Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. The Plan was amended and restated effective January 1, 2016, with no significant impact on the Plan.

General: The Plan is a defined contribution plan that covers all employees of Beyer Mechanical, Ltd. (the Company) who have completed one year (at least 1,000 hours) of service and are age 21 or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Participants may elect to contribute up to 100 percent of eligible compensation, subject to the annual Internal Revenue Service (IRS) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants are always 100 percent vested in their voluntary contributions.

The Company may contribute discretionary matching and profit sharing contributions, as defined in the Plan, at the option of the Company's trustees. Contributions are subject to certain limitations.

Investment options: Upon enrollment in the Plan, a participant may direct all contributions to selected investments, as made available and determined by the Plan Administrator, in 1 percent increments. Participants may change their investment options daily.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, if any, and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contribution portion of their accounts is based on years of continuous service. Company discretionary matching and profit sharing contributions have a six-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than 2 years	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of benefits: Upon termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under \$1,000 is automatically paid out as soon as administratively possible. Hardship withdrawals and in-service distributions are also available subject to certain limitations.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Forfeitures: Participant forfeitures of nonvested balances will be used reduce future employer contributions and pay the expenses of the Plan. During 2016, no Plan employer contributions were reduced from the forfeited nonvested accounts. At December 31, 2016 and 2015, unallocated forfeitures totaled \$1,386.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures or contingencies of assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan sponsor determines the Plan's valuation policies using information provided by the custodian. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Guaranteed interest accounts: The Plan Administrator has determined that the guaranteed interest accounts are not fully benefit-responsive. Fair value is the relevant measurement for the portion of the net assets available for benefits attributable to non-fully benefit-responsive investment contracts.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Plan sponsor. Expenses that are paid by the Plan sponsor are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Reclassifications: Amounts previously shown have been reclassified to conform to the current-year presentation with no impact on the net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events through October 9, 2017, the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3. Information Certified and Provided by John Hancock Life Insurance Company (U.S.A.)

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that the information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate to the best of its knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information which appears throughout the financial statements and the supplemental schedule related to the assets listed below:

	December 31	
	2016	2015
Investments at fair value:		
Pooled separate accounts	\$ 2,199,625	\$ 1,923,947
Guaranteed interest accounts	641	641

The custodian also certified to the completeness and accuracy of \$165,113 of net appreciation in fair value of investments and \$9 of interest and dividend income from guaranteed interest accounts for the year ended December 31, 2016.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices for the asset or liability that are observable
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, Level 2 inputs must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Beyer Mechanical, Ltd. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015.

Pooled separate accounts and guaranteed interest accounts: Pooled separate accounts are valued at the net asset value (NAV) of shares in each account held by the Plan at year end. The NAV is not a publicly-quoted price in an active market. The NAV, as provided by the insurance carrier, is used as a practical expedient for estimating fair value. The practical expedient is not used when it is determined to be probable that the trusts will sell their investments for amounts different than the reported NAV.

The method above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

In accordance with *FASB Accounting Standards Codification* Topic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented are intended to permit reconciliation of the fair value hierarchy to the items presented in the statements of net assets available to benefits.

The following table summarizes investments with NAV as a practical expedient as of December 31, 2016 and 2015:

	Fair Value at December 31		Unfunded	Redemption	Redemption
	2016	2015	Commitment	Frequency	Notice Period
Pooled separate accounts	\$ 2,199,625	\$ 1,923,947	\$ -	Immediate	None
Guaranteed interest accounts	641	641	-	Immediate	None

Note 5. Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed investment accounts managed by John Hancock Life Insurance Company (U.S.A.) (John Hancock). John Hancock is the custodian, as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions. The Plan's management has approved these activities and transactions. Fees paid by the Plan to the custodian for the daily operational services of the Plan totaled \$8,020 for the year ended December 31, 2016.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Company contributions and related earnings.

Notes to Financial Statements

Note 7. Tax Status

The Plan has adopted a form of a volume submitter plan sponsored by Dataair Employee Benefit Systems, Inc. The Plan has received an opinion letter dated March 31, 2014, from the IRS as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended subsequent to the version covered by the volume submitter plan's determination letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2016 statement of net assets available for benefits.
