Novaria Holdings 401(k) Plan

Notes to Financial Statements

Note 1. Description of the Plan

The following description of the Novaria Holdings 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document, which is available from Plan management, for a more complete description of the Plan's provisions.

General

Effective September 1, 2012, Fitz Aerospace, Inc. adopted a defined contribution plan. Effective October 4, 2014, the Plan was restated to include Weatherford Aerospace, LLC and Novaria Group, LLC (Novaria) as participating employers in the Plan. In conjunction with the restatement, the Plan was renamed Novaria Holdings 401(k) Plan. Effective January 1, 2015, the Plan was restated to include JHI Acquire Co., LLC dba John Hassall LLC (John Hassall LLC) as a participating employer in the Plan. Effective August 26, 2015, the Plan was amended to include V & M Aerospace, LLC as a participating employer in the Plan. Effective January 11, 2016, the Plan was amended to include Ferco Aerospace Group LLC, FercoTech, LLC, L&E Engineering, LLC, and GGF Acquire Co., LLC as participating employers in the Plan. Collectively, the participating employers are referred to as the plan sponsors.

The Plan covers all employees who have at least 90 days of service, and are at least age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

Participants may defer up to 100% of pretax annual compensation, as defined, up to specified limits allowed by law. Participants who have attained the age 50 before the end of the year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The plan sponsors make safe harbor matching contributions of up to 4% of any contributing participant's compensation. The plan sponsors may make additional discretionary profit sharing contributions to the Plan. Participants direct the investment of their contributions and any plan sponsor contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and the plan sponsors' matching contributions, as well as allocations of the plan sponsors' profit sharing contributions and Plan earnings. Participant accounts are charged an allocation of administrative expenses. Allocations are based on the participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and safe harbor matching contributions and allocated earnings thereon. Participants are fully vested in profit sharing contributions and allocated earnings thereon with six years of credited service (20% per year of service starting after the first year). Additionally, a participant becomes 100% vested upon death, disability, or attainment of normal retirement.

Notes Receivable from Participants

Participant loans are not allowed by the Plan. However, loans transferred from previous plans are permitted. Loans are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by Plan management. Principal and interest is paid ratably through payroll deductions.

Benefit Payments

Upon separation of service due to retirement, death, disability or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to receive a lump sum distribution, or an annuity provided their vested account balance exceeds $5,000.

Forfeited Accounts

Forfeited nonvested accounts are used to pay Plan expenses or reduce employer safe harbor contributions. As of December 31, 2016 and 2015, there were no forfeited nonvested accounts. Employer contributions were not reduced by forfeited nonvested accounts during the years ended December 31, 2016 and 2015.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contract, which is reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the plan sponsors. Expenses that are paid by the plan sponsors are excluded from these financial statements. Investment-related expenses are included in net appreciation (depreciation) in fair value of investments.

New Accounting Pronouncements/Accounting Changes

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07*, Disclosure for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent*). The ASU impacts reporting entities that measure an investment's fair value using the net asset value per share (or an equivalent) practical expedient. The amendments in ASU No. 2015-07 eliminate the requirement to classify the investment within the fair value hierarchy. In addition, the requirement to make certain disclosures for all investments eligible to be assessed at fair value with the net asset value per share practical expedient has been removed. Instead, such disclosures are restricted only to investments that the entity has elected to measure using the practical expedient. The new guidance is effective for public entities with reporting periods beginning after December 15, 2015 and for all other entities with reporting periods beginning after December 15, 2016. The ASU is to be applied retrospectively in all periods presented in an entity's financial statements, and early adoption is permitted. The Plan's early adoption of this guidance in 2016 was applied retrospectively and is reflected in Note 4 to the financial statements.

Note 3. Certified Investments

All investment information disclosed in the accompanying financial statements and supplementary information, including investments held and notes receivable from participants at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the years then ended, was obtained or derived from information provided to Plan management and certified as complete and accurate by Sentry Life Insurance Company (Sentry), the trustee of the Plan.

Note 4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled Separate Accounts: Valued at the fair value of the underlying investments as reported by the separate accounts held by the Plan at year end.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

	2016	2015
Investments value at Net Asset Value		
Pooled Separate Accounts	$ 12,751,244	$ 8,453,947

Fair Value of Investments in Entities that Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2016 and 2015, respectively.

Note 5. Guaranteed Investment Contract with Sentry Life Insurance Company

During 2016 and 2015, the Plan held a fully benefit-responsive guaranteed investment contract (GIC) with Sentry Life Insurance Company (Sentry). This contract is considered to be a traditional investment contract. Sentry maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on a quarterly basis for resetting. The GIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Because the GIC is fully benefit-responsive, contract value is the relevant measure for the GIC. Contract value, as reported to the Plan by Sentry, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management believes that any events that would limit the Plan's ability to transact at contract value with participants are probable of not occurring.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Such events include (1) a breach of material obligation under the contract, (2) a material misrepresentation, or (3) a material amendment to the agreement without the consent of the issuer.

Note 6. Transfers from Other Plans

As discussed in Note 1, effective October 4, 2014 and January 1, 2015, the Plan was amended to include Weatherford Aerospace, LLC and John Hassall LLC, respectively, as participating employers in the Plan. Effective January 11, 2016, the Plan was amended to include Ferco Aerospace Group LLC, FercoTech, LLC, L&E Engineering, LLC, and GGF Acquire Co., LLC as participating employers in the Plan. Accordingly, during the years ended December 31, 2016 and 2015, the Plan received $95,666 and $6,908,007, respectively, in transfers from qualified retirement plans associated with those entities.

Note 7. Related Party and Party-in-Interest Transactions

Certain Plan investments are shares of pooled separate accounts and group annuity contracts provided through Sentry. Sentry is the record keeper and trustee for the Plan and, therefore, these transactions qualify as party-in-interest transactions. All investment fund earnings or losses posted to each Plan participant's account are net of investment management fees charged by each investment fund under the Plan. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

Note 8. Plan Termination

Although they have not expressed any intent to do so, the plan sponsors have the right under the Plan to discontinue their contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Plan sponsor contributions.

Note 9. Tax Status

Effective January 1, 2015, the Plan adopted a nonstandardized prototype defined contribution profit sharing plan with Internal Revenue Code Section 401(k) Cash or Deferred Arrangement (CODA) which received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014. The Plan has been amended since the date of the last amendment covered by the above mentioned determination letter. However, Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2013.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that some changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015 to Form 5500:

Net assets available for benefits per the financial statements	$	10,115,239
Employer contributions receivable		(16,247)
Participant contributions receivable		(37,764)
Net assets available for benefits per Form 5500	$	10,061,228

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the years ended December 31, 2016 and 2015, to Form 5500:

	2016	2015
Increase in net assets available for benefits before transfer per the financial statements	$ 5,254,440	$ 108,388
Employer contributions receivable	16,247	(16,247)
Participant contributions receivable	37,764	(37,764)
Net income per Form 5500	$ 5,308,451	$ 54,377

Note 12. Subsequent Events

The Plan has evaluated subsequent events through October 13, 2017, the date the financial statements were available to be issued.

Effective January 1, 2017, the Plan changed the Trustee and custodian of plan assets from Sentry Life Insurance Company to Fidelity Management Trust Company.

Effective January 1, 2017, the Plan was amended to include Space-Lok, Inc. as a participating employer, and transferred balances from the Space Lok 401(k) Profit Sharing Plan in to the Plan.
