INDEPENDENT AUDITORS' REPORT

The Trustees
TMP Technologies, Inc. 401(k)
Profit Sharing Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of TMP Technologies, Inc. 401(k) Profit Sharing Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2016, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the 2016 Financial Statements

Our responsibility is to express an opinion on the 2016 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2016 financial statements.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of TMP Technologies, Inc. 401(k) Profit Sharing Plan as of December 31, 2016, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Report on the 2015 Financial Statements

The financial statements of TMP Technologies, Inc. 401(k) Profit Sharing Plan as of and for the year ended December 31, 2015, were audited by other auditors whose report dated October 14, 2016, expressed an unmodified opinion on those statements.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the financial statements as a whole.

The following description of TMP Technologies, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution retirement plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC), covering eligible employees of TMP Technologies, Inc. and Time Release Sciences, Inc. (collectively the Company and Plan Sponsor). The Plan is funded by employee and employer contributions. At December 31, 2016 and 2015, the assets of the Plan were maintained in investment funds held by Fidelity Investments (Fidelity), the custodian of the Plan. The Plan is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, where applicable.

(b) Eligibility

Employees of the Company are eligible to participate in the Plan upon attaining age 21 and completing one year of service, as defined.

(c) Contributions

Participants may authorize an elective deferral contribution and/or a Roth contribution up to 100% of their compensation as defined by the Plan document, up to the maximum annual limitations as provided by the Internal Revenue Code. Participants who are age 50 or older before the end of the plan year are allowed to make an additional "catch-up" contribution. This contribution was limited to \$6,000 in 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company provides a discretionary matching employer contribution, which was equal to 25% up to a maximum of 4% on participant elective deferrals, including catch-up contributions for the year ended December 31, 2016. The Company can also make additional discretionary profit sharing contributions each year. Profit sharing contributions of \$360,701 and \$387,231 were made for the years ended December 31, 2016 and 2015, respectively, and included in employer contributions are the statements of changes in net assets available for benefits. Participants may also contribute amounts representing distributions from other qualified pension plans.

(d) Vesting

Under the Plan, participants are 100% vested in their salary reduction contributions and employer matching contributions. Participants are 20% vested in employer profit sharing contributions after two years of service, as defined, with a 20% annual increase in each of the next four years.

(1) Description of Plan, Continued

(e) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of one-half of their vested account balance. Loan terms range from one to five years but may exceed five years for the purchase of a primary residence. The loans are collateralized by 50% of the vested balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

(f) Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of plan investment earnings (losses), and is charged with an allocation of administrative expenses. Allocations are based on participant earnings/losses or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(g) Payment of Benefits

Upon termination of service due to retirement, death, or disability, a participant will receive a lump-sum distribution equal to the value of their account if the total vested account balance does not exceed \$1,000. If the total vested account balance does exceed \$1,000, the participant may elect to receive a distribution at any time or the vested account balance will be distributed following the later of the date the participant reaches normal retirement age of 65 or the date the participant terminated employment. In-service distributions of fully vested accounts are only allowed upon attainment of age 50, however, participants must reach age 59½ to be eligible for in-service distributions on deferred accounts.

(h) Forfeited Accounts

Employer profit sharing contributions forfeited by participants are used to offset plan administrative costs, reduce employer matching and profit sharing contributions, or restore forfeitures. Accumulated forfeited nonvested accounts totaled \$21,556 at December 31, 2016 and were used to reduce the 2016 discretionary contribution to be received in 2017.

(i) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

(d) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. As of December 31, 2016 no allowance for credit losses has been recorded. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan Document.

(e) Payment of Benefits

Benefits are recorded when paid.

(f) Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

(g) Subsequent Events

The Plan has evaluated subsequent events through the date of the report which is the date the financial statements were available to be issued.

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

(3) Fair Value Measurements

The Plan uses various valuation techniques in determining fair value. FASB ASC Section 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Mutual funds - Values are determined based on quoted market prices in active markets.
- Money market fund - The fund fair values its financial instruments under the amortized cost method which approximates current market value in accordance with Rule 2a-7 under the 1940 Act. Under this method, investments are valued at cost when purchased and thereafter, a constant proportionate accretion and amortization of any discounts and premiums are recorded until the maturity of the security.
- Collective investment trust - The Wilmington Trust Collective Investment Trust III for MetLife Group Annuity Contract No. 25554 (the Trust of the Fund) was formed for the purpose of allowing participating plan sponsors, who maintain qualified defined contribution plans, to invest in MetLife Group Annuity Contract No. 25554 (the Contract) issued by Metropolitan Life Insurance Company (MetLife) to the Trustee, Wilmington Trust, N.A. (the Trustee of the Fund).

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements, Continued

(3) Fair Value Measurements, Continued

The net asset value (NAV) per unit is computed by dividing the total assets of the Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in the Fund and included in the determination of unit values. The Fund sells new units and repurchases outstanding units on a daily basis. Unit purchases and redemptions are transacted at the NAV per share class determined as of the close of business each day. The NAV is calculated daily based on the contract value. The contract simulates the performance of a guaranteed investment contract. The Fund records security transactions on a trade date basis. Interest income is accrued at the Contract's crediting rates. The crediting rate is generally based on the fair value, duration and yield-to-maturity of the contract. These contracts typically allow for realized and unrealized gains and losses on the underlying assets to be amortized, usually over the duration of the underlying investments, through adjustments to the future interest crediting rate, rather than reflected immediately in the net assets of the Fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	2016

(3) Fair Value Measurements, Continued

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015:

2016				
<u>Description</u>	<u>Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency</u>	<u>Redemption Notice</u>

Collective investment trust	\$ 1,151,340	N/A	Daily	60 days

(4) Party-in-Interest Transactions

During the year ended December 31, 2016, Fidelity was the custodian of the Plan. Therefore any transactions with Fidelity qualify as party-in-interest. Fees incurred by the Plan for investment services can be included in net depreciation in fair value of the investment and some fees may be made by direct payments.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Company may determine.

TMP TECHNOLOGIES, INC. 401(k) PROFIT SHARING PLAN

Notes to Financial Statements, Continued

(6) Tax Status

The Plan and related trust were established under a prototype plan that received a favorable tax determination letter dated March 31, 2014, from the Internal Revenue Service indicating the features of the Plan, as then designed, conform with the requirements of Section 401(k) of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2016 that there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Department of Labor; however, there are currently no audits for any tax periods in progress.

(7) Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
