NOTE 1: DESCRIPTION OF PLAN

The following description of Handel Architects LLP 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of Handel Architects LLP (the "Company") who are age 21 or older, and have achieved one month of employment, as defined. The Plan is subject to the provisions of the Employment Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled accounts comprising of mutual funds and a guaranteed investment contract as investment options to participants. The Company contributes twenty-five percent of the first six percent of base compensation that a participant contributes to the Plan. Additional profit sharing amounts may be contributed at the option of the Company's management and are invested as directed by the Company. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of: (a) the Company's contribution, and (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in their portion of the Company's contribution is based on years of continuous service, which are counted as follows:

Years of Service	Vested Interest
2	20%
3	40%
4	60%
5	80%
6	100%

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The notes are secured by the balance in the participant's account, and bear interest at 5.25% per annum, which are commensurate with local prevailing rates as determined quarterly by the plan administrator. Repayments are generally due in installments over periods ranging from one to five years, unless the note is used for the purchase of a primary residence, in which case the repayment period may be greater. Principal and interest are paid ratably through monthly payroll deductions. A note that is considered in default is reported as a deemed distribution, which may be a taxable event for the participant.

NOTE 1: DESCRIPTION OF PLAN (continued)

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a period of time. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2016 and 2015, the balance of non-vested amounts forfeited by participants totaled $1 and $9,655, respectively. Forfeited account balances are included in cash on the statement of net assets available for benefits. Forfeitures may be used to pay administrative expenses of the Plan or reduce future employer contributions. For the year ended December 31, 2016, forfeitures used to pay administrative expenses and reduce employer contributions totaled $9,148 and $4,757, respectively. For the year ended December 31, 2015, forfeitures were not used.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Recently Enacted Accounting Standards

Effective for plan year ended December 31, 2016, the Plan adopted the guidance issued by the Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2015-12 Plan Accounting: Defined Contribution Pension Plans (Topic 962) and 2015-07 Disclosure for Investments in Certain Entities That Calculate NAV.

The amendment 2015-12 removes the requirement to disclose individual investments that represent 5% or more of net assets available for benefits, and removes the requirement to disclose the net appreciation or depreciation for investments by general type. The net appreciation (depreciation) is presented in the aggregate. In addition, the amendment now requires that all investments should be disaggregated based only on general type, eliminating the need to further disaggregate the investments in accordance with Fair Value Measurements (Topic 820).

Under the amendment 2015-07, investments in entities for which fair value is calculated using the net asset value (“NAV”) are no longer required to categorize within the fair value hierarchy those investments that use NAV as a practical expedient, although there must be a reconciliation of the fair value hierarchy to amounts presented in the statement of net assets available for benefits. Disclosure of investment strategy is no longer required for funds that file a U.S. Department of Labor 5500.

FASB issued these ASU’s to simplify the investment disclosure requirements for employee benefit plans, in addition to making them more effective. The Plan has reflected the effects of these amendments as of December 31, 2016 and 2015 and for the year ended December 31, 2016.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2: SUMMARY OF ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The plan sponsor determines the valuation policies utilizing information provided by investment advisors, custodians and insurance companies. See Note 4 for discussion of fair value measurements.

The investment contract offered as an option to participants, which is not fully benefit responsive, is required to be reported at fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses, and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments, and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced, and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and excluded from these financial statements. Some expenses of maintaining the Plan are paid directly by the Plan from the cash account, and are included in administrative expenses. The cash account is generally funded by participant account forfeitures. In addition, fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment-related expenses are included in investment income.

Subsequent Events

The Plan has evaluated subsequent events through October 16, 2017, the date the financial statements were available to be issued.

NOTE 3: INVESTMENT - INFORMATION PREPARED AND CERTIFIED AS COMPLETE AND ACCURATE BY THE CUSTODIAN

As of December 31, 2016, the Plan's investments (including gains and losses on investments bought and sold, as well as held, during the year) appreciated in value by $781,801 as follows:

NOTE 3: INVESTMENT - INFORMATION PREPARED AND CERTIFIED AS COMPLETE AND ACCURATE BY THE CUSTODIAN (continued)

As of December 31, 2016 and 2015, the investments at fair value consist respectively of pooled separate accounts totaling $10,004,873 and $8,688,823, a money market fund totaling $837,254 and $790,533, and insurance contracts of $10,313 and $7,051. The investments have been certified by John Hancock Life Insurance Company of New York, the custodian of the Plan.

The custodian has also certified notes receivable from participants in the amount of $166,148 and $213,506 as of December 31, 2016 and 2015, respectively. Interest income on notes receivable from participants for the year ended December 31, 2016 totaled $9,973.

NOTE 4: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the assets or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled Separate Accounts:

Pooled separate accounts are valued at the net asset value of shares held at year end as determined by the issuer of the fund.

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Money Market Mutual Funds:

Money market mutual funds are valued at the daily closing price as reported by the fund. Money market mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The money market mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contract:

The guaranteed investment contract is valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer (see note 5). Since the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the plan sponsor evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date), while others are substantiated utilizing available market data (for example, swap curve rate).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Assets at Fair Value as of December 31, 2016

	Level 1	Level 2	Level 3	Total
Money market fund	$ 837,254	$ -	$ -	$ 837,254

NOTE 4: FAIR VALUE MEASUREMENTS (continued)

Level 3 - Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2016:

Guaranteed Investment Contract:	
Balance, beginning of year	$ 7,051
Realized gain	50
Unrealized gain relating to instruments held at reporting date	(29)
Purchases	3,241
Balance, end of year	$ 10,313

Gains and losses (realized and unrealized) from the guaranteed investment contract are included in the statement of changes in net assets available for benefits, as the contract is recorded at fair value for financial statement purposes.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

We evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2016, there were no significant transfers in or out of levels 1, 2 or 3.

Fair Value of Investments in Entities that Use Net Asset Value

The following table summarizes investments for which fair value is measured using the net asset value per share as a practical expedient for the year ended December 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

		As of December 31, 2016			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	*	$ 10,004,873	-	Daily	None

		As of December 31, 2015			
		Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	*	$ 8,688,823	-	Daily	None

* The objectives of various pooled separate accounts are as follows:

(1) Lifestyle fund - The strategy of the funds is to provide a balance between a high level of current income and growth of capital.

(2) Aggressive growth fund - The strategy of the funds is to provide long-term growth of capital.

(3) Growth fund - The strategy of the funds is to provide long-term capital appreciation.

(4) Growth & income fund - The strategy of the funds is to provide long-term growth of capital and while providing current income.

(5) Income fund - The strategy of the funds is to realize a high and stable rate of current income, consistent with a long-term preservation of capital and prudent investment management.

(6) Money Market - The strategy of the funds is to provide liquidity and meet short-term cash needs.

NOTE 5: GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a nonbenefit responsive investment contract with John Hancock Life Insurance Company of New York, which maintains the contributions in general accounts corresponding to investment date. Upon a benefit event such as termination, death, disability or retirement, the contract promises to pay contract value. Contract value represents participant contributions made under the contract and earnings, but reduced for withdrawals and administrative expenses. The fair value of the investment contract as of December 31, 2016 and 2015 was $10,313 and $7,051, respectively, which approximates the contract value (See Note 4). The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE 6: RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The plan investments are units of pooled separate accounts and a guaranteed investment contract managed by John Hancock. John Hancock is the custodian as defined by the Plan, and therefore, transactions with these investments qualify as party-in-interest transactions. Fees incurred by the Plan for management services are included in investment income, as they are paid through revenue sharing, rather than as a direct payment.

The Plan made direct payments to a third-party administrator in the amount of $9,653 during the year ended December 31, 2016 for recordkeeping services. John Hancock charged a total of $1,717 to certain participants for transaction and loan fees.

NOTE 7: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time, and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE 8: TAX STATUS

The Internal Revenue Service has determined and informed the company by a letter dated July 19, 2002, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the Plan administrator and tax counsel believe that the Plan is designed and operated in compliance with the applicable requirements of the IRC, thereby confirming that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 9: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities, which are generally exposed to risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10: RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2016, to Form 5500:

Benefits paid to participants per the financial statements	$	278,863
Add: Deemed distribution of loans		10,342
