Governance Oversight Committee
Retirement Plan for Employees of
Charles Cole Memorial Hospital
Coudersport, Pennsylvania

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Charles Cole Memorial Hospital, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting our audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Citizens & Northern Bank and Exeter Trust Company, the trustee and a custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee and custodian hold the Plan's investment assets and execute investment transactions. The plan administrator has obtained certifications from the trustee and custodian as of and for the years ended December 31, 2016 and 2015, that the information provided to the plan administrator by the trustee and custodian is complete and accurate to the best of their information, knowledge and belief.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules listed in the table of contents are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974* and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee and custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the *Employee Retirement Income Security Act of 1974*.

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

Note 1: Description of the Plan

The following description of the Retirement Plan for Employees of Charles Cole Memorial Hospital (Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guarantee Corporation's (PBGC) benefit guarantee is contained in the Plan Document and *Summary Plan Description*, which are available from the Plan Administrator.

General

The Plan is a noncontributory defined benefit plan covering substantially all employees of Charles Cole Memorial Hospital (Company) and related entities employed prior to January 1, 2003, and provides for retirement, death and disability benefits. The Plan is subject to provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Citizens & Northern Bank is the trustee and a custodian of the Plan. The Plan's other custodian is Exeter Trust Company.

The Company determined that the Plan's formula for benefit accruals was to be frozen as of December 31, 2002 for all employees so that no employee shall become a participant in the Plan after such date or earn additional credited service. The Company adopted two defined contribution plans as of January 1, 2003.

The Plan is administered by the Company's Governance Oversight Committee (Committee), which is a committee of the board of directors of the Company. The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's Board of Directors.

Contributions

The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's present intention is to make annual contributions in amounts as determined by the Board of Directors based on recommendations by the Plan's actuary. The Plan has met the minimum funding requirements established by ERISA.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Pension Benefits

Eligible participants in the Plan will receive a monthly retirement benefit equal to 1.25% of average monthly earnings multiplied by their credited service. Normal retirement age for Plan benefits is the later of age 65 or the fifth anniversary of the participant's participation in the Plan.

Notes to Financial Statements

December 31, 2016 and 2015

Participants may elect to receive reduced benefits upon early retirement when they reach the age of 55, provided that they have at least 10 years of service with the Company. The standard method accrued benefits are payable is by an annuity over the participant's lifetime or as a qualified joint and one half-survivor annuity. Participants may elect other forms of annuity payments during the 180-day period before payments are to begin.

Death and Disability Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. The surviving spouse annuity is equal to 50% of the participant's monthly benefit. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse may commence as of the earliest date the participant would have received benefits.

Active employees who become totally disabled receive disability benefits that are equal to the accrued benefit determined at the date of disability plus credited service prior to January 1, 2003 that would have been earned under the Plan until normal retirement benefit payments commence.

Vesting

Eligible employees are fully vested upon completion of five years of vesting service.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated Plan benefits at the date of the financial statements and changes therein. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

The Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, trustee, and custodian. See Note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion.

Accumulated Plan Benefits

Accumulated Plan benefits (see Note 6) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a. Retired or terminated employees or their beneficiaries
- b. Present employees or their beneficiaries

Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated Plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Accrued benefits under all circumstances (retirement, death, and termination of employment), credited service and earnings were frozen as of December 31, 2002. Benefits payable under all circumstances — retirement, death, disability and termination of employment — are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the last day of the Plan year.

Note 3: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below
- c. All other vested benefits (that is, vested benefits not insured by the PBGC)
- d. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 4: Certification of the Plan Trustee and Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Citizens & Northern Bank, the Plan's trustee and custodian, and Exeter Trust Company, the Plan's other custodian, have certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate to the best of their information, knowledge and belief:

- Investments as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2016 and 2015.
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2016, and schedule of reportable transactions for the year ended December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 5: Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015:

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the Plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

For certain investments consisting of United States government securities, corporate bonds and notes that do not have an established fair value, the Committee has established a fair value based on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at year end.

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2016 and 2015:

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2016 and 2015. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 6: Accumulated Plan Benefits

An actuary from Willis Towers Watson determines the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the end of each Plan year was as follows:

	2016	2015
Actuarial present value of accumulated Plan benefits		
Vested benefits		
Participants receiving payments	\$ 10,300,379	\$ 9,632,489
Active employees	3,243,184	3,709,183
Participants with deferred benefits	<u>2,008,943</u>	<u>2,145,370</u>
	15,552,506	15,487,042
Nonvested benefits	<u>43,577</u>	<u>59,602</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 15,596,083</u></u>	<u><u>\$ 15,546,644</u></u>

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

Changes in the actuarial present value of accumulated plan benefits were as follows:

	<u>2016</u>	<u>2015</u>
Actuarial present value of accumulated Plan benefits, beginning of year	\$ 15,546,644	\$ 15,754,095
Increase (decrease) during the year attributable to		
Actuarial (gain) loss	56,668	(267,875)
Increase for interest due to the decrease in the discount period	1,124,332	1,141,741
Benefits paid	<u>(1,131,561)</u>	<u>(1,081,317)</u>
Net increase (decrease)	<u>49,439</u>	<u>(207,451)</u>
Actuarial present value of accumulated Plan benefits, end of year	<u>\$ 15,596,083</u>	<u>\$ 15,546,644</u>

Significant assumptions underlying the actuarial computations are:

- Discount rate and assumed rate of return on investments: 7.50%
- Mortality basis: Separate rates for non-annuitants (based on RP-2000 “Employees” table without collar or amount adjustments, projected to 2032 using Scale AA) and annuitants (based on RP-2000 “Healthy Annuitants” table without collar or amount adjustments, projected to 2024 using Scale AA).
- Retirement: Rates varying by age, from 1.2% at 55 to 100% at 62 and older, with an average age 62.
- Termination: Rates varying by age, from 17.2% at 25 to 1.2% at 55.
- Asset valuation: Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year.)
- Marital percentage: 85% of participants are assumed to be married. Wives are assumed to be three years younger than their husbands.

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

- Administration expenses: An expense assumption of \$260,000 as of January 1, 2017 and \$210,000 as of January 1, 2016 is included in the target normal cost. This assumption is intended to include expected expenses and PBGC premiums to be paid from the Plan during the year. Expected expenses are based on an average of similar expenses paid from the Plan during prior years.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits. The computations of the actuarial present value of accumulated Plan benefits were made as of January 1, 2017 and 2016. Had the valuations been performed as of December 31, there would be no material differences.

Note 7: Related Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Citizens & Northern Bank is the Plan's trustee and custodian. Certain Plan investments are shares of mutual funds managed by Manning & Napier, the Plan's investment advisor and State Street Bank, a sub-custodian of Exeter Trust Company, the Plan's other custodian, and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

The Plan paid trust and management service fees to the trustee of \$3,500 for 2016 and 2015. Investment advisory and custodian fees paid to the custodian in 2016 were \$84,232 and \$90,185 for 2015. The Plan has a number of service providers. Such providers are parties in interest under ERISA. Actuarial fees paid by the Plan totaled \$33,115 for 2016 and \$67,325 for 2015. PBGC premiums totaled \$163,172 for 2016 and \$150,966 for 2015.

The Company provides certain administrative services at no cost to the Plan.

Note 8: Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated May 30, 2014, stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The Plan

Retirement Plan for Employees of Charles Cole Memorial Hospital

Notes to Financial Statements

December 31, 2016 and 2015

has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 9: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Possible Decline in Investments

It is reasonably possible that there will be a significant decline in the fair value of investments during the next year which would change the assumed rates of return used to discount the benefit obligation and, therefore, could significantly affect the present value of accumulated Plan benefits.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 11: Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the financial statements were available to be issued.

In June 2017, the Company signed a nonbinding letter of intent to be acquired by another health system. Due diligence for this transaction is being conducted and, if approved by all parties, the transaction is expected to be completed during 2018.

- Preretirement death benefit The later of the death of the active participant or the date the participant would have become eligible for early retirement
- Deferred vested benefit Normal retirement date
- Disability benefit Normal retirement date
- Retirement benefit Upon termination of employment
- In service Upon election, age 62 or later

Form of payment 100% elect a life annuity

Percent married 85%

Spouse age Wife three years younger than husband

Administrative expenses An expense assumption of \$210,000 is included in the target normal cost. This assumption is intended to include expected expenses and PBGC premiums to be paid from the plan during the year. Expected expenses are based on an average of similar expenses paid from the plan during prior years.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Actuarial value of assets for determining minimum required contributions Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued based on discussions with Charles Cole Memorial Hospital regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Charles Cole Memorial Hospital; and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
■ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

SCHEDULE SB ATTACHMENTS

Form of payment	The percentage of retiring participants assumed to take life annuities is based on observed experience.
Percent married	The assumed percentage married is based on general population statistics on the marital status of individuals of retirement age.
Spouse age	The assumed age difference for spouses is based on general population statistics of the age difference for married individuals of retirement age.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
------------------------	---

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<ul style="list-style-type: none">■ The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of September 2014 to September 2015 and reflect the interest rate corridors of HATFA.■ The required mortality table used to calculate the funding target and funding target normal cost was updated to include one additional year of projected mortality improvements.■ The assumed plan-related expenses added to the target normal cost were changed from \$190,000 to \$210,000.
Change in methods since prior valuation	None

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Name	Retirement Plan for Employees of Charles Cole Memorial Hospital
Valuation Date	January 1, 2016
Enrolled Actuary	Amy B. Krajci
Enrollment Number	17-07170

The actuarial assumptions that are not mandated by IRC § 430 and regulations, represent the enrolled actuary's best estimate of anticipated experience under the plan, subject to the following conditions:

The actuarial valuation, on which the information in this Schedule SB is based, has been prepared in reliance upon the employee and financial data furnished by the plan administrator and the trustee. The enrolled actuary has not made a rigorous check of the accuracy of this information but has accepted it after reviewing it and concluding it is reasonable in relation to similar information furnished in previous years. The amounts of contributions and dates paid shown in Item 18 of Schedule SB were listed in reliance on information provided by the plan administrator and/or trustee.

Timing of benefit payments Annuity payments are payable monthly at the beginning of the month.

Methods

Valuation date First day of plan year

Funding target Present value of accrued benefits as required by regulations under IRC §430

Target normal cost Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430

Actuarial value of assets for determining minimum required contributions Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2015 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued based on discussions with Charles Cole Memorial Hospital regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with Charles Cole Memorial Hospital; and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Administrative expenses	Administrative expenses are estimated by determining the expected actual expenses for the coming year, reflecting items like expected PBGC premiums and the actual expenses paid from the trust the preceding year.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Disability	Disability rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Retirement	Retirement rates were determined based on experience, with annual consideration of whether any conditions have changed that would be expected to produce different results in the future.
Benefit commencement date for deferred benefits:	
■ Preretirement death benefit	Surviving spouses are assumed to begin benefits at the earliest permitted commencement date because ERISA requires benefits to start then unless the spouse elects to defer.
■ Deferred vested benefit	Deferred vested participants are assumed to begin benefits at age 65 (or current age if later) because the plan's experience is not considered to be credible, but deferred vested early commencement factors are not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.
