EFPR Group, LLP
401(k) Profit Sharing Plan
Notes to Financial Statements
December 31, 2016

1. Description of the Plan

The EFPR Group, LLP 401(k) Profit Sharing Plan (the Plan), formerly The EFP Rotenberg, LLP 401(k) Profit Sharing Plan, is the 401(k) Plan for the EFPR Group, LLP; EFPR Group CPA's, PLLC; EF&P Group LLC dba StoneBridge Business Partners; Rotenberg Healthcare Consulting LLC; EFPR Solutions, LLC; EFP Rotenberg, LLP; TEM Group CPA's PLLC; Ignition Consulting LLC; Capital Performance Analyst LLC; and Toski & Co., CPA's P.C. (collectively, the Company). The following description of the Plan provides only general information. The Plan Document together with the Standardized Adoption Agreement should be consulted for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan with a profit-sharing feature. The Plan covers all employees of the Company who have one year of service (12 months containing 1,000 hours of service) and are age twenty-one or older. There is no service requirement relating to the 401(k) feature and employees automatically enter the Plan with 3% 401(k) contributions on the first day of the payroll period on or after their date of hire unless they opt out. Effective January 1, 2016, the Plan was amended to increase the auto-enrollment of employee deferrals to 5% of compensation and automatically increase 1% per year up to a maximum elective deferral of 100% of compensation. The entry date for purposes of the Profit Sharing feature is the first day of each calendar quarter that falls on or after the day on which an employee meets the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year participants may contribute up to 100% of taxable wages not to exceed the maximum allowed by law. Participants are permitted to make contributions as "Roth" contributions. Participants may also contribute distributions from other qualified plans ("rollovers"). The Plan constitutes a Safe Harbor Plan, which requires a Safe Harbor Non-elective Company contribution of 3% of eligible compensation. The Company may also make discretionary profit sharing contributions to the account of each participant in an amount determined by management, provided the participant is an active participant on the last day of the Plan year and has completed 1,000 or more hours of service during that Plan year. Although the Plan does not currently allow employer matching contributions, certain assets are matching funds. All of the Plan assets are participant directed.

During 2016, the Plan Sponsor failed to remit various participant elective deferral contributions and loan repayments to the Plan in a timely manner. The amount of these delinquent contributions and loan repayments totaled $135,591. The Plan Sponsor will reimburse the Plan's participants for the lost earnings, totaling approximately $135, resulting from these untimely remitted deferrals and loan repayments attributed to the 2016 Plan year. The lost earnings are calculated by the Plan's record keeper. The Plan Sponsor will correct this failure under the IRS Employee Plans Compliance Resolution System (EPCRS) Self-Correction Program (SCP).

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's Safe Harbor and discretionary contributions and Plan earnings, and is charged with the participant's withdrawals or distributions and an allocation of administrative expenses. The benefit to which a participant is entitled is the participant's vested account balance.

1. Description of the Plan (continued)

Vesting

Participants are immediately vested in their own contributions plus earnings thereon. Under the Safe Harbor Plan provisions, participants are 100% vested in amounts attributed as Safe Harbor employer contributions. Participants must have completed a year of service to receive the Safe Harbor contribution. Regarding employer profit sharing contributions and earnings thereon, employees become 100% vested after six years of service at the rate of 20% per year starting with the second year of service.

Participants' Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Loans require repayment within 5 years unless the loan is for the purchase of a primary residence, which allows for a longer repayment term. The loans are secured by the balance in the participant's account and bear interest equal to the prevailing interest rates. Principal and interest must be paid ratably through payroll deductions or otherwise in at least equal quarterly installments.

Payment of Benefits

Upon separation from service including death, disability or normal retirement, a participant or beneficiary generally may elect to rollover benefits into an individual retirement account or another qualified plan or receive a lump sum payment in an amount equal to the value of the participant's vested interest in his or her account as dictated by provisions of the Plan. Upon death, disability or attainment of prescribed retirement requirements, a participant becomes 100% vested in his or her account in full.

Forfeited Accounts

Forfeited balances of terminated participants' non-vested accounts are used for payment of administrative expenses and to reduce future Company Safe Harbor contributions. There were no forfeitures used to reduce Plan administrative expenses during the years ended December 31, 2016 and 2015. As of December 31, 2016 and 2015, respectively, there were $1,023 and $2,270 of forfeitures available to reduce future employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accounting records and financial statements of the Plan are maintained on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value. The Plan's investments are held in a trust fund administered by Reliance Trust Company, the trustee of the Plan. National Financial Services Corp. (subsidiary of Fidelity Investments) and UBS Financial Services Inc. are the custodians for the Plan's assets. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Administrative Expenses

Professional fees and other administrative expenses are paid by the Plan, unless paid by the Plan Sponsor.

Payments of Benefits

Benefits are recorded when paid.

Accounting for Uncertainty in Income Taxes

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 740, Subtopic 10 prescribes a comprehensive model for how a plan should measure, recognize, present, and disclose in its financial statements uncertain tax positions that the plan has taken or expects to take on a tax return. The Plan recognizes tax benefits from uncertain tax positions only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. The tax benefits recognized in the financial statements from such positions are measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. There was no impact to the Plan's financial statements as a result of FASB ASC Topic 740, Subtopic 10.

Subsequent Events

The Plan has evaluated subsequent events through October 13, 2017, the date the financial statements were available to be issued.

3. Fair Value Measurements

FASB ASC Topic 820, *Fair Value Measurements and Disclosures* (FASB ASC 820), provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

3. Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Market data or assumptions about risk and the risks inherent in the inputs are used in the valuation technique. These inputs can be readily observable, market corroborated or generally observable. Primarily the market approach for recurring fair value measurements is applied and also endeavored to utilize the best available information. Accordingly, the use of valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs are utilized. Fair value balances have been classified based on the observance of those inputs into the fair value hierarchy levels as set forth in the fair value accounting guidance.

All transfers between fair value hierarchy levels are recognized by the Plan at the end of each reporting period. There were no significant transfers between Levels 1, 2, and 3 during the year.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such instruction pursuant to the valuation hierarchy. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Cash and cash equivalents: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common/collective trust: At December 31, 2016, the fair value of participation units held in the Reliance Trust Stable Value Fund (MetLife Series 25157), a common/collective trust (CCT) is based on net asset value, as reported by the manager of the collective trust fund, Reliance Trust Company, and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. The CCT invests entirely in the MetLife Group Annuity Contract 25157, which consists of separately managed investment portfolios in fixed income securities, and also enters into wrapper contracts, which are issued by third-parties and are designed to allow the Fund to maintain a constant net asset value. The CCT provides for daily redemptions by the Plan at reported net asset value, with no advance notice requirements.

At December 31, 2015, the fund holds guaranteed investment contracts (traditional GICs), separate account guaranteed investment contracts (separate account GICs) and synthetic guaranteed investment contracts (synthetic GICs). Traditional GICs represent deposits which guarantee a stated interest rate for the term of the contracts. The fair value of traditional GICs is determined based on the present value of the contract's expected cash flows, discounted by current market interest rates for like-duration and like-quality investments.

3. Fair Value Measurements (continued)

Separate account GICs are portfolios of securities (fixed-income securities or shares of open-end mutual funds) held in a separate account owned and managed by or on behalf of the insurance company issuing the GIC for the exclusive benefit of investors in the separate account. Synthetic GICs are portfolios of securities owned by the fund. Each of the separate account GICs and synthetic GICs has a wrap contract that provides a minimum guaranteed rate of return for the term of the contracts.

The fair value of a separate account GIC and a synthetic GIC is determined based on the fair value of the securities underlying each GIC. The underlying securities can be comprised of, primarily, over-the-counter market securities and open-end mutual funds. Over-the-counter securities, such as fixed-income instruments, with remaining maturities greater than 90 days are fair valued using price evaluations provided by a pricing service. In addition, the fair value of the wrap contract is calculated using the contract value of the GIC as of the balance sheet date, giving consideration to any contractually agreed upon replacement fees charged by the wrap contract provider.

Mutual funds: Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities. Level 1 assets primarily include exchange-traded equity securities, mutual funds and U.S. Treasury Bonds. Prices are obtained from readily available sources for market transactions involving identical assets or liabilities and these are classified as Level 1 investments.

Self-directed brokerage accounts: Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

***** In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Plan Termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right, under the Plan Document, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

5. Tax Status

The trust established under the Plan to hold the Plan's assets is qualified under the applicable section of the Internal Revenue Code, and, accordingly, the trust's net investment income is exempt from income taxes. The Plan was established as a prototype plan which has attained a favorable determination letter from the Internal Revenue Service (IRS). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan as currently designed is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Sponsor believes it is no longer subject to income tax examinations for years prior to 2013.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Information Prepared and Certified by Trustee

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, included throughout the Plan's financial statements and supplemental schedules, that was provided by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations of Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets at December 31:

	2016	2015
Cash and cash equivalents	**$ 46,718**	$ 378,883

Reliance Trust Company also certified the completeness and accuracy of the net realized and unrealized appreciation (depreciation) in fair value of investments, interest and dividend income, and administrative expenses for the years ended December 31, 2016 and 2015.

8. Change in Method of Accounting

The Plan has elected to change its method of accounting from the cash basis to the accrual basis of accounting in 2016. Amounts in 2015 have been presented to reflect the accrual basis adjustments.
