Statements

Note 1. Plan Description

The following description of the Evenflo Company, Inc. Savings Plus Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information. The plan was effective August 21, 1998.

General: The Plan is a defined contribution plan covering substantially all salary employees of Evenflo Company, Inc. and Columbus Trading-Partners USA, Inc. (the Company) who have 30 days of service and have attained age 21. Temporary employees must have one year of service or 1,000 hours of service. The Pension Committee of the Company controls and manages the operation and administration of the Plan. Bank of Montreal Harris Bank, N.A. (BMO) serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Added coverage: Effective June 1, 2015, the Plan was amended to include employees of Columbus Trading-Partners USA Inc. and to count vesting service for service before June 5, 2015, and credited service beginning on that date.

Contributions: Each year, participants may contribute up to 75% of their pretax annual compensation, as defined in the Plan document, subject to certain Internal Revenue Code (IRC) limitations. Plan provisions include automatic enrollment at 3%. The Company contributes 50% of the first 6% of base compensation that a participant contributes to the Plan each pay period, not to exceed 3% of the employee base compensation. Additional amounts may be contributed at the discretion of the Company's Pension Committee. No such additional discretionary contributions were made for the year ended December 31, 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Participant accounts: Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, the Company's matching contribution and Plan earnings and charged with withdrawals and participant forfeitures. Participants direct the investment of their contributions into various investment options. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions, plus actual earnings thereon. Effective as of May 1, 2015 due to an amendment, participants credited with an hour of service on or after May 1, 2015 become fully vested in Company contributions upon meeting the eligibility requirements for participation in the Plan.

Forfeitures: At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$93 and \$9,347, respectively. These accounts will be used to reduce future employer contributions. During the year ended December 31, 2016, employer contributions were reduced by \$11,929 from forfeited non-vested accounts.

Payment of benefits: Upon retirement, death, or other interruption of continuous service, a participant may generally elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or in installments. Upon termination, benefits relating to a participant's contributions and vested employer contributions are distributed.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates equal to the trustee prime rate determined as of the time the application for the loan is made. The participant loans must be repaid over a period not to exceed five years, unless the purpose of the loan is to acquire, construct, or substantially rehabilitate a dwelling that is to be used as a principal residence for the participant, in which case the loan period may not exceed 15 years. Principal and interest is paid ratably through payroll deductions. The interest rates on outstanding loans ranged from 3.25% to 6.50% as of December 31, 2016 and 2015.

Administration of Plan assets: Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification.

Contributions: Participant contributions are recognized when withheld. Employer discretionary contributions are recognized concurrently with participant contributions.

Payment of benefits: Benefits are recorded when paid.

Investment valuation and income recognition: The Plan's participant directed investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividends and interest income.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Subsequent events: The Company has evaluated subsequent events for potential recognition and/or disclosure through October 13, 2017 the date the financial statements were available to be issued.

Note 3. Investments and Information Certified by the Plan's Trustee

The Plan's asset information included throughout the Plan's financial statements and supplemental schedules as of December 31, 2016 and 2015 and for the year ended December 31, 2016 was prepared by or derived from information provided by the trustee and furnished to the Plan administrator. The Plan administrator has obtained certifications from the trustee that information provided to the Plan administrator by the trustee related to these assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Note 4 and the supplemental schedule related to the Plan's assets.

BMO also certified to the completeness and accuracy of \$1,149,034 of net appreciation in fair value of investments, \$291,436 of dividends and \$13,014 of interest income from notes receivable from participants for the year ended December 31, 2016.

Note 4. Fair Value Measurements

The Plan has determined the fair value of certain assets through application of accounting guidance that establishes a framework for measuring fair values. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value.

The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under this standard are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no material changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the closing price reported on the active market on which they are traded.

Note 4. Fair Value Measurements (Continued)

Collective investment funds: Valued based on the net asset value (NAV) of units of the common collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets measured at fair value on a recurring basis: The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2016 and 2015, segregated by level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

	2016			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value - mutual funds	\$ 15,747,105	\$ -	\$ -	\$ 15,747,105
Investments measured at NAV ^(a)				2,098,046
Total investments, at fair value				\$ 17,845,151

	2015			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value - mutual funds	\$ 14,561,898	\$ -	\$ -	\$ 14,561,898
Investments measured at NAV ^(a)				2,208,185
Total investments, at fair value				\$ 16,770,083

^(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are not intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of Levels 1, 2 or 3.

Note 4. Fair Value Measurements (Continued)

The table below discloses the fair value and redemption frequency for those assets whose fair value is estimated using the NAV per unit as of December 31, 2016 and 2015.

<u>Investment</u>	2016 Fair Value ^(b)	2015 Fair Value ^(b)	2016 Unfunded Commitment	2015 Unfunded Commitment	Redemption Frequency	Redemption Restrictions	Redemption Notice Period
Collective investment fund ^(c)	\$ 2,098,046	\$ 2,208,185	None	None	Immediate	None	None

^(b) The fair values of the investments have been estimated using the net asset value of the investment.

^(c) The collective investment fund is a fully benefit responsive investment contract with BMO and plan contributions are maintained in a general account. The account is credited with earnings on the underlying investments. The objective of the Fund is to maintain safety of principal while generating a level of income generally exceeding that of a money market fund. The Fund seeks to maintain a stable \$1.00 net asset value, although this is not guaranteed.

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Party-in-Interest

Certain Plan investments are shares of collective investment funds and registered investment companies managed by BMO. BMO is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees are paid by the Plan to One America and remitted to BMO and amounted to \$18,357 for the year ended December 31, 2016.

Note 7. Income Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated May 5, 2014, that the Plan and related trust are designed in accordance with the applicable requirements of the Internal Revenue Code. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan's administrator has evaluated the Plan's tax positions and concluded that the Plan has maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for years before 2013.

Note 8. Risks and Uncertainties

The Plan may invest in various types of investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9. Prohibited Transaction

During the plan year ended December 31, 2015, the Plan sponsor inadvertently failed to deposit \$1,469 of participant deferrals and loan payments within the required timeframe as stayed by the United States Department of Labor (DOL) regulations. These contributions were remitted to the plan in 2015 and the plan sponsor reimbursed the Plan for the lost interest in the amount of \$2 during 2016.
