Note 1 - Description of Plan:

The following description of the Fullmer Companies 401 (k) Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan establish on February 1, 2006 covering all full-time employees of the Company who are age eighteen or older, unless specifically excluded by the plan agreement. The employees can enter the plan on the first day of any quarter after their hire date. Fullmer Construction (Fullmer) is responsible for the over sight of the plan and determines the appropriateness of the Plan’s investment offerings and monitors investment performance. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and section 401(a)(27) of the Internal Revenue Code of 1986 (IRC), as amended. Principal Financial Group, Inc. (Principal) is the trustee and holds the assets of the plan.

Contributions: Contributions to the plan include (i) salary reduction contributions authorized by the participants, (ii) matching contributions made by Fullmer, (iii) nonelective contributions made by Fullmer, and (iv) participant rollovers from another qualified plan. Each participant may authorize Fullmer to contribute into the plan, on a pretax basis or Roth basis, up to 100 percent of his or her annual salary. The Company has a discretionary matching percentage of the compensation you elect to defer; which percentage will be determined each year by the employer. The current year matching percentage is 2.5%. An additional discretionary profit sharing contribution may be contributed each year at the option of the employer. No additional discretionary profit sharing contributions were authorized. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate at 2.5% of eligible compensation. Upon enrollment in the Plan, a participant may direct employee contributions in any of various investment funds. Participants may change their investment options at any time. Participants direct the investments of their contributions into various investment options offered by the Plan. The annual contributions are subject IRC limitations.

Participant Accounts: Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's contribution, (b) Plan earnings (losses), and charged an allocation of administrative expenses paid by the Plan. Allocations are based on participant earnings or account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Note 1 - Description of Plan (continued):

Vesting: Participant's are always 100% vested in their contributions to the Plan plus actual earnings on the participant's contribution. Vesting in the Company's matching and discretionary contribution to the Plan plus actual earnings on the Company's matching and discretionary contribution is based on years of service of the participant. A participant is 100% vested after two years of credited service.

Participant Notes Receivable: Participants may borrow from their fund accounts an amount equal to the lesser of 50% of your vested account balance or $50,000. Loan terms range from one to five years, unless for purchase of participant's primary residence. The notes are secured by the balance in the participant's account and bear a reasonable rate of interest. Loans may be made for reason of hardship or financial necessity. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: On termination of service due to death, retirement, disability or other reasons the participant will receive the value of the vested interest in a lump sum distribution if vested amount is $5,000 or less within 60 days of the latest of these events to occur. If your vested account is more than $5,000, you may choose from the forms of benefit. The participant is allowed to withdraw employee account balances prior to termination of their employment under certain conditions specified in the Plan.

Forfeited Accounts: Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the plan. At December 31, 2016 and 2015, forfeited nonvested accounts totaled $397 and $0, respectively. These accounts will be used to reduce the Employer's required matching contribution and administrative expenses for the following Plan year. Administrative expenses were reduced at December 31, 2016 and 2015 by $3,365 and $4,618, respectively from forfeited nonvested accounts.

Note 2 - Summary of Significant Accounting Policies:

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - Summary of Significant Accounting Policies (continued):

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Participant note receivable is valued at cost that approximates fair value. No allowance for credit losses has been recorded at December 31, 2016. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year. Dividends are recorded on the ex-dividend date.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance. Related fees are charged directly to the borrowing participant’s account and are included in administrative expenses when incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015, respectively. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expense that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expense. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Note 2 - Summary of Significant Accounting Policies (continued):

Recent Accounting Pronouncements:

In May 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investment in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. With respect to the Plan, the guidance is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. Management elected to early adopt the provisions of this standard during the year-ended December 31, 2016. The adoption of this standard had no effect on the Plan's net assets available for benefits or changes therein.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part I, Plan Investment Disclosures, (Part IID Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. The disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. With respect to the Plan, the ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II during the year ended December 31, 2016. The adoption of these standards had no effect on the Plan's net assets available for benefits or changes therein.

Note 3 - Information Prepared and Certified by Trustee:

The following is a summary of investment information regarding the Plan as of December 31, 2016 and 2015, and for the years then ended, included in the Plan's financial statement that was prepared by or derived from information prepared by Principal Financial Group, Inc. (Principal), the trustee of the plan, and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Investments, at fair value:	2016	2015
Mutual Funds	$3,528,964	$4,048,842
Separate Pool Accounts	6,313,608	5,845,865
Common Collective Trust Accounts	1,641,672	434,023
Participants loan	58,247	36,873
Contributions received	1,116,104	1,324,439

During 2016 and 2015, the Plans investments (including gains and losses on investments bought and sold, as well as held during the year) in mutual funds, pooled separate accounts and collectible investment trusts increased (decreased) in value by $585,005 and $(392,227), respectively.

Note 4 – Fair Value Measurements:

Financial Accounting Standards Board (FASB) Accounting Standards codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy under FASB ASC 820 are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Note 4 – Fair Value Measurements (continued):

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Mutual Funds: Valued at daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV). The mutual funds held by the plan are deemed actively traded. This is considered a Level 1 valuation.

Pooled Separate Accounts (PSA): Invest in domestic stocks. The majority of the underlying securities have observable level 1 quoted pricing inputs. Most of the security prices were obtained from a pricing service. While the underlying assets values are quoted prices, the net asset value (NAV) of PSA is not publicly quoted. Accounting Standards Codification ("ASC") 820 allows NAV per share to serve as a practical expedient to estimate the fair value of a PSA as long as certain requirements are met. It's the trustee assessment that all the PSA meet the requirements for the NAV practical expedient. The PSA have a fair value of $6,313,608 and $5,845,865 at December 31, 2016 and 2015, respectively. There is no unfunded commitments and the redemption frequency is daily.

Collective Investment Trust (CIT): For the CIT the net asset value ("NAV") is based on the contract value. Investments held by a CIT are required to be reported at fair value; however, contract value is the relevant measurement characteristic for that portion of the net assets of a CIT attributable to fully benefit-responsive investment contracts. This is because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. The fair value of conventional contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end. Individual assets of the synthetic investment contract are generally valued at representative quoted market prices. Short-term securities, if any, are stated at amortized cost, which approximates market value. Debt securities are valued on the basis of valuations furnished by a pricing service approved by the Trustee, which determines valuations using methodology generally recognized by institutional traders. The trustee assessment is that the CIT meets the requirements for the NAV practical expedient.

Note 4 – Fair Value Measurements (continued)

The following tables set forth, by level the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value at December 31, 2016		
	Level 1	Level 2	Total
Mutual Funds:			
International Equity	$ 1,305,063	$ -	$ 1,305,063

Small/Mid U S Equity	643,495	-	643,495
Fixed income funds	397,602	-	397,602
Other funds	320,824	-	320,824
Total assets in the fair value hierarchy	$ 3,528,964	-	$ 3,528,964
Investments measured at NAV as practical expedient			7,955,280
Investments at fair value			$11,484,244

	Assets at Fair Value at December 31, 2015		
	Level 1	Level 2	Total
Mutual Funds:			
International Equity	$ 1,206,390	$ -	$ 1,206,390
Large U S Equity	718,635	-	718,635
Small/Mid U S Equity	582,039	-	582,039
Fixed income funds	1,263,946	-	1,263,946
Other funds	277,832	-	277,832
Total assets in the fair value hierarchy	$ 4,048,842	-	$ 4,048,842
Investments measured at NAV as practical expedient			6,279,888
Investments at fair value			$10,328,730

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. The board of trustees determines the Plan's valuation policies. Although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 5 - Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6 - Tax Status:

The Internal Revenue Service has determined and informed the Company by a letter dated April 14, 1997, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the plan is qualified, and the related trust is exempt.

Accounting principles generally accepted in the United States of America require plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The administrator believes it is no longer subject to tax examinations for years prior to December 31, 2012.

Note 7 – Excess Contributions Refundable:

At December 31, 2016 and 2015, net assets available for plan benefits included $0 and $0, respectively for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service. There were no required excess contribution refunds distributed on or about March 13, 2017 or March 13, 2016.

Note 8 – Related-Party and Party in Interest Transactions:

Certain plan investments are shares of mutual funds managed by Principal. Principal is the trustee as defined by the plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the plan for administrative fees amounted to $44,739 and $6,600 for the years ended December 31, 2016 and 2015, respectively. Fees paid for investment advisory services amounted to $0 and $20,986 for the years ended December 31, 2016 and 2015, respectively. Fees paid by the plan to the trustee for certain investment management fees were deducted from the net assets values of the investments held by the plan. All of these party-in-interest transactions are exempt from prohibited transaction rules of ERISA.

Note 9 – Risks and Uncertainties:

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 10 – Subsequent Events:

The plan has evaluated subsequent events through October 12, 2017, the date the financial statements were available to be issued.

Note 11 - Delinquent Employee Deferral Transmittals:

Participant contributions were withheld from the participant's pay, but were erroneously not remitted to the plan's trust within the time frame required by the Department of Labor under plan asset rules of $102 and $30 for 2016 and 2015, respectively The plan administrator determined the affected participants and deposited into the plan the participants contribution and the employer match totaling $153 and $45 for 2016 and 2015, respectively. The corrections were made to make the affected participants whole. The Company has filed Internal Revenue Service form 5330 as required.
