Patterson Medical 401(k) Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Plan Description

The Patterson Medical 401(k) Plan (the "Plan"), a defined contribution plan, was established on December 15, 2015. The Plan's participants include employees of Patterson Medical Holdings, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all common law employees of the Company, as defined by the Plan document, commencing on the date of employment.

There are no eligibility service requirements in the Plan for eligible employees. Eligible employees are defined as all employees other than temporary or leased employees.

The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Investments

All investments under the Plan are participant directed. Upon enrollment in the Plan, a participant may direct both employee and employer contributions in 1% increments in any of the 30 investment options. Participants may change their investment allocations at any time.

Contributions

Full time employees are automatically enrolled in the Plan upon hire, at 3% of their compensation, but are provided the option to opt out of participating in the Plan. A participant may also elect to contribute up to 100% of their annual compensation, within certain limitations, to the Plan on a pre-tax or post tax basis.

For the year ended December 31, 2016, the Company made a discretionary Regular Matching Contribution at 3% which totaled \$1,113,631. For the short period December 15, 2015 to December 31, 2015, the Company made a discretionary Regular Matching Contribution at 6% which totaled \$629,332.

Participants can also make contributions to the Plan in the form of a rollover of funds from another qualified plan. During the year ended December 31, 2016, participants made rollover contributions of \$7,956,318. No rollover contributions were received during the short period December 15, 2015 to December 31, 2015.

Participant Accounts

Each participant's account is credited with the participant's contributions, employer contributions and an allocation of Plan earnings, losses and expenses. Allocations are based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Each participant is fully vested in his or her elective employee contributions and Regular Matching Contributions immediately.

Benefits

On termination of service due to death, disability, retirement or otherwise leaving employment, the participant or beneficiary may elect to receive a lump sum amount equal to the value of the vested balance allocated to his account. If a participant's vested interest in his or her account does not exceed \$5,000, an automatic distribution of such interest shall be made in a lump sum payment or through direct rollover. Participants may withdraw all or a portion of the balance of their accounts without penalty upon attainment of age 59-1/2.

Patterson Medical 401(k) Plan

Notes to Financial Statements

December 31, 2016 and 2015

Notes Receivable from Participants

Notes receivable from participants are not permitted in the Plan.

Forfeitures

The Plan had no forfeitures for December 31, 2016 and 2015.

Administrative Expenses

Administrative expenses, such as legal, accounting, recordkeeping and trustee fees, are paid entirely by the Company.

Plan Termination

While the Company has not expressed any intent to terminate the Plan, it reserves the right to do so at any time. In the event the Plan is terminated, the assets would be distributed to participants in accordance with the terms set forth in the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting and Use of Estimates

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

The preparation of financial statements in conformity with GAAP in the United States of America requires management to make estimates that affect the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are recorded at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, custodians and insurance company. See Note 4 for discussion of fair value measurements.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation in the fair value of its investments which consists of the net realized gains and the net unrealized appreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Income from investments is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Capital gain distributions are included in dividend income.

Risks and Uncertainties

The Plan provides for various investments in any combination of collective trusts, pooled separate accounts and mutual funds. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent), which amends Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures. This ASU removes the requirement to categorize within the fair value hierarchy investments without readily determinable fair values in entities that elect to measure fair value using net asset value per share or its equivalent. The ASU requires that these investments continue to be shown in the fair value leveling disclosure to allow the disclosure to reconcile to the investment amounts presented in the statements of net assets available for benefits. The retrospective application of this guidance is effective for annual reporting periods beginning in 2017. The Plan adopted the standard as of the year ended December 31, 2016. The adoption of the standard did not have a material effect on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12 ("ASU 2015-12"), Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965). ASU 2015-12 seeks to reduce complexity in employee benefit plan accounting. Part I (Fully Benefit-Responsive Investment Contracts) and Part II (Plan Investment Disclosures) are applicable to the Plan. The amendments in Part I of ASU 2015-12 designate contract value as the only required measure for fully benefit-responsive investment contracts, which maintains the relevant information while reducing the cost and complexity of reporting for fully benefit-responsive investment contracts. The objective of Part II of ASU 2015-12 is to simplify and make more effective the investment disclosure requirements under ASC 820 and under ASC 960, 962, and 965 for employee benefit plans. The application of this guidance was effective for annual periods after December 15, 2015. Application of these amendments requires retrospective application for all periods presented. The Plan adopted the standard as of the year ended December 31, 2016. The adoption of the standard did not have a material effect on the Plan's financial statements.

3. Plan Trustee Certification

As of December 31, 2016 and 2015 and for the year ended December 31, 2016 and short period December 15, 2015 to December 31, 2015, the Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements, notes to the financial statements and supplemental schedules is complete and accurate:

- Investments, at fair value, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- Investments, at contract value, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015.
- Interest and dividend income, as shown in the Statements of Changes in Net Assets Available for Benefits.
- Net appreciation in fair value of the investments, as shown in the Statements of Changes in Net Assets Available for Benefits.

Patterson Medical 401(k) Plan

Notes to Financial Statements

December 31, 2016 and 2015

- Investments detailed on Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

FASB ASC 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measures level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at quoted market prices that represent the net asset value ("NAV") of the shares held by the plan at year end. The fair value of the mutual funds is classified as level 1.

Pooled Separate Accounts: Principal's pooled separate accounts are invested in investments such as stocks, mutual funds, short-term investments, bonds, etc. Principal owns the underlying investments in the separate accounts. The underlying measurements for the separate accounts have observable (Level 1 and 2) inputs, including quoted prices for similar assets in active and non-active markets. While the underlying asset values are quoted prices, the NAV of a separate account is not publicly quoted; accordingly, the fair value of the referenced accounts is classified as

Patterson Medical 401(k) Plan

Notes to Financial Statements

Level 2 of the fair value hierarchy. The separate accounts are valued using NAV as a practical expedient.

Target date collective trusts: Target date trust investments included in the common/collective trusts are primarily comprised of investments in Principal mutual funds using an asset allocation strategy for investors planning to retire and leave the workforce in or within a few years of the target year. The trust fund's asset allocation will become more conservative over time. The underlying funds are: Principal Trust Target Funds. The trust fund's indirect stock and bond holdings are a diversified mix of domestic and foreign capitalization stocks and fixed income securities. The trust fund is valued using the NAV as a practical expedient. NAV is provided by the trustee of the trust fund based on the value of the underlying assets divided by the number of units outstanding.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investment holdings at fair value were comprised of the following at December 31, 2016:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 618,852	\$ -	\$ -	\$ 618,852
Total investment assets at fair value	\$ 618,852	\$ -	\$ -	\$ 618,852
Investments measured at NAV as a practical expedient (1)				9,895,231
Total investment assets at fair value				<u>\$ 10,514,083</u>

(1) In accordance with ASU 2015-07, common collective trust and pooled separate account investments that are measured at fair value using the NAV per share as a practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented are intended to permit reconciliation of fair value hierarchy to total investment assets at fair value.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring level 3 measurements. During 2016, the Plan changed no investment options.

The following table summarizes the investments at fair value based on NAV per share as a practical expedient as of December 31, 2016:

	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled Separate Accounts	\$ 1,951,638	N/A	Daily, pending market conditions	None required
Common Collective Trusts	\$ 7,943,593	N/A	Daily	None required

5. Fully Benefit-Responsive Investment Contract

The Plan holds an investment in a guaranteed investment contract with Principal Life Insurance Company ("Principal"). This investment contract offers all participants a single-fixed rate of return and therefore meets the fully benefit-responsive investment contract criteria and is accordingly included in the accompanying financial statements of the Plan at contract value as reported to the Plan by Principal. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The fully benefit-responsive investment contracts as of December 31, 2016 and 2015 are summarized as follows:

	2016	2015
Guaranteed investment contract	\$ 618,272	\$ -

Under a guaranteed investment contract the contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the plan. The crediting interest rate was 1.75% and 1.85% at December 31, 2016 and 2015, respectively. The crediting interest rate is based on a formula agreed upon with Principal, but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

The GIC has no restrictions that affect the ability of the Plan to collect contract value. Participant level transactions are at contract value. The contract may terminate at any time, given 30 days' notice to Principal, without penalty and would be paid out at that time.

6. Tax Status

Effective February 1, 2016, the Plan adopted the Principal Volume Submitter Profit Sharing Plan with a deferral arrangement which received a favorable opinion letter from the Internal Revenue Service (IRS) dated August 8, 2014, stating that the written form of the underlying volume submitter plan document is qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. In addition, the Plan administrator and Plan tax counsel believe that the Plan is designed and is currently being operated in accordance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt as of the financial statement date.

The Company has analyzed the tax positions taken by the Plan, and concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan is no longer subject to income tax examinations for years prior to 2015.

7. Party-In-Interest Transactions

Certain investments of the Plan are shares of mutual funds, units of a collective trusts and pooled separate accounts managed by the trustee. Transactions involving these investments are considered to be party-in-interest transactions.
