NOTE 1 DESCRIPTION OF THE PLAN

The following description of the Whittaker Corporation (the Company) Employees' Pension Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a noncontributory defined benefit pension plan established to provide for pension, disability, termination, and death benefits to eligible employees. The Plan was amended and restated throughout the years to comply with tax legislation and most recently amended effective January 1, 2016.

During August 1994, the Company's Board of Directors approved an amendment to the Plan to freeze the accrual of benefits under the Plan as of October 31, 1994 by ceasing to count as Plan compensation and final average earnings any remuneration paid after December 31, 1994 and as benefit service any period of employment after October 31, 1994. Vested service, however, will continue to accrue in accordance with the applicable provisions of the Plan. Plan funding will continue until such time that the Plan is terminated and all benefit obligations are satisfied.

The Plan is administered by the Company's Benefits Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the appropriateness of the Plan's investment offerings, and monitors investment performance.

Employees are entitled to annual pension benefits at normal retirement age, 65 years of age, based upon a formula defined in the Plan document. Death benefits are paid in the event of death prior to and after retirement, in accordance with the Plan document. A terminated vested employee who has attained age 55 and has ten years of service may elect early retirement and receive reduced monthly benefits.

Vesting

Participants with at least one year of service after 1988 are 100% vested upon completion of five years of service. Participants are fully vested upon attainment of normal retirement age.

Pension Benefits

The Plan generally provides for normal retirement at age 65. The Plan allows for early retirement with various defined reductions in a participant's accrued benefit depending on the participant's age and years of continuous service upon retirement (as defined in the Plan). Participants vest entirely after five years of continuous service.

The Plan provides for payments of retirement, disability, and death benefits to participants or their beneficiaries under various payment options. The determination of benefit payments depends primarily on age and years of continuous service as outlined in the Plan.

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

Death and Disability Benefits

If an active employee dies at age 55 or older, a death benefit equal to the value of the employee's accumulated pension benefits is paid to the employee's beneficiary. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

Funding Policy

The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirement. During 2016, the Company made contributions of $1,220,000. The Company made no contributions in 2015. The Company's contributions for 2016 and 2015 exceeded the minimum funding requirements of ERISA.

Although it has not expressed an intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions set forth in ERISA.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated Plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Reclassifications

Certain information previously reported in the 2015 financial statements has been reclassified to conform to the 2016 financial statement presentation. No impact on net assets available for benefits as previously presented.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

NOTE 2 SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Investment income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Effective January 1, 2016, all administrative expenses are paid out of Plan assets. Prior to this, the Plan paid investment management fees and the Company Paid all other expenses.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

a) retired or terminated employees or their beneficiaries,

b) beneficiaries of employees who have died, and

c) present employees or their beneficiaries.

Benefits under the Plan are accumulated based on the employees' highest five consecutive complete credited years of compensation out of the last ten latest years prior to the normal retirement date. The accumulated Plan benefits for active employees are based on their highest five consecutive complete credited years of compensation ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances - retirement, death, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts are excluded from Plan assets and are also excluded from accumulated Plan benefits. The actuarial present value of accumulated Plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuation as of December 31, 2015 were:

a. Life expectancy of Participants (RP-2014 total tables (adjusted back to the 2006 date of experience)).
b. Retirement Age Assumptions (Normal retirement age of 65 years; other active participants will elect early retirement from ages 55 to 64).
c. Investment Return (7.0%).

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The following is a summary of actuarial present value of accumulated Plan benefits as of December 31:

	2015
Actuarial Present Value of Accumulated Plan Benefits:	
Vested Benefits:	
Participants Currently Receiving Payments	$ 80,943,993
Other Participants	19,330,313
Total Vested Benefits	100,274,306
Nonvested Benefits	-
Total Actuarial Present Value of Accumulated Plan Benefits	$ 100,274,306

The changes in the actuarial present value of accumulated Plan benefits are summarized as follows for the periods December 31:

	2015
Actuarial Present Value of Accumulated Plan Benefits - Beginning of Year	$ 103,592,298
Increase (Decrease) During the Year Attributable to:	
Change in Actuarial Assumptions	-
Plan Amendments	-
Benefits Accumulated	(107,040)
Change in Discount Period	7,251,461
Benefits Paid	(10,462,413)
Actuarial Present Value of Accumulated Plan Benefits - End of Year	$ 100,274,306

The computations of the actuarial present value of accumulated Plan benefits were made as of January 1. Had the valuations been performed as of December 31, there would be no material differences.

NOTE 4 CERTIFICATION OF INVESTMENT INFORMATION

State Street Bank & Trust Company, the trustee of the Plan, has supplied the Plan administrator with a certification as to the completeness and accuracy of all investment information reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, the statements of changes in net assets available for benefits for the years then ended, and the supplemental schedules of assets (held at end of year) and reportable transactions as of and for the year ended December 31, 2016.

NOTE 5 FAIR VALUE OF INVESTMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2016 and 2015.

Money Market Fund: Valued at the daily closing price as reported by the fund. The money market funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The money market funds held by the Plan are deemed to be actively traded.

Common Stock: Valued at the closing price reported on the active market on which the individual securities are traded.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Common/Collective Trusts: Valued at the NAV of units of the common/collective trust. NAV is a readily determinable fair value and is the basis for current transactions. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Derivatives (Option Contracts): The Plan uses derivative financial instruments in the normal course of business to hedge against adverse changes in financial markets. The time period related to these hedges is dependent upon the types of securities being hedged, but in the current structure, typically matures after 3 to 4 years. Valued monthly using pricing models maximizing the use of observable inputs of underlying securities.

The Plan manages market risk by limiting the use of derivatives to hedging activities or by limiting potential exposure to amounts that are not considered to be material to the statement of changes in net assets available for plan benefits.

An option contract provides an option to purchase (known as a call option) or sell (known as a put option) the underlying asset at a fixed price for a specified period of time. The Plan has no obligation to buy or sell an underlying asset. Accordingly, the Plan does not anticipate losses for nonperformance.

The fair value of option contracts in the statements of net assets available for benefits is $3,527,695 and $2,294,200 at December 31, 2016 and 2015. Changes in fair value are accounted for as net appreciation (depreciation) in fair value of investments.

NOTE 5 FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2016			
	Level 1	Level 2	Level 3	Total
Money Market Fund	$ 3,572,932	$ -	$ -	$ 3,572,932

Total Investments in the Fair Value Hierarchy	$ 930,375	$ 91,529,381	$ -	$ 92,459,756

NOTE 6 PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. governmental agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All nonvested benefits.

NOTE 6 PLAN TERMINATION (CONTINUED)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

NOTE 7 PLAN TAX STATUS

The Plan obtained its latest determination letter on November 19, 2015 in which the Internal Revenue Service (IRS) states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principals generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 9 PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are managed by State Street Global Advisors, an affiliate of the trustee. State Street Bank & Trust Company is the trustee as defined by the Plan and, therefore, the investment transactions qualify as party-in-interest transactions.

NOTE 10 SUBSEQUENT EVENTS

Effective October 1, 2017, the custodian of the Plan will be The Northern Trust Company, who will be replace State Street Bank & Trust Company.

A one-time window for a lump-sum offer was extended to terminated vested participants. The offer will end October 16, 2017 with the expected payments made on December 1, 2017.

The Plan has evaluated subsequent events through October 16, 2017, the date the financial statements were available to be issued.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Whittaker Coporation Employees' Pension Plan
EIN 95-4033076 PN 001

Certain assumptions are prescribed as described below. The other assumptions are estimates derived from historical and recent experience as well as market observations, combined with professional judgment about future expectations.

Interest:

The interest rates used for the 2016 plan year are the 24-month average corporate bond segment rates for September 2015 (a 4-month lookback) subject to funding stabilization. Under stabilization, the interest rates used for funding purposes are calculated in the usual manner (24-month average of corporate bond rates) but are then constrained to be within a corridor around a 25-year average of those same bond rates. For 2016, the stabilization corridor is 10%. It will remain at 10% through 2020, then increase by 5% per year until it reaches 30% for 2024. The rates are as follows:

	Payments in the First 5 Years	Payments in Years 6 – 20	Payments Thereafter	Effective Interest Rate
Current Year, reflecting stabilization (under HATFA)	4.43%	5.91%	6.65%	5.85%
Current Year, without stabilization	1.34%	4.03%	5.06%	3.96%
Prior Year, reflecting stabilization (under HATFA)	4.72%	6.11%	6.81%	6.06%
Prior Year, without stabilization	1.15%	4.06%	5.15%	3.99%
