RCSC RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN

The following description of the RCSC Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General: The Plan is a defined contribution plan covering employees of Reliant Care Management Company, LLC and certain affiliated companies (the Company). The Plan was established May 1, 2000, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees who have completed one year of service in which they have completed at least 1,000 hours and have attained the age of 21 are eligible to participate in the Plan.

Contributions: Participants may contribute up to 60% of pretax annual compensation, as defined in the Plan, not to exceed maximum amounts specified by the Internal Revenue Service (IRS), in accordance with a participant salary deferral agreement. Participants who are at least 50 years of age may make an additional contribution to the Plan not to exceed $6,000 in 2016 and 2015, under certain conditions. Participants may also contribute amounts representing rollover distributions from other qualified plans. The Company may contribute a discretionary matching contribution and an additional discretionary profit sharing contribution. There were no Company contributions to the Plan in 2016 or 2015. Participants direct the investment of contributions into various investment options offered by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions, Company contributions, the participant's rollover contributions from other qualified benefit plans, and an allocation of Plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are automatically 100% vested in both their elective salary deferrals and the Company's discretionary matching contributions. Participants vest in the profit sharing contribution at a rate of 20% after one year of service and in 20% increments each subsequent year with full vesting in the Company's profit sharing contribution after 5 years of service. A participant is considered to have one year of service for each one-year period in which he or she has worked 1,000 hours or more.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Only one loan may be outstanding at any point in time. The loans are secured by the balance in the participant's account and bear interest at a rate that is commensurate with local prevailing rates. Principal and interest are payable through payroll deductions.

Payment of benefits: Upon termination of service, a participant or his/her beneficiary may receive their benefit distributions in a lump sum payment equal to the value of the participant's vested interest in his or her account, which may be in the form of a cash payout or rolled over into another qualified pension plan.

Administration: Benefit Plans Plus, LLC (BPP) acts as the Plan's third-party administrator (TPA). Transamerica Financial Life Insurance Company (Transamerica) acts as the Plan's custodian and record-keeper. BPP provides general professional and administrative services related to the Plan while Transamerica

maintains the individual participant accounts and provides records of balances and transactions to the Plan administrator and participants. Certain administrative and record-keeping costs are being absorbed by the Company, except certain record-keeping fees charged to participant accounts. The Plan's trustee is responsible for the oversight of the Plan. The Plan's trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Valuation of investments: Investments are reported at fair value, except for fully benefit-responsive contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the declaration date. Interest is recorded when earned. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities of the Plan are exposed to various risks, such as interest rates, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. No allowance for credit losses has been recorded as of December 31, 2016 and 2015.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Certain administrative functions are performed by officers and employees of the Company. No officer or employee receives compensation from the Plan for these services. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent events: Events that have occurred subsequent to December 31, 2016, have been evaluated through October 13, 2017, which represents the date the Plan's financial statements were approved by management and therefore available to be issued.

3. TERMINATED PARTICIPANTS

Net assets available for benefits at December 31, 2016 and 2015 include $316,862 and $163,231, respectively, allocated to the accounts of individuals who, as of or prior to that date, had withdrawn from actively participating in the Plan, generally as a result of terminating employment. These amounts may be paid within the next year, at the request of the participant. These participants receive no further contributions but do receive allocations of investment income and Plan expenses.

4. TAX STATUS

The IRS has determined and informed CCH by a letter dated March 31, 2014, that the volume submitter profit sharing plan sponsored by CCH as amended through March 30, 2012, is in a form acceptable under section 401 of the Internal Revenue Code (IRC). The Company adopted this volume submitter profit sharing plan effective January 1, 2015 to bring the Plan into compliance with legislative and regulatory changes. The Company may rely on the opinion letter issued by the IRS for this volume submitter profit sharing plan as evidence that the Plan is qualified under the applicable sections of the IRC. The Plan is relying on this opinion letter. Although the Plan has been amended since receiving the opinion letter, the Plan administrator believes the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan is qualified as of the financial statement date.

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

6. CERTIFICATION OF INVESTMENT INFORMATION

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule are complete and accurate.

- Investments at fair value as shown in the statements of net assets available for benefits.
- Investments at contract value as shown in the statements of net assets available for benefits.
- Investment income as shown in the statements of changes in net assets available for benefits.
- Schedule of assets held at year end.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

7. FAIR VALUE OF INVESTMENTS

Plan investments are held in custodial accounts managed by Transamerica, the custodian of the Plan, and are unsecured. Therefore, these transactions qualify as party-in-interest transactions.

A fair value hierarchy is used that prioritizes the inputs to valuation techniques used to measure fair value of balances that are required or permitted to be measured at fair value for reporting in financial statements. The hierarchy gives the highest priority to the unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to the unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1	Valuation is based upon quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access.
Level 2	Valuation is based upon quoted prices for similar assets or liabilities in active markets, quoted market prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means. Observable inputs may include interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals.
Level 3	Valuation is based on methodologies that are unobservable and significant to the fair value measure. These may be generated from model-based techniques that use at least one significant assumption based on unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of valuation methodologies used for assets recorded at fair value.

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year-end. The NAV is used as a practical expedient to estimate fair value. The pooled separate accounts are not publicly traded. Individual participant accounts invested in the pooled separate accounts are maintained on a unit value basis. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The tables below present the Plan's assets measured at fair value on a recurring basis as of December 31, aggregated by the level in the fair value hierarchy within which those measurements fall:

2016	Level 1	Level 2	Level 3	Total
Total assets in fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at net asset value				1,479,335
Total investments at fair value				$ 1,479,335

2015	Level 1	Level 2	Level 3	Total
Total assets in fair value hierarchy	$ -	$ -	$ -	$ -
Investments measured at net asset value				1,272,069
Total investments at fair value				$ 1,272,069

The following tables summarize investments for which fair value is measured using the net asset value per share practical expedient as of December 31:

December 31, 2016	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,479,335	n/a	Daily	None

December 31, 2015	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled separate accounts	$ 1,272,069	n/a	Daily	None

8. INVESTMENT CONTRACT

The Plan holds a traditional investment contract with Transamerica through the Transamerica Stable Value Account. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following: the Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code; premature termination of the contract; Plan termination or merger; changes to the Plan's prohibition on competing investment options; and bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following: an uncured violation of the Plan's investment guidelines; a breach of material obligation under the contract; a material misrepresentation; and a material amendment to the agreement without the consent of the issuer.
