TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Taubensee Steel and Wire Company Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan with a 401(k) provision covering all employees of Taubensee Steel & Wire Co. Retirement Plan (the "Employer"). Employees become eligible to participate upon completing three months of service, as defined in the Plan, and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions. Participants may elect to defer up to 60% of eligible annual pre-tax compensation subject to maximum amounts established by the Internal Revenue Code (the "Code"). Additionally, participants may also contribute after-tax ("Roth") contributions. Participant contribution elections may be changed upon notice to the plan administrator.

The Employer may make discretionary matching contributions based on a percentage declared for the period by the Board of Directors. Discretionary matching contributions were $54,268 for the year ending December 31, 2016. Additional amounts may be contributed at the option of the Employer's board of directors as profit sharing contributions. Discretionary profit sharing contributions, if applicable, are allocated as of the last day of the Plan year. There were no discretionary profit sharing contributions elected for the year ended December 31, 2016.

Participants' Accounts. Each participant's account is credited with the participant's contribution and allocation of the Employer contributions, Plan earnings, and expenses. Allocations are based on participant earnings or account balances, as defined in the Plan.

Investment Options. Employees may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant becomes 20% vested after two years of service, increasing by 20% for each additional year of service until year 6 when the participant is 100% vested. However, if an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Notes Receivable from Participants. Participants may borrow from their accounts a minimum of $1,000 and up to 50% of their vested account balance, provided that such loan does not exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at the local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts. Forfeited balances of terminated participants' non-vested accounts are used to reduce Plan administrative expenses or future Employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. There were no forfeited non-vested accounts as of December 31, 2016 and 2015. Forfeitures of $1,145 were used in 2016 to reduce the Employer discretionary matching contributions for the year ended December 31, 2016.

Party-In-Interest Transactions. Substantially all expenses pertaining to the operation of the Plan are paid by the Employer. Additionally, various administrative, legal, and accounting services are performed by Employer personnel on behalf of the Plan for which no charges are made to the Plan, and for which the Employer does not intend to obtain reimbursement. Investment expenses are charged against the Plan's investment income. Certain Plan investments are shares of mutual funds managed by a related party to Fidelity Management Trust Company, the "Custodian" of the Plan and therefore these transactions qualify as party-in-interest transactions.

Payment of Benefits. Benefit payments are generally made in a lump-sum upon termination or as defined in the Plan agreement. Early voluntary withdrawals are paid based on financial hardship with approval of the plan administrator.

TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits. Benefits are recorded when paid.

Concentration of Credit Risk. A majority of the Plan's assets are held by the Custodian.

Recent Pronouncements. During 2015, the plan early adopted the provisions of ASU 2015-12, *Plan Accounting*. Under Part II of ASU 2015-12, certain disclosures regarding plan investments are no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules that were prepared by the Custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Custodian that such information is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Investment income and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Note 4: All investment balances as of December 31, 2016.
- The schedule of assets held at end of year as of December 31, 2016, as shown on Form 5500, Schedule H, Part IV, Line 4i.

TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Mutual Funds and Money Market Accounts. Valued at quoted market price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,666,041	$ -	$ -	$ 6,666,041
Money market accounts	492,210	-	-	492,210

The Custodian received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Code. The Plan itself has not received a determination letter from the IRS. NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 9 – DELINQUENT REMITTANCES

The Employer remitted participant contributions and loan repayments totaling $-0- and $291,601 to the Custodian later than required by the Department of Labor Regulation 2510.3-102 for the years ended December 31, 2016 and 2015 ("Late Remittances"). Late Remittances of $291,601 were fully corrected in 2016. Participant accounts were credited with the amount of investment income which would have been earned had the participant contributions been remitted on a timely basis.

NOTE 10 – SUBSEQUENT EVENTS

TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Taubensee Steel and Wire Company Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan with a 401(k) provision covering all employees of Taubensee Steel & Wire Co. Retirement Plan (the "Employer"). Employees become eligible to participate upon completing three months of service, as defined in the Plan, and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions. Participants may elect to defer up to 60% of eligible annual pre-tax compensation subject to maximum amounts established by the Internal Revenue Code (the "Code"). Additionally, participants may also contribute after-tax ("Roth") contributions. Participant contribution elections may be changed upon notice to the plan administrator.

The Employer may make discretionary matching contributions based on a percentage declared for the period by the Board of Directors. Discretionary matching contributions were $54,268 for the year ending December 31, 2016. Additional amounts may be contributed at the option of the Employer's board of directors as profit sharing contributions. Discretionary profit sharing contributions, if applicable, are allocated as of the last day of the Plan year. There were no discretionary profit sharing contributions elected for the year ended December 31, 2016.

Participants' Accounts. Each participant's account is credited with the participant's contribution and allocation of the Employer contributions, Plan earnings, and expenses. Allocations are based on participant earnings or account balances, as defined in the Plan.

Investment Options. Employees may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant becomes 20% vested after two years of service, increasing by 20% for each additional year of service until year 6 when the participant is 100% vested. However, if an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Notes Receivable from Participants. Participants may borrow from their accounts a minimum of $1,000 and up to 50% of their vested account balance, provided that such loan does not exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at the local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts. Forfeited balances of terminated participants' non-vested accounts are used to reduce Plan administrative expenses or future Employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. There were no forfeited non-vested accounts as of December 31, 2016 and 2015. Forfeitures of $1,145 were used in 2016 to reduce the Employer discretionary matching contributions for the year ended December 31, 2016.

Party-In-Interest Transactions. Substantially all expenses pertaining to the operation of the Plan are paid by the Employer. Additionally, various administrative, legal, and accounting services are performed by Employer personnel on behalf of the Plan for which no charges are made to the Plan, and for which the Employer does not intend to obtain reimbursement. Investment expenses are charged against the Plan's investment income. Certain Plan investments are shares of mutual funds managed by a related party to Fidelity Management Trust Company, the "Custodian" of the Plan and therefore these transactions qualify as party-in-interest transactions.

Payment of Benefits. Benefit payments are generally made in a lump-sum upon termination or as defined in the Plan agreement. Early voluntary withdrawals are paid based on financial hardship with approval of the plan administrator.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits. Benefits are recorded when paid.

Concentration of Credit Risk. A majority of the Plan's assets are held by the Custodian.

Recent Pronouncements. During 2015, the plan early adopted the provisions of ASU 2015-12, *Plan Accounting*. Under Part II of ASU 2015-12, certain disclosures regarding plan investments are no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules that were prepared by the Custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Custodian that such information is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Investment income and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Note 4: All investment balances as of December 31, 2016.
- The schedule of assets held at end of year as of December 31, 2016, as shown on Form 5500, Schedule H, Part IV, Line 4i.

TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Mutual Funds and Money Market Accounts. Valued at quoted market price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,666,041	$ -	$ -	$ 6,666,041

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Plan uses a prototype plan document sponsored by the Custodian. The Custodian received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Code. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

TAUBENSEE STEEL AND WIRE COMPANY RETIREMENT PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Taubensee Steel and Wire Company Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan with a 401(k) provision covering all employees of Taubensee Steel & Wire Co. Retirement Plan (the "Employer"). Employees become eligible to participate upon completing three months of service, as defined in the Plan, and attaining the age of 21. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Contributions. Participants may elect to defer up to 60% of eligible annual pre-tax compensation subject to maximum amounts established by the Internal Revenue Code (the "Code"). Additionally, participants may also contribute after-tax ("Roth") contributions. Participant contribution elections may be changed upon notice to the plan administrator.

The Employer may make discretionary matching contributions based on a percentage declared for the period by the Board of Directors. Discretionary matching contributions were $54,268 for the year ending December 31, 2016. Additional amounts may be contributed at the option of the Employer's board of directors as profit sharing contributions. Discretionary profit sharing contributions, if applicable, are allocated as of the last day of the Plan year. There were no discretionary profit sharing contributions elected for the year ended December 31, 2016.

Participants' Accounts. Each participant's account is credited with the participant's contribution and allocation of the Employer contributions, Plan earnings, and expenses. Allocations are based on participant earnings or account balances, as defined in the Plan.

Investment Options. Employees may direct their contributions among one or more funds subject to the allocation limitations set forth in the Plan. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to Plan provisions.

Vesting. Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Employer contribution portion of their accounts plus actual earnings thereon is based on years of credited service. A participant becomes 20% vested after two years of service, increasing by 20% for each additional year of service until year 6 when the participant is 100% vested. However, if an active participant dies or becomes disabled prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Notes Receivable from Participants. Participants may borrow from their accounts a minimum of $1,000 and up to 50% of their vested account balance, provided that such loan does not exceed $50,000. The loans are secured by the balance in the participant's account and bear interest at the local prevailing rates as determined periodically by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Forfeited Accounts. Forfeited balances of terminated participants' non-vested accounts are used to reduce Plan administrative expenses or future Employer contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. There were no forfeited non-vested accounts as of December 31, 2016 and 2015. Forfeitures of $1,145 were used in 2016 to reduce the Employer discretionary matching contributions for the year ended December 31, 2016.

Party-In-Interest Transactions. Substantially all expenses pertaining to the operation of the Plan are paid by the Employer. Additionally, various administrative, legal, and accounting services are performed by Employer personnel on behalf of the Plan for which no charges are made to the Plan, and for which the Employer does not intend to obtain reimbursement. Investment expenses are charged against the Plan's investment income. Certain Plan investments are shares of mutual funds managed by a related party to Fidelity Management Trust Company, the "Custodian" of the Plan and therefore these transactions qualify as party-in-interest transactions.

Payment of Benefits. Benefit payments are generally made in a lump-sum upon termination or as defined in the Plan agreement. Early voluntary withdrawals are paid based on financial hardship with approval of the plan administrator.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained, and as the operating environment changes.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits. Benefits are recorded when paid.

Concentration of Credit Risk. A majority of the Plan's assets are held by the Custodian.

Recent Pronouncements. During 2015, the plan early adopted the provisions of ASU 2015-12, *Plan Accounting*. Under Part II of ASU 2015-12, certain disclosures regarding plan investments are no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

NOTE 3 – INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedules that were prepared by the Custodian of the Plan, and furnished to the Plan Administrator. The Plan Administrator has obtained a certification from the Custodian that such information is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Investment income and interest on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Note 4: All investment balances as of December 31, 2016.
- The schedule of assets held at end of year as of December 31, 2016, as shown on Form 5500, Schedule H, Part IV, Line 4i.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Mutual Funds and Money Market Accounts. Valued at quoted market price.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 6,666,041	$ -	$ -	$ 6,666,041
Money market accounts	492,210	-	-	492,210
Total Investment Assets at Fair Value	$ 7,158,251	$ -	$ -	$ 7,158,251

Money market accounts	140,629	-	-	140,629
Total Investment Assets at Fair Value	$ 6,781,449	$ -	$ -	$ 6,781,449

NOTE 5 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 6 – TAX STATUS

The Plan uses a prototype plan document sponsored by the Custodian. The Custodian received an opinion letter from the Internal Revenue Service dated March 31, 2014, which states that the prototype document satisfies the applicable provisions of the Code. The Plan itself has not received a determination letter from the IRS. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

NOTE 7 – DIFFERENCES BETWEEN FINANCIAL STATEMENTS AND FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2016 and 2015:

NOTES TO THE FINANCIAL STATEMENTS

NOTE 8 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

NOTE 9 – DELINQUENT REMITTANCES

The Employer remitted participant contributions and loan repayments totaling $-0- and $291,601 to the Custodian later than required by the Department of Labor Regulation 2510.3-102 for the years ended December 31, 2016 and 2015 ("Late Remittances"). Late Remittances of $291,601 were fully corrected in 2016. Participant accounts were credited with the amount of investment income which would have been earned had the participant contributions been remitted on a timely basis.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated all known subsequent events from December 31, 2016 through October 10, 2017, the date the accompanying financial statements were available to be issued, and is not aware of any material subsequent events occurring during this period.
