REPORT OF INDEPENDENT AUDITORS

Board of Directors
of the ACT Fulfillment, Inc. Employee Stock Ownership Plan

We have audited the accompanying financial statements of ACT Fulfillment, Inc. Employee Stock Ownership Plan, which comprise the statements of net assets available for plan benefits as of December 31, 2016 and 2015, the related statements of changes in net assets available for plan benefits for the years ended December 31, 2016 and 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of ACT Fulfillment, Inc. Employee Stock Ownership Plan as of December 31, 2016 and 2015, and the changes in net assets available for plan benefits for the years ended December 31, 2016 and 2015 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

1. Description of plan

The following brief description of the ACT Fulfillment, Inc. Employee Stock Ownership Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

ACT Fulfillment, Inc. (the "Company", "Plan Sponsor", or "Plan Administrator") established the ACT Fulfillment, Inc. Employee Stock Ownership Plan (the "Plan" or "ESOP") as of January 1, 2012. The Plan is a leveraged Employee Stock Ownership Plan ("ESOP") and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended ("IRC") and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Plan is administered under a contract between the Company and Blue Ridge ESOP Associates, the Custodian of the Plan. The allocation date occurs December 31st of each year.

The Plan purchased Company common stock using the proceeds of a bank borrowing (see Note 6) and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under IRC.

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares of common stock once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2016 and 2015, and for the years ended December 31, 2016 and 2015, present separately the assets and liabilities and changes therein pertaining to the following:

a. The accounts of the employees with vested rights in allocated common stock (allocated).
b. Common stock not yet allocated to employees (unallocated).

Eligibility

The Plan covers all employees of the Company. All employees that were employed on the effective date of the Plan became participants in the Plan automatically. After that, any employee who has attained an age of 18 and completed one year of service (1,000 service hours) is eligible to participant in the Plan on the next entry date. Employees enter the Plan on the January 1st or July 1st following the date they fulfill the eligibility requirements.

(Continued)

Swenson

1. **Description of plan (continued)**

Contributions

Employee contributions are not permitted. In addition, rollovers from other eligible retirement plans are not permitted.

The Company is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its note payable. The allocation date occurs December 31st of each year.

Benefit payments

Distributions on account of death, disability, or retirement are made in a lump sum in the Plan year following the event. Distributions for separation of service commence in the sixth Plan year following the separation from service and are made in five annual installments.

Distribution of the portion of the ESOP account that includes financed shares acquired by the trust with the proceeds of an acquisition loan from the Company may be deferred until the Plan year following the Plan year in which the trust is fully repaid the acquisition loan.

Distributions may take form in the following methods:

a. Distribution in a lump sum; or
b. Distribution of a participant's ESOP stock account and ESOP cash account in substantially equal annual installments over a period not to exceed five years provided that the period over which installments may be distributed may be extended up to an additional five years for each $195,000 or fraction therefore by which the ESOP stock account exceeds $985,000.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year, with an allocation of shares of the Company's common stock released by the Custodian from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of the participant's account balance.

(Continued)

Swenson

1. **Description of plan (continued)**

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in his or her account based on total years of service with the Company. The ESOP vesting schedule is as follows:

Vesting Years of Service	Nonforfeitable Percentage
Less than 2 years	None
2 years but less than 3	20%
3 years but less than 4	40%
4 years but less than 5	60%
5 years but less than 6	80%
6 years or more	100%

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is the right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution. In addition, the Plan Sponsor may elect to offer special diversifications to all participants at their discretion.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. There were no forfeitures of terminated nonvested account balances allocated to remaining participants for the year ended December 31, 2016 and 2015, respectively.

1. **Description of plan (continued)**

Administrative expenses

As provided in the Plan agreement, administrative expenses may be paid either by the Plan or by the Company, as determined by the Company. For the years ended December 31, 2016 and 2015, the Company paid $66,043 and $70,188, respectively, relating to Plan expenses.

2. **Summary of significant accounting policies**

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Cash and cash equivalents

Cash and cash equivalents include highly liquid instruments with an original maturity of three months or less. The Plan had cash equivalents of $573 and $563 at December 31, 2016 and 2015, respectively.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that management make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated stock ("allocated") and (b) stock not yet allocated to employees ("unallocated"), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment valuation and income recognition

The common shares of the Company are reported at fair value on December 31, 2016 and 2015. Fair value is determined by annual independent appraisals.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported using the actual cost method. Interest income is recorded on the accrual basis. Dividend income is accrued on the ex-dividend date.

Swenson

3. Tax status

The Plan is not required to and has not obtained a determination letter from the Internal Revenue Service ("IRS") which would state the Plan, as designed, is in compliance with the applicable requirements of the IRC. The Plan Administrator believes that the Plan is in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

4. Investments

The Plan's investments in Company common shares at December 31 is as follows:

	2016	
	Allocated	**Unallocated**
Number of shares	**67,200.00**	**268,800.00**
Cost	**$ 1,338,763**	**$ 5,355,052**
Fair value (Level 3)	**$ 738,528**	**$ 2,954,112**

	2015	
	Allocated	Unallocated
Number of shares	53,760.00	282,240.00
Cost	$ 1,071,010	$ 5,622,805
Fair value (Level 3)	$ 719,309	$ 3,776,371

5. Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

Swenson

5. Fair value measurements (continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Total**

5. Fair value measurements (continued)

Changes in Fair Value of Level 3 Assets and Related Gains and Losses

The following table sets forth a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2016:

	Investment in ACT Fulfillment, Inc. Common Stock
Balance, beginning of year	$ 4,495,680
Unrealized losses relating to instruments still held at the reporting date	(803,040)
Balance, end of year	$ 3,692,640
The amount of total gains or losses for the period attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	$ (803,040)

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Plan Benefits.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

The ACT Fulfillment, Inc. common stock held by the Plan is reported at fair value based upon an appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables, and fair value of Company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

The valuation process involves the selection of an appraiser under contract for a term of three years with the right to cancel such contract at any time. Plan management accumulates the data for the appraiser from historical and projected financial information for the Company. The appraiser prepares a preliminary report that Plan management, along with the Plan Custodian, reviews in detail, discusses, and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Swenson

6. Note payable

In 2012, the Plan entered into a $6,693,815 term loan agreement with the Plan Sponsor. The proceeds of the loan were used to purchase Company common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 13,440 shares being released and allocated for each of the Plan years ended December 31, 2016 and 2015.

The agreement provides for the loan to be repaid over twenty-five years. The fair value of the note payable as of December 31, 2016 and 2015, was $5,829,256 and $6,016,199, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The loan bears an annual interest rate of 4%.

The scheduled payments for the next five years and thereafter are as follows:

Year	Principal
2017	$ 194,533
2018	202,432
2019	210,651
2020	219,205
2021	228,105
Thereafter	4,774,330
	$ 5,829,256

7. Risks and uncertainties

The Plan invests in ACT Fulfillment, Inc. common stock. These investments are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Related party and party in interest transactions

The Plan invests in Company common stock and has indebtedness guaranteed by the Company. These are related party and party-in-interest transactions. As described in Note 1, the Company paid all Plan expenses. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

Swenson

9. Plan termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan terms and the IRC. Upon termination of the Plan, the Company should direct the Custodian to pay all liabilities and expenses of the trust fund and to sell shares of financed common stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan.

10. Subsequent events

Management has evaluated subsequent events through October 12, 2017, the date on which the financial statements were available to be issued.
